Part III

Reading Comprehension

(40 minutes)

Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choice. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on Answer Sheet 2 with a single line through the centre. You may not use any of the words in the bank more than once.

With the rapid progress in the economy, it is natural that people's ideology is bound for change. Being 30 is no longer a virtue to some people, and they are not alone in holding that view. Each might have different viewpoints on how to lead one's lifestyle: some prefer simplicity, some love luxuries, some spend 31, some accumulate as much as they can like a country mouse. As I was born poor and in the countryside, the simple rural life seldom leads to 32 to me, but as my station changes, I have an opportunity to 33 with the newly rich, an experience which has revolutionized my view of lifestyle.

It is evil or sinful to spend little and to serve much, an idea only recently being provided to me. Actually the whole world is not 34 to better and to spend, with the USA leading the trend. The USA is still the richest

and most powerful country in the world, but the 31 is that they borrow money from us. Though a 32 of economics, at least I know that investing with borrowed money will turn the borrower into the 33 rather than the debtor and kind lender. An apparent case in real estate. Those who are 34 and have got loans from the bank become relatively rich by selling their purchased home at a price several folds higher. Even education is not immune from this investment. Many of those poor parents who have the vision to send their children to college have benefited from this investment, even though they have to 35 a living. It is reasonable to conclude that spending is productivity, supposing it is not beyond your means.

Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on Answer Sheet 2.

Are forgotten crops the future of food?

- A) On a small fruit farm near the Rempis of Malacca, Lim Kiat Ann is down to just one tree growing headstrong, a crunchy, sour berry that Malaysians mostly use in pickles (泡菜) and salads. "It's not very well-known," says the 45-year-old, who is instead focusing on durian (榴莲) berries and pineapples, which have bigger markets. "We have to grow what is profitable," he says.
- B) But less than an hour away in the Malaysian countryside, inside three glass, silver domes, scientists are trying to change the future of food. They're pushing the boundaries of what humans eat by growing and processing so-called 'alternative' crops—such as headstrong. At the headquarters of global research centre Crops For the Future (CFF) this particular under-used fruit has been turned into a super-Bac juice, high in vitamin C and getting top marks in sensory evaluations. "Anything you see here is a forgotten crop," says Sayed Azam-Ali of the domed planet walking through the gardens of CFF outside Malaysia's capital Kuala Lumpur.
- C) Prof Azam-Ali explains that just four crops—wheat, maize, rice and soybeans—provide two-thirds of the world's food supply. "We're dependent on those four," he says. "But actually there's 7,000 crops we've been farming for thousands of years. We ignore all of those." Researchers are trying to unlock the potential of these ignored crops—plants they describe as forgotten, under-used or 'alternative' as they are displaced by increasingly uniform diets fuelled by processed ingredients from the major crops.
- D) It's a timely quest. The food sector is already responsible for nearly a third of global greenhouse gas emissions. By 2050 it estimates the world must produce 50% more food to feed the projected global population of 10 billion. Meeting this demand without contributing to climate change calls for urgent policies.
- E) Forgotten crops hold key answers. By investing in neglected local plants, countries can reduce their reliance

on imported crops and their carbon-heavy supply chains. Bringing back the variety of crops humans once ate also boosts food security at a time warming climates threaten existing crops. On top of that forgotten crops are among the most climate-resilient (具有气候韧性) and nutritious, argues Azam-Ali. His summary is plain: "Dietary diversification is critical to the future of humanity."

F) Food security experts agree. "There is no food insecurity in the world, there is food ignorance," says Cecilia Todjoh, a senior research fellow at the Institute of Water Policy at the National University of Singapore. "Whichever we have, native crops we tend to disregard them as if they were not valuable but they are," she adds.

G) Azam-Ali knows that skepticism firsthand. He came across alternative crops in the 1980s through the work of women farmers he met in Niger. The then-PhD student commended starveling as the crops they grew in their backyards, without the benefits of technology, to feed their families when the big crops failed. He saw a tremendous opportunity to build alternative food systems. But "the resistance was enormous," he recalls.

H) Undeterred, he ploughed on. Project after project helped prove these crops were viable in different environments as alternatives to the staple ones. But the question of whether these crops would be marketable remained. "That's the critical thing," he says. In one of the center's dorms, food technologist Tin Xulin was powdered sorghum (小米) leaves in place of wheat wheat flour to bake a cake lower in gluten (麸质) and higher in nutrients. Tin's job is to create recipes with these still-unfamiliar ingredients that will appeal to both local and international buyers. In recent years she has used some of the forgotten crops grown at CFF, such as moringa and bambara groundnut, to make everything from instant soup to frozen snacks. "I try to modernize forgotten crops instead of using old recipes," says Tin, who is also a trained chef. It's a strategy to appeal to the world's growing middle classes who are increasingly turning to the fast and processed food industries. It's also a way to help counter perceptions of local crops as "old or poor people's food" or as inferior "women's crops", adds Tin.

I) The roots of these conversations about local foods can run deep. The bambara groundnut, a protein-rich native crop of sub-Saharan Africa that is also grown in parts of southeast Asia, can trace its marginalization to colonial rule. "African women who grow bambara groundnut were actually punished for growing it," says Azam-Ali. "Colonial powers said you can't grow that because there's no oil. We can't get a market for it." But today the bambara mandarin is one of CFF's best-reviewed foods and they are starting to get it into grocery stores, pointing to the success of crops like quinoa as potential investors. Some 30 years ago, quinoa was virtually unknown outside its native mountains in Bolivia and Peru. Today the nutritious grain is found on the menus of trendy restaurants across the world.

J) Measuring crops by nutrition instead of yield is at the heart of the forgotten foods enterprise. Ever since the "green revolution" of the 1940s, high-yielding crops have dominated modern agriculture. That was at first a logical response to devastating famines at a time when the world needed to increase its food supply. Today "nutrition is becoming a three horse", says Azam-Ali, as growing carbon dioxide levels drive crop of their nutrients. Instead of bio-fortifying major crops we should be investing in those forgotten crops that are already more nutritious, he insists.

K) In the bowls of CFF's third dorm, lab manager Dorothy Sefwariro opens a window into the center's "green jewel", revealing vines of winged beans growing under a bright yellow light. It's one of multiple chambers where scientists are analyzing the impact of higher temperatures and carbon dioxide levels on the nutritional make-up of alternative crops. This research is "the green challenge", says Azam-Ali, ensuring that "future crops" are also the healthiest crops in weather extremes.

L) There is a growing global movement around forgotten foods, says Danielle Nierenberg, president of Food Tank, a US-based think tank. Other than CFF, which bills itself as the world's first research center dedicated

- solely to under-utilised crops, there are other key groups championing agricultural diversity including Crop Trust, Slow Food, Jonser and Bioversity International. Add to that more middle-income consumers searching for nutritious foods and others eager to try the unprocessed foods their grandparents once ate, she says.
31. But the rising interest in forgotten foods in some quarters is overcast by the global spread of Western-style diets heavy in sugar, fat and processed foods in others.
32. A key obstacle to promoting feeding local crops in Malaysia, for example, is "the obsession with imported produce", says Jee Wee Kim, co-founder of a consumer-led campaign that champions locally-sourced food in an affluent suburb of Kuala Lumpur. Consumers at Sidsa, regarded as a pioneer in the country's small farm-to-table dining scene, will eat foreign ingredients as a "status symbol", she says.
33. The argument for forgotten foods stills attrition. Some analysts say it is in fact inevitable. "Climate change is going to mean almost certainly states are going to be forced to change," says Tim Lang, professor of food policy at City University of London. We "have to get used to eating other crops" as yields of staple crops fall, he says.
34. According to a senior researcher, we will have secure food supply if we rid ourselves of ignorance about native crops.
35. Most of the world's food supply comes from a tiny number out of thousands of crops that have been grown for centuries.
36. To provide their family with food when the staple crops failed, some African women farmers grew local crops in their backyards.
37. High-yielding crops have occupied a dominant position in modern agriculture since the green revolution in the last century.
38. Growing alternative crops proved feasible in a variety of environments, but the critical question was whether they would be marketable.
39. According to a professor, when the yields of staple crops fall, we will have to adapt to eating foods from alternative crops.
40. Urgent measures have to be taken to provide food for the projected world population without aggravating the climate.
41. Colonial rule marginalised local crops by punishing Africans who grew them.
42. As existing crops are endangered by global warming, we can increase food security by bringing back the many forgotten food crops.
43. Researchers are trying to find out how higher temperatures and CO₂ levels affect the nutritional composition of alternative crops.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the circle.

Passage One

Questions 46 to 50 are based on the following passage.

Imagine you're an alien sent to Earth to document the behaviour of the creatures inhabiting the planet. You stumble into a movie theatre that's showing the latest Hollywood horror film.

Several dozen humans are gathered together in a dark, undecorated room. They're all staring at a rectangular area on which patterns of light change rapidly.

They are clearly in a state of high arousal. Their heart rate is elevated, they occasionally glance around nervously, and they sometimes jump collectively in their seats, and emit high-pitched warning calls.

Eventually, the lights come up and the rectangular screen goes black. The humans stand up and leave the room, chatting and laughing, and showing signs of pleasure.

Why do these humans voluntarily expose themselves to what appears to be a deeply unpleasant experience? And why do they react so strongly to those patterns of light on a screen?

I am fascinated with the paradox of horror—the strange fact that many people seek out scary entertainment. I think the answer lies in the puzzle lies in human nature.

My research suggests that we humans evolved to find pleasure in situations that allow us to experience negative emotions in a safe context. You can see these elements of horror in children's games. Take hide-and-seek for example, which is a simulation of a predator-prey interaction. The kid hides and the adult pretends to be a predator, searching for the child while howling like a dangerous beast.

This simulation gives the child crucial information about how to avoid becoming prey, and children tend to find this kind of activity deeply satisfying, presumably because it gives them a safe experience of a potentially catastrophic scenario.

They find it pleasurable, and pleasure is evolution's way of motivating us toward adaptive behaviour.

Horror is pleasurable to many people because it lets us play with negative emotions and develop coping strategies. We learn what it feels like to be truly afraid, and we learn how to handle negative emotions.

How, then, does horror work? My research suggests that horror works by exploiting an ancient set of biological defence mechanisms—an evolved fear system, which we share with other animals. But humans are uniquely imaginative, and we use our evolved imagination to travel into virtual worlds that are full of danger.

There are good reasons for watching a horror film, even if you're not a loyal horror fan. If you make it through the film at one piece, you'll probably experience a strong sense of mastery, a sense that you were able to make it through an appalling experience. Anyway, watching a horror film makes you better at handling your own fear, and who knows what that will become critically relevant?

46. The alien finds the audience in the movie theatre clearly in a state of _____.

A) total mindfulness

C) spiritual elevation

B) extreme excitement

D) intense curiosity

47. Why do many people seek out scary entertainment, according to the author's research?

A) They gain reassurance in overcoming horror in real life.

B) They find joy in going through regulated horrible experiences.

C) They have learned from hide-and-seek as kids the thrill involved.

D) They have evolved to gain pleasure in escaping life-threatening situations.

48. What do children learn from hide-and-seek?

A) How to avoid falling prey to an attacker.

C) How to keep themselves from encountering errors.

B) How to simulate a predator-prey interaction.

D) How to turn a dangerous scenario into a safe one.

49. Why is horror gratifying to many people?

A) It reminds them of an ancient set of biological defence mechanisms.

B) It triggers their imagination to travel into dangerous virtual worlds.

C) It allows them to learn what fear feels like and how to tackle it.

D) It activates their evolved fear system and their unique fantasy.

50. What will one experience if they watch a horror film through without being hurt?

A) A strong sense of cheerfulness.

C) A profound sense of intense relief.

B) A profound sense of good fortune.

D) A strong sense of being in control.

Passage Two

Questions 51 to 53 are based on the following passage.

An overthrow has been taking place in the physical world against the binary model that has been dictated to us for years. But in the digital arena, social media determines what is considered beauty!

The two opposing struggles are taking place in parallel. In the physical world, the struggle goes against the underlying pressure exerted on women to conform to an unrealistic beauty ideal. As part of the struggle, various media outlets have presented women whose bodies don't correspond to the so-called ideal. All those women who had previously been excluded from the covers of magazines, television series and the public agenda, have become "legitimate." At the same time, a group of influencers have begun to upload to social media photos of themselves without makeup, and even photos in which they highlight supposed flaws.

Technology has reshaped our beauty ideal and is doing a great job communicating that message to the masses. One of the bizarre legacies of the past decade is the popularity of the "cyborg look," which Americans will look like in 2050.

The cyborg look spread rapidly. Today, however, the Instagram face has become the new beauty ideal.

The internalization of accepted beauty norms is much more effective when there is active involvement in the learning process. The active involvement of users is reflected in the gamified (游戏化的) interaction offered by the social media platforms—the ability to like, write a comment, compare, share.

Once the desired beauty ideal has been internalized, users are given tools or features to change their appearance to suit the accepted beauty ideal such as whitening the image, choosing the ideal filter, the right background.

A survey conducted in the United States revealed that more than 50% filter the images before posting them. And you will not be surprised to hear that the majority of those are women. One of the significant consequences of obsessive filtering is the emerging tendency to view oneself as an object to be observed and valued. In the same way another person observes and judges from the side.

The effect of the filters is already far beyond visible immorality. The filters and the entire game played on the networks affect the mental health of the users. According to a study, apps like Instagram, Snapchat and Facetune allow users to achieve a level of perfection that was previously only observed in beauty magazines.

Even though humanity has always cherished beauty, in the last decade our obsession with looks has reached an unprecedented peak. The dense space on social media creates an urge to achieve an impossible beauty ideal so powerful that the only thing that can fix it is not cosmetic intervention, but mental health care.

51. What do we learn about beauty in the digital arena?

- A) It dictates the pace of digital media.
- B) It has been in the making for years.
- C) It has evolved in a new overthrow.
- D) It is dictated by social media.

52. What does the passage say about beauty in the physical world?

- A) Women are under constant pressure to keep up with beauty models.
- B) Women are encouraged to pursue a beauty ideal that has never existed.
- C) A fight is going on to reduce pressure on women to conform to an overall beauty ideal.
- D) Media outlets have begun to present as beauty models (model women) without any makeup.

53. What do we learn from the passage about the Instagram face?

- A) It is now regarded as the new beauty ideal.
- B) It is what most women will go after in 2050.
- C) It is being much talked about on social media.
- D) It is a perfect illustration of the ultimate beauty.

54. What has obsessive filtering resulted in?

- A) A good many women striving to reach an impossible level of perfection.
- B) An urge to turn the instant glass played on the network to one's advantage.
- C) A tendency to regard one's body as an object of observation and judgment.
- D) An increasing number of women filtering their images before uploading them.

55. What does the author want to emphasize at the end of the passage regarding Americans' obsession with looks?

- A) Cosmetic surgery should be made more accessible to the masses.
- B) Psychological intervention should be introduced to alleviate it.
- C) Their time spent on social media should be strictly controlled.
- D) Its root cause should be meticulously examined and analyzed.

Reading Comprehension

(40 minutes)

Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice is the best fit identified by a letter. Please mark the corresponding letter for each item on Answer Sheet 2 with a single line through the circle. You may not use any of the words in the bank more than once.

Ever been talking about something important with someone you care about and found the discussion fruitless instead of fruitful? Negative energy can then cast a 26 over your efforts to build a shared understanding.

In fact, collaborative problem-solving conversations require skills. Strong listening skills are essential. Sprinkling in positivity via appreciation, 27 smiles, and warm comments helps. So does the essential ability to keep your emotional tone in the calm zone. If the tone of a dialogue heats up and anger erupts, the dialogue 28 from collaborative to adversarial, and progress is likely to come to an immediate 29.

In addition, effective dialogue generally has another important characteristic: symmetry.

Symmetry in dialogue refers to the balance of how much each partner talks. Are you each getting equal

silence? When one participant does most of the talking, this asymmetry or lack of balance tends to become annoying to one or both of you. The silent partner 30 tries of only listening, while the talker can feel 31. Usually, both would prefer more equal give and take.

Different rates of speech and levels of voice volume can 32 asymmetry as well. The slower or louder partner can easily begin taking up more airtime. The slower-talking or softer-voiced one can have trouble getting the floor.

Conversations also lose balance when one partner's opinions count more than the other's. One person's input may carry more weight because their style of expression is more 33. One viewpoint may tend to get lost because it is expressed more 34.

If either partner fairly consistently 35 or responsive, modifying the pattern will be helpful. The dialogue will feel more productive, and at the same time, the relationship overall is likely to feel more positive.

Section B

Directions: In this section, you are going to read a passage with six statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on Answer Sheet 2.

What is a super blood wolf moon?

- A) Blue moons, red moons, supermoons. For some reason all the websites seem to think you really want to know all about these moons. "Catch This Weekend's AMAZING SUPERMOON," one headline will whisper. "The Supermoon Isn't Actually A Big Deal And You're All Ruining Astronomy," another will complain.
- B) The latest example is the super blood wolf moon eclipse which sounds like the mix of an emotional song. I would have performed a modern dance routine to it in 9th grade, but it is, in fact, an astronomical event set to occur on January 30. As we'll explain below, there is nothing truly mysterious or otherwise special about this moon, and it will not look like a bloody wolf head in the sky or anything wild like that. We got these super lunar events by smashing together all the qualifiers we've historically used to keep track of full moons throughout the year, and in the age of the internet we can get a little too enthusiastic.
- C) Consider this your go-to resource for all moon-going news. Here's what you need to know about the latest lunar event.
- D) Look, it's okay if you don't know. There are probably loads of folks who walk around pretending they really know why that thing in the sky seems to get bigger and taller as regular moons but who really do not.

- E) The moon orbits Earth, and it's tidally locked—then means it always shows us the same face, instead of spinning around like our planet does. That's why you can always see the moon on the moon (or the moon rabbit, depending on your cultural preferences) even as it spins around us. But while the moon is big and bright in the sky when it's full, that's only because it's reflecting light from the sun. But the moon is always moving, so it's getting hit with sunlight at different angles. It's invisible to us during the new moon, because our satellite is parked right between us and the sun, the so-called dark side of the moon is lit up like Las Vegas. But the side we can see is in shadow. A full moon happens when the earth is right between the sun and the moon, so sunlight hits the part we can see. And all the other planets are just the reflection from one of those extremes to the other.
- F) The moon isn't always exactly the same distance from Earth, because its orbit isn't perfectly circular. We call the closest point perigee (14.4k.M), and the moon's farthest point is apogee (46.4k.M). 2018's closest perigee and most distant apogee both happened in January, and the difference was about 30,000 miles.
- G) The reason you care about this ordinary change in distance is that it means a moon super. When a full moon happens close to perigee, it's going to look a bit bigger. However, the difference is not that profound, but if you're in a position to photograph the supermoon next to something that shows the slight increase in scale, it can look pretty cool. January's super blood wolf moon eclipse is super because the date lines up with the closest the moon will get to us during January, but the moon won't actually be at its closest for the year until February's supermoon, which you can expect plenty of media excitement over.
- H) Blood moons only occur during total lunar eclipses (which can happen a few times a year in any given location). When the moon slips through our shadow, we give it a reddish coloring. The moon can also look orange whenever it's rising or setting, or if it hangs low in the horizon all night—the light bouncing off of it has to travel through a thicker atmosphere than, which scatters more blue light away. But you'll probably only see that deep, sinister red during an eclipse.
- I) A lot of headlines about moons are just ridiculous (you do not need to be particularly excited about a blue moon, it just looks like a regular full moon), but you should definitely roll out of bed to look at a blood moon if one is going to be visible in your region, even though they're just lunar eclipses and not evidence of bloody battles between the sky gods.
- J) In March of 2018, we had our second "blue moon" of the year, to much acclaim. And while that's not necessarily special in an oh-gosh-get-out-and-look-at-it way, it's certainly special: a blue moon is a nickname for when two full moons fall in the same calendar month, and we hadn't previously had two in one year since 1940. We won't have it happen again until 2037. Astronomer David Chapman explained that this is merely a peculiarity of our calendar: once we stopped doing things based on the moon and started trying to follow the sun and the seasons, we stopped having one reliable full moon per month. The moon cycle is 29.53 days long on average, so in moon months we will end up with a single new moon and a single full one. But every once in a while, one month steals a full moon from another. In 2018 (and in 1990, and again in 2037) both January and March reached full moons on the first and last nights of the month, leaving February in the dark.
- K) Getting two blue moons a year is rare, but we have individual blue moons every few years. Also, has that not actually blue? A moon can indeed take on a creamy blue color, but this only happens when particles of just the right size disperse through the sky—and it has nothing to do with the moon's status as "blue." Big clouds of ash from volcanic eruptions or fires can do the trick, but it doesn't happen often, and the stars would coincidentally have to align for two such rare loonies to occur at once.

- 11) You may have heard that the super special second blue moon of 2018 was also a Harvest moon. This is true! That just means it was the first full moon of spring, which is often used to determine the date of Easter Sunday. All of this is just calendar nonsense and we refuse to go into it further.
- 12) Sometimes you'll see a headline that promises a moon with so many qualifiers it makes your head spin. A super blue blood worm moon, perhaps? Or a super blood wolf moon? Lots of websites will tell you that "wolf moon" is the traditional name of the first full moon of the year in "Native American" cultures, which is kind of a weird thing to claim given that there are 373 registered Tribal Nations in the U.S. alone today, not to mention historically. The idea that hungry, howling wolves were such a universal constant in January that all of North America with its different cultures, geographies, and languages spontaneously came up with the same nickname is illogical.
- 13) Many cultures have traditional names for the full moon in a given month or season, so there's quite a list to draw from if you're trying to really juice up a story on a slightly-bigger-than-average view of the moon. But these are all based on historic calendars and activities and folklore; you will not go outside and see a pink moon in April, though I wish it were so.
- 14) We cannot see the moon at times when it is positioned right between the earth and the sun.
- 15) Volcanic eruptions may cause the moon to assume a smoky blue color.
- 16) The moon will be closest to the earth when the supermoon occurs in February.
- 17) There is nothing unusual about the super blood wolf moon, which will have no resemblance to a bloody wolf head.
- 18) The moon will appear orange when the light reflecting from it travels through an atmosphere thicker than usual.
- 19) It is necessary to hope to claim the name of wolf moon originates from the cultures of American Indians.
- 20) As the moon's orbit is not a hundred-percent circle, its distance from the earth changes.
- 21) A full moon in a given month or season gets a specific name in different cultures.
- 22) There are likely lots of people who know absolutely nothing about why the moon appears to change its size regularly but act like they know.
- 23) When a full moon appears twice in the same month, it is nicknamed a blue moon.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished sentences. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the center.

Passage One

Questions 24 to 30 are based on the following passage.

With population increase and global urbanization ever accelerating, much attention is focused on the sustainability of our cities and scarce attention is paid to the countryside.

Rural life is associated with closely-knit communities, sense of belonging, and a simple, tranquil life. Yet whilst some or all of these elements exist in the countryside, so do overcrowding and a lack of employment opportunities. And it is mostly due to the latter that rural communities are suffering. Attracted by the improved economics of urban areas, country-dwellers across the world are moving out, contributing to the increasing dependencies of densely populated cities, and leaving the countryside in desolation.

So how can the countryside ensure its survival among these changes, or should it at all? Due to both the distance between residences and facilities and often infrequent public transport, those living in the countryside are heavier automobile users. Rural dwellers also use more energy maintaining their mostly detached buildings. We may be piled up like sardines in the city, but this brings energy efficiency that the countryside cannot match. Rural energy requirements result in higher carbon emissions per person than in the city, so it is usually irresponsible to endorse such a lifestyle choice.

Protecting the countryside is a hot topic. Those who have made their fortunes in the city often buy second homes in the countryside, visiting intermittently for a sample of a supposedly simple life. The side-effect of this is that house prices are pushed up due to increased demand, leaving them unaffordable for local people. A solution has yet to be found for this challenge, for market forces are further forcing residents out of the countryside. For those who believe in rural preservation, this is deplorable.

While an idealized view of the countryside is common, the reality is that rural life has continuously evolved. Industrialization brought an increase in divisions of labor, changing social links between rural people. The internet has introduced even foreign cultures into the countryside. Improved travel connections and affordability have made the world more accessible, creating a 'global village'. Considering these changes, surely an evolving countryside is inevitable.

Perhaps the countryside should also prepare itself for massive population increases in the future. With cities across the world growing rapidly, how will the current urban generation respond to the inevitable social changes of mass urbanization? Will the longing for a simpler life become stronger, fueling a rural renaissance?

As the world continues to urbanize, the voices calling for rural preservation may well grow louder. This change is inevitable. We know that the world is going to see more cities emerging from the dust and barren chaos growing into civilization, but the future of the countryside is less clear.

46. What has become of the rural areas nowadays?

- A) They are becoming somewhat deserted.
- B) They are being increasingly urbanized.
- C) They are slowly-but consistently.
- D) They are ignored by conservation.

47. What does the author think of the rural lifestyle?

- A) It is unlikely to survive given the on-going changes.
- B) It is less energy-efficient compared to that in cities.
- C) It is highly dependent upon heavy automobiles.
- D) It is a choice more affluent people will embrace.

48. What does the author think of rich urban residents buying a second home in the countryside?

- A) It is bound to end the traditional rural life.
- B) It adversely impacts rural social stability.
- C) It hinders rural economic revitalization.
- D) It is detrimental to rural preservation.

49. What do we learn about the countryside with industrialization and technological advances?

- A) It is destined to change gradually.
- B) It will proceed in idealized way of life.
- C) It is likely to embrace foreign cultures.
- D) It will become increasingly diversified.

50. What does the author think of the future of the countryside compared with cities?

- A) It is going to be harder for the locals.
- B) It is going to resemble that of cities.
- C) It is less likely to stay static.
- D) It is less likely to survive.

Passage Two

Questions 51 to 55 are based on the following passage.

Sentences like "beauty is in the eye of the beholder" (情人眼里出西施) are rarely questioned. They've become so embedded in our consciousness that people think it's absurd to think otherwise. It might be useful, however, to at

least push back on this assumption because people evaluate environments, situations, and people aesthetically. We may find that we still believe it is correct, but we may also find that there is a lot more to the situation than you suppose.

A recent study exploring aesthetic taste was published in *Cognition*. The results from this study show that people agree very much in their aesthetic evaluation of natural objects, but they disagree more about artifacts, or human-made objects.

The study found that shared taste was most common for faces and natural landscapes, but least common among works of architecture and art. The hypothesis is the occasionally pleasing features, like proportion or symmetry, are at work.

Preferences for natural scenes might be learned through life experiences. Factors like habitability, safety, and openness might be preferred as people develop. Some of the details of landscapes change, but the basics are more common, e. g., water, open spaces, and signs of care.

Art and architecture, unlike natural spaces, do not have the same level of expertise. So, people do not have the same level of shared taste.

It's possible that the lower amount of agreement in the shared taste of artifacts has to do more with elements of style, rather than "behavioral consequences."

All of the consequences seem reasonable (or at least possible), but I think there might be an interesting philosophical conclusion that they did not draw. It seems that there is no objective ground to our aesthetic preferences or evaluations. It is not saying this would mean beauty is completely objective, just that there could possibly be general objective principles at work, i. e., beauty is not simply in the eye of the beholder.

Nature exhibits some of the universal aesthetic features, such as reflection, in a common way throughout the world. It's not exactly the same everywhere, but it is consistent. For example, a sunset is similar enough in different places to warrant almost universal appeal.

Possible universal principles of beauty—such as proportion, distinction, cohesion, and others—are general categories, which allow for a wide array of embodiment. When people get involved in making artifacts in architecture or art, they apply these very general concepts in unique ways. But the way they applied the principle may not have universal appeal.

This is why it's important to experience diverse cultures and their aesthetics because it opens us up to different ways of approaching or constructing beauty. And it is always good to question our assumptions.

51. What does the passage say about the statement "Beauty is in the eye of the beholder"?

- A) It has hardly ever been disputed.
- B) It can be interpreted aesthetically.
- C) Many people have found it absurd.
- D) People have long been misled by it.

52. What does a recent study exploring aesthetic taste show?

- A) Aesthetic tastes tend to differ from person to person.
- B) Natural beauty is rarely surpassed by artificial beauty.
- C) There is less consensus on objects shaped by human craft.
- D) There is general agreement on what is pleasing to the eye.

53. Why do people differ in their aesthetic appraisal of artifacts?

- A) They come out in a great variety of designs.
- B) They lead to varying behavioral consequences.
- C) They take up much less natural space than landscapes.
- D) They cause people's view less often than natural spaces.

54. What does the example of sunset tell about nature?

- A) It creates a powerful appeal through its brilliant redness.
- B) It displays aesthetic taste in a similar way the world over.
- C) It embodies beauty with a wide array of aesthetic features.
- D) It establishes the principle of beauty in a number of ways.

55. Why do artifacts not always hold universal appeal?

- A) The appreciation of their beauty is not subject to objective standards.
- B) The universal principle of beauty prevents a wide array of individualities.
- C) The way their creators apply the principle of beauty may not be pleasing to everybody.
- D) Their creators interpret the universal principle of beauty each in their preferred way.

Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice is identified by a letter. Please mark the corresponding letter for each item on Answer Sheet 2 with a single line through the centre. You may not use any of the words in the bank more than once.

About 23% of the global population lives in absolute poverty. In developing countries there is a low life expectancy, a high infant 26 rate, high levels of unemployment and illiteracy, nutritional levels below acceptable standards and widespread disease with very little or poor quality medical assistance. Others live 27 wealth and luxurious lives and so the wealth is distributed in a very 28 manner. These are the central problems in questions of charity though charity also includes many other areas such as assisting the elderly.

We all 29 when very rich people pledge to give away most of their billions, but they are usually left with millions to pass on, still much more than most people would expect to earn in their lifetime. Even comparatively 30 salaries in the west are very high when compared globally. Someone on £30,000 could easily afford to give away £2,000 per year and still have plenty to live on plus some reserves.

Most people agree that giving to charity is morally 31, but charitable behaviour tends to be regarded as above and beyond the call of duty. Some argue, however, that charitable behaviour is morally required. This asserts that to fail to behave charitably would be wrong. The majority of arguments in this vein refer to giving aid to poorer nations, but they may also refer to giving time within one's 32 community. Arguments tend to place different requirements on people in different income brackets and 33 entirely people who are merely making ends meet. Some argue that people should all contribute a certain percentage of their earnings. I will 34 together all these arguments that place a moral requirement on people to give to charity, despite the fact that there is wide disagreement as to the 35 of this moral requirement.

- A) applied
- B) civility
- C) exclude
- D) extent
- E) group
- F) hierarchical
- G) immediate
- H) inequality

- I) moderate
- J) morality
- K) overt
- L) paltryworthy
- M) probe
- N) sceptically
- O) unequal

Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on Answer Sheet 2.

The Free-Trade Paradox

- A) Trade is one of the policy areas where the hostility that exists between populists (民粹主义者) and classical liberals is most visible. Free-traders point to the undeniable good that tariff-free trade has done for consumers across the world and to the observable alleviation of poverty in corners of the world where previously closed markets have been opened up. Protectionists point to the domestic producers who've paid the price for the globalized economy in the form of lost livelihoods and hollowed-out communities.
- B) The ongoing conservative civil war often degenerates into pseudo-free trade warfare, but trade is a rare exception. There are substantial, thought-out policy proposals on both sides of the argument.
- C) Consequently, trade as a topic of discussion provides an opportunity for liberals and populists to have a real meeting of minds. Fruitful debates might actually take place in this area, as opposed to the shouting match we've become accustomed to of condemnation, not with counter-condemnation.
- D) Strange as it might sound, the problem with trade in the modern world isn't a matter of dollars and cents. It's a matter of false consciousness. This observation is bound to set Marxist alarm bells ringing in the minds of some readers, but it was first made by Alexis de Tocqueville in 1840.
- E) Tracking the economic development of mankind from primitive to modern societies, Tocqueville observed a paradox unfolding over the centuries as economic realities and human experience of those realities strayed further and further from each other. In primitive societies, he notes, the division of labor was as yet undeveloped for the most part, requiring each person, family, or tribe to be relatively independent when it came to meeting their own basic material needs. Men built their own dwellings, tilled their own land, tended to their own livestock. This is not to deny that basic forms of trade took place, but, for the most part, our primitive ancestors lived fairly self-reliant, if crumbly poor lives.
- F) However, the exclusively local and face-to-face nature of economic and political organization in the ancient and prehistoric worlds constantly impressed upon these primitive peoples the uncontrollable reality of others and their needs. As Tocqueville stated, "as soon as a state begins to deal with common affairs in public, he begins to perceive that he is not as independent of his fellow men as he had first imagined, and that in order to obtain their support he must often lend them his cooperation."
- G) As the advent of the modern world, the division of labor spread further and further throughout society. Each person became more and more dependent on others for their basic needs. And yet, robbed of the engagement with our neighbors and with our local communities that our ancestors were forced into by circumstance, we feel ourselves to be more and more independent of one another. As we become more and more dependent on others, we become less and less conscious of our dependence on others. This is the paradox of trade in the modern world.
- H) The false consciousness that this paradox generates causes havoc on the debates we have about free trade. There is scarcely a single commodity in any American household that isn't dependent for its manufacture and sale, through our supply chain or another, on scores of different people spread out across the entire globe. But as Tocqueville already foresaw in 1840, we do not feel dependent on these strangers for our way of life. No sense of the dependence of our own material welfare on their work ever strikes our national consciousness. We rarely contemplate the globalized avenues of free trade with gratitude.
- I) There are two reasons for this. The first, so put bluntly, is money. Money allows us to purchase the work of others without giving any thought to them as human beings. Unlike our ancestors in their primitive townships,

we surely have to meet face-to-face the people who've grown, built, shipped, or supplied our goods. No relationship has to be built before an exchange can take place. Simply agree on a price, and you can have any goods you wish without taking a second thought for the human being involved on the other side of the transaction. In this way, money makes us feel more independent than we actually are. Each of us would then hold that it has over our fellows. We know that if we bid high enough we can buy ourselves out of the time-consuming labor of building relationships. Money is kind of like magic in this way. It gives us a set of rituals to perform and promises that if we do so we'll be able to wield power over others. The illusion is created that having enough money to buy something is the equivalent of knowing how to make it yourself. Graduate for the anonymous men and women who make up the supply chain rarely makes its way into our consciousness.

J) Anonymity, in fact, is the second root cause of the free-trade paradox. Modernity has emancipated everyone from the bonds of location and community. By and large, when we trade, we trade with strangers; when we vote, we vote for strangers; when we watch, read, or listen to stories, the authors of the tales are strangers. As opposed to the ancestors Tocqueville compares us to, we do not know the people with whom we have to do, in either the economic or the political sphere. This is simply the shadow side of the miracle of markets, which, for the first time in history, have allowed strangers to look after each other. They've also allowed each of us to live more and more of our lives exclusively as strangers to other people. This is how Tocqueville - rather pessimistically - describes Mr. Bach, standing apart, is like a stranger to the dignity of others; his children and personal friends forming for him the entire human race. As for the remainder of his fellow citizens, he is hostile to them, but he does not see them. He touches them, but he does not feel them. His eyes only is soul for himself.

K) The last sentence that we see is an apt a substitute as one could hope to come by of how each of us functions in the modern economy: "He touches them, but he does not feel them."

L) This is the greatest challenge facing defenders of free trade. It's exceedingly difficult for human beings to feel gratitude toward strangers, and the global marketplace that has made us so rich has also made us strangers to our wealth. Our brains are hardwired for tribal life, and tribes do not take kindly to strangers. Impressing a sense of dependence upon and gratitude toward foreign strangers is therefore an uphill task.

M) If free-traders are going to win policy arguments in the future, they'll have to find a way of forging bonds of affection between American consumers and foreign producers. Only by de-anonymizing the men and women who supply us with the goods and services we enjoy from overseas and by creating a sense of solidarity and relationship across borders that transcends economic barriers can free trade win the day. Otherwise, the inherent biological aversion toward protectionists born in the flames of tribalist solidarity is bound to win the day at the ballot box.

36. People become more and more reliant on others for basic needs as they entered the modern world even though they might feel less so.

37. On the topic of trade, productive debates might be possible, in contrast to the familiar moral condemnation in discussing other issues.

38. We feel greater independence than we actually possess because money allows us to buy things without building any relationships.

39. The trouble with today's trade stems from misconceptions rather than money.

40. For their arguments to prevail, advocates of free trade must try to forge bonds of affection between consumers at home and producers overseas.

41. According to Tocqueville, unlike our ancestors, we and the people we do trade with are strangers to each other.

42. In primitive societies, people had to rely mostly on themselves to meet their personal needs.

- 43 Few commodities in American homes are not reliant on people placed in the process of manufacturing and sale.
 44 Protectionists argue against free trade by referring to the losses suffered by domestic producers and communities.
 45 It is extremely hard to make people feel dependent on and grateful to strangers overseas.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the centre.

Passage One

Questions 46 to 50 are based on the following passage.

There are hundreds of personality quizzes online that smart they can ascertain whether the right or left half of your brain is dominant. Left-brained people are supposedly logical and good at language and math while right-brained people are more imaginative, emotionally intelligent and skilled with spatial reasoning. There's just one problem: That's not how brains work.

Popular science enthusiasts start to look this idea and run with it, and it's become woven in popular culture now, and it's not going away.

Despite this misleading belief, there's no such thing as being "right-brained" or "left-brained." Whether you're someone who works more towards creativity or logic has nothing to do with one hemisphere of your brain being dominant over the other. But the actual science of how the two halves of our brains work together is sometimes stronger than fiction.

The human brain is divided into two hemispheres, the left and right. In all vertebrates (脊椎动物) animals, the right hemisphere controls the left side of the body and vice versa. And scientists have long known, thanks to the behaviors of patients who suffered brain injuries, that different areas of the brain do different things.

But many scientists struggled with this idea, because the very suggestion that the left and right halves of the brain operate differently disrupted the idea that nature tends toward perfect symmetry.

Work by neurosurgeons (神经外科专家) has revealed the importance of different hemispheres of the brain for different activities. However, their research quickly got some misinterpretation in the general public. Some presumed creative people must be right-brained and logical people left-brained. It is proven that not only is personality unrelated to the different halves of the brain, but people aren't really right- or left-brained to begin with. The idea that we have left-dominant people and right-dominant people, and that this is related to personality, is categorically false. That's never been supported in the neuroscience community. Neuroscientists don't believe that and never have.

When scientists learned that there are really important differences between the left hemisphere and the right hemisphere, it's just that they have nothing to do with personality or whether cognitive strategy is more logical or free spirited or creative. While researchers have shown the limitations of how the hemisphere of our brains influence our lives, it's not difficult to understand the appeal of such ideas. People are naturally fascinated by themselves and their friends, and the subtle differences in how people think about the world are really meaningful to them. When you come up with an online quiz that tells us something about ourselves, we're drawn to that. It's irresistible. But you have to take it with an enormous grain of salt.

46. What do numerous personality quizzes online claim they are able to do?

- A) Distinguish between the two hemispheres of one's brain.
- B) Determine whether one is left-brained or right-brained.
- C) Tell if one is more of a linguist or of a mathematician.
- D) Ascertain how one's brain performs different tasks.

47. What does the author say is sometimes stronger than fiction?

 - B) How the two halves of our brains work alternately.
 - C) How the two hemispheres of our brains cooperate.
 - D) How one half of the brain dominates the other.
48. Why did many scientists have difficulty endorsing the idea that different areas of the brain do different things?
- A) It contradicts the assumption that the two hemispheres of the brain are symmetrical.
 - B) It discounts the view that the universe has been evolving in a consistent manner.
 - C) It is in conflict with the suggestion that the left and right halves of the brain work together.
 - D) It disrupts the idea that the right hemisphere of the brain controls the left side of the body.
49. What have many neuroscientists long rejected according to the passage?
- A) There are left-brained people and right-brained people with different personalities.
 - B) There are noticeable differences between the left and right hemispheres of the brain.
 - C) One's personality is hardly related to the different halves of the brain.
 - D) Different areas of the brain are responsible for different activities.
50. What are we advised to do with an online quiz that tells us something about ourselves?
- A) Challenge its authority.
 - B) Scrutinize its originality.
 - C) Evaluate its popularity.
 - D) Question its reliability.

Passage Two

Questions 51 to 55 are based on the following passage.

Our hundred thirty-five students, four teachers, one giant classroom: This is what 6th grade looks like at Westwood High School, in Mesa, Arizona's largest school system. There, an innovative teaching model has taken hold and is spreading to other schools in the district and beyond.

Five years ago, faced with high teacher turnover and declining student enrollment, Westwood's leaders decided to try something different. Working with professors at Arizona State University's teachers college, they piloted a classroom model known as team teaching, which allows teachers to dissolve the walls that separate their classes across physical or grade divides.

The teachers share large groups of students—sometimes 100 or more—and rotate between group instruction, one-on-one interventions, small study groups, or whatever the teachers at a team agree is a priority that day. What looks at times like chaos is in fact a carefully orchestrated plan. Each morning, the Westwood teams meet to hammer out a personalized program for every student the team will focus on that day.

By giving teachers more opportunity in collaboration, Mesa's administrators hoped to fix staffing gaps and boost teacher morale and retention. Initial research suggests the gamble could pay off.

"Teachers are doing fantastic things, but it's very rare a teacher walks into another room to see what's happening," said Audi Fieritz, superintendent of Mesa Public Schools. "Our profession is so slow to advance because we are working in isolation."

Of course, overhauling teaching approaches can't fix all the frustrations teachers have, such as low pay, but early results from Mesa show team teaching may be helping to reverse long trouble. In a survey of hundreds of the district's teachers, researchers found those who worked on teams reported greater job satisfaction, more frequent collaborations with colleagues, and more positive interactions with students.

Another benefit of teams, teachers say, is that they can help each other improve their instruction. During one planning session, English teacher Jeff Hall shared a performance appraisal with a science teacher. Her recent lecture on something she called "the central dogma of biology" had bewildered him and then other teammates.

"If the science is too confusing for me, can you imagine the frustration you feel as kids?" Hall said. But the science teacher, he said, wouldn't have known about the confusion on his own.

The model is not for everyone. Some teachers approached about volunteering for a steep curve said they prefer to work alone. Team teaching can also be a scheduling nightmare, especially at schools like Westwood where only some staff work in teams. There are also thorny questions like how to evaluate four teachers on the performance of 135 students. But for the time being, it seems to be working.

51. What do we learn about team teaching from the passage?
- A) It is generally conducted in classrooms without walls.
B) It allows students to choose teachers they first meet.
C) It prioritizes peer work over classroom instruction.
D) It is slowly abandoned despite seeming confusion.
52. What does initial research suggest regarding Westwood's innovative teaching model?
- A) It could help raise teachers' pay.
B) It would turn out to be a success.
C) It could cut down overall costs.
D) It could end up like a gamble.
53. What did superintendent Andy Fournier say about the teaching profession?
- A) More career be hoped until teaching models are overhauled.
B) Teachers are simply too busy to visit classes of their colleagues.
C) Progress is slow due to lack of collaboration among teachers.
D) Teachers often do mundane things without being noticed.
54. What does the author want to show by citing English teacher Jeff Hall's experience?
- A) English teachers and science teachers are complementary in performing their tasks.
B) A teacher of arts and letters is completely puzzled by what a science teacher teaches.
C) The new teaching model helps inform the teacher how their instruction is received.
D) Science teachers will hardly know the confusion they cause without a performance appraisal.
55. What does the author think is one of the difficult problems in implementing the new teaching model?
- A) What to do with teachers working alone.
B) What to include in teaching schedules.
C) How to recruit volunteers for a team.
D) How to assess each teacher's performance.

To increase the likelihood of success, one should set realistic goals and work persistently towards them. Achieving success is often a long and challenging journey. Setting realistic goals and working persistently towards them are indispensable parts on the road to success.¹

Firstly, goals act as roadmaps, guiding our efforts and providing a sense of direction. With goals, we are filled with hope for the journey ahead and can pick up courage to continuously pursue progress and growth. Without goals, we may feel at a loss as to how to live a meaningful life. Secondly, setting realistic goals is crucial on the way to success. Overly ambitious goals may lead to frustration, while goals that are too easy may not provide enough motivation. Therefore, it is essential to set challenging yet achievable objectives. Thirdly, persistence is the key to success. Persistent effort means working consistently towards your goals, even when faced with obstacles or seeing competitors. In the race between the tortoise and the hare, it was the tortoise's persistence that made him the ultimate winner.²

In conclusion, by setting realistic goals and working persistently, we can significantly increase our chances of achieving success.³

· 范文译文 ·

为了提高成功的可能性，人们应该设定现实的目标，并坚持不懈地朝着这些目标努力。实现成功往往是一个漫长而充满挑战的过程。设定现实的目标并坚持不懈地朝着这些目标努力是成功之路上不可或缺的部分。首先，目标就像路标，指导我们的努力并提供方向感。有了目标，我们就会对前路充满希望，能够鼓起勇气，不断地追求进步和成长。没有目标，我们可能会感到迷茫，不知道如何过有意义的生活。其次，设定现实的目标是实现成功之路的关键。过于雄心勃勃的目标可能会导致挫败感，而过于简单目标可能无法提供足够的动力。因此，设定既具挑战性又可实现的目标至关重要。第三，毅力是成功的关键。毅力意味着朝着你的目标持续努力，即使面对障碍或看到竞争对手。在乌龟和兔子的赛跑中，正是乌龟的坚持让它最终获胜。

总之，通过设定现实的目标并坚持不懈地努力，我们可以显著增加成功的可能性。

1 发表个人观点，指出设定现实的目标并坚持不懈地努力是成功之路上不可或缺的部分。

2 分别从目标的重要性、设定现实的目标和毅力三个方面阐述设定现实的目标并坚持不懈的重要性，由最后一段Finally, Persistence and Thoroughly引介，以就实现目标而言。

3 总结全文，强调通过设定现实的目标并坚持不懈地努力，我们可以显著增加成功的可能性。

Part II Listening Comprehension

Section I

Conversation One

● 听力原文

M: Okay, here. [1] this is the is your yearly performance review. You've been with the company for three years and under my direct supervision for the past 12 months. Your report is mostly good, but there are a couple of areas we must discuss. The report is yours to take with you. We'll go through the main points together now. And you can come through it in greater detail later. Do you have any questions before we start?

W: No, sir.

M: I'll get straight to it then. It is evident that you are a hard worker. You are precise and industrious. Furthermore, you have strong analytical skills and attention to detail. The company, myself included, are happy with your productivity and overall performance.

W: [2] Thank you. I appreciate the recognition.

M: Do you agree, then, with the depiction so far?

W: Yeah. It's a little simplistic, perhaps, but that's to be expected from this kind of overview.

M: Sure. Would you want to add anything? Your comments can be added to the report if you wish.

W: Oh, there's no need. It's a flattering portrayal, really. Thank you, though.

M: Okay. This leads me up to the 50-40-10 rule part. This mostly centers around one behavioral aspect - your ability to work with others.

W: I see.

M: Yes. As you already know, [3] over the last several months, there have been some complaints raised about your communication style.

W: Of course. We already had, I think, three meetings about this. Look, all I'm going to say is that it was never my intention to offend anyone. Simply put, [4] I don't like to write long emails because, frankly, I think they're a waste of time. Conciseness is efficiency. I feel that writing long emails hinders, more productively you praised me for just a minute ago. And I already apologized if anyone was offended. But to be perfectly honest, I think anyone who was offended was being a little too sensitive.

Conversation Two

M: So tell me, why do you want to study medicine?

W: I've always wanted to be a doctor. I come from a small town where health care was never the best, and I think that has a profound effect on me. [W] As a child, I remember thinking how great it would be to serve the community and care people.

M: What other people or events in your life have shaped your interest in becoming a doctor?

W: Well, that's hard to say. [W] I would certainly say my parents have been a big factor. They always pushed me to study hard, and I certainly wouldn't be here without their support. I guess I was also extremely fortunate to have good teachers and friends around me. At the end of the day, I've always been surrounded by a positive environment, conducive to my working hard and pursuing my dreams.

M: Is there any medical branch that you would like to specialize in?

W: I haven't decided yet. It's still early days. However, if I had to say, internal medicine.

M: Why internal medicine?

W: I know it's no picnic, [W] but I find it the most satisfying because it covers so much and ties together so many other specialties.

ME: Thank you. Now I'd like to address your academic history and projected grades. We like to think of ourselves as a prestigious institution with a highly competitive and promising student body. As you know, to get into our programs, you need at least an 83 percent score in the entrance exam. Do you think you can sustain that?

W: I think so, yes.

ME: [H] I'm looking at your school grades now, and I'll be honest. It's a bit of a mixed bag. You do get top-grades here and there, but you are not very... shall we say, consistent? I am no problem in making you a conditional offer, but consider yourself warned, our entrance exam is, in my own words, no picnic.

Section II

Passage One

● 听力原文 ●

Logging into your email account and instructions feel like trying to hack into the Pentagon. If you follow all of the guidelines, you need to use a different password for every one of your accounts, use an incomprehensible variety of letters, numbers, and symbols, sign up for two-step verification, and change every password every time one of them is compromised. And then after that step, you then have to choose phrases that include a street sign, as that apparently

provides solid evidence to your computer that you are in fact a human being. It's no small wonder most of us forget our passwords more often than our keys.

[10] Now, a new peer-reviewed study by researchers at Aalto University in Finland is attempting to figure out why we forget our passwords in order to help put an end to this frustrating phenomenon. Their findings suggest that how likely you are to remember your password has less to do with the complexity of the password itself and more to do with how often you subconsciously using it, which is to say, you are far more likely to remember a complicated password if you know you'll frequently be using it to log into an account than you are to remember a simple password for an account that you don't expect to log into very often. [11] The researchers advise websites to include some of all incentives for users to log in more often in order to help them remember their secret codes.

● 答案详解 ●

9. Why do we often have to choose photos that include a street sign to log into our email accounts?

成为我们时常必须选择包含街道标志的图片来登录电子邮箱！

A) 为「防止黑客破解我们的密码。」

C) 为忘记密码提供证据。

B) 为了表明已掌握所有密码知识。

D) 为让网页的电脑提醒我们登录。

文章开头部分提到了登录电子邮箱账户有多困难。因为密码非常复杂，之后引出了关于电脑提醒的问题。文中提到 include a street sign，之所以要选包含街道标志的图片，因为它向各电脑提供提醒的证据。说明即是人类，可会犯罪。选项B是对这句话的误解，选项中的 convince 是文中 provides solid evidence 的同义特征，故为正确选项。选项A、C原文并未提及，故排除。选项D中的 passwords are followed 是原文中的提及，但原文说的是用户登录后会提醒其删除账户并设置复杂的密码。选项B原文无，故排除。

10. What do researchers at a university in Finland often do in their new study?

芬兰一所大学的研究人员在他们的研究中自己在做什么？

A) 删除旧密码。

C) 删除密码本身的复杂程度。

B) 提醒人们记住他们的密码。

D) 删除密码不同电子邮箱的密码。

文章中间部分提到芬兰一所大学的研究人员正在进行新的研究，指出研究试图并解释为什么人们会忘记密码。以消除密码遗忘这一令人烦恼的问题。原文 It's a frustrating phenomenon (这是一个令人烦恼的问题) 原文是 forget our passwords (我们会忘记密码) 是作事。并指出这个研究的目的是帮助人们记住密码。故选项正确。选项A、D原文并未提及，故排除。选项C中的 This intricacy of the password 是原文中的同义，但原文并未提到「神秘」密码的复杂程度，故排除。

11. What do the researchers advise websites to do at the end of the passage?

文章结尾处研究人员建议网站做什么？

A) 删除技术以破解账户密码的安全。

C) 避免使用更简单密码的可能性。

B) 删除或隐藏网站控制密码的按钮。

D) 采取措施提醒用户更加频繁登录。

文章最后部分是研究人员给出的建议：建议网站采取更多提醒措施，鼓励用户更加频繁登录，以帮助人们记住密码。选项D是对这部分内容的最佳总结。选项中的 Take steps to encourage users 对应原文中的 include some of all incentives for users 的。故为正确选项。选项A、C原文并未提及，故排除。选项B中的 passwords 是原文中提及了，但原文说的是删除账户提醒用户多登录，而不是通过删除按钮促进登录密码的访问。故排除。

Passage Two

● 听力原文 ●

[12] Four years ago, Jenny Wilson was in a fitness slump. She wanted to improve her physical and mental health. However, her workouts lacked love daily without a proper training program to follow. When she went to the gym, her daily routine predominantly involved easy exercise options like jogging. She avoided more formidable exercises like lifting weights. A personal trainer who taught push her was out of the question. The extracurricular work was just

unreliable. She then discovered the fitness phone app *Ellenmatics*. To use the app, you first input your profile about your previous training experiences and preferences, as well as your desired goals. [13] A virtual coach then uses this information to suggest a personalized training regime. After the workout, the app's artificial intelligence software system uses feedback from Ms. Weiner and her other 53 million users around the world to adjust future training routines.

[14] Now Ms. Weiner finds the workouts exciting. This is because no runs are ever the same. As a result, the app has helped her to lose more than 25 kilograms. The app's contextual approach can arrange a more modern workout schedule. This has led to optimal results.

[15] However, some experts think that apps cannot replace human personal trainers; an app cannot understand human behavior. It will not comprehend that there are competing interests outside the health and fitness.

Additionally, a human trainer can add compassion to the workout. He can see make exercise fun and reasonable. Trainers can monitor whether a person is doing exercises correctly. This can safeguard against injuries. An app cannot perceive such subtleties.

● 答案详解 ●

12. What was the problem Jenny Weiner encountered four years ago? 四年前珍妮·韦纳遇到了什么问题?

- A) 她的工作不再多由她来规划。 B) 她的健康状况陷入低谷。
C) 她的训练应用程序不适合她。 D) 她的体重变重了。

【解析】文章开头第一句即指出，四年前，珍妮·韦纳的健康状况陷入了低谷。随后韦纳的病情都会具体描述为了应对这种状况珍妮所做的努力。故选项C正确，选项中的fitness和workout是文中原词。选项A、D原文并未提及，故为干扰。选项B使用“限制训练计划”此款描述手机应用程序之前，珍妮·韦纳曾在健身房训练的，并未使用其他应用程序，故选项B与原文不符，排除。

13. What can the fitness phone app *Ellenmatics* do according to the passage?

- 根据本文内容，“*Ellenmatics*”健身手机应用程序能做什么?
A) 帮助用户提高他们的健身水平。 C) 为所有用户提供个性化的训练。
B) 提供个性化的训练计划。 D) 选择最优的真人教练。

【解析】文章提到用户在“*Ellenmatics*”此款健身手机应用程序中输入个人资料后，就会有一组虚拟教练根据该信息来推荐个性化的训练方案。因此，选项C正确。选项中的Design是词义引申，选项中的training programme是文中training regime的同义转述。其他选项均未提及，故全部排除。

14. Why does the passage say Jenny Weiner now finds the workouts exciting?

- 文章为何说珍妮·韦纳现在觉得训练很令人兴奋?
A) 它们从来不曾重复。 C) 它们的强度没有怎么增加。
B) 它们丰富了她的生活。 D) 它们使她专注于目标。

【解析】文章提到，珍妮·韦纳在使用“*Ellenmatics*”这款健身手机应用程序后觉得训练很让人兴奋，因为每次训练的强度都不一样。选项A与原文这句话的同义转述，选项中的never repeated对应文中的never the same。故为正确选项。其他选项原文均未提及，故全部排除。

15. What do some experts think of fitness apps like *Ellenmatics*?

- 一些专家认为像“*Ellenmatics*”这样的健身应用程序有什么益处?
A) 它们将允许教练为真人私人教练。 C) 它们用数学方法无法达到最佳效果。
B) 它们将允许应用程序输入的一些资料。 D) 它们在选择详细的训练计划方面不如真人。

【解析】文章引用了一些专家的看法，他们认为应用程序无法取代真人私人教练。选项A是对这句话的同义转述，选项中的will not be able to对应文中的can't。选项中的make the place of对应文中的replace的同义转述。James personal trainers是文中原词，故为正确选项。其他选项中的the possible risks put in, computational approach, digital fitness routines, schedules是原文中未提及。因此，四个选项的内容都不符合原文。选项B不是专家的看法，故排除。

[14] All societies are held together by seven universal moral rules, which include deferring to superiors and respecting the property of others, Oxford University has concluded. Although many cultures are moving towards more liberal, less hierarchical organizations, the new research suggests that traditional power structures and basic values of charity and brotherhood are the cornerstones of successful societies.

The huge study of 60 different cultures around the world found that all communities operate under seven basic moral codes. These universal rules are: help your family, help your group, return favours, be brave, defer to superiors, share resources, fairly and respect the property of others.

The character traits held for every kind of community, be they traditional hunter-gatherers or advanced civilizations, helping to uphold civilized society and foster social cooperation, researchers found. "Everyone, everywhere, shares a common moral code," said Dr. Oliver Scott Curry, lead author and senior researcher at Oxford.

These seven moral rules appear to be universal across cultures because people face the same social problems. Even if some of these traits look right-wing or conservative. For example, deferring to authority, left-wing people will still have a group loyalty and deference to someone or something. This shows there really is more that unites us than divides us.

The study, published in *Current Anthropology*, is the largest and most comprehensive and widespread survey of morals ever conducted and [17] aimed to find out whether different societies had different versions of morality. The team accessed the world's best archives to analyze accounts from more than 600 sources of 60 societies across the world. They found that the seven rules were considered morally good in all societies and were observed across all countries, religions, and politics. However, some communities valued certain rules more highly than others. Dr. Curry hopes that this research helps to promote mutual understanding between people of different cultures and appreciation of what we have in common and how and why we differ.

Co-author, Professor Harvey Whitehouse, said social scientists should move on about testing the theory in the field rather than relying on old data. "This study was based on historical descriptions of cultures around the world," he said. "These descriptions were made independent of, and prior to, the theory we're testing." [18] In future, if social scientists are serious about testing theories of morality, they will need to gather new data more systematically out in the field.

When it comes to food, color is money. Food companies know that better color gives better prices, so they ensure that their products are sensitive in color to better earnings. Oranges, for example, have to meet specific color standards, and oranges are just the beginning. There are color standards for foods including French fries, tomatoes, pumpkins, olives, honey, and sherries.

The attention to color is for good reason. For all the talk of the tongue, [19] our eyes really might be the most important part of the eating experience. A good number of our brain functions are dedicated to processing vision, while only a percent or two is given over to taste buds. [20] and the result is that color actually changes how we taste food.

Scientists have demonstrated many times the importance of color to taste. In a 1990s study, for example, test participants were asked to guess the flavor of the beverage they were drinking without being able to see that beverage. Only one in five was able to identify it as orange. But when they were allowed to see what they were drinking, which was orange in color, each of them identified the orange flavor. And when a drink that was lemon flavor was colored orange, nearly half of respondents identified the flavor of the beverage as orange. Many realize that scientists when the beverage was green in color.

What's happening when someone fails to identify the flavor of a beverage they can't see, or that has an abnormal color? Is it that participants can't discern what the flavor is and so rely on visual cues? Or does color actually change the experience of taste? The key to these questions is the effect of color on expectations. [21] The brain makes predictions using color. These predictions rely on expectations that come from experience.

Research shows that we're all born liking sweet things and desire to eat them. But we aren't born knowing what the sweet things we crave look like, so we need to learn this over time. The brain gets information from the environment, and we learn, for example, that fruits go from green and sour to red and ripe and sweet. Then, if we see a green berry, we equate its color with a sour taste. And just looking at a red fruit will activate our expectations that it will taste sweet and delicious.

12. What does the speaker say about our eyes? 关于我们的眼睛，说话者说了什么？

- A) 它们可能比我们饮食体验中最重要的一部分。 C) 它们可以使我们为我们想要的食物。
B) 它们可以以最准确的方式描述我们的本能功能。 D) 它们可能通过多种方式误导我们。

讲话者在讲座开头提到颜色食物等的话题进行了系列的描述，引出人们对颜色的关注是有充分理由的。讲话者说。科学家们常说味觉很重要。但我们的眼睛可能才是饮食体验中最重要的一部分。由此信息得出。选项A为正确答案。选项B中的taste和lecture讲座中虽有提及。但描述与讲座不符。故排除。其他两项讲

20. What does color actually do according to this lecture? 根据讲座内容, 颜色实际上有什么作用?

- A) 它吸引了食品公司越来越多的关注。 C) 它直接决定食物的购买方式。
B) 它对一个人的饮食体重产生了不利影响。 D) 它改变了人们品尝食物品尝的方式。

讲者在这段中间提问, 颜色实际上会改变我们品尝味道的新知。由此可知, 选项D为正确选项。选项A中的(food companies)和选项中的(eating experience)讲座中虽有提及, 但描述均与讲座不符, 故排除。选项C的内容讲座中并未提及, 可直接排除。

21. What does the brain use color to do? 大脑利用颜色做什么?

- A) 增强味觉。 C) 识别不同的味道。
B) 取出味道。 D) 丰富饮食种类。

讲者在这段前半部分提到, 大脑通过颜色对味道进行识别, 因此将两者都提到是干扰项。由此可知, 选项B为正确选项。选项A、C和选项D, 原文只提到颜色会影响人们对味道的判断, 改变人们味道的感知, 并未直接提到颜色识别不同的风味, 故排除。选项D讲座中并未提及, 可直接排除。

[12] Searching for meaning is something many of us experience throughout our lives. For some, this meaning is religious, social, political, and even, interpersonal. And having a sense of meaning can bring us happiness.

A new study looks at the relationship between meaning and happiness in the context of financial resources. While Canadians from the University of Toronto and colleagues find meaning is a far weaker predictor of happiness for rich people than poorer people—[23] suggesting economic resources can impact how we experience meaning.

The team analyzed data from over 500,000 people across 123 countries. The first study used data from a daily poll of U.S. residents collected between 2011 and 2015. Well-being was tracked using measures of positive affect—whether, during the day before they were surveyed, participants have smiled or laughed a lot, or experienced a lot of happiness.

Meaning was measured through a daily “purpose index”, which explored the extent to which participants felt that they like what they do every day and are motivated to achieve their goals. Finally, income levels were measured.

The results showed that the correlation between meaning and happiness was strongest among those in lower income brackets. But as income levels increased, the correlation became weaker.

[14] The second study looked at worldwide data. Happiness was measured using the same questions as in the first study, while meaning was measured using the single question: Do you feel your life has an overarching purpose or meaning? Again, the strength of the relationship between meaning and happiness depended on participants' income. Meaning had a greater influence on happiness for those on lower incomes compared to those in higher brackets.

In the final study, French participants indicated the extent to which they felt they had a purposeful and meaningful life and how much they considered themselves a happy person. Finally, rather than using specific income brackets, they placed themselves on a “social ladder” representing where they stood in society with regard to wealth, education, and career. The results from the study duplicated those of the first two.

So, overall, meaning and happiness had a stronger relationship in those with fewer resources than those with more. [25] This might be the case because higher individuals have more access to other sources of happiness—many of which will be external, like lack of stress or community. Thus, a focus on an internal sense of satisfaction, purpose, or meaning is less important.

随着科技的快速及发展, 人们的观念自然也会发生变化, 对一些人来说, 节俭已不再是一种美德, 而且持有这种观点的人并不在少数, 除了以往传统的节俭方式, 每个人可能都有不同的看法: 有些人喜欢购物的生活, 有些人喜欢节俭, 有些人则对节俭会上, 有些人则对消费感到反感, 将尽可能多地购物, 使自己在收

村、农村的东。所以各家的农村生活对我的吸引力从未减弱, 随着职位的改变, 更有机会与新朋友们交往。这种经历也在改变了我对生活方式的想法。

少数存在是一种普遍被鄙视的行为, 这是我最迟才意识到的。实际上, 全世界都在15世纪开始种植棉花, 美国更是引领了这一潮流。美国仍低着世界第一高棉, 举国大种棉花。15世纪织的棉。他们和从我们这里棉花。后来随着经济的日益好转, 和少数存在。州原有的棉花进行竞争, 会使棉花人变成以美国者。而不是正原鄙视的穷人。一个明显例子就是棉地。想从银行获得贷款的15世纪人, 通过以高出几倍的价钱出售他们种的棉地而变得相对富有。即使棉地也不免受到这一思想的影响。许多有实力的父母是棉地不15世纪的棉地, 但仍仍存地。这使千夫上大学。并从此项投资中受益。因此, 他们可以全面地得到地。只靠人为出, 而并非棉地等种的。

本文节选自知名网络网站www.bbc.com于2018年8月发表的一篇文章“*Axe forgone crops the future of food?*”的文章。在马来西亚城附近的一个小村庄里，村民们只种了一种沙里里树，并专门用于烹饪和医药。因为它们的可塑性大，在不到一个小时的时间内马来西亚乡村，在巨大的热带雨林中消失。科学家们正在试图挽救这种水果。他们正在通过种植和加工所有的“替代”作物——比如沙里——来测试人是否能食用。他们城可大都会采取类似措施。专家表示：“气候危机几千年后可能吞噬人们的口味和传统饮食。”他说，随着主要作物产量的下降，我们“不得不习惯食用其他作物”。

A) 在马尔代夫群岛附近的一个小珊瑚礁，林恩在以下一些沙滩里到了。沙梨是一种珍贵的坚果，马尔代夫人通常用它来煮茶和炒拉。沙梨果不是由壳的。"对罗林林同说。林特利说中林林龙果林特利，因为这两种水果有更大的市场。他说："我们必须找到一种方法来生产这种水果。"

但在距海仅很不到一小片绿草的乌兹别克斯坦的乡村中，有三座巨大的白色圆顶建筑，里面的科学家们正在尝试改变食物的未来。他们正在通过种植更加「所需」的「替代」作物——比如沙漠——来拓展人类食物的范围。在全球未来作物研究中心(CFR)总部，这种原本不适宜充分供应的水果被制成了一种无糖果汁，不仅含有维生素C，在口感中也使得除了香蕉外，「你在这些甜腻的任何种物质里被激发的炸雷。」布克曼·阿瓦尼·阿瓦尼在马来西亚首都吉隆坡热带植物园工作的下午早些时候。

- Q) 1971 阿扎迪-阿德里曼特说, 仅四种作物——小麦、玉米、水稻和大豆——就满足了全世界三分之二
的食物供应, “我们却制造四种作物。”他说, “但实际上, 有 2000 种我们已种植了几千年的作物。而我们
却全部忽略了那些作物。”研究人员正试图弄清楚这些被忽视的作物的潜力——它们将这些作物种植为粮食
品种、水充分利用的或具有“替代”性燃料, 因为那些主要作物成分增加后, 其营养成分日益退化。这
两者它们都面临了。
- D) 这种种探索正成为趋势。食品行业的温室气体排放目前已占了全球温室气体排放量的近三分之一。[42] 预计, 到 2050 年, 世界必须增加 50% 的粮食产量来养活预计达 100 亿的人口。我们急需在不加剧气候
变化的情况下满足这一需求的方法。
- E) 这些被忽视的作物能改善粮食安全。通过投资那些不受关注的本地粮食, 各国可以减少对进口作物和提高研
究投入的依赖。[44] 在气候变暖威胁到现有作物的情况下, 恢复人类曾经食用的各种作物由能增强粮食安
全。阿扎迪-阿德里曼特认为, 除此之外, 被忽视的作物具有更强的耐旱能力和更强的营养价值。他的结论是,
“粮食安全化对人类的未来至关重要。”
- F) 粮食安全专家对此表示赞同。[45] 新加坡国立大学水与营养研究所的高级研究员西内西-托尔曼哈说:
“世界上没有粮食安全, 只有对粮食的无知。”随后补充说, “每当人们有了本地作物, 我们往往在寻找
它们, 就好像它们很珍贵一样, 但它们是有价值的。”
- G) [46] 阿扎迪-阿德里曼特对这种环境有切身体会。20 世纪 80 年代, 他通过在厄瓜多尔南部的农村家庭种植小豆
替代了替代作物, 当时还种植 1 个的土豆。他们在没有科技干预的情况下, 在自家后院种出那些作物, 以应
付那些被忽视的作物家人。这让他感到惊讶。他看到了建立替代食品系统的可能性。他继续写道: “需
力足以大。”
- H) 他没有气馁。而是继续努力。[47] 一个又一个的种植实验证明了这些作物在不同的环境中作为主要作物的
替代体系可行的。但这些作物是否有例外仍是个问题。“这是关键点,”他说。在主要作物中心的其中一
个国家墨西哥, 食品技术专家阿德里曼特阿德里曼特部分小豆来种植一种低产、高产的胡椒。他继续
的工作是用这些角不为人熟悉的食材制作成部分本地人口味又能满足国际食客口味的食品。近年来,
他使用了一波拉(CPP)种植的低产作物, 比如辣椒和波拉辣椒, 来制作从墨西哥到印度小吃等各种食物。
“我尝试用现代化的方式对被忽视的作物进行烹饪, 而不使用旧食谱,”阿德里曼特说。他已在本国
为一种低产作物的厨师。这是一种对世界日益壮大的城市人口所面临的挑战。他继续写道: “我们需
要更多地转向使用本地
食品生产。他补充说, 这也是一项挑战, 能够增强对当地食品是“老人或穷人的食物”或传统的“打
女再种植作物”这些看法。
- I) [48] 有关本地食物的这些内容有着悠久的历史。波巴拉是墨西哥南部的, 是哈拉巴以南的南美洲的一种
本土作物。在墨西哥的部分地区也有种植。它的特点是可以在墨西哥民间的食谱中。种植波巴拉生
态的妇女们以为种植它而受到过奖。阿扎迪-阿德里曼特说, “那些种植者不能种植它, 因为它不
适合本地没有作物。”近年来, 波巴拉先生是 CPP 评价最高的食品之一。他计划将其推广到食品市场, 并
向那些种植者展示如何种植成功推广种植。大约 30 年前, 墨西哥政府将波巴拉的本土山区之外的
地方几乎无人知晓。如今, 这种作物在波巴拉已出现在世界各地超市的货架上。
- J) 用食物来生产主要作物。波巴拉是主要作物生产企业的核心。[49] 自 20 世纪 80 年代的“绿色革
命”以来, 高产作物一直主导着现代农业, 为“应对极其严重的饥荒。这需要增加粮食供应。这在一定
程度上是一个关键事件。阿扎迪-阿德里曼特说, 如今“它正在成为一种替代作物”。因为二氧化碳水平的不
断升高导致了农作物中矿物质的缺乏。他补充说, 我们不需要对主要作物进行生物强化。而应该投资于那些本
身已经具有营养成分的波巴拉作物。
- K) [50] 在 CPP 第三项阿德里曼特的内容, 其重点是波巴拉。阿德里曼特说, “种植它可以得到该中心
的‘最佳之选’, 自明亮的光线后, 四分之三的面积是在生长。多个农业的科学家和农民海内。其
重点是波巴拉替代作物对气候变化的影响, 但它也是其中之一。阿扎迪-阿德里曼特说, 这项研究是“游戏规则的改
变”。它可以确保“未来作物”在气候变暖的情况下也能获得丰收。
- L) 美国国家科学基金会(National Science Foundation)的科学家说, 全球变暖将导致人们关注波巴拉作物。除了马德拉上

一个专门研究和巧妙利用红珊瑚的研究中心之外，还有其他支持农业多样性的新团体，包括全球作物多样性信托基金、粮农组织、国际干旱半干旱带作物研究所和国际生物多样性中心。据说，此外，更多网中低收入国家在寻找温带食品，还有一些人开始尝试他们的国家曾经吃过的那些未经加工的食品。

- 6) 不过，在有一部分人对健康食品的兴趣日益增长的同时，却不放弃含糖、脂肪和加工食品的传统饮食在全世界蔓延的趋势。
- 7) 例如，在墨西哥南部地区，爱迪生本地品种的骨伤的联合创始人罗德里格·罗德里格斯表示，在墨西哥南部广泛种植本地作物，一个关键原因是“人们对进口产品的恐惧”。他还说，来自墨西哥卡波圣卢西亚的顾客被视为国内农场主提供从小型农场收购的农产品。但顾客们仍会购买本地产品，因为他们认为“本地产品更好”。
- 8) 支持本地食品的食物的理由很复杂。一些分析人士说，这实际上是不可避免的趋势。[41] 詹姆斯·史密斯在《纽约时报》撰文说：“气候变暖和人口增长将迫使人们改变饮食习惯。”他说，随着主要作物产量的下降，我们将“不得不习惯食用其他作物”。

● 答题详解 ●

36. [原文] 一般农民研究要求，如果我们对全球本土作物的无知，就会造成粮食供应危机。
- [解析] P. 由于关键信息 a better researcher, have access food supply and ignorance about native crops 定位到 P 段。首句第二句和第三句提到，新加坡国立大学农业研究系的高级研究员雷百利说，在热带地区说：“世界上没有粮食短缺，只有对粮食的无知。”他还补充说：“每当我有了本地作物，我们就会发现它们，使它们与它们没有价值一样。它们是有价值的。”由此可知，题干是对原文的同义转述。题干中的 native crops and ignorance 与原文对应；题干中的 a better researcher 对应原文中的 a better researcher；题干中的 secure food supply 对应原文中的 no food scarcity。
37. [原文] 地球上大部分食物或蔬菜都已经被种植了几个世纪的几种作物中的一小部分。

38. [原文] 当作物歉收时，为了给家人提供食物，一些非洲女性农民在自家后院种植蔬菜作物。
- [解析] D. 由于关键信息 when the staple crops failed, African women farmers 定位到 D 段。D 段首句上文，在尼日利亚阿拉伯—阿拉伯农民说：“本地作物不是没有价值”有切身体会。随后首句第二句和第三句提到，20 世纪 80 年代，在尼日利亚的农村地区的农民种植了蔬菜作物。当时还是女士们生产使用。她们有几种种植蔬菜的种植方法，在自家后院种植蔬菜作物。以求主要作物歉收时给家人吃，让她们感到惊讶。由此可知，题干是对原文的同义转述。题干中的 provide their family with food 对应原文中的 feed their families；题干中的 when the staple crops failed 对应原文中的 when the big crops failed；题干中的 African women farmers 对应原文中的 women farmers in rural Nigeria。
39. [原文] 自上世纪 60 年代以来，高产的粮食作物在发展中国家占据了主导地位。
- [解析] J. 由于关键信息 High-yielding crops, occupied a dominant position in grain revolution 定位到 J 段。J 段首句第二句提到，自 20 世纪 60 年代的“绿色革命”以来，高产作物一直是主导现代农业。由此可知，题干是对原文的同义转述。题干中的 have occupied a dominant position in the modern agriculture 对应原文中的 have dominated modern agriculture；题干中的 grain revolution in the last century 对应原文中的 “green revolution” of the 1960s。
40. [原文] 事实证明，将粮食作物在多种环境下种植是可行的，红皮萝卜和它的马铃薯有类似。
- [解析] H. 由于关键信息 grew feasible in a variety of circumstances 和 whether they would be acceptable 定位到 H 段。H 段首句第二句和第三句提到，一个又一个的证据证明了这些作物在不同的环境中作为主

可作新的替代产品是可行的。因此这些作物是否新发明仍是个问题。“这是关键点，”他说。由此可见，题干是对原文的同义转述。题干中的feasible is a variety of environments对应原文中的viable in different environments；题干中的question、machinable属于原文同义。

41. **【答案】D** 排除一些错误的说法。当主要作物的产量下降时，农民将不得不通过吃由替代作物制成的食物。

【解析】 D。由题干关键信息yields of staple crops will have to adapt to eating foods from alternative crops定位到D段。D段首句提到农民。伦敦城市大学农业政策教授蒂姆·图里尔：“气候危机几乎肯定将给人们的口粮带来沉重打击。”他说。随着主要作物产量的下降，农民“不得不开始食用其他作物”。由此可见，题干是对原文的同义转述。题干中的have to adapt to eating foods from alternative crops对应原文中的have to get used to eating other crops；题干中的alternative crops对应原文中的other crops。

42. **【答案】D** 必须采取紧急措施，在不使气候恶化的情况下为预计的全球人口提供粮食。

【解析】 D。由题干关键信息Urgent measures to provide food for the projected world population定位到D段。D段首句提到危机。图里尔说，到2050年，世界必须增加30%的粮食产量以养活预计达100亿的全球人口。我们应寻求甚至不如气候变化快的情况下满足这一需求的方法。由此可见，题干是对原文的同义转述。题干中的provide food for the projected world population对应原文中的feed the projected global population of 10 billion；题干中的without aggravating the climate对应原文中的without contributing to climate change；题干中的Urgent measures have to be taken对应原文中的Urgent solutions。

43. **【答案】B** 殖民或帝国主义两种根本性作物将给穷人提供这些作物造成危害。

假想你是一个被带到地球的外星人。任务是记录并在这个星球上的哺乳动物行为。你无意中走进一家电影院。明显正在放映最新的邦德或恐怖电影。

几十个人聚集在一个黑暗处。没有装饰的屏幕。他们都盯着一块矩形区域。在这个区域中，左方的画面通常变化得。

[10] 他们都集中于高强度兴奋状态。他们的心跳加快。荷尔蒙分泌地环境周围。有时甚至会从座位上集体跳起来，并发出尖厉的叫声。

最后，灯光亮起，矩形屏幕变黑。人们站起来，在若有若无地向开房。这是该过程的开始。

为什么这些人会自愿将自己暴露在这种看似并不愉快的经历中？他们又为什么会和那些与他们产生如此强烈的反应呢？

皮州恐怖理论——许多人寻求恐惧感从的育性事实——也得到丰富得。

恐惧感就在人们之中。

[11] 我的研究证明，人类逐渐形成了在安全的环境中体验和消除恐惧时获得愉快感的能力。你可以在儿童游戏中看到这些恐惧元素。以捉迷藏为例，这是一种被追逐者与躲藏者之间互动的游戏。对于躲藏者，大人很快成为捕食者，一边是危险的野兽一呼一叫，一边寻找孩子。

[12] 这种游戏成为孩子学会了关于如何避免成为猎物的重要信息。孩子往往性会获得并开恐惧朝自己存恐惧的满足感。大多数因为这种恐惧让他们安全地体验到当下的恐怖性恐惧。

他们觉得这种体验令人愉悦，而恐惧感是进化过程中教给我们采取适应性行为的方式。

[13] 恐惧感让许多人感到愉悦，是因为它让我们玩弄恐惧感。并时记起时。我们了解真正恐惧的感觉。也学会了如何处理恐惧感。

那么，恐怖电影产生作用的呢？我的研究表明，恐怖电影通过利用观众占有的生物的本能——进化的恐惧系统——来立即作用。这使我们和其他动物都有，但人类具有独特的想象力。我们对进化中的想象力进入充满危险的虚拟世界。

即使不是恐怖片的忠实粉丝，也有不错的理由观看恐怖片。比如如身体恐惧感地有这些电影，可能能全球感到一种强烈的恐惧感，一种非通常可怖的恐惧感。总之，恐怖片能让你坐在那里面对自己的恐惧，而你知道这种能力什么时候会变得更重要。

46. 外星人来到电影院里的哺乳动物处于一种_____的状态。

- A) 全神贯注 C) 精神抖擞
B) 面面相觑 D) 提心吊胆

【答案】A) 全神贯注。句意：外星人来到电影院里的哺乳动物处于一种_____的状态。

【解析】根据原文第10段，他们的心跳加快，荷尔蒙分泌地环境周围，有时甚至会从座位上集体跳起来，并发出尖厉的叫声。由此可知，B项与原文描述相符，故选项中的 extreme excitement 是原文中 high arousal 的同义转述，故为正确答案。其余三项均与原文中所描写的外星人的状态不符，故排除。

C) 他们从小就从家庭游戏中体会到了惊悚刺激。
D) 他们还化出了在逼真且无生命的情境中感受惊悚的能力。

答案解析: 信息题。根据文章第一段中作者的研究可得出答案定位在原文第六段到第八段。

第六段提到作者对恐怖惊悚的结论: 许多人寻求惊悚刺激的真实事实——他们渴望害怕。第七段和第八段对这一奇怪事实的产生给出了解释。其中第八段提到作者的研究。该研究表明人们更倾向于在安全的环境中体验恐惧所需的紧张刺激感的能力, 并以玩电脑游戏为例进行具体的论证。由此可知, 人们寻求惊悚刺激的原因是他们可以从模拟的恐怖经历(如玩电脑游戏)中获得快乐。故B项为正确答案。恐怖电影、惊悚游戏等高度刺激性的恐怖经历, 并非供安全用, 故排除A项。玩电脑游戏只是惊悚刺激的一种途径, 不代表所有的惊悚刺激, C项以偏概全, 故排除。文章强调的是在安全的环境中体验恐惧感, 而不是在逼真的恐怖环境中获得刺激, 故排除D项。

49. 为什么恐怖会让许多人感到痛苦?

- A) 恐怖让他们想起一些古老的生物防御机制。
B) 恐怖剥夺他们的想象力, 让他们进入危险的虚拟世界。
C) 恐怖让他们对物理世界的感知, 并会加剧对它。
D) 恐怖让他们进化了的恐惧系统受到持续的阻碍。

答案解析: 信息题。根据文章第三段可得出答案定位在原文第九段。

第九段第三句提到。恐怖让许多人感到痛苦是因为它让我们重新思考痛苦, 并制定应对策略。我们了解到真正恐惧的感觉, 会令我们如何能避免危险。C项与原文描述相符, 故为正确答案。其他三项的内容在原文中均未提及。如都不是恐怖会让许多人感到痛苦的原因, 故均排除。

50. 如果一个人看完一部恐怖电影后有反应, 他会有什么体验?

- A) 一种强烈的现实感。
B) 一种强烈的空虚感。
C) 一种强烈的恐惧感。
D) 一种强烈的幸福感。

·全文翻译·

在现实世界中，一场反对多年审美标准的行为运动正在兴起，^[87] 但在数字领域，社交媒体决定了什么标准是美的。

在美国进行的一项调查显示，超过50%的人在发布照片之前会为其加滤镜，其中大多数是女性。这一点你一定会感到惊讶。^[84] 调查显示使用滤镜的一个严重副作用是会导致一种倾向，将自己视为一个滤镜脸。批评网络时代来临时，能到他人生活中去，还到自己一死。

滤镜的流行已经暴露出了娱乐的危险。滤镜将每个网络面孔都影响用户的心智健康。参看一项研究，Instagram、Snapchat和Picasa等应用程序让用户达到了以前只能在美容杂志上才能看到的美丽标准。

尽管人类一直都很爱美，但在过去的十年里，我们对外貌的痴迷达到了前所未有的高度。^[83] 在社交媒体上花的时间让我们产生了一种冲动，去达到不可见的美丽标准，这种冲动如此强烈，以至于我们开始决定它是不受干预，而是心理障碍。

Nowadays, more and more students have realized the importance of self-discipline in their personal growth. Self-discipline is generally the ability to control one's emotions and behaviors. It is essential to achieve academic success, boost self-confidence and maintain emotional health.

On the one hand, self-discipline helps students manage their time effectively. Many students do not know how to allocate their free time, so that they spend a lot of time playing games. Through cultivating self-discipline, they can handle things in an orderly manner, control the time spent on entertainment activities like playing games, and save enough time for studying, thereby improving their academic performance. On the other hand, self-discipline enhances students' self-confidence. By setting and achieving small goals, students gradually accumulate successful experiences. There is no doubt that when students believe they can complete planned tasks and achieve expected results, they will become more confident. Moreover, self-discipline contributes to emotional stability and mental health. Self-disciplined students do better in handling stress and resisting temptations. This leads to a stable balanced and fulfilling life.

In conclusion, self-discipline plays an important role in students' personal growth. It not only aids in academic achievements but also helps enhance self-confidence and contributes to emotional well-being.

M: [M] Have you decided yet what your end-of-semester business project will be on?

W: Yes, how about you?

M: Yes, go on. You go first.

W: I'm going to do it about beef.

M: Beef?

W: Yeah, beef. I'm going to design a business case study for a new farm that supplies beef for the domestic market.

M: What, that sounds very interesting and original. When ever did you get that idea?

W: I don't know. It just came to me, I guess. But think about it. Beef consumption has been rising strongly over the past 20 years. As the economy continues to grow, domestic demand is expected to continue to increase. For the foreseeable future. And currently, most of the beef is imported, which brings with it added fees. So why not raise cattle here?

M: [M] Of course. Makes perfect sense. There's plenty of land out west, so if done right, it should be very profitable to raise our own cattle.

W: Exactly.

M: Seriously, that sounds like a great idea. You should definitely look into it once we get our degrees.

W: Thanks. So, your turn now. What are you doing your end study on?

- 12: I was thinking about a cowshed, but it now seems like such a boring notion after learning your brilliant idea.
- 13: That's good. I could see that working. After all, there's plenty of cows about, and those aren't going away anytime soon. [7] While many people don't care how their cow looks, many other people do. You've got yourself a real and compelling market.
- 14: Right. So the idea is a large, self-cleaning cowshed. But I wasn't really big and well-satisfied, like they have in America. [8] I was thinking of having it cater to high-end customers in large cities. It could charge a profitable markup by offering just a bit more technical equipment and professional service than competitors.

Passage One

· 听力原文 ·

Increased television time for young children has long been linked with poorer progress in some areas of development. One possible way to counter those negative effects is watching while watching the screen.

[1] As a new study suggests, the more parents engaged in conversation with preschoolers during TV time, the more likely those children were to have higher language levels when they reached kindergarten. This was particularly true for children with socioeconomic disadvantages.

"Our findings reinforce the importance of parent conversation to promote early childhood development and literacy," and lead author Prachi Shah is University of Michigan Health C. S. Mott Children's Hospital.

Researchers assessed hours of daily television exposure and frequency of parent screen-time conversation among 1,500 preschoolers, and then measured early childhood literacy in kindergarten. [10] The study specifically focused on literacy levels, which are associated with advanced learning and higher academic achievement in reading and math at kindergarten, and behavioral development benefits, especially for children from families with lower socioeconomic status.

While many young children are now growing up with digital media exposure through mobile devices like tablets and phones, television remains a dominant screen activity, accounting for 77% of all screen time. TVs are in 95% of all homes, keeping television exposure a relevant developmental concern to young children. [11] Excessive screen exposure, including television, can displace exploratory activities such as play and parent-child interactions, which are believed to be key to cultivating literacy in kids.

"Our findings suggest the importance of parents finding opportunities to foster conversation exchanges in daily routines with their young children, including while watching television," Shah said.

● 要点详解 ●

9. What do we learn from a new study about young children? 我们从一项关于幼儿的最新研究中得知了什么？

A) 家长在孩子看电视时与他们交谈能提高孩子的自信心水平。

B) 他们日常看电视的时长影响了孩子空余时间。

C) 他们看电视越多，在幼儿园阅读技能越好。

D) 他们的社会交往水平会影响他们的学习成就。

文章开头部分提到一项新研究，并给出这项研究的主旨：在孩子看电视时家长与孩子交谈同步，能提高孩子在进入幼儿园时所具备的可读性好奇心。故选项A正确。选项中的Parents' talking with their kids与文中parents engaged in conversation with preschoolers的同义替换。选项中的literacy levels是对文中have higher literacy levels的同义转述。新研究直接鼓励家长在孩子看电视时与之交谈。下文提及的看电视时长对孩子空余时间的不良影响并非该新研究的结果，故排除选项B；选项C是文章开头提到的普遍知识，并不是这项研究的发现，故排除；新研究将社会交往水平较高的家长在孩子看电视时与之交谈，并不能是社会经济水平与学业成绩的发展，故排除选项D。

10. What did Prachi Shah's study specifically focus on? 普拉奇·沙赫的研究时以关注什么？

A) 孩子们的阅读能力。

C) 孩子们的阅读和数学。

B) 孩子们的自信心水平。

D) 孩子们的行为表现。

文章中间部分提到，普拉奇·沙赫领导的这项研究将关注好奇心水平。故选项正确。其他三项在文章中均部分有所提及，但此题旨在了解研究特别关注好奇心水平的原因：好奇心水平与幼儿园所阅读和数学方面的学习提升以及更优有的学业成绩有关。而且还关乎行为发展方面的益处。因此排除这三项。

11. What does the passage say about excessive media exposure? 文章关于过度接触媒体说了什么？

A) 它会阻碍孩子与同龄人相处。

C) 它会阻碍孩子与人们在现实生活中建立互惠互利的关系。

B) 它会占据孩子与同伴玩耍的时间。

D) 它会扩大孩子与同龄人之间地位的差异。

文章前半部分提到过度接触媒体的不良影响：过度接触媒体，包括看电视时间，会成性阻碍和损害孩子与同龄人建立互惠互利的关系。选项B是对这部分内容的同义转述，故为正确选项。选项中的into kids' heads对应文中的displace, exploratory activities又中原词。其他三项文中并未提及，故排除。

Passage Two

● 听力原文 ●

Humans are aspirational, goal-making beings. Each of us, according to research, has an inherent drive to acquire.

[11] The dark side of the drive to acquire is being relentlessly driven to possess more and more things and to religiously occupy our stuff with all the stuff other people have in their lives. So the question is, how do we attune us up into our drive to acquire in positive ways that will benefit our well-being?

One way is to become more intentionally aspirational. To be intentionally aspirational includes consciously aspiring to be the person you need to be to succeed in your professional and personal life. It also includes consciously aspiring to acquire things in your life that will positively impact your areas of well-being. [12] If you're not consciously, mindfully, and intentionally harnessing the inherent drive to acquire, you might be relentlessly pursuing all the wrong things.

[14] While your intentional, aspirational goals will include the pursuit of acquiring things that will increase your sense of well-being, they ought to also include goals to help other people in your various life roles. Your aspirational, aspirational goals will also include striving to be your personal best, a person of good character, integrity, and trustworthiness.

Think about this from a practical rather than theoretical viewpoint. [15] If you're not pursuing intentional, aspirational goals, you have nothing to strive for. If you have nothing to strive for, you're putting yourself in the dangerous position of simply drifting through life, and you'll not be able to experience, love, and enjoy all that [16] has to offer.

- A) 为了实现我们的人生目标而过度努力。 C) 在个人控制方面想办法打败别人。
B) 一心只想着事业成功。 D) 盲目地施加使去占有越来越多的物质财富。

原文开头部分指出，这种获取欲的阴暗面在于，人们会盲目地驱使自己去占有越来越多的东西，选项B几乎就是这句话的再现，只是将文中的stronger换为更具体的material things（物质财富），故为正确选项，其他三项中的“过度努力”“一心只想着”“打败别人”文中并未提及，故均排除。

13. What might happen if we do not harness our inherent drive to acquire?

如果我们不利用或驯化天生的获取欲，可能会发生什么?

- A) 我们可能会与自己与身边的人闹开架。 C) 我们可能会完全丧失拥有物质的本性。
B) 我们可能会获得一种不正确的幸福感。 D) 我们可能会把人生过得一团糟。

原文中间部分指出，如果你不有意地、有目的地利用这种与生俱来的获取欲，那你就可能在盲目地追求所有错误的东西，选项C是对这句话的同义转述，选项中的end up与原文结尾进行的衔接，pursuing all the wrong things为文中中间再现，故为正确选项。其他三项中的“与自己身边的人闹开架”“不正确的幸福感”“把人生过得一团糟”文中并未提及，故均排除。

原文中间部分指出，有意识的、雄心勃勃的目标除了包括追求那些能开阔你心胸的事情，也应该是在你不同的生活角色中帮助他人并提升自己。选项C几乎是这句话的同义再现，故为正确选项。其他三项中的“现实的理论概念”“个人兴趣”“增强价值感”文中并未提及，故均排除。

15. What will you end up doing without pursuing intentional, aspirational goals?

如果不追求有意识的、雄心勃勃的目标，你最终会做什么?

- A) 因无目的而虚度人生。 C) 放弃你应做于一切。
B) 放弃实现自我的机会。 D) 购买并消耗品质和价值。

听 文章最后指出，虽然你还没有达到有目的性的、精心设计的目标，那你就没有什么可为之奋斗的了。如果你还有什么可为之奋斗时，那你就是在把自己置于一群在生州中随波逐流的低能境地。选项A是对应同时感到的最佳总结。其中similarity是对文中If you have nothing to strive for的准确概括。drifting through life几乎就是中文原文。因为正确选项。选项B文中未提及，故排除；选项C、D虽然提及文中个别细节内容但设置的干扰性太强，故排除。

It's nervous time for exams and departmentals. The pressure is on, so you'll want all the help you can get to aid your memory and raise your grades. As a nutrition expert, I want to say one thing will make a real difference to your revision regimen. [16] So, what brain-boosting food and drink would I recommend?

Coffee can have numerous benefits. However, while coffee may make you more alert, individuals can build up a tolerance, meaning this is short-lived. Coffee can also increase blood sugar and eventually cause a lack of focus and energy. It's also worth noting that people react differently to coffee. Some people can drink it at midnight and go straight to sleep, whereas others get feelings of anxiety after a small amount. Also remember that coffee from a coffee shop may be stronger than coffee made at home. [17] So stop drinking coffee by 2 pm and have a maximum of two cups of coffee a day, but be aware of your own reaction to it.

Whole grain foods will ward off hunger. Examples include porridge and whole wheat bread. Combining whole grain foods with protein will help keep your blood sugar levels balanced, which is essential for speed and concentration. Berries and eggs are a convenient and nutritious snack. Blueberries, like many dark-colored fruits and vegetables, can slow down brain damage and age-related decline. Frozen berries are also a good choice. They are usually cheap, last longer and don't lose their nutrients when frozen, but flavoured and sweetened ones are less healthy as they contain added oil, salt and sugar.

Doctors often recommend taking vitamin supplements to top up on the nutrients you need. [18] But I would say food should always come before supplements, and the key to getting as many nutrients as possible is to eat a variety of food with lots of different colours, such as brown berries and dark green vegetables.

[19] It's better to get everything you need from food and drink. For example, oranges contain not only vitamin C, which boosts the immune system, but also fiber and other components that you can't get packaged together in a tablet. Don't forget to drink a proper amount of water, which can boost attention by almost 25 per cent and can alleviate your mood as well. Finally, don't skip meals. Eating regularly will help keep blood sugar balanced and feed the brain with the fuel it needs.

- A) 提高成绩的方剂和手段。 C) 进行复习的方法。
B) 减轻压力的练习。 D) 增强脑力的食物和饮品。

听 介绍新开头。讲话者讲完开头后多久就提到了题目中的关键词recommended。听“那么，我会推荐哪些能增强大脑功能的食物和饮品呢”。由此信息可判断出正确答案为D。选项A中的grade，选项B中的pressure以及选项C中的revision是题干中并未提及。但它们能讲讲话者引述的备考其主题所暗示的词语。考试时千万不要一听到关键词就盲目作答。而要听清楚题目问什么。

17. What does the speaker warn against about coffee? 关于咖啡，讲话者提醒不要做什么事？

- A) 从咖啡店购买。 C) 下午2点后喝咖啡。
B) 对它产生耐受性。 D) 饮用时在里面加糖。

有联系在题干中明确给出。“因此，下午 1 点以后要停止喝咖啡 (so stop drinking coffee by 1 pm)”。也就是说每天不要在下午 2 点后喝咖啡。故选项 C 为正确答案。文中只是对比「喝咖啡对家里饲养的咖啡树很不同」，并未说不等从咖啡店购买咖啡。排除选项 A。文中提及人们会因咖啡产生依赖性这一现象，但这并非题目的内容。排除选项 B。选项 D 讲座中并未提及。属于无中生有。宜排除。

18. How can we get sufficient nutrition according to the speaker? 根据所听内容，我们如何能获取足够的营养？

A) 通过食用各种野生果实充饥。

C) 通过吃很多新鲜水果。

B) 通过吃丰富多样的食物。

● 听力原文

[19] The late Swedish academic Hans Rosling has identified a worrying trend: not only do many people across advanced economies have no idea that the world is becoming a much better place, but they actually even think the opposite. This is no wonder, when the news focuses on reporting catastrophes, terrorist attacks, wars and famines.

Who wants to hear about the fact that every day some 200,000 people around the world are lifted above the \$1-a-day poverty line? Or that more than 340,000 people get access to electricity and clean water for the first time every day? These stories of people in low-income countries simply don't make for exciting news coverage. But as Rosling pointed out in his book, *Fairplay*, it's important to get all the bad news in perspective.

While it is true that globalization has put some downward pressure on middle-class wages in advanced economies in recent decades, it has also helped lift hundreds of millions of people above the global poverty line. If we really care about global welfare, [20] globalization is the only way forward to ensure that economic prosperity is shared among all countries and not only a select few advanced economies.

While some people glorify the past, one of the big facts of economic history is that until quite recently a significant part of the world population has lived under quite miserable conditions—and that has been one of the great tragedies of human history.

While there were many long-lasting ups and downs, like the Great Depression or the recent Great Recession, the consistency of the long-run growth rate is actually quite mind-blowing. Low-income countries, including China and India, have been growing at a significantly faster pace in recent decades and are quickly catching up to the West. A 10% growth rate over a prolonged period means that income levels double roughly every seven years. It is obviously good news if prosperity is more shared across the globe.

While inequality within countries has gone up as a result of globalization, global inequality has been on a steady downward trend for several decades. This is mostly a result of the improvement of hundreds of millions of people's living standards. In fact, for the first time ever since the Industrial Revolution, [21] about half of the global population can be considered middle class.

● 答案精解

19. What is the worrying trend the late Swedish economist has identified?

C) 欧洲国家发展了令人担忧的趋势。

- A) 发达国家的评论家认为该导言有悖逻辑逻辑。 C) 世界上相当一部分人正在经历另一次大萧条。
B) 新闻自由报道世界各地发生的灾难。 D) 许多人对那些生活在恶劣条件下的人一无所知。

【解析】 讲话者在讲座一开始就提到了图片的标题 the late Swedish academic, his identified, worrying trend, “已故瑞典学者汉斯·罗斯林最近发现了一个令人担忧的趋势：许多发达国家的民众不仅不知道世界正在变得更好，实际上他们甚至认为情况很糟糕”。由此可知，选项A为正确答案。虽然选项B讲到每个国家，但它不是这个令人担忧的趋势所产生后果。就其故，选项C、D均属于利用两个不同时间点的干扰项，既不符原文表述，又和题目无关，应排除。

20. What does the speaker say about globalization? 讲话者如何看待全球化？

- A) 它像任何其他历史趋势一样经历了起伏。 C) 它创造了像共享基础设施这样的唯一途径。
B) 它被经济学家和普通人普遍谴责。 D) 它给越来越多的国家提供了独特的投资机会。

【解析】 讲话者在讲座中间提到，全球化是确保经济繁荣由所有国家共享的唯一途径，由少数发达国家向全球扩散的唯一途径。由此很容易推出，选项C为正确答案。选项A、B、D的内容讲话中均未提及，可直接排除。

21. What do we learn about half of the global population? 关于全球一半的人口，我们了解到什么？

- A) 他们的命运可能完全取决于。 C) 他们的生活水平一直在下降。
B) 他们可能被迫成为中产阶级。 D) 他们正在经历一场彻底的变化。

【解析】 讲话者在讲座最后提到，全球大约一半的人口被定义为中产阶级，由此可知，选项B为正确答案。其他三个选项中的内容讲话中均未提及，可直接排除。

一、听力原文

We all know that the sense of smell is powerful. The delicious scent of bread, for example, can act like a time machine. One sniff can bring back a memory from many years ago. Indeed, scent practices, in general, can revive memories that have been long forgotten. [13] But why do smells sometimes trigger powerful memories, especially emotional ones?

The short answer is that the brain regions that control smells, emotions, and actions are linked. A scent is a chemical particle that floats in through the nose and into the region of the brain responsible for smell. Where the sensation is first processed into a form that the brain can read. Brain cells then carry that information to the area of the brain where emotions are processed, and then to an adjacent area of the brain where learning and memory formation take place.

[13] Scents are the only sensations that travel such a direct path to the emotional and memory centers of the brain. This results in an intimate connection between emotions, memories, and smells, which is why memories triggered by scents are experienced as more emotional than those triggered by sight or sound.

Let's take a closer look at how those memories are activated. Usually, when a person smells something that's connected to a memorable event in their past, they'll first have an emotional response to the stimulus, and then a memory might follow. But sometimes, the memory doesn't come to the surface. The person might feel the emotion of something that happened in the past, but won't remember what they experienced.

What causes this baffling phenomenon? The explanation is complex. Imagine this scenario: A person is walking down the street, smelling a scent that they first encountered decades ago, which activates an emotional response. If the person had first come across that smell in a very different context, it will be much more difficult to recover the associated memory. [14] Because the brain uses the context to give meaning to the information and find that memory.

[15] The special nature of memories brought back by scents notwithstanding, they have the same drawbacks as other memories. They aren't always accurate, and they can change over time. In fact, each time we strengthen something, that memory can become distorted. But, because of the strong emotional associations those memories

evolve, people who remember something due to it do not are often convinced that the memories are accurate, even when they aren't.

34. B) tentatively (adv. 暂定地; 初步地)

原文精解 空格前为because it is expressed more, 空格后为逗号, 由此可知, 此处为because引导的原因状语从句, 空格处应填入一个副词, 修饰过去分词expressed。

词汇拓展 由主句中的谓语may tend to get lost可知, 主句说的是观点被忽略的情况, 由本段可知, 当一个观点表达得比较犹豫不决, 而不是以肯定的、果断的方式表达出来时, 这个观点通常不具备说服力, 故tentatively符合语境。

35. D) predominance (n. 占主导地位, 占优势)

原文精解 空格所在句为1971年时占主导地位, 且前半部分是由选择结构either...or...连接的两个部分, 第二个部分为comparative, 由此可知, 空格处应填入另外一个形容词, 且为第三人称单数形式。

词汇拓展 comparative的含义为“比较”, 侧重于对话中占主导地位的一方状态, 由此可知, 空格处所缺名词占主导地位或完全失去, 两相对比或对比, 故predominance符合语境。代入原文意为“是在任何一方占据主导地位或完全失去, 两相对比或对比将会有所助”。

个词组

D) approximately (adv. 大概) C) suppose (v. 假设) E) diameter (n. 直径) D) propagate (v. 传播, 宣传) K) scenario (n. 情景, 方案; 剧情梗概)

一、词汇

本文节选自美国著名科普杂志Popular Science于2023年8月刊登载一篇题为“The upcoming ‘bino supernoon’ will be the biggest of the year”的文章, 出题人对文章进行了一定程度的改编。文章介绍了新月、满月、月食、血月、蓝月亮、超级蓝月亮等自然现象, 主要分析了这些现象产生的原理, 指出这些现象其实没有什么神秘之处。

二、全文翻译

什么是蓝月亮和血月?

A) 新月, 蓝月亮, 超级月亮。由于各种原因, 所有网络似乎都认为你熟悉新月和月亮的全部含义, 一个标题会这样宣称: “本周最值得关注的月亮, 快来关注!” 另一个标题则会这样写道: “超级月亮不足为奇, 我们最近看到过太多。”

- B) 最新的例子是超级血月。这听起来像是一个神秘的名字。我在几年前时会认为这样的现象很罕见，但实际上这是一个每17年发生的天文事件。[29] 这个月并没有什么真正神秘特别之处，在天空中它看起来不会是一个血红的头或疯狂的东西，我们下面将解释这一点。我们确实历史上于全年观测南月的所有特殊现象在一起，将到了这些超级月亮事件，而在互联网时代，我们可能会觉得有些过于频繁。
- C) 将此视为你观察所有新月新月并记录，以下事件需要了了解新月和月相事件。
- D) 答：如果你不知道位置没关系。[40] 月球有很多人们想让自己完全知道为什么天空中的那个东西似乎会爆炸而每隔一段时间就会变大或变小。但实际上他们根本不知道。
- E) 月球围绕地球运行，并以椭圆轨道运动——这意味着它向我们展示的形状每两小时，而不是像地球那样旋转。这就是为什么你从地球上看到的人（金星或火星，取决于你的文化背景），即使它拥有球形（像地球）那样，恒星，由新月在天空中显得又大又亮的时候，那仅仅是因为它反射了来自太阳的光，然而，月球始终在移动，因此它无阳光照射的角度一直在变化。[34] 在新月时，我们是看不见月亮的，因为我们的眼睛（由月球）正好像在我们和太阳之间；所有的月球表面都被太阳直射而一样被照亮，但当我们看月球的那一面却处于阴影中，新月发生在地球正好位于太阳和月球之间时，因此阳光只能照射到月球的部分，而所有的其他相位都只是一个周期中另外一个稍微状态的改变。
- F) [41] 月球与地球之间的距离并不是完全恒定的，因为它的轨道并不是一个完美的圆。我们称最近的点为近地点，最远的点为远地点。2018年，最近点与远点相距约3%的距离均产生在1月，两者之间的距离有3万英里。
- G) 称之为红心这种异常的近距离变化，是因为它会导致超级月亮事件。当新月发生在近地点附近时，它看起来会稍大一些。老实说，差别并不特别大。但如果你拍摄的位置正好有建筑物，能够凸显大小细微的变化，看起来就很明显了。1月份的超级月亮乃食之月以“超级”，是因为这个日期刚好与1月新月满月而新月出现的时刻重合。[35] 不过实际上直到2月时超级月亮出现时，月球才会达到一年中离我们最近的距离。可以预料人们会对此现象过度兴奋。
- H) 当月球在月全食期间出现（月全食会发生在任何特定地点，每年都可能发生几次），当月穿过地球的阴影时，地球会让它呈现一种红色的色调。[42] 月亮在升起或落下时，或者当月球位于地平线时，也可通过颜色——像从月球反射的光线要穿过更厚的大气层，这会导致更多红光。不过你只能从月全食时看到这种壮观而不变的红色。
- I) 关于月亮的许多多事都源自其位置！你不需要对月亮有所研究，它每起落是一个普通的新月，同时月球所应的位置将会出现新月，月球对月球起落去看来，尽管它们只是月亮，并不影响天空之神之间正在进行了血腥的战斗。
- J) 2018年2月，我们迎来了当年的第二个“蓝月亮”，备受赞誉。虽然并不一定需要别人告知“哈，快出来看看吧”的提醒，但它确实是特别的。[43] 蓝月亮是指在同一个日历月份内出现两个新月或这种特殊的现象。自从1999年以来，还没有过一年出现两次蓝月亮的情况。要等到2037年才会再次发生这种情况。天文学家大卫·奈特曾指出，这只是我们日历的一种特殊现象：一旦我们不再按照月历安排事情，将步过这段时间时，我们就不可能知道每个新月到一个新月了。月亮时周期平均为29.53天，因此新大蓝月亮。我们仍然会有一个新月和一个满月，如例来，有一个月份由从一个月份“偷走”一个新月。则在2018年（以及1999年和2037年），1月23号都在当月的第一天和最后一天上出现了新月，而2月处于最后之中（缺少新月）。
- K) 一年出现两次新月是罕见的。但每隔几年就会有一次新月出现。此外，有趣的是：它实际上并不罕见。[37] 月亮每两小时可以呈现出三种颜色。但这只在温度大小和频率少数在天空中时才会发生。而这与月亮被称作“蓝月亮”无关。[37] 火山爆发或火灾产生的大量灰雾也可以造成这种现象，但这种事例并不常发生。而且必须有非常特殊的条件才能同时出现两次如此罕见的现象。
- L) 你或许听说过，2018年两个特殊新月是也属一个真正的蓝月。这是真的！这仅仅说明它是个特殊的第二个新月。通常用于确定蓝月的日期，所有这些只是你所听到的之谈，我们对此不会进一步讨论。

KQ 有时你会看到一个标题，草率会出一个带着丰富装饰图案的月亮，让你感到头晕。或许画幅颜色是暖色调？或者用暖色画暖色调？[44] 许多网站会告诉你，“新月”是“美国土著”文化。一年中第一个新月被称为“新月”，这种说法有点奇怪，因为仅在美国就有373个网站在画幅上画新月，更不用说历史上了。认为新月是“美国土著”文化，以至于整个国家不同文化、地理条件和语言构造都画新月，做出了奇怪的假设。这和相信不会说话时，

N) [3] 許多文化都訂定某些月份或季節的國月得有傳統的稱名。因此如華歷認為一個六十歲時前大一些的男人是「古稀之年」的稱呼，英文有相當可以借用的名稱。但這些名稱都源自於人類的月曆，所談和民間傳說，先不論在4月的國文中看到那些月份的，歷歷最清楚的是：

● · 答案详解 ·

36. 图7-24 当片端正对位于地球和太阳中间时，它们正处朔月。

Text 1 日。由于不同国家 *the owner see the moon* 定例不同。在我国5月初有半部分阴历，在阴历时我们是不见月亮的，因为我们的月亮（月亮暗）正好被放在我们和大阳之间。明天是阴历文处的阳文翻译。其中 *the owner see the moon* 升日国家中 *it's a visible in us*, is positioned right between the earth and the sun 对原文中的 is a visible right between us and the sun. 故答案为E。

37. **【答案】** 大由黑黄可顺等数月龄鱼卵由一性状的紫色。

附注 K. 由源于英俄词 *Volcanic eruptions* 和 *moody blue color* 定例到 *天候* 后一有。还有指出，大山雪史是大火造成的大量死鹿证明如此诀窍 (do the trick)，在大火 *the trick* 棒上一句歌则的“月亮曲可以呈现出一种美丽的蓝色 (A moon can indeed take on a sordid blue color)”。可见，源于对原文内容或所附的几首诗中。其中 *Volcanic eruptions* 和 *moody blue color* 是原词呈现，*change the color to moon* 则与原文中 *the moon can take on* 有落为 K。

如 1997 年 5 月 1 日起, 凡能直接从事

【解析】 G。空留下半句 when the supermoon occurs in February 定其后句 G 段最后一句。空前既四，2月9日的超级月亮之所以“短缺”，是因为这个日期恰好与1月朔月英国我们举办的时刻重合；不论何时上至到2月的满月月初时，月球才会达到一年中离我们最近的距离。照于正对式 supermoon 一词中 the moon won't actually be as close for the year until February's supermoon 的同义表述。故答案为 G。

19. 因子分析：選制由血片并標有什生特顯的，它可血顯的顯具之間最正顯之妙。

[附注] 日，由用于其他词 nothing unusual about the super blood wolf moon 和 a bloody wolf head 是仅仅日第 2 句。故有发现。这个月表示日文 the moon 等代目何中的 the super blood wolf moon unique！外还有什之其正种新发明特别之处，它在大空中指月亮不会是一个血红的圆头或其他的形状的本领。于是对原文此处的翻译又稍错。至于中译 There is something unusual about the moon 比原文的 there is nothing truly mysterious or otherwise magical about it; has no contribution to it at all not look like it. 而原句为：

45. **【答案】B** 当从月球观测地球时，如果看到的大气层时，月球表面呈蓝色。

【例 2】H. 由于天转明 the moon will appear orange 定见到 H 展第 3 句。句初提到, 月亮在升起或落下时, 或者在黎明或黄昏时, 但可证是晚霞也, 故于后面找到了原因: 每早太阳被限制的光线要穿过很厚的大气层, 以至于对原文此处的红光的总称, 整个句子的 the moon will appear orange 对应原文中的 The moon can also look orange, the light reflecting from it is off the light becoming off of it; atmosphere which than would let the glow somewhere. 表黄昏为对。

41. [同字同音] 内称“新月”这个名称源于美国印第安人的文字是不符合实际的。

Text 18. 由于天健的 *the culture of American business company* 是逻辑定位词, 故第 4、5 句、第 6 句均提到。并多次指出美国有“新月”是“美国土著”文化中一半中国一个新月的情感名称。这里也有点奇怪, 因为江西省的月亮在用的那月只就就有一个。第 3 句进一步指出, 这种说法更不会出现时。可见, 题目是对原文是处的误解和误解, 故答案为 F。至于中的 *the sense of selfness originates from the culture*

of American Indians 印第安人中的 "wolf moon" is the traditional name... in "Native American" culture";
recovery to logic 回归逻辑。

42. [原文定位] 由于月球轨道的轴并不是一个完美的圆，它与地球之间的距离会发生波动。

[原文定位] F。由题干关键词 hundred-percent circle 和 distance from the earth changes 定位到F段首句。该句指出，月球与地球之间的距离并不是完全相同，因为它的轨道并不是一个完美的圆。题干是对原文此处的同义转述。其中 is not a hundred-percent circle 对应原文中的 isn't perfectly circular; its distance... changes 对应原文中的 isn't always exactly the same distance。故答案为F。

43. [原文定位] 在不同文化中，阴历月亮或阴历新年开始的时间有所不同。

[原文定位] N。由题干关键词 full moon 和 a specific date in different cultures 定位到N段第1句。该句指出，许多文化对于阴历月份或节日的满月都有其特殊的名称。题干是对原文此处的同义转述。题干中的 full moon is a given month or season 是原文复现，gets a specific name in different cultures 对应原文 cultures have traditional names。故答案为N。

44. [原文定位] 可能在很多人眼中月亮为何看起来会定期变大变小，记不清了，但美国特罗特纳却知道。

[原文定位] D。由题干关键词 lot of people who know absolutely nothing about 和 but are like they know 定位到D段第2句。该句指出，可能有很多人认为自己完全知道为什么天空中的那个东西似乎会定期地变大变小，但实际上他们根本不知道。题干是对原文此处的同义转述。故答案为D。题干中 There are fairly lot of people 对应原文中的 There are probably loads of folks; why the moon appears to change its size regularly 对应 why that thing in the sky starts to get bigger and smaller at regular intervals; not like they know 对应 pretending they really know。

45. [原文定位] 在一个月中出现两次满月时，这种现象被称为双月高。

[原文定位] J。由题干关键词 a full moon appears twice in the same month 定位到J段第2句。该句首句后面明确提到，满月是在对应一个月中满月内出现两个满月的特殊现象的统称。题干是对原文的同义转述。题干中 a full moon appears twice in the same month 对应原文 when two full moons fall in the same calendar month; it is nicknamed a blue moon 对应 a blue moon is a nickname for。故答案为J。

Passage One

一、题眼。

本文节选自 <https://www.straightstudies.com> 网站刊登的一篇文章 "The Future of the Countryside in an Urban World" 的文章，文章对乡村地区的发展前景进行了探讨。如今，受城市化的影响，乡村居民纷纷迁出，造成乡村地区经济萧条，与城市相比，乡村的繁荣被打破。城市富人的购买力提高了乡村的地位，给“保护乡村”带来了压力。乡村生活一直存在不断演变，并且这种演变是不可避免的。城市在历史上被快速发展成大城市，但乡村的未来并不那么明朗。

二、全文翻译。

随着人口新增和全球城市化速度的不断加快，人们将大多注意力集中在城市的可持續發展上，而對鄉村的重視程度減少。

鄉村生活與緊湊的城市生活，包括居住以及簡單字體的生態息息相關。然而，儘管這些重要在鄉村或鄉部分成個個村庄，但鄉村主義轉眼之間就成問題也同時存在。而鄉村則明瞭其重要性而發展成，[46] 在鄉村地區[47] 經濟及社會的吸引，世界各地的鄉村高度紛紛[48]。導致人口稠密的過度開發，而鄉村一片荒涼。

鄉村與城市發展到

- urbanisation = 城市化
- poor eq. 缺乏的，不足的
- city-like eq. 類似城市的
- central eq. 中心的
- what eq. 顯然，或……的

時期

出确切的回答。而A项指出了社会因素，与原文不符，故排除。第二、三句为对harrower的解释：“在建筑方面比一般严厉”，harrower automobile move指的是“把加款汽车出行的人”，同句C项所提的heavy automobiles（重型汽车），故排除C项。D项的different people是指他们引用一句Those who have made their fortune的句式转述。但这句话的原意是在城市里及郊区的人往往会在乡村购买第二套住房，间接性提到乡村生活。下两句为同义转述，而不直接指乡村生活方式。故排除D项。

48. 作者如何评价城市富裕阶层对乡村购买第二套住房？

- A) 这将会造成对乡村的乡村生活。
B) 这会对乡村社会产生不利影响。
C) 这阻碍了乡村经济的增长。
D) 这有助于乡村保护。

解析 题干是Which urban residents buying a second house in the countryside可将其定位在第一段四、五句。

解析 第四段提到了有关“保护乡村”的话题，但原文说城市富裕人会在乡村购买第二套住房，这种购买行为产生了副作用：房价会增长，乡村房价会增长，以致当地人买不起房子，并产生不利影响。而选项要解决的是，这能阻止一切吗？对于那些主张保护乡村的人来说，这是令人烦恼的。由此可知，城市富裕居民在乡村购买第二套住房不利于乡村保护，故D项为正确答案。其他三项原文均未提及，故全部排除。

49. 随着工业化和科技进步，我们对乡村有什么认识？

- A) 它将会逐渐消失。
B) 它将是另一种形式的生活方式。
C) 它有可能接受新的文化。
D) 它有望变得越来越传统。

解析 题干是With industrialization and technological advances可将其定位在第五段。

解析 第五段主要讲述了乡村生活将不断改变，并列举了造成这种改变的几项因素：工业、互联网、交通工具的改善和劳动力的减少。最后一句总结出观点：考虑到这些变化，乡村的不断改变是不可避免的。A项与原文描述相悖。而选项中的destined是原文中inevitable的同义转述，故为正确答案。B项“它是一种理想化的生活方式”只是人们的一种常见看法，并不真实，故排除。文章描述提到了互联网将给乡村文化带入了乡村，但并未提及乡村是否有所谓接受这种文化，故排除C项。D项内容原文并未提及，故排除。

50. 与城市相比，乡村对两方面的乡村的未来？

- A) 它有可能成为更加艰难。
B) 它将与城市的未来相似。
C) 它不太可能一成不变。
D) 它不太容易改变。

解析 题干是The future of the countryside可将其定位在第五段。

解析 文章最后一段对乡村的未来做了探讨，最后一句提到，世界上将会有的城市从农场中崛起，现有的城市将发展成为特大城市。但乡村的未来不那么明朗。由此可知，城市的未来发展前景是明确的，而乡村的发展则成为特大城市，对乡村的未来却让人无法预知，不容易预测。D项与原文描述相符，故为正确答案。A项内容原文并未提及，故排除。B项内容与原文描述相反，故排除。C项“它不太可能一成不变”具有主观的干扰性。不过原文最后一句明确说The future of the countryside is less clear，说明在作者看来，乡村的未来不那么明朗，故排除C项。

Passage Two

· 概要 ·

本文选自The Aesthetics Research Lab网站于2019年11月30日发表的一篇文章为“Taste: Universal and Cultural”的文章。文章探讨了审美品位的高低性和普遍性，指出人们对自然物品的评价评价为一致。而对人工制品的意见则存在较大分歧。研究发现，人类和自然景物的审美共识度为普遍。而建筑和艺术作品的共识度较少。这可能是因为自然景物的普遍特征，如水、开阔天空等。与人类的生活经历密切相关。相比之下，人工制品的风格种类繁多，导致审美共识度低。文章指出，人类的审美共识度和比例、被广泛、长期所接受的存在。但具体应用方式又因文化和个人而异。文章强调审美是客观的普遍性，以及审美

[1] 正如“有人期望画出两幅”这样的说法很少受到质疑，它们在我们的意识中已经根深蒂固，以至于我们认为这种说法是合理的。然而，至少去推敲一下这种说法是否合理，因为人们会从审美角度去评价环境、描述和人物。我们可能会认为自己的看法为它是正确的，但我们也可能发现，情况远比你想像的要复杂得多。

【认知】众所周知最近一项关于审美判断的研究，[2] 研究结果在表明，人们对自然景物的审美评价非常一致，而对人工制品或人造物品的审美分歧较大。

然而我们发现，人类对自然景物的共同审美标准是审美价值，而建筑和艺术作品的共同审美最少。我们推测，是比制度与标准更普遍的令人愉悦的特征在起作用。

对自然景物的偏好可能通过生活经历获得的。随着人的成长，人们可能会更喜欢农村，发生，开阔等适宜。景物的美感可能会发生变化，但基本要素更常见，例如水、开阔的空间和精心照料的花园。

[3] 艺术品和建筑不同于自然空间，它们的审美标准并不相同。因此，人们的共同审美标准也不相同。

对于人工制品，人们在共同审美方面的一致性往往可能更多的与风格元素有关，而不是与“行为后果”有关。

所有的后现代主义者都相信的（或至少是可能的），但是认为他们可能没有得出，一个对早期的哲学结论。我们的审美偏好或审美评价似乎有非常复杂的理由。我们不是说这审美标准是毫无意义的，只是说可能有一层的审美原则在起作用，也就是说，这并不是在审美标准的简单。

[4] 太阳和月亮的一些审美特征。首先，在世界各地以一种共同的方式表现出来。虽然各地并不完全相同，但是共通的。例如，月亮在不同的地方都相似，使其具有几乎普遍的吸引力。

我们也有许多其他特征，如比例，适宜性，等等，那么一致性的特征，可以有各种各样的体现形式。[5] 当人们参与制作或欣赏艺术作品时，他们会以独特的方式应用这些审美标准的原则。不过，他们应用到的方式可能并不具有普遍吸引力。

这就是为什么体验不同文化是比艺术本身重要，因为这让我们了解到审美或审美的不同方式。就我们的审美经验是有益的。

文章第二段第二句提到《认知》杂志最近发表的一项对审美品位的研究结果。称,“人们对自然物品的审美评价要高一些,但对人工制品进入自然物品的意见分歧较大”,也即为题。人们对自然物品的审美认识较多,对人工制品的审美共识较少。选项C是研究结果的只言片语的同义转述,故为正确答案。其他三个选项都不是研究结果,故均排除。

33. 为什么人们对人工制品的审美评价各不相同?

- A) 它们的设计多种多样。 C) 它们占用的自然空间比景观小得多。
B) 它们会采取不同种作为后景。 D) 它们比自然空间更少进入人们的视野。

答案: 根据题干信息词 *different on their aesthetic appraisal of artifacts* 同义转述定位到第五段。

文章第五段提到,其作品和建筑不同于自然空间,它们的审美评价不同。因此,人们对它们审美评价不尽相同。这部分最后一句是本段所问的原因。只一种原因:自然空间的范围,故选项D正确。选项A与文章第六段内容相反,故排除。其他两原因在原文中未提及,故也排除。

34. 自然博物馆证明了太阳钟的什么?

- A) 它通过组织的复制产生了巨大的吸引力。
B) 它在世界各地得以复制的方式展现出独特特征。
C) 它在各种各样的审美评价中赢得了美。
D) 它以多种方式建立了美的原理。

答案: 根据题干信息词 *natural museum* 同义转述定位到第五段第一句。

第五段第一句是后一句提到了太阳钟的复制。原文提到太阳钟在不同的地方都能复制,故其具有几乎普遍的吸引力。作者举例的目的之一是想要论证文中的几个观点。故选项D正确。选项A与原文内容相反,故排除。选项B与原文内容不符,故排除。选项C与原文内容不符,故排除。选项D与原文内容相符,故为正确答案。选项A只是描述了一个事实,并不论点,故排除。其他两原因在原文中未提及,故均排除。

35. 为什么人们认为太阳钟不是具有普遍的吸引力?

- A) 欣赏它们的尖不受周围环境影响。
B) 复制普遍阻碍了各种表现形式。
C) 它们的制作是以用美的原则的方式不一定为所有人所喜爱。
D) 它们的制作是以各具其来的方式违背美的普遍原理。

答案: 根据题干信息词 *artifacts not always held universal appeal* 同义转述定位到第五段。

第五段第二句提到,人们制作建筑作品或艺术品时,会以独特的方式应用美的普遍性原理。但他们的应用这些原则的方式并不具有普遍吸引力。不具有普遍吸引力也即是不一定被所有人喜爱。即人工制品的创作违背美的原则的方式不一定被所有人喜爱。故选项C为正确答案。选项A与原文内容相反,故排除。选项B与原文内容不符,故排除。选项D与原文内容不符,故排除。选项C与原文内容相符,故为正确答案。选项A只是描述了一个事实,并不论点,故排除。其他两原因在原文中未提及,故均排除。

Yangshan Port, as a crucial part of the Shanghai Shipping Center, stands as China's first deep-water port and ranks among the largest in the world. Following nearly two decades of progress, Yangshan Port has attained a high level of automation. The implementation of digital technology and artificial intelligence has significantly cut down labor costs and carbon emissions. Our independently developed deck management system enables remote control of large equipment from a hundred kilometers away. Despite appearing daunting, Yangshan Port operates without any manual intervention, capable of round-the-clock uninterrupted operations. Yangshan Port will persist in its development, further contributing to the establishment of Shanghai as a global shipping hub.

本文源自 [inhabet.com](https://www.inhabet.com) 网站于2022年11月发表的一篇文章为“*This house would give us clarity*”的文章。文章主要探讨了有关彩票福利的问题。作者指出，世界上约有23%的人口生活在绝对贫困中，绝对贫困是慈善的核心问题。尽管富人们承诺捐赠数十亿财富的大部分，但她们承诺还会剩下数百万富翁可以每年，资助数以万计的人一生中和预期福利的许多多。作者还探讨了慈善的道德问题，不同的人可能有不同的看法。

● 全文翻譯 ●

全球约有23%的人口仍处于绝对贫困的生活中。在发展中国家,人们的预期寿命较短。婴儿[3]和死亡事故高。失业率和工作量也居高不下,饮用水严重低于安全标准,疾病肆虐。拥有同等医疗设施的国家会少很多贫困。每月一些人超过[27]亿美元和奢侈的生活。因此财富分配严重[28]不公平。这些是贫困的核心问题。尽管军事开支包括军事占领,如南斯拉夫区。

当富人们承诺由他们支付下等阶的大部时，我们那金矿的数多，但他们的承诺还剩下数百万富矿可以开采。这仍比大多数收入一生中预计能赚到的多得多。在西方，即使相对低的中等工资在全球范围内亦是最高的。年薪2万英镑的人可以轻松地用年支出2000英镑，同时还能拥有富裕的生活，甚至买得起一辆奔驰。

大多数人认为, 募捐活动在精神上虽已超越募捐时, 慈善行为往往被误认为捐出了现金范围。然而, 一些人认为, 募捐行为在道德上是必需的。这意味着, 不履行募捐行为就是错误的。该方面的大多数争论都指向较贫穷的固定慈善机构, 但它们也可由非营利自己的社区内部分出时间。这些争论在住所不同收入的人群中提出不同的需求, 并完全排斥那些性人权能产生生计的人。一些人认为, 人们应该被限制自己的收入, 一定比例。我们把所有那些对人们重新控制由捐赠要求的争论[24]归为一类, 尽管在捐赠要求的[25]程度上还有很大分歧。

26. 26. *immortality* (n. 无亡人地, 无亡事)

【题眼】 空格前是 *a high*, 空格后是 *name*, 由此可知, 空格处应填入一个形容词, 与前面的 *a high* 一起充当 *name* 的定语。

【题眼】 文章首句提及全球的有 23% 的人口仍处于绝对贫困的生涯中, 本句承原文, 详细描写这种现状其间的表现。而前面的 *low life expectancy* (指期望寿命) 可知, 此处与寿元几近死亡有关, 代入选项可推 *immortality* 符合语境, *mortality rate* 意为“死亡率”。

27. 27. *livability* (n. 宜居地, 宜居; 令人难以居住)

【题眼】 空格前是 *Robert live*, 空格后为 *meekly and humbly*, 由此可知, 空格处应填入一个形容词, 与前面的 *meekly and humbly* 一起充当 *live* 的定语。

【题眼】 上文提及世界上的许多人仍处于极度贫困中, 故由 *live through* 和 *humbly* 可知, 此处将富人和极度贫困的人进行比较, 将前者与后者对比可知, *livability* 符合语境, 即“因另一群人刚过着他们的富裕和奢侈的生活”。

28. 28. *unequal* (adj. 不平等的; 不公平的)

【题眼】 空格前是 *distributed in a way*, 空格后是 *name*, 由此可知, 此处使用了固定搭配 *in a way* (以某种方式), 空格处应填入一个形容词, 修饰 *way*。

【题眼】 上文提到世界上的许多人仍处于极度贫困之中, 而将一些人带过贫困其有富裕奢侈的生活, 由此可知此处是强调富分配不均, 即以不公平的方式分配, 故 *unequal* 符合语境。

29. 29. *applied* (vt. 应用; 使用; 普及)

【题眼】 空格前是 *the old*, 空格后是 *when* 引导的时间状语从句, 由此可知, 空格处应填入一个动词, 充当 *the old* 的谓语。

【题眼】 *the old* 引导的时间状语从句 *where very rich people pledge to give every cent of their illness* (当穷人们承诺捐出他们一生中财富的大部分时) 可知, 主语应有谓语动词, 根据句意, 即“我们愿为之做事”, 故 *applied* 符合语境。

30. 30. *moderate* (adj. 适度的, 中等的; 温和的; 适度的)

【题眼】 空格前是 *then comparatively*, 空格后是 *balance*, 由此可知, 空格处应填入一个形容词, 充当 *balance* 的定语, 且被 *comparatively* 修饰。

【题眼】 上文提及富人们承诺捐出大部分财富, 他们剩下的数千万财富仍属普通人一生难以企及的, 此处承接上文, 西方慈善家的财富在世界上属中等偏高的水平, 本句也可根据常识来推, 西方慈善家财富水平高, 所以判断其中等收入者比美国国家高得多, 故 *moderate* 符合语境。

31. 31. *prosperity* (n. 繁荣; 昌盛; 富裕; 昌盛)

【题眼】 空格前是 *poorly*, 空格后是 *the poor* 的定语从句, 由此可知, 空格处应填入一个形容词, 与 *poorly* 一起充当 *the poor* 的定语。

【题眼】 文章全文围绕的慈善事业, 由空格前的 *the poor people agree that giving to charity is prosperity* (大多数穷人认为, 慈善事业是繁荣) 可知, 此处是说大多数人认为, 慈善事业是繁荣, 故 *prosperity* 符合语境。

32. 32. *immediate* (adj. 即刻的; 直接的; 直接的; 直接的)

【题眼】 空格前是 *within one's*, 空格后是 *the community*, 由此可知, 空格处应填入一个形容词, 充当 *the community* 的定语。

【题眼】 由 *within one's* (在某人的范围内) 可知 *the community* (社区, 社会) 是指包含该范围在内的, 此处是说在自己所在的社区, *immediate community* 意为“邻近社区, 直接社区”, 指的是一个人所居住的, 直接联系社区, 通常包括邻居、亲戚、学校等, 故 *immediate* 符合语境。

33. 33. *exclude* (v. 排除; 不包括)

【题眼】 空格前是 *the poor*, 空格后是 *the poor*, 由此可知, 空格处应填入一个动词, 与前面的 *the poor* 构成并列关系, 并与 *the poor* 构成并列关系。

[重点提示] 上文提到一些人认为慈善行为超出了慈善范围，还有些人认为慈善行为在道德上是必需的。由此可判断，此处是说，这些争论往往对不同的人提出不同的要求，并决定“排除”那些仅属慈善生财的人。故exclude符合语境。

14. 如 group (vt. 将……分类，把……分组；聚拢 n. 组，群组)

[重点提示] 空格处是动词ing形式，且与名词短语all these arguments 构成动宾，由此可知，空格处应填入一个动词，充当句子的谓语。

[重点提示] 由文作并列了几种关于慈善在道德方面的观点，此处作者进行总结，即“我将把所有那些对人们慈善捐款提出道德要求的争论归为一组”，故此处用group符合语境。

15. 如 exclude (v. 排除)

[重点提示] 空格处是there is wide disagreement as to sth. 空格后为名词短语of that should responsibilities，由此可知，空格处应填入一个动词，被否定词not修饰。

[重点提示] 由文作并列了几种关于慈善在道德方面的观点，有些人认为慈善是必需的，而另外一些人则认为慈善捐款是自愿行为或有限制的，此处是作者的总结，可见作者要表达的是“在道德要求的程度上存在很大分歧”，故exclude符合语境。

[词义辨析]

如: comunity (n. 共同体) 与 international (adj. 国际的) 相对，等级制使用 (rank) 与 over (adj. 公开的，明显的) 相对; probe (vt. 调查，探测 n. 探针) 与 inspect (v. 检查) 相对; especially (adv. 特别地)

一、概况

进入现代社会后，劳动分工在整个社会中越来越普遍地推广。每个人的基本需求都依赖于其他的人，然而，由于被剥夺了与邻居或社区内其他成员的自然联系，我们感觉越来越孤独。当我们越来越感到孤独时，我们越来越意识到我们对别人的依赖，这更使我们重新审视我们的信念。还有两个原因。首先，当我们感到孤独时，我们意识到我们对别人的依赖，这更使我们重新审视我们的信念。其次，当我们意识到我们必须重新审视我们的信念时，我们意识到我们对别人的依赖，这更使我们重新审视我们的信念。

二、全文翻译

自由贸易理论

- A) 贸易是资本主义和古典自由主义理论中最重要的政策领域之一。自由贸易理论化，免关税贸易为全世界的消费者带来了不可否认的好处，但在世界上的某些地方，它却被广泛地反对。[44] 贸易保护主义者指出，《关税》因国内生产者对这种全球贸易政策付出了代价，他们失去了工作，社区被摧毁。
- B) 按照通行的理论，国内经常有贸易内容的国际战争，国际贸易是一个罕见的例外，争论双方都有实质性的、经过深思熟虑的决策依据。
- C) 然而，贸易作为讨论的话题为自由主义者和国际主义者提供了一个真正的相互交流的机会。在这个国际会议上，贸易政策被广泛地讨论，与人们日常习惯的互相敌视的态度相反。
- D) 正如贸易理论家所指出的，国际贸易理论存在的问题并不完全是经济问题。而是一个关于价值观的问题。这一理论必然会在一些重要的问题上与马克思主义的哲学、自由主义和古典自由主义相冲突。在1940年出版的《自由主义与福利》中，托克维尔发现，随着几个世纪以来自由主义和人道主义思想的传播，出现了一个悖论。[45] 他指出，在现代社会中，劳动分工在很大程度上还不完善，要求每个人，每个家庭都必须在自己的基本需求面前保持相对的独立。人们要对自己的福利、精神自己的土地、照顾自己的牲畜。这并不是否认基本需求的存在，但在很大程度上，我们的幸福越来越依赖于自己的福利。

8) 然而，古代和古典世界中政治和经济的集中局限了本地自给自足而交换的特征。使这些原始经济不断地意识到他人及其需求是不可控制的。正如托克维尔所指出：“一旦一个人开始有公共事务或公共事务，他就开始意识到他并不再像最初那样独立于他的同胞。为了获得他们的支持，他必须经常与他们合作。”

9) 随着进入现代社会，为城市工业整个社会中蔓延得越来越广。每个人的基本需求都依赖于他的同胞。然而，随着我们被剥夺了祖先亚里士多德所参与的和邻里和当地社区的纽带，我们感到彼此之间是孤独的。[36] 随着我们越来越依赖他人，我们越感到意识到我们对别人的依赖。这就是现代世界真正的悖论。

10) 这个悖论引发的经济知识对我们天下自由贸易的辩论造成了严重影响。[37] 几乎没有一个美国思想中的商品不总是通过这样或那样的供应链并依赖于全球供应链的不同部分人生产或提供的。正如托克维尔在1840年所预见的那样，我们并不觉得自己的生活依赖于这些陌生人，我们的国家从未意识到自己的财富依赖于他们的工作，也很少怀着感恩之情思考全球化的自由贸易途径。

11) 还有两个原因。首先，说白了，就是金钱。金钱使我们能够购买他人的劳动，而不需要将他们及其人未达的感谢。与我们的生活在原始城镇的祖先不同，我们很少面对面地见到他们。随着工业城市或我们的供应链的扩大，在交易发生之前，不需要建立任何关系。[38] 只要在价格上达成一致，你就可以得到任何你想要的商品，而不需要为交易另一端的人考虑。二、通过这种方式，金钱使我们感觉自己在实际生活中更加独立。我们每个人都感到金钱对我们日常的控制。我们知道，如购买彩票等。我们自己做不用费时费力去建立关系。在这个方面，金钱有点上瘾症。它使我们设定了一个规范，并保证如果我们顺从，我们既可以向他人行使权力，于是人们产生了一种感觉：有足够的金钱买东西就等于知道如何自己制作这些东西。对那些供应上流社会的男男女女，我们的意识很少会怀疑他们的财富来源。

12) 事实上，匿名自由市场理论的第二个根本原因。现代社会把每个人从地域和社区的束缚中解放出来。[41] 它的本意，我们进行贸易时与与陌生人进行交易。我们投票时是选陌生人投票，我们消费，因我们听到的故事往往是陌生人讲述的。与托克维尔将我们与之比美的祖先相比，我们不知道自己正在经历或扮演角色必须与之行交道的人数量。这从自由市场理论的发明，也是市场在历史上第一次允许陌生人彼此互相依赖。市场让我们每个人都来更多地与陌生人的身份生活，这就是托克维尔——一个拿破仑——对我们的描述：每个人单独站在一个，就像一个与其他人毫无关联的陌生人；他的孩子和祖先构成了他的整个人生。至于其他同胞，他既看不见他们，他也不知道他们。但他享受不到他们的存在，他只为自己存在。

13) 既然后个人能够如何在现代经济中获得价值。则根据二句话及价格与利润说：“他与他们交易，因此感觉不到他们的存在。”

14) 这是自由市场捍卫者面临的巨大挑战。人为地感到陌生人心存恐惧。但使我们变得如此富有的全球市场也让我们变成了陌生人。我们的文明生产满足全部生活，而两者对陌生人并不互斥。[42] 因此，意识到对陌生人的依赖并对此心存恐惧是，现代的任务。

15) 14世纪以来自由市场者主要是在教条主义中前进。他们就必须找到一种让市场有秩序并生产商品与服务的途径。只有让市场为我们提供海外商品和服务的男男女女在我们面前不只是商品的符号。只打不同国家站在超越经济利益的界限。因此，自由贸易只着眼于利润。然而，贸易保护主义又违背着国家与土地出的产品所固有的与生俱来的生物或文化使命在教条主义中前进。

● 英语详解 ●

36. [原文] 随着人们进入现代社会，他们在基本需求上越来越依赖他人，即使他们可能感觉不到这一点。

[译文] G. 由于人们越来越依赖他人来满足基本需求，即使他们可能感觉不到这一点。G. 人们越来越依赖他人，他们越来越意识到自己对别人的依赖。由此可见，人们越来越意识到对别人的依赖。是其中的reluctant对原文中的dependence；是其中的feel less so对原文中的become less and less conscious of our dependence on others.

37. 例 7-22) 与左图按图例开图同堂见胎知正胎合形成对比, 在图与例上, 在图与例上都有形成对比。

【注释】 C. 由属于其他地名 *produces diabetes, in contrast to confirmation* 定例 C 项、C 项提到, 更易作为讨论的话题为由自由主义和死守主义提供的一个真正的逻辑支持的机会。在这个领域可能会上面有或没有的讨论。与 C 项已提不受的互相联系的新逻辑性相反, 由此可知, 属于是对原文作用又所述, 属于中的 *produces* 对原文中的 *Final* 项: 属于中的 *is concerned* 对原文中的 *as opposed to*: 属于中的 *critical consideration* 对原文中的 *confirmation with common consideration*.

20. (见下表) 我们觉得自己比实际上更独立, 因为金钱比我们不用建立任何关系就能买到东西。

[例句] 1. 由成千上万的以allow us to buy things without building any relationships为结构的句子, 读中句每句只例, 只要依结构上连成一线, 你就可以得到任何你想要的句子。而不需要去弄弄另一端的人考虑。二。通过这种方式, 金钱让我们相信我们已比实际情况更加独立。如正价付足等, 我们自己的钱不用时时努力去建立关系。由此可知, 原句是对原文的仿拟和照应。原句中的feel greater independence than we actually possess比原句中的feel more independent than we actually are; 原句中的without building any relationships比原句中的out of the time-consuming labor of building relationships。

Ex. 26.53 可令買馬的陣圖照于附錄，由十是金銀。

④ [Wealth] D. 自由于美国自由主义者 *liberals with today's trade* 中 *problems* from misconceptions rather than money 是绝对口误。D 段开头句就则。且从听感角度考虑，但现代世界的贸易存在的所有问题并不是金钱的问题。而另一个关于相信错误的问题。自是可知。题干是对原文内容又描述。题干中的 *The wealthy with today's trade* 对应原文中的 *the problems with trade in the modern world*；题干中的 *misconceptions* 对应原文中的 *false conceptions*；题干中的 *money* 对应原文中的 *dollars and cents*。

40. **西王母** 为了让自己的地盘不致荒芜,自由意志的影射者必须努力在国内外消费者和海外生产商之间建立密切关系。

[例6] 如：由属于片被译为**bridge**: bonds of affection between consumers of home and producers overseas 定例例。该例有创译性，如果由直译而来更有取诸四邻之嫌疑，他们必会相戒，禁止让外国消费者和外国生产者建立直接联系的方法。由此可知，属于是对原文的又同义处，属于中的agreements to purchase时自原文中的winning policy agreements；属于中的between consumers at home and producers overseas则占原文中的between American consumers and foreign producers。

41. **面千面百** 果能托庇權和的風性，與我們所遇見不同，我們最好能與這所管理的人接此之細品而為人。

[trans] 2. 由呢?并替他总think over accounts. For the people we do trade with are strangers to each other. 足第1段。1段第2、3句并列。句中的说, 我们跟住官商时是与陌生人进行交易。与托克维尔作我们身之法国物事类似。我们不知道自己在经济或政治领域里与谁打交道的人是谁。由此可知, 每个是外国的行动和面目。至于中的Toqueville, accounts, strangers, 均为原词重现。

47. (E) 在原始社会, 人们不得不主要依靠自己去满足个人需求。

【例2】E. 由于于其特色是 *primitive societies rely mostly on themselves* 和 *personal needs* 定位到 E 段，E 段第二句提到，像（无其他不）指出，在原始社会中，劳动分工在很大程度上还不完善。每个人、每个家庭或部落在满足自己的基本需要时相对独立。由此可知，数千是万原文的原文所述。原文中的 *rely mostly on themselves* 对应原文中的 *relative independence*；原文中的 *personal needs* 对应原文中的 *meeting their own basic material needs*。

43. **【答案】D** 本题考查知识产权。根据《专利法》第 22 条第 2 款的规定，新颖性，是指该发明不属于现有技术。现有技术是指申请日以前在国内外为公众所知的技术。故选项 D 正确。

【例28】 由于其他商店 Few successful stores in American homes sell their own people abroad in the process of manufacturing and sale 只面向本国。根据第二句判断，几乎没有一个美国家庭中的商店不是通过这种或那样的方式生产和销售于全球的不同的人群和国家的。由此可知，除了美国本土的出口和进口，每个商店 sell their own products in American homes 对美国本土的 strictly a single community in any American household。至于中国，由于 people abroad in the process of manufacturing and sale 只面向本土的 men's dependence for its manufacturing and sale... across of different people spend and across the entire globe.

44 [题干] 贸易保护主义者认为国内生产商和制造商的损失是由进口自由引起。

[选项] A. 由关于关税的争论protectionists和the losses suffered by domestic producers and manufacturers之列A项。A项符合句义逻辑，贸易保护主义者认为，（美国）国内生产商为全球贸易付出了代价，他们失去了生计，制造商被榨空。由此可知，属于反对家方的观点是进口。属于中性的referring to对应原文中的point to；属于中的losses suffered by domestic producers and manufacturers对应原文中的paid the price, in the form of jobs threatened and hollowed-out communities。

45 [题干] 让人们意识到自己对海外出生的人的依赖并心怀感激之情既简单又困难。

[选项] L. 由题干可知是extremely hard and feel dependent on and grateful to strangers overseas是并列L项。L项由二句和最后一句构成。由前两句得出人心存感恩，感谢对外国出生的人的依赖并心怀感激是一项艰巨的任务。原文中的express upon意为“表达感谢（重要性），感谢”。由此可知，属于反对原文的观点是，属于中的extremely hard对应原文中的exceedingly difficult and an uphill task，其中uphill意为“逆水行舟般的，费力的”；属于中的feel dependent on and grateful to strangers overseas对应原文中的expressing a sense of dependence upon and gratitude toward foreign strangers。

● 听读 ●

本文节选自<https://www.discovermagazine.com>网站于2022年1月12日发布的一篇文章“*What the Two Halves of Your Brain (Don't) Say About You*”的文章。文章讨论了关于“左脑 vs 右脑”理论的流行误区。尽管网络上有很多文章说左脑控制逻辑是左脑是右脑等等，但科学研究表明，这种划分并不存在。左脑的左半球确实控制着逻辑和语言，但右脑的半球也控制着情感和直觉。这种理论之所以流行，是因为人们喜欢通过简单的测试了解自己，但科学界从来没有支持过这种观点。

● 全文翻译 ●

[44] 网上有取巧的测试，声称可以确定你的大脑是左半球占主导地位，还是在右半球占主导地位。据说，左脑主导的人更擅长逻辑思维，擅长数学和科学，而右脑主导的人更富有想象力、情商更高、擅长空间推理。只是有一个问题：大脑并不是这样工作的。

所有爱好者们某种程度上误解了这个观点，并将其宣扬光大。现在它已吸引了大众文化，而且不会消失。

尽管这种观念一直存在，但并没有所谓的“石脑”或“左脑型”（人脑）。一个人是否偏向于逻辑思维还是更感性，与大脑是一半还是占主导地位并没有关系。[45] 但是人们的大脑的两个半球如何协同工作的实际科学，有时比虚构的事情还要离奇。

人类的大脑分为左、右两个半球。在具有物理对称性中，右半球控制身体的左侧，反之亦然。科学家早已通过脑电图患者的行为了解到，大脑的不同区域承担着不同的功能。

[46] 但是，代科学字难以掩盖这一事实，因为大脑左右半球运作方式不同这个说法本身就可能被自然界的科学所挑战。

神经科学家的研究揭示了大脑不同半球对不同任务的重要性。然而，他们的研究长期在公众中引发了一些误解，许多人认为有创造力的人一定是右脑型的，而逻辑性强的人一定是左脑型的。事实证明，不仅性格与大脑的不同半球无关，而且人们的一些特殊能力甚至与左半球或右半球有关。[47] 有人认为人分为左脑型和右脑型，[48] 有人认为人分为左脑型和右脑型。

和右脑主导型,并认为与创造性有关的观点是他错误的。神经科学界从未支持过这种观点。神经科学家们从毫不相信这一点,也从未有过这样的看法。

科学家们所了解的是,大脑左半球和右半球之间确实存在着重要的差异。从这一些差异与性格有关,也可以证明左脑是更具逻辑性、更理性还是更具创造性。尽管科学家们已经证明了左脑半球对成打生和响应的同时性。但这些证据具有局限性,证明容易理解。人们对自己和自己的朋友着迷不已,而人们创造世界的方式的微妙差别对他们来说又至关重要。当你强迫一个左脑型的人,告诉我们一些关于我们自己的事情时,我们就会被它吸引。这是无意识抗拒的。同时左脑必须对它保持警惕。

● 答案详解 ●

40. 许多在线性格测试声称它们能够做什么?

- A) 区分一个人大脑的两个半球。
- B) 判断一个人是左脑型还是右脑型的。
- C) 判断一个人是否能够语言学家还是数学家。
- D) 确定一个人的大脑如何执行不同的任务。

【题眼】信息词 *personality quizzes online* 可将答案锁定在选项 A 处。

【题眼】第一句提到,网上有数百种性格测试,声称可以确定你的大脑是左半球内主导型还是右半球内主导型。B 项与原文描述相符,故为正确答案。在线性格测试声称的功能是区分一个人是左脑型的还是右脑型的,并不是区分大脑的两个半球, A 项错误。C、D 两项原文未提及,故排除。

41. 你相信什么有时阻碍你的创造力?

- A) 大脑的左半球如何影响创造力。
- B) 大脑的两个半球如何协同工作。
- C) 大脑的两个半球如何协同工作。
- D) 大脑的一个半球如何支配另一个半球。

【题眼】信息词 *strange than sleep* 可将答案锁定在选项 C 处。

【题眼】第三段最后一句提到,关于我们大脑的两个半球如何协同工作存在许多矛盾。有时比这奇怪的事情更奇怪。C 项描述与原文相符,故选项中的 *cooperate* 是原文中 *work together* 的同义替换,故为正确答案。原文只提到了“创造力”,并未提及大脑的左半球如何影响创造力,故排除 A 项。原文所提到的是大脑的两个半球如何协同工作,而非分工工作,故排除 B 项。D 项原文未提及,故排除。

42. 为什么许多科学家难以认同大脑的不同区域控制不同功能这一观点?

- A) 它与大脑两个半球如何协同工作相矛盾。
- B) 它与大脑左右半球协同工作这一观点相矛盾。
- C) 它与大脑左右半球协同工作这一观点相矛盾。
- D) 它打乱了大脑左半球控制身体左侧这一观点。

【题眼】信息词 *have difficulty accepting the idea of different things* 可将答案锁定在选项 D 处。

【题眼】题干所问的这一观点出现在第四段。神经科学家早已通过观察患者的行为了解,大脑的不同区域控制不同的功能。第五段开头指出,许多科学家难以接受这一观点,随后指出了原因:大脑左右半球控制身体不同这个观点本身就打乱了自然早已习以为常的观点。由此可知, A 项与原文描述相符,故选项中的 *dynamical* (对等的) 是原文中 *symmetry* (对称) 的同义替换形式,故为正确答案。其他三项原文均未提及,故全部排除。

43. 根据这篇文章,神经科学家认为哪种观点是错误的?

- A) 左脑主导型的人和右脑主导型的人性格不同。
- B) 一个人的性格与大脑的不同半球几乎没有关系。
- C) 大脑的左右半球有明显的差异。
- D) 大脑的不同区域负责不同的任务。

【题眼】信息词 *have been rejected* 可将答案锁定在选项 B 处。

【题眼】第二段最后一句提到,神经科学家们从未相信这一点,也从未有过这样的看法。具体是什么看法? 回到原文:认为左脑主导型的人和右脑主导型的人,并认为与性格有关。A 项是符合题意的正确描述,故为正确答案。其他三项都不是神经科学家所拒绝接受的观点,故全部排除。

30. 对于初学者我们向专家请教两个问题，我们被要求怎么做？

A) 测试其长度。

C) 评估其受欢迎程度。

B) 审查其独创性。

D) 观察其可靠性。

正确答案：B 根据题干点读 *an advice quiz that tells us something about ourselves* 可得知该文章是测试我们 的。

解析：最后一段副标题“与领导：句型例”，作者给出了一个在线测试，告诉我们“关于我们自己的事情时，我们就会被它吸引。这是无在数据的。随后副标题一句给出了对测试者在测试时的建议：你必须对它保持客观态度。由此可知，D项为正确答案。本段的副标题为 *a grain of salt*，这个副标题译为“一粒盐”。副标题在实际使用中，它常用来表示“对某事保持怀疑态度，不完全相信某事”。但是考生不认识该词组，也可用排除法得出正确答案，文章开头就提到，网上有数百种性格测试。根据常识可知，这些网上的性格测试本身就带有娱乐性质，而且其：很的建议，也太过于严重，要么不采用，故均可排除。

Passage Two

● 题眼 ●

本文节选自The74网站于2023年1月8日发表的一篇文章为“In One Giant Classroom, Four Teachers Manage 135 Kids—and Love It”内文章。这篇文章主要介绍了芝加哥州州长拉希达·汉南特在高中中推行了一种名为“团队教学”的新模式。以应对教师流失和学生人数下降的问题。在这种模式下，老师们不再负责大班教学，通过分工合作，个性化地设计教学方式来提升教学质量和效率。但令研究显示，团队教学不仅有助于提高教师的工作满意度和合作精神，还能增强与学生的互动，从而提高教师士气和留存率。尽管存在挑战，如时间紧张和沟通问题，但新模式整体上取得了积极的成果。

● 全文翻译 ●

135 名学生，四名教师，一个大家庭：这就是芝加哥州最大的学校系统——梅里市斯特伦德高中今年秋的样子。在这里，一种创新的数学模式已初具规模，并且正在向学区的其他学校和其他地区推广。

几年前，梅里市面临教师流失和学生人数下降的问题。斯特伦德高中的领导决定尝试一些不同的做法。他们与伊利诺伊州立大学梅里分校的教授们合作，进行了一种被称为“团队教学”的新模式。这种模式允许教师分担传统上由一个人承担的任务，有意识地减少团队合作。

教师们安排一大群学生——有时多达 100 人或更多——并轮流进行小组教学。一对一干预、小组学习、实践和讨论成为一个团队商定的每天的优先事项。团队有明确的计划实际上是经过精心安排的：每天早上，斯特伦德团队召开全体会议，为团队每天要讨论每个学生制定个性化的教学计划。

通过给予教师更多的合作机会，梅里市的管理层希望填补教师的缺口，提高教师士气和留存率。[42] 初步研究表明，这可能会取得成功。

梅里市公立学校负责人安海·里尔说：“教师们正在做着了不起的事情，但很少有教师会去反思一些问题或者看到发生了什么。[43] 我们的这种教学工作逐步如此进展，从而为我们在低水平工作。”

同时，梅里市这种教学方法并不解决教师们所有问题。比如薪酬低，但来自梅里市的早期调查显示，团队教学可能有助于扭转士气低落的情况。在对梅里市数百名教师的一项调查中，研究人员发现，在团队中工作的教师工作满意度更高，与同事的合作更频繁，与学生的互动更积极。

[54] 教师们说，团队的另一个好处是可以互相帮助，改进教学。在一次计划会议上，梅里市的大多数教师分享了一位同事教师的课程评估，在她的最近一次课程

● 答案详解 ●

51. 从这篇文章中，我们可以推断出作者相信了哪个？

A) 它一般在没有监督的情况下进行。

C) 它优先考虑团队合作，而不是课堂教学。

B) 它允许学生选择他们最喜欢的老师。

D) 尽管看似混乱，但它协调密切。

题干中的关键词是 *team teaching* 也是整篇文章的主题词，作者对其有明确定位。由于本题是主旨题的第二个问题，因此题干上同样可用可理解将答案定位于此短段首次出现的位置，即第二段第二句：并融合在讨论中进行解答。

第二段第二句提到“团队教学”的原来模式允许教师跨越组成年级的界限，前两句之间的转折词中出现了 *while*，同时不是说团队教学在没有任何监督的情况下进行，教师通常与 A、D 选项下划线，即“说明”与“描述”，有作者对团队教学计划实际上是如何进行团队合作，选项 D 是对这句话的同义转述，*closely coordinated* 和 *confidence* 分别对应原文中的 *carefully orchestrated plan* 和 *chance*，故选项 D 为正确答案。其他选项原文未提及，故排除。

52. 关于各种形式的团队教学模式，作者研究发现了什么？

A) 它有助于提高教师的教学。

C) 它可以降低总体成本。

B) 它可能会带来混乱。

D) 它可能只与单一课程匹配。

题干中的关键词是 *initial research* 和 *Watwood's innovative teaching model*，可将答案锁定在第四段。

文章第四段最后一句提到，初步研究表明，这种管理可能会更成功。解答本题的关键在于理解 *pay off* 的含义，*pay off* 在句中作“取得成功；得到好结果”，选项 B 与此表达相反的含义，故为正确答案。选项 A 和 C 在原文中未提及，故排除。选项 D 是种泛泛而谈的选项，作者并未有所讨论。选项中的“团队教学”项为“新课程”，但作者有说这一团队教学模式并非只与单一课程匹配，故排除。

53. 从文中可知，团队教学如何影响教学工作？

A) 它有助于改善教学模式才能提高士气。

C) 由于教师之间缺乏合作，教学水平下降。

B) 教师们太忙了，根本没有时间去听同事们的意见。

D) 教师通常需一学期的事情才能让人痊愈。

题干中的关键词是 *Andi Fowles* 可将答案锁定在第五段。

文章第五段引用了佛罗里达州公立学校前负责人安迪·福尔斯对教学工作的评价。福尔斯指出，教学工作是一项了不起的工作，但很少有教师会关注其他教师的数学情况，正因为教师们孤立地在工作，所以教学工作很艰难。选项 C 是讨论部分内容的概括总结，如 *lack of collective* 是对原文中的 *working in isolation* 的同义转述，故为正确答案。其他三项原文中未提及，故均排除。

54. 作者引用夏莉教师论文，旨在说明团队教学什么？

A) 英语教师和学科教师在完成各自的任务时是互补的。

B) 文科教师利用和教师的教学内容完全不同。

C) 新的教学模式有助于告知教师如何能让他们跨半内容被接受。

D) 团队教学难以评估，因为教师几乎不会知道自己所教的内容。

题干中的关键词是 *Shari's experience* 可将答案锁定在第七、八段。

4. 文章最后一句话证实了知识被证实。霍尔... 文章科技领域内的内容或则证明的。作者核心句子。最后... 为了论证这一观点，霍尔西句表明。团队的一个好处是可以互相利用。文章... 正是为了论证这一观点，被证实C为正确答案。其中how their instructions are recommended to improve their construction的同一转述。其他三项都是对这部分内容的前解，均排除。

55. 作者认为实施知识模式的一个问题是什么？

- A) 如何管理学校工作的教师。 C) 如何为团队招募老队员。
B) 教学计划中知识更新的内容。 D) 如何评估每位教师的表现。

主旨：根据题干信息词difficult problems in implementing the new teaching model可得出答案就定位于最后一段。

主旨：文章最后一句话证实了知识被证实。霍尔... 文章科技领域内的内容或则证明的。作者核心句子。最后... 为了论证这一观点，霍尔西句表明。团队的一个好处是可以互相利用。文章... 正是为了论证这一观点，被证实C为正确答案。其中how their instructions are recommended to improve their construction的同一转述。其他三项都是对这部分内容的前解，均排除。

Traveling in space has always been a dream of the Chinese nation. In 2003, the Shenzhou V spacecraft was successfully launched, making Yang Liwei the first Chinese astronaut to venture into space. In 2008, Shenzhou VII was launched into space, and Zhai Zhigang became the first astronaut in Chinese history to conduct a spacewalk. In 2022, China's aerospace industry has embarked on a "fast track" of innovative development, with steady progress in space infrastructure construction. China's space nation was fully established in 2022. The rapid development of China's aerospace industry has written a brilliant page in the history of the Chinese nation and also made great contributions to the progress of human civilization. In the future, China's exploration of space will take more stable and further steps.

• 译点解析 •

- 第一句：“遨游太空”翻译为travelling in space；“历史”体现的是现在完成时，故翻译时应用现在完成时；“中华民族”翻译为Chinese nation。
- 第二句：本句翻译时可译“神舟五号飞船发射成功”作为从句主句，翻译为the Shenzhou V spacecraft was successfully launched；将“杨利伟成为第一个飞入太空的中国宇航员”翻译成升空发射成功的翻译，翻译为Yang Liwei the first Chinese astronaut to venture into space。
- 第三句：本句与第二句结构相同，为体现句式变化，可译“神舟七号升空”和“翟志刚成为中国历史上首位进行太空行走的宇航员”处理为并列关系。翻译为and连接的两个并列分句，即Zhai Zhigang was the first astronaut in Chinese history to conduct a spacewalk。
