

2022/12/ 卷3 六级阅读 -Section C

P4 What this means: **aging** is a **dynamic** process that could possibly be **accelerated** or **slowed**—and, in some aspects, even **reversed**. To an extent, it has surprised us and the rest of the **scientific community** that telomeres do not simply **carry out the commands** issued by your **genetic code**. Your telomeres are listening to you. The foods you eat, your response to challenges, the amount of exercise you get, and many other **factors** appear to influence your telomeres and can **prevent premature aging** at the **cellular level**. One of the **keys** to enjoying good health is simply doing your part to **foster healthy cell renewal**.
