Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Please mark the corresponding letter for each item on Answer Sheet 2 with a single line through the centre. You may not use any of the words in the bank more than once.

In her second year, Chastene Duong learned of the use of poisonous, synthetic pesticides on her college campus. Shocked but not surprised, she knew she had to do something. Along with a couple of classmates, Chastene did a quick web search and discovered a small but growing movement led by the organization, Pesticide-Free Campus (PFC), to rid college campuses of artificial herbicides (杀虫剂). They were 36.

Like many, Chastene experienced climate anxiety (气候焦虑) — a 37 fear of a climate catastrophe — and was, at the time, looking for an 38. When she discovered the PFC movement, she said she felt she “had found a specific area to focus on that still fit into the larger picture of fighting for a healthier, safer climate.” 39 Got it?

Toxic herbicide use on university land use is not unique. Most institutions of higher education rely on synthetic pesticides and fertilizers to achieve 40 goals. Having a “beautiful” campus means green and perfectly maintained lawns along with flower beds and paved sidewalks. But these 41 managed campuses can come at a cost. Increased cancer risk, 42 waterways, poisoned wildlife and human soil.

Pesticide use on college campuses also contributes to our global climate crisis. The use of chemicals to get rid of insects or unwanted plant life can increase soil's 33 as they can include petroleum-based ingredients. Pesticide use also decreases the life in soil, 34 the ability of soil to store carbon or retain water and thus reducing crops' ability to recover quickly from climate-related stresses weather events like droughts and floods.

Instead of using toxic chemicals, students working with HFC help out with 35 the campus grounds.

"This work reminds me to be at the present moment as I play my role in reducing herbicide use and keeping my campus safe and healthy," says Cleburne.

Directions: In this section, you are going to read a passage with six sentences attached to it. Each sentence contains information from one of the paragraphs. Why Your Library Is the Most Important Place in Town

- A) Librarians know the value of their community services, and their patrons appreciate their importance as well. But in an increasingly digital world, we see the role of libraries as community and cultural centers as more undervalued. When shrinking municipal budgets coincide with the ongoing technological revolution, public library services that focus on building communities face-to-face, inspiring and educating patrons about art, literature, and music, and helping patrons engage in civil discourse can seem old-fashioned. But it is precisely these stimulating initiatives and the amount of technologically mediated life that make public libraries' cultural and community offerings more important than ever.
- B) Many people point out the value public libraries bring to their communities. More than just books and loans of computers, libraries are still places where individuals gather to explore, connect, and interact. Some of the specific ways in which libraries add value to our communities and serve as cultural centers for our patrons are community building, centers for the arts, and champions of youth. Libraries serve in these capacities and are more than just about information.
- C) As community builders libraries are engaged in incredible work. From tiny public libraries to large city institutions with multiple branches, libraries across the United States are building community and supporting local culture in exciting ways. These are inspiring and hopefully will encourage librarians interested in community services and cultural outreach to make connections with each other, share ideas, and build partnerships. Supporters of libraries as community builders claim that unless you are out there changing neighborhoods, you are not completing the work you are to do. Strengthening neighborhoods and championing the cultural lives of communities are big responsibilities.
- D) Place-based economic development stresses the importance of offering creative, functional, and community-

hood places, such as libraries, in their spaces and depressed neighborhoods. Like a major department store in a mall, libraries attract large numbers of people, creating economic opportunities for women-owned businesses and organizations in the surrounding area. Large cities, medium-sized ones, and even small towns have successfully transformed their libraries into the hubs (HUBs) of vibrant neighborhoods.

- B) As key municipal agencies, and social points for community education, libraries are major players in creating livable, environmentally friendly cities and towns. The Urban Libraries Council released a report detailing the unique ways in which libraries can further sustainability at the local level. Beyond covering the library construction projects consider environmental impact, libraries can take a lead in supporting local foods and businesses. Like the Peabody Institute Library's partnering with local businesses to planter a farmers' market in their courtyard, or the Richmond Public Library's seed lending library which "sustains locally-adapted plant varieties, and fosters community resilience (with) self-reliance and a culture of sharing."
- F) Archivists preserve historic artifacts, oral histories, digital history projects, and scholarly writings relevant to the community, including minority groups. Communities lucky enough to have archivists have a great advantage when it comes to organizing historical records and artifacts. An organized archive is a place where people can research their ancestry and immigration history, do environmental research, and more. An archivist is an advocate for preservation who, among other things, coordinates the restoration of maps and paintings, the digitization of vital records, and the creation of oral history projects. With projects like the Massachusetts Monuments Road Show and the Veterans History Project, evidence of the importance of archives is everywhere.
- G) In the words of Robert Putnam, "People may go to the library looking mainly for information, but they find each other there." New moms connect at baby story-times; elderly people, often facing difficult life situations, attend events and find that they make new friends; teenagers meet up in libraries' teen spaces after school; and readers discuss current events in the periodicals room. In libraries, community-building ecosystems are happening all the time.
- H) As Keith Richards said, "The public library is the great equalizer." Despite the rising costs of content and theater tickets, public library events (including concerts, author visits, and gallery displays) are often offered free of charge, enabling people of any income level to attend. In addition, library book groups allow people to explore and discuss the literary arts, and the Great Stories Club introduces at-risk youth to literature. The best part: it's all free and open to the public.
- I) In a time when education is increasingly expensive, public libraries provide information and educational opportunities free for all people, regardless of their socio-economic status. Offered by libraries across the country, American Library Association's Let's Talk about It programs are wonderful examples of scholar-facilitated learning opportunities in libraries. In addition, many libraries present classes and discussion programs, and some even provide online continuing education courses such as the Universal Class database.
- J) Librarians know that patrons aren't just information consumers, they're information producers. Patrons use the library to gain knowledge in order to create their own new and independent works. Increasing numbers of libraries provide spaces and services that meet the needs of people who want to learn how to edit Wikipedia, set up blogs or podcasts, create their own magazines, and so much more. Many libraries offer art or writing workshops and groups, and some provide music practice rooms for patrons. Programs like ImaginOn in Charlotte, North Carolina, provide exciting models that take community partnership, creativity, and creativity to a new level.
- K) The decline of civil discourse stems in part from the fact that it is so easy for people to watch news, absorb, buy products from, and engage—in both the virtual and real worlds—only with those of similar backgrounds and ideologies. Public libraries, through such programs as The Human Library and Soconex Café, can help build

small communities of difference that encourage people to interact with and learn from each other through dialogue. By both actively promoting civil discourse through these programs, and modeling and upholding the principles of their inquiry and expression for all, libraries help individuals rediscover the importance of and increasing need for civil discourse in American life.

- 1.) Free tutoring, homework help programs, and summer reading programs for kids and teens help bridge the economic divide that impacts students' academic performance. The cost of hiring a private tutor is well beyond what many library patrons can afford, so libraries offer homework help and tutoring online, by phone, in person, and even through social media and homework apps. Annual summer reading programs also have a positive impact on student performance and, according to a 2010 study conducted by Dominican University's Graduate School of Library and Information Science, students' reading skills get a boost from these popular nationwide events.
- 2.) Through library collections, programs, and physical spaces, children learn to share, to be engaged in their communities, to participate in the arts, and to explore their immediate world and the world at large. There are surely endless examples of innovative library services for children, including the Middle Country Public Library's Nature Explorers, which engages children in learning about the natural world.
- 3.) These examples are just a few of the many amazing things that public libraries around the United States (and the world) are doing to build and maintain strong community connections. We encourage you to try some of these ideas in your own libraries, and we hope that these ideas will help you be better able to convince your community leaders of the important role that public libraries play in communities large and small.
36. People going to the library in search of information can build connections with each other there.
37. According to advocates of libraries as community builders, librarians are not doing their job well if they do not change their communities.
38. With the costs of education continuously rising, public libraries remain places where all people can have access to education.
39. Libraries draw large crowds, thus creating lots of business opportunities in neighboring areas.
40. With the world more and more digitalized, people sometimes underestimate the role of libraries as community and cultural centers.
41. Various programs organized by public libraries for children and adolescents help narrow the gap between students from varying economic backgrounds.
42. In an organized archive, people can do research on their family history and find out how their ancestors came to settle in the new land.
43. Public libraries organize cultural events, often allowing people of different income levels to attend free of charge.
44. Besides being an information provider, the library performs many other important services for the community.
45. Public libraries can help build small communities of people with different backgrounds and ideologies.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the center.

Passage One

Questions 46 to 50 are based on the following passage.

Nationally, one in six children miss 15 or more days of school in a year. Education officials have deplored all this missed instruction.

Those chronically absent students suffer academically because of all the classroom instruction they miss out on. In 2013, the U.S. secretary of education responded to this crisis, urging communities to support every student to attend every day and be successful in school. His open letter stated that missing 10% of school days in a year for any reason—excused or unexcused—is a primary cause of low academic achievement.

Worrying about whether children attend school makes sense. After all, if students don't show up, teachers can't teach them.

But what if America's attendance crisis is about much more than students missing class? What if, instead, it is a reflection of safety and community crises these students face—such as being removed from the family apartment, fearing for their safety in their neighborhood or suffering an illness?

As social scientists we investigated how excused and unexcused absences relate to children's academic achievement.

We find that absences caused by a parent do little to harm children's learning. In fact, children with no unexcused absences—but 35 to 18 excused absences—have test scores equal to their peers who have no absences.

Meanwhile, the average child with even just one unexcused absence does much worse academically than peers with none.

We believe unexcused absence is a strong signal of the many challenges children and families face, including economic and medical hardships. Unexcused absences can be a powerful signal of how these out-of-school challenges affect children's academic progress.

Our evidence suggests unexcused absences are problematic, but for a different reason than people often think. Absence from school, and especially unexcused absences, matters mainly as a signal of many crises children and their families may be facing. It matters less as a cause of lower student achievement due to missed instruction.

How we choose to think of school absences matters for educational policy. School attendance policies typically hold schools and families accountable for the days children miss, regardless of whether they were excused or unexcused absences.

These policies assume that missing school for any reason harms children academically because they are missing classroom instruction. They also assume that schools will be able to effectively intervene by reducing student absences. We find neither to be the case.

As a result, these attendance policies end up disproportionately punishing families dealing with out-of-school crises in their lives and punishing schools who serve them to get students to school more often.

We instead suggest using unexcused absence from school as a signal to channel resources to the children and families who need them most.

46. What does the U.S. secretary of education say in his open letter?

- A) It is of vital importance to respond promptly to the school absence crisis.
- B) The academic performance of chronically absent students is deplorable.
- C) Low academic achievement is mainly attributed to school absences.
- D) The effect of school absences on American education is worrisome.

47. What do the authors find about school absences?

- A) Excused school absences have little impact on children's learning.
- B) There is little difference between unexcused and excused absences.
- C) Excused absences lead to comparatively better school performance.
- D) Unexcused absences are a big challenge to both schools and families.

48. What do the authors believe concerning unexcused school absences?

- A) They are likely to cause a decrease in students' academic achievements due to missed instruction.
- B) They point directly to many of the out-of-school challenges confronting children and their families.
- C) They are matters the American government typically ignores when formulating educational policies.
- D) They give a clear signal to children and their families of the crime they are likely to face in the future.

49. What is the assumption underlying education policies in the U.S.?

- A) Children's academic performance depends on reducing the number of absences.
- B) Schools can boost children's academic performance by effective intervention.
- C) Schools as well as families should be held responsible for out-of-school crimes.
- D) Children's academic performance is closely related to the quality of instruction.

50. What do the authors suggest doing regarding school absences?

- A) Identifying their underlying causes.
- B) Reducing school attendance policies.
- C) Emulating resources in helping needy children.
- D) Pressuring schools to reduce unexcused ones.

Passage Two

Questions 31 to 36 are based on the following passage.

After earning a bachelor's degree, I was determined to do what I love. I headed straight to graduate school to investigate the social problems that bothered me.

For almost a decade, I told everyone I encountered that they should do the same. "Follow your passion," I insisted. "You can figure out the employment stuff later."

It wasn't until I began to research this widely accepted career advice that I understood how problematic it really was.

As a sociologist, I interviewed college students and professional workers to learn what it really meant to pursue their dreams, which I will refer to here as the passion principle. I was stunned by what I found out about this principle in the research for my new book.

Surveys show the American public has long held the passion principle in high regard as a career decision-making priority. And its popularity is even stronger among those facing job instability.

Advocates of the passion principle found it compelling because they believed that following one's passion can provide workers with both the motivation necessary to work hard and a place to find fulfillment.

Yet, what I found is that following one's passion does not necessarily lead to fulfillment, but is one of the most powerful cultural forces perpetuating overwork. I also found that pursuing the pursuit of one's passion helps perpetuate social inequalities due to the fact that not everyone has the same economic resources to allow them to pursue their passion with ease.

While the passion principle is broadly popular, not everyone has the necessary resources to turn their passion into a viable, good-paying job. Passion-seekers from wealthy families are better able to wait until a job they are passionate about comes along without worrying about student loans in the meantime. They are also better situated to take unpaid internships to get their foot in the door while their parents pay their rent. And they often have access to parents' social networks to help them find jobs. Surveys revealed that working-class and first-generation college graduates, regardless of their career field, are more likely than their wealthy peers to end up in low-paying mismatched jobs when they pursue their passion.

Colleges, workplaces and career counselors who promote the "follow your passion" myth for everyone, without leveling the playing field, help perpetuate socioeconomic inequalities among career aspirants.

It's not just well-off passion-seekers who benefit from the passion principle. Employers of passionate workers do, too. Potential employers showed greater interest in passionate applicants in part because they believed the applicants would work hard at their jobs without expecting an increase in pay. They even sacrifice a good salary, job stability and leisure time to work in a job they love.

51. What did the author advise people to do for almost a decade?

- A) Figure out what is the most stimulating job. C) Pursue their careers with passion.
B) Follow widely accepted career counsel. D) Do whatever they are zealous for.

52. How did the author feel about the passion principle through his research?

- A) He was astonished by its consequences. C) He was actually right to follow it through.
B) He was further convinced of its soundness. D) He was struck by its broad popularity.

53. What is important in turning one's passion into a stable, good-paying job?

- A) Willingness to take unpaid internships and low-paying jobs.
B) Full academic preparation and sound career counseling.
C) Hard work and sacrifice of leisure time.
D) Financial backing and social connections.

54. What happens when everyone is encouraged to follow their passion?

- A) Many more career aspirants end up unemployed.
B) People are less concerned with socioeconomic inequality.
C) Socioeconomic inequality is likely to persist.
D) Career counselors are going to lose credibility.

55. What does the author say about employers of passionate workers?

- A) They provide them workers with job stability and a good salary.
B) They exploit these workers' passion to benefit themselves.
C) They level the playing field for these workers to reach their goals.
D) They encourage these workers to realize their aspirations.

Reading Comprehension

(40 minutes)

Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on Answer Sheet 2 with a single line through the centre. You may not use any of the words in the bank more than once.

No land on Earth is tougher than the dry landgrade (硬沙质物). It can ... 26 ... being frozen at -272° Celsius, being exposed to the vacuum of outer space and even being ... 27 ... with 300 times the dose of X-rays that would kill a human. In other words, the creature can endure conditions that don't even exist on Earth. And researchers are looking to the microscopic animals to learn how to prepare humans and crops to handle the ... 28 ... of space travel.

The landgrade's indestructibility stems from its ... 29 ... to its environment, which may seem surprising, since it lives in ... 30 ... comfortable places, like the cool, wet patches of moss (苔藓) that dot a garden walk.

But it turns out that a landgrade's damp, mossy home can dry out many times each year. Drying is pretty ... 31 ... for most living things. It does damage to cells in some of the many ways that freezing, vacuum and radiation do. Landgrades, however, have ... 32 ... special strategies for dealing with these kinds of damage.

As a landgrade dries out, its cells produce several strange proteins that are unlike anything found in other animals. In water, the proteins are shapeless. But as water disappears, the proteins self-assemble into long fibers that fill the cell's ... 33 ... The fibers support the cell's membrane (细胞膜) and proteins, preventing them from breaking or ... 34 ...

Enriching soilgrains could one day help humans colonize outer space. Food crops could be engineered to produce soilgrains proteins, allowing them to grow more efficiently on spacecraft where levels of radiation are elevated compared with on Earth.

So if humans ever succeed in reaching the stars, they may accomplish this 15 in part by standing on the shoulders of the day-legal cabbage specialists in your backyard.

Section II

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on Answer Sheet 2.

Yes, eating meat affects the environment, but cows are not killing the climate

- A) As the scale and impacts of climate change become increasingly alarming, meat is a popular target for action. Advocates for the protection of the natural environment from destruction or pollution urge the public to eat less meat. Some activists have even called for buying meat to reduce contamination of it.
- B) A key claim underlying these arguments holds that globally, meat production generates more greenhouse gases than the entire transportation sector. However, this claim is demonstrably wrong, as I will show. And its persistence has led to false assumptions about the linkage between meat and climate change.
- C) My recent research focuses on ways in which animal agriculture affects air quality and climate change. In my view, there are many reasons for eating less meat, but eating less meat is not the environmental panacea (万灵药) many would have us believe. And if taken to an extreme, it also could have harmful nutritional consequences.
- D) A healthy portion of meat's negative reputation centers on the assertion that livestock is the largest source of greenhouse gases worldwide. For example, an analysis published in 2009 by the World Watch Institute based in Washington, D.C. asserted that 51 percent of global greenhouse gas emissions come from raising and processing livestock. According to the U.S. Environmental Protection Agency, the largest sources of U.S. greenhouse gas emissions in 2016 were electricity production (28 percent of total emissions), transportation (26 percent) and industry (22 percent). All of agriculture accounted for a total of 9 percent, but all of animal agriculture contributes less than half of this amount, representing 3.9 percent of the total greenhouse emissions in the U.S. That is very different from claiming that livestock represents as much as or more than transportation.
- E) Why is there such a misperception? In 2006 the United Nations Food and Agriculture Organization (FAO) published a study titled "Livestock's Long Shadow," which received widespread international attention. It stated that livestock produced a staggering 18 percent of the world's greenhouse gas emissions. The agency

there a startling conclusion that livestock was doing more to harm the climate than all modes of transportation combined. This latter claim was wrong, and has since been corrected by Hamming Sheffield, the report's senior author.

- F) The problem was that analysts from the FAO used a comprehensive life-cycle assessment to study the climate impact of livestock, but a different method when they analyzed transportation. For livestock, they considered every factor associated with producing meat. This included emissions from feedstuff production, converting land from forests to pasture, growing food, and direct emissions from animals (manure as well as expelling of gas from the stomach) from birth to death.
- G) However, when they looked at transportation's carbon footprint, they ignored impacts on the climate from manufacturing vehicle materials and parts, assembling vehicles and maintaining roads, bridges and airports. Instead, they only considered the exhaust smoke emitted by finished cars, trucks, trains and planes. As a result, the FAO's comparison of greenhouse gas emissions from livestock to those from transportation was greatly skewed.
- H) I pointed out this flaw during a speech to fellow scientists in San Francisco on March 23, 2010, which led to a flood of media coverage. To its credit, the FAO immediately owned up to its error. Unfortunately, the agency's initial claim that livestock was responsible for the lion's share of world greenhouse gas emissions had already received wide coverage. To this day, we struggle to "unring" the bell. In its most recent assessment report, the FAO estimated that livestock produces 14.5 percent of global greenhouse gas emissions from human activities. There is no comparable full life-cycle assessment for transportation. However, as Sheffield has pointed out, direct emissions from transportation versus livestock can be compared and amount to 14 versus 5 percent, respectively.
- I) Many people continue to think that avoiding meat as infrequently as once a week will make a significant difference to the climate. But according to one recent study, even if Americans eliminated all animal protein from their diets, they would reduce U.S. greenhouse gas emissions by only 2.6 percent. According to our research at the University of California, Davis, if the practice of *Mediterranean* diets were to be adopted by all Americans, we'd see a reduction of only 0.5 percent.
- J) Moreover, technological, genetic and management changes that have taken place in U.S. agriculture over the past 70 years have made livestock production more efficient and less greenhouse gas-intensive. According to the FAO's statistical database, total direct greenhouse gas emissions from U.S. livestock have declined by 11.3 percent since 1961, while production of livestock meat has more than doubled.
- K) Demand for meat is rising in developing and emerging economies, especially in the Middle East, North Africa and Southeast Asia. For example, raising livestock such as goats in Kenya is an important source of food and income for many small-scale farmers and herders. But meat consumption per person in those regions still lags that of developed countries. In 2013, average annual meat consumption per person in developed countries was 92 kilograms, compared to 74 kilograms in the Middle East and North Africa and 18 kilograms in Southeast Asia. Still, given projected population growth in the developing world, there will certainly be an opportunity for countries such as the United States to bring their sustainable livestock raising practices to the table.
- L) Removing animals from U.S. agriculture would lower national greenhouse gas emissions to a small degree, but it would also make it harder to meet people's nutritional requirements. Many critics of animal agriculture are quick to point out that if farmers raised only plants, they could produce more pounds of food and more calories per pound. But farmers also need many essential micro- and macro-nutrients for good health. It's hard to make a compelling argument that the United States has a calorie deficit, given its high national rates

of adult and child obesity. Moreover, not all piglet parts are edible or desirable. Raising livestock is a way to add nutritional and economic value to plant agriculture.

- M) As one advantage, the ecology is plants that livestock consumes is most often contained in cellulose (纤维素), which is indigestible for humans and many other mammals. But cows, sheep and other ruminant (反刍的) animals can break cellulose down and release the solar energy contained in this vast resource. According to the FAO, as much as 70 percent of all agricultural land globally is range land that can only be utilized as grazing land for ruminant livestock.
- N) The world population is currently projected to reach 9.8 billion by 2050. Feeding this many people will raise serious challenges. Meat is more calorie-dense per serving than vegetables, grains, and ruminant animals largely thrive on feed that is not suitable for humans. Raising livestock also offers much-needed income for small-scale farmers in developing nations. Worldwide, livestock provides a livelihood for 1 billion people.
- O) Climate change demands urgent attention, and the livestock industry has a large overall environmental footprint that affects air, water and land. These, combined with a rapidly rising world population, give us plenty of compelling reasons to continue to work for greater efficiency in animal agriculture. I believe the place to start is with science-based facts.

36. The FAO concluded that farm animals were producing more greenhouse gases than all modes of transportation combined.
37. Consumption of meat per person in developing countries is much less than that in countries like the U.S.
38. The FAO was worried of pain in that it admitted its mistake once it was pointed out.
39. Environmentalists try hard to make people consume less meat to combat climate change.
40. Recent research has shown that even if Americans quit eating meat altogether, the resulting reduction of greenhouse gases in the U.S. would be slight.
41. More than half of the world's farmland is suitable only for animals like cows to graze on.
42. The allegation that farm animals produce the world's largest portion of greenhouse gases is responsible for meat's bad reputation.
43. Raising farm animals makes it easier to meet people's nutritional needs.
44. The author doesn't believe giving up meat and meat products will be a cure-all for the environmental problem.
45. Changes in America's farming technology and management in the past decades have increased efficiency and reduced greenhouse gas emissions in meat production.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the center.

Passage One

Questions 46 to 50 are based on the following passage.

Why are we so worried about our careers? Partly it's to do with money, but there's a psychological aspect to our fears as well.

We worry because we suspect—not wrongly—that the world is full of a frightening sort of people ready to judge us ruthlessly and swiftly: a person we can call a *probs*.

A snob is anyone who takes a relatively small part of or small area of life to come to a rigid conclusion about how much of their attention we deserve. In the past, that might be your ancestry and royal connections. Nowadays, the snob cares about one thing only: what you do for a living.

This explains why the first question we will be asked in any new social context is "What do you do?" and according to how we answer, snobs will either welcome us with broad smiles, or leave us in the cold.

And that is why we are filled up by such a desperate urge to achieve and progress.

Sometimes our behavior is motivated for greed and vanity, but it is more than this. A lot of our interest in money, status, jobs and houses has nothing to do with materialism. It has to do with a hunger for the respect and esteem that is only available in our societies through the acquisition of material goods. It isn't the goods themselves we seek, it is the love we stand to gain through our possession of them. The worst crime we see someone driving a Ferrari, we shouldn't condemn them for their greed, we should pity them for the intensity of their need for love from the world.

All the rest of snobbish is a lack of imagination and confidence about how to decide who in the world is valuable. The snobs are brutally pragmatic and slavish to their beliefs about how the superior individuals can be identified. For snobs, it is the strongly conditioned and already successful who are the only ones worthy of respect. There is no room in their rigid regimented minds to imagine that someone might be clever, kind or good—and yet somehow have been overlooked entirely by society, their qualities lying hidden beneath an unfamiliar veil and having as yet discovered no obvious outlet.

The true answer to snobbish is not to say that there is no such thing as a better or worse person, but to insist that better or worse exist in constantly unexpected places and carry none of the outward signs of distinction. And because we are such poor judges of the worth of others, our ultimate duty remains to be kind, good, curious and imaginative about pretty much everyone who ever crosses our path.

46. What gives rise to our worry about careers apart from money?

- A) Fear of being judged in a snobbish manner.
- B) The prospect of being rank-seeking managers.
- C) The various way employers are often treated.
- D) Fright at the difficulty in finding for a job.

47. What do we learn from the passage about today's snobs?

- A) They try hard to dig into a person's past.
- B) They draw a rigid conclusion about people.
- C) They judge a person by their occupations.
- D) They tend to place people in a social context.

48. What does the author say about people's interest in material goods?

- A) It is the cause for condemnation of their greed.
- B) It has a lot to do with the comforts they provide.
- C) It arouses pity rather than respect from the wealthy.
- D) It arises from their craving for social recognition.

49. What kind of people do snobs deem worthy respect and esteem?

- A) Those with force and fortune.
- B) Those with high-sounding words.
- C) Those with intelligence and imagination.
- D) Those with qualities lying hidden in disguise.

50. What does the author imply we should do to avoid being snobbish?

- A) Be aware there has never been such a thing as a better or worse person.
- B) Be kind and curious about those who we happen to meet in our lives.
- C) Realize that better or worse keeps changing in unexpected ways.
- D) Judge people on the basis of their distinctive character traits.

Future Trends

Questions 51 to 55 are based on the following passage.

Women have historically been paid less. But in the US in the 1980s, they began to catch up—fast. During that decade, the gender pay gap closed by about one percentage point a year. Had that trend continued, the gender wage gap would have been closed by 2017.

But the trend didn't continue, and the gap remains yawning.

According to a new study from academics at Harvard, the stagflation can be put down, perhaps counterintuitively, to the introduction of male and female family leave policies.

The academics agree that during the 1990s, as governments began to implement leave policies, it was mainly women who took advantage of them. Though the leave policies might have helped those women to stay in the workplace—instead of dropping out to have families—those who returned saw their wages had increased at lower rates than the men.

After factory leave was introduced in the IRS, in fact, the rate of gender wage convergence fell to just 0.03 percentage points per year, and has remained there ever since.

Those recommending the program, however, say equity of work have long existed in progress toward in many countries around the world. In fact, that program began to involve during the pandemic (大流行病).

The gender pay gap is one of the most outstanding examples of that lack of parity (平等), and still exists just about everywhere. The motherhood penalty has become a shorthand for describing why, in many places, especially rich countries, women earn far less as soon as they reach their childbearing years. Women who have children have to see their salaries slip behind their male counterparts.

Part of this is because women miss out more of the unpaid labor at home, which can get into little bits available for work and energy for career advancement. But it's also because mothers are pushed over for raises and promotion, and because time out of the workplace sets women back, even if that time is taken voluntarily, and supported by childcare or government policy.

What would have happened if leave policies hadn't been introduced? The study doesn't go into that question, other than to say that, if the 1990s trend continued, we would have been at parity by now.

It's possible, however, that the journey towards wage parity would have stalled either way. If women's gains in the 1990s were made through the success of things like bans, once those less uncontrollable problems had been addressed, there would still have been an issue with women—who are the ones to bear children and take care of them in the early weeks because of biological factors like the ability to breastfeed, forcing shops to take breaks, whether or not those breaks were mandated.

51. What do you know about the gender pay gap in the US during the 1980s?

- A) It was being slowly changed.
B) It was shrinking rapidly.
C) It started to warm.
D) It returned substantial.

12. When compared with the introduction of state and federal family leave policies?

- A) The women's average salary capacity at work began to reverse.
B) The rate of gender wage convergence started to fall suddenly.
C) The trend of women returning to work after childbirth turned.
D) The momentum of the gender pay gap widened more situations.

53. What might account for the dip in women's earnings?

- ii) The occupational categories were used for pay raise and promotion.

- C) The huge amounts of time and energy women spend taking care of the family.
D) The lack of policy support from governmental and business corporations.

54. What does the new study say about wage parity?

- A) It would have stalled if these occupational problems had not been addressed.
B) It would have halted if employers and governments had not worked together.
C) It would have been achieved with the complete removal of gender bias.
D) It would have been attained with the passage of the 1986 law.

55. What prevents women from achieving parity with men in the field of science?

- A) Ignoring biases against women in the workplace. C) Failing to mandate breaks for childbirth and care.
B) Giving birth to children and taking care of them. D) Lacking resources to address biological problems.

The slow progress of women in elective office is troubling for some political observers and experts—including myself. Achieving gender equality in Congress is an important goal. This is because the number of women involved in legislative decisions has significant 26 for all the policies that governments 27. Female legislators are more likely than men to introduce, speak about and work to pass policies that disproportionately affect women and girls, such as paid family leave, pay 28 and gender-based violence.

Having more women in Congress also fosters a greater sense of connection between female voters and government. In addition, it 29 women's sense that government cares about their concerns and invites young women to become more politically engaged.

While women are underrepresented in governments around the globe, it is a particularly 30 problem in the United States. Currently, the U.S. ranks 73rd in the world when it comes to female representation in government.

But the reason women are so 31 underrepresented in U.S. government is not because they face resistance from voters or struggle to raise money. On the contrary, decades of research shows that female candidates raise as much money and win as often as male politicians with similar 32.

Rather, the slow progress of women in politics is a tale of two political parties.

In the next Congress, there will be 107 female Democratic lawmakers and 42 female Republican lawmakers in the Senate and House combined.

In order for women to gain half of the seats in Congress, more women need to run, 33 on Republican tickets. This will require the Republican Party as a whole to 34 recruiting women—and not just for one election cycle, but in a 35 way.

The Benefits of Solitude

- A) I can be a reluctant socialite. I'm sometimes secretly pleased when social plans are called off. I get restless a few hours into a banquet. I even once went on a five 10-day silent meditation (冥想) retreat—not for the meditation, but for the silence.
- B) So I can relate to author Anneal Ruelle, who wrote in *Party of One: The Lonely Manifesto*. "When parents on TV shows punished their kids by ordering them to go to their rooms, I was confused. I loved my room. Being there helped a locked door was a dream. To not a participant was being ordered to play games with my cousin Louis."
- C) Unsocial tendencies like these are often, for them ideal. Abundant research shows the benefits of social isolation, considered a serious public health problem in countries that have rapidly ageing populations (though talk of a 'loneliness epidemic' may be exaggerated). In the UK, the Royal College of General Practitioners says that loneliness has the same risk level for premature death as diabetes. Strong social connections are important for cognitive functioning, motor function and a smoothly running immune system.
- D) This is especially clear from cases of extreme social isolation. Examples of people kept in captivity, children kept isolated in abusive orphanages, and prisoners kept in solitary confinement all show how prolonged solitude can lead to hallucinations (幻觉) and other forms of mental instability.
- E) But there are severe and involuntary cases of loneliness. For those of us who just prefer plenty of alone time, emerging research suggests some good news: there are upsides to being alone—for health, our work lives and our emotional well-being.
- F) Solitude is a time for reflection. For thinking about things more deeply. In a world increasingly focused on speed and competitiveness, solitude is precious and something to be treasured. And there are benefits in learning to love your solitude.
- G) One key benefit of solitude is improved creativity. Gregory Feist, who focuses on the psychology of creativity at California's San Jose State University, has defined creativity as thinking or acting with two key elements: originality and usefulness. He has found that personality traits commonly associated with creativity are openness (openness to new thoughts and experiences), self-confidence, and autonomy—which may include "a lack of concern for social norms" and "a preference for being alone". In fact, Feist's research on both artists and scientists shows that one of the most prominent features of creative folks is their lesser interest in socialising.
- H) One reason for this is that such people are likely to spend sustained time alone working on their craft. Plus, Feist says, many artists "are trying to make sense of their internal world and a lot of internal personal experiences that they're trying to give expression and meaning to through their art." Solitude allows for the reflection and observation necessary for that creative process.

- D) A recent justification of these ideas comes from University at Buffalo psychologist Julie Bowler, who researches social withdrawal. Social withdrawal is usually categorized into three types: *daytime* caused by fear or anxiety, *avoidance*, from a dislike of socializing, and *un sociability*, from a preference for solitude. A paper by Bowler and her colleagues was the first to show that a type of social withdrawal could have a positive effect—they found that creativity was linked specifically to *un sociability*. They also found that *un sociability* had no correlation with aggression (*daytime* and *avoidance* did). This was significant because while previous research had suggested that *un sociability* might be harmful, Bowler and colleagues' paper showed that it could actually be beneficial. Un sociable people are likely to be "having just enough interaction," Bowler says. "They have a preference for being alone, but they also don't mind being with others."
- E) Still, it turns out that solitude is important for more than creativity. It's commonly believed that *leaders* need to be sociable. But this depends, among other things, on the personalities of their employees. One 2011 study showed that in branches of a pizza chain where employees were more passive, outgoing bosses were associated with higher profits. But in branches where employees were more active, *introverted* (内向的) leaders were more effective. One reason for this is that introverted people are less likely to feel threatened by strong personalities and suggestions. They're also more likely to listen.
- F) Since ancient times, meanwhile, people have been aware of a link between isolation and mental focus. After all, cultures with traditions of religious *asceticism* (苦行) believe that solitude is important for enlightenment. Recent research has given us a better understanding of why. One benefit of *un sociability* is the brain's *default mode* of active mental rest, which goes hand-in-hand with the *willness* of being alone. When another person is present, your brain can't help but pay some attention. This can be a positive distraction. But it's still a distraction.
- G) Daydreaming in the absence of such distractions activates the brain's *default-mode* network. Among other functions, this network helps to coordinate memory and understand other's emotions. Giving free rein to a wandering mind not only helps with focus in the long term but strengthens your sense of both yourself and others. Paradoxically, therefore, periods of solitude actually help when it comes time to *sociate* once more. And the occasional absence of focus ultimately helps concentration in the long run.
- H) A more recent advocate of thoughtful and productive solitude is Susan Cain, author of *Quiet: The Power of Introverts in a World That Can't Stop Talking* and founder of Quiet Revolution, a company that promotes quiet and introvert-friendly workplaces. "These days, we tend to believe that creativity emerges from a decidedly unsolitary socializing process, but in fact it requires sustained attention and deep focus," she says. "Also, humans are such inherently social beings that when we surround ourselves with others, we automatically take in their opinions and sentiments. To truly chart our own path or vision, we have to be willing to isolate ourselves, at least for some period of time."
- I) Still, the line between useful solitude and dangerous isolation can be blurry. "Almost anything can be adaptive and maladaptive, depending on how extreme they get," Peist says. A disaster has to do with dysfunction. If someone avoids caring about people and cuts off all contact, this could point to an irrational neglect of social relations. But *un sociability* is a far cry from this. In fact, Peist says, "there's a real danger with people who are never alone." It's hard to examine one's own thoughts, feelings and motives, to be self-aware, and fully relaxed unless you have occasional solitude. In addition, introverts tend to have firmer but stronger friendships—which has been linked to greater happiness.
- J) As with many things, quality reigns over quantity. Nurturing a few solid relationships without forcing the need to constantly populate your life with chaotic chattering ultimately may be better for you.
- K) Thus, if your personality tends toward *un sociability*, you shouldn't feel the need to change. Of course, this comes with qualifications. But as long as you have regular social contact, you are choosing solitude rather than being forced into it, you have at least a few good friends and your solitude is good for your well-being or productivity, there's no point agonizing over how to fit a square personality into a round hole.

36. Lots of research demonstrates that being socially isolated is harmful to the elderly.

37. Being alone enables artists to think and observe, which is a must for their creation.

39. To one writer, being forced to play with others was a penalty while being kept alone in a room was quite a pleasure.
39. Recent research shows for the first time that there is a specific link between being creative and being crampable.
40. We must be willing to stay alone at least for some time in order to plot our own course.
41. According to new research, for people who prefer being alone, solitude can be beneficial to their work lives and emotional health.
42. It may turn out to be better for one to cultivate a few steady relationships than to busy themselves socializing.
43. Allowing your mind to wander freely is conducive to sharpening your focus in the long run.
44. Research conducted on artists and scientists indicates that creative people are less interested in hanging out with others.
45. According to Felst, you will have difficulty knowing yourself if you do not stay alone occasionally.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished sentences. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the centre.

Passage One

Questions 46 to 50 are based on the following passage.

Simulators are more often utilized within industries such as nuclear power, aviation and surgery where failure results in disastrous consequences. To maximize the value from a simulation learning experience, participants should immediately and directly apply their learning to a specific intervention within their organization.

Most organizations aspire to deploy significant change programs, only to find them nearly impossible to implement. That is largely because successful change requires more than a vision. It requires a workforce that not only doesn't resist change, but embraces it.

To achieve success, an organization must build a transformation program that will allow change to be rapidly rolled across its departments and throughout its layers. Regardless of the level of senior management commitment, unless key thought leaders at all levels embrace the change, the initiative will wither and die. To create that kind of widespread passion, learning leaders must expose the workforce to what could be, which will enable them to rethink their mental models, enable them to break free from their deep-rooted paradigms and embrace the opportunity to learn.

Allowing participants to enter a simulated environment provides them with the opportunity to experience alternative realities which can prompt them to rethink their current beliefs.

Behavioral change is not easy for most adults. Lectures, training programs and workshops can explain the intellectual tenets of transformation, but they are seldom effective at getting to the behavioral aspects that lie at the heart of a significant change initiative. Further, under normal working conditions, managers rarely see the full effect of their employee development efforts. As such, an intervention like a simulation can provide the stimulus for change.

An effective simulation can be better than experience as a learning tool because it accelerates time, compresses space, and unlike reality, is specifically designed to maximize participant learning. Simulations provide an immersive learning experience where skills, processes and knowledge all can be highlighted in a way reality cannot. The ability to explore, experiment and repeatedly apply new knowledge is unlimited, risk-free mode in which much accelerated use of the most productive forms of learning.

Well-designed simulations can enable individuals and groups to develop a deep level of understanding about how their decisions and attitude responses to business stimuli affect their fellow participants and the organization as a whole. To reap the benefits, however, simulations must feel like reality. At the end of the successful simulation, participants must declare "this is us." If they don't, they will view the experience as a game, which can be difficult to apply on the job, or worse, irrelevant to everyday work tasks. To maximize

benefits from simulation, participants should immediately apply the learning from the experience to forge a smooth link between learning and doing.

46. What do we learn about successful changes in organizations?

- A) They can be immediately implemented with great ease.
- B) They are usually led by organizational leaders of vision.
- C) They call for enthusiastic support from the workforce.
- D) They often result from simulation learning experiences.

47. What should learning leaders do to ensure learners' passion for change?

- A) Allow them to see what could possibly be achieved
- B) Help them break free from their old paradigms.
- C) Encourage them to rethink their thought models.
- D) Stimulate them to embrace fresh opportunities.

48. What does the passage say about learning, training programs and workshops?

Passage Two

Questions 51 to 55 are based on the following passage.

GDP growth is not a good indicator of how well a country is performing, and should not be the primary goal of governments. Unlimited growth is not sustainable, and economic thinking is moving toward the idea that we should aim for sustainability in our economic models. But while a sustainable economy is vital to our future, it is a never-to-an-end, not an end in itself.

The idea that governments should focus on happiness has its critics. There are concerns about how happiness can be measured, if happiness has a lasting and subjective psychological state? Don't different people experience different levels of happiness? Even on the broadest interpretation of 'happiness' as prosperity or 'life satisfaction', people want different things.

Of course, governments cannot ignore life satisfaction of citizens. But our happiness relies on collaborative efforts as a society. A government's obligation lies in creating conditions that promote prosperity. And there is good reason to suppose that such conditions exist, are globally applicable, and are discoverable through research.

In a recently published article, philosopher Julian Hoggini suggests we should focus on 'real wealth' for citizens, which does not depend on GDP growth. Access is key: people do not need to own, but rather access things that enable them to live well. Technological advances and changes in social behavior enable us to make more efficient use of the assets that we already have. And focusing on access to the resources people need to live better lives could help reduce inequality.

As far as it goes, this has much in common with proposals called by 'happiness' advocates. But it sets the bar too low for what governments can and should be doing for their citizens.

For example, it's not clear how a 'real wealth' economy would remedy the epidemic of mental ill-health that plagues our society. In Western countries, at least—poor mental health is more detrimental to well-being than

poverty. Over and above a vastly improved provision of therapeutic mental healthcare, there are preventative measures for improving mental health that governments could and should adopt. The WHO recommends establishing institutions that facilitate community participation, educational programs and interventions that provide skills for promoting mental wellbeing. It says a lot, however, that the WHO feels the need to appeal to the economic benefits of improving mental health to persuade governments that the cost of taking proposed measures is justified. As long as the economy is their priority, governments need go no further than ensuring citizens' continued productivity.

To demand that governments set the 'happiness' of citizens as their highest priority is to demand that they view citizens as ends in themselves.

51. What does the passage say is the more recent thinking of economic growth?
 - A) It should be made sustainable.
 - B) It is vital to the future of humanity.
 - C) It should be governments' chief concern.
 - D) It is an indicator of governments' performance.
52. Why are some people opposed to the idea that governments should focus on happiness?
 - A) Governments cannot impose happiness on citizens.
 - B) Happiness means different things to different people.
 - C) People's happiness is built upon their own endeavor.
 - D) Happiness depends on sustainable economic growth.
53. What does philosopher Julian Nida-Rümelin suggest governments do in a recently published article?
 - A) Try to reduce inequality between the rich and the poor.
 - B) Provide people with access to resources for a better life.
 - C) Change people's behaviors to put social wealth to better use.
 - D) Make use of advanced technologies to improve people's lives.
54. Why does the WHO feel the need to appeal to the economic benefits of improving mental health to justify its recommendations?
 - A) Mental health programs cannot be conducted without GDP growth.
 - B) Psychological interventions are conducive to people's wellbeing.
 - C) Poor mental health is detrimental to a nation's economic system.
 - D) Governments will take economic development as their priority.
55. What message does the author try to convey at the end of the passage?
 - A) Governments' goal should be prosperity-driven.
 - B) Governments' goal should be people-oriented.
 - C) Governments should consider citizens' views in decision-making.
 - D) Governments should set sustained productivity as their top priority.

As requirements for job applications are getting increasingly higher, college students ought to be better prepared for their future career. In today's competitive job market, being proactive and well-mannered is crucial for success. College students must get well-prepared to meet the employers' demands.

On one hand, academic performance still matters a lot. Students should strive to achieve high grades and deepen the understanding of their chosen fields. This can help build a solid foundation of knowledge. On the other hand, it is indispensable to gain practical experience. For example, internships and part-time jobs can help students apply theoretical knowledge to practical settings. If students go to work in a company on holidays, they will get hands-on experience. Additionally, developing soft skills such as communication, teamwork, and adaptability is crucial. These skills are highly sought after by employers and can make a significant difference in job interviews.²

In summary, college students need to prepare for their future careers in many ways. By doing well in school, gaining practical experience, and developing important skills, they can make themselves more competitive and ready for the future career.³

M: Maybe? I work for Alpha Electronics. I imagine someone from your office called our central office and I'm the engineer designated to your case.

W: [1] Yes, I spoke to a lady there last Tuesday, which is now 10 days ago. I made a clear report on my system status and please send someone as soon as possible. Couldn't you or someone else have come around?

M: I understand, and I'm sorry for any inconvenience. I will try to resolve your computer problem as quickly and optimally as I can. What and where is the issue?

W: It's this machine right here. It was running slow for a while, I guess, and gradually got worse and worse. Last Tuesday, it just stopped working altogether. If you watch it on, you will see what I mean.

M: Okay. [4] Do you know if it's backed up?

W: Backed up?

M: I mean, do you know if its contents have been copied and saved somewhere else?

W: I don't know.

M: Well, depending on the existing operating scenario, if I need to wipe the system directories clean in order to reconfigure default protocols, then my first intervention should be to completely restore all information that I can. Otherwise, all data that was stored on its hard drive will be forever lost.

W: [5] My manager would know. Let me go get him.

Passage One

● 听力原文

When a person tries to access a memory, their brains quickly scan for everything stored in it to find the relevant information. But as we age, many of us have difficulty retrieving memories.

But in a review published in the journal *Trends in Cognitive Sciences* on February 11th, researchers propose an explanation for why this might be happening: the brains of older adults allocate more space to accumulated knowledge and have more material to navigate when attempting to access responses. While that wealth of prior knowledge can make memory retrieval challenging, the researchers say it has its upsides—the life experience can aid with reasoning and decision-making.

But researchers Tarek Amor, Jordana Wyne and Lynn Hasher looked at several behavioral and brain imaging studies, which show that older adults have difficulty suppressing information that is no longer relevant and that when searching for a specific memory, they often retrieve other, irrelevant memories along with it. The studies also showed that when given a cognitive task, older adults rely more heavily on previous knowledge than younger adults do.

While the researchers focus primarily on the difficulties that these quantities, accumulated knowledge may pose, they also highlight a few situations in which those same memory patterns may be useful. “[I]f evidence suggests that older adults show preserved, and at times enhanced, creativity as a function of enriched experience,” the researchers write. They further hypothesize that older adults may be well served by their prior knowledge when it comes to decision-making, where they can pull on their accumulated wisdom.

● 答案详解 ●

9. What did the researchers do in their review in the journal *Trends in Cognitive Sciences*?

研究人员在《认知科学趋势》杂志的评论中做了什么?

- A) 他们研究了个人先前知识与创造力之间的关系。
- B) 他们得出了随着年龄增长人的记忆老化的新结论。
- C) 他们将老年人记忆检索困难的问题归因于一种疾病。
- D) 他们得出了一个关于人类如何存储和处理信息的模型。

文章开头部分提到, 有个人试图提取、回忆时, 大脑会快速检索存储的所有信息以提取相关内容。但随着我们年龄的增长, 我们中的许多人会面临记忆检索困难的问题。而这篇文章就探讨了发表在《认知科学趋势》杂志中的一篇评论, 这篇评论将研究人员对此提出了一些新的、不同的结论。选项A是对这部分内容的总结概括, 选项中的 *preposed an explanation of difficulty in retrieving memories* 几乎就是文章中的原词。故为正确选项。

10. What do several behavioral and brain imaging studies show? 多项行为和脑成像研究显示了什么?

- A) 年轻人提取记忆, 而老年人则难以记忆来理解自己。
- B) 老年人在提取目标记忆时, 大脑会同时检索出不相关的记忆。
- C) 年轻人提取知识的速度比老年人快得多。
- D) 老年人完成认知任务的难度通常比年轻人快得多。

文章中间部分提到, 一些研究人员分析了多项行为和脑成像研究, 这些研究表明, 老年人提取记忆不再相关地物品, 而只在提取一特定记忆时, 他们的大脑会同时检索出其他不相关的记忆。选项B是对这部分内容的总结概括。故为正确选项。

11. What does evidence suggest regarding older adults? 关于老年人, 证据表明了什么?

- A) 他们的创造力得以保持, 有时会有所增强。 C) 在紧急情况下, 他们可以取得明智的智识。
- B) 他们的背景知识无碍, “隔行”的记忆。 D) 忘记先前知识可能对他们有好处。

文章最后提到, 证据表明, 老年人的创造力得以保持, 有时会增加。这归功于他们丰富的记忆。选项A是对这部分内容的同义转述, 选项中的 *maintains* 是文中 *is maintained* 的同义转述, 故为正确选项。选项B原文虽有提及, 但不明显能说明的情况; 选项C中“在紧急情况下”这一条件与原文不符。选项D与原文更是相悖。故均排除。

Passage Two

● 听力原文 ●

There are at least four major problems with work in American today.

First, work can be alienating. [12] Workers are often not in control of how they work, when they work, what is done with the goods and services they produce, and what is done with the profits made from their work.

Second, workers are not paid the full value of their labor. Real wages have not kept pace with productivity, driving economic inequality and a decline in labor's share of income.

Third, people are time poor. In the U.S., full-time employees work an average of 8.72 hours per day despite productivity increases. [13] Long working hours contribute to the facing of "time poverty", which has an adverse effect on psychological well-being.

Fourth, [14] automation puts jobs and wages at risk. Technological innovation could liberate people from the 40-hour workweek. But unless changes are made to the structure of work, automation will simply exert downward pressure on wages and further diminish work opportunities.

So, what can be done to alleviate these problems? There are competing visions of the best way to achieve a solution. One vision is what's known as the "post-work" position. [15] The post-work theorists believe that work should not hold a central position in our lives or take up so much of our time. They assert that although doing some

work might be necessary, meaning, purpose and social value reside in the conversation and relationships built and sustained outside of the workplace. [14] Thus, life should be seen as an end in itself.

● 答案详解 ●

12. What do we learn about American workers from the passage? 从文中我们了解到美国劳动者有什么情况?

- A) 他们实际上为只生产的产品和服务感到自豪。 C) 他们很少能掌控与工作相关的许多事情。
B) 他们担心与外界隔绝。 D) 他们渴望分享只工作所创造的快乐。

13. 文章在介绍美国工作存在的四个主要问题的第一个时提到, 劳动者往往无法掌控自己的工作方式、工作时间、自己生产的产品和服务的用途, 以及从工作中创造的利益去向, 选项C是相对应的话题。选项中的hardly in control of是文中not in control of的语义转述, 故C项正确。文中未提及美国工人对自己处境的态度, 其他三项中的“自豪”“担心”有“炫耀”都属于无中生有。故A、B、D项均排除。

13. What does the passage say long working hours contribute to? 文章说长时间的工作会导致什么?

- A) 生产力的稳步下降。 C) 对时间匮乏的感受。
B) 对身体健康产生不利影响。 D) 经济不平等加剧。

14. 文章中间部分提到了美国工作存在的四个主要问题的第三个, 即时间匮乏。其中提到, 长时间工作加剧了“时间匮乏”的感受, 这种心理加剧产生了不良影响。因此, 选项C正确。同时选项B错误。选项A与文章相反, 故排除; 选项D提及美国工人经济不平等加剧的问题, 但这是在讨论工资增长未能跟上生产率增长时提到的, 而不是长时间工作导致的结果, 故排除D项。

14. What does optionism do, according to the passage? 根据文章内容, 它使人们做了什么?

- A) 它改变了工作结构。 C) 它使人们从繁重和繁重的工作中解脱出来。
B) 它使工作和工作面临风险。 D) 它在某种程度上削弱了新的工作机会。

15. 文章在谈及美国工作存在的四个主要问题的第二个时, 开门见山地指出, 自动化就是和薪资面临风险。因此, 选项B正确。文章提到“除非改变工作结构”, 说明自动化并未改变工作结构, A项错误; 文中仅说技术创新“理论上”可能让人们更轻松, 而不是实际如此, C项错误; D项原文未提及, 故排除。

15. What do post-work theorists advocate? 后工作理论者主要主张什么?

- A) 在工作中寻找意义。 C) 改善社区中的人际关系。
B) 优先考虑生活和工作。 D) 在工作场所实现个人的社会价值。

16. 文章最后提到后工作理论者的观点, 即工作不应该是我们生活的核心位置, 也不应占据我们太多的时间, 方以为生活本身应该被视作目标。选项B是对这部分内容的总结概括。故为正确答案。选项A、D与后工作理论者的观点相反, 故排除; 后工作理论者认为“意义、目标和价值存在于工作场所之外建立和维系社区和人际关系中”, 但这并不否认工作场所的核心位置, 他们更强调的是生活本身的重要性, 而不是单纯地改善社区中的人际关系, 故排除C项。

Recent studies show that self-control and persistence increase academic outcomes, independent of IQ. [16] Five-year-old children believe about effort and effort academic outcomes. Children who think effort leads to achievement outperform those who believe ability is a fixed trait. Given the link between persistence and academic success, decisions about effort are particularly important in childhood.

Yet, relatively little research has explored how young children learn what's worth the effort. We all know that infants are keen observers of the social world, but they're not just idly watching; they are busy learning machines. They can glean such abstract concepts as causal relationships and social roles from just a few examples. Even a 12-month-old can use information to high-level computers in such tasks. Could infants also route broad generalizable

inference from a few examples when it comes to effort? If so, does staying persistent isn't simply a character trait. Maybe it's flexible and adaptable based on some events.

To explore this question, we observed 13-month-old babies out of two groups—an experimenter working hard to achieve two different goals, or an experimenter who effortlessly reached each goal. Then we introduced the baby to a novel music toy that seemed as if it could be activated by pushing a big button on top. The button could be pressed down, but didn't actually activate anything. [11] Out of sight of the babies, we turned on the music toy with a hidden button so that they heard the toy making sound. We gave the babies the music toy and left the room. Then analysts who didn't know which condition each baby was in, watched video tapes of the experiment and counted how many times babies tried to activate the toy by pressing the button.

Across one study and a pre-registered duplicated, babies who had seen an adult persist and succeed push the button about twice as many times as those who saw an adult effortlessly succeed. In other words, babies learned that effort was valuable after watching just two examples of an agent working hard and succeeding. [12] Part of what's exciting about this finding is that the babies didn't just imitate the adult's actions. Instead, they generalized the value of effort to a novel task. The experimenter never demonstrated pushing a button or trying to make music. [13] Instead, the babies learned from different examples of effortful actions that the new toy probably also required persistence.

● 答案解析 ●

16. What does the speaker say about our personal beliefs about effort can do?

讲话者说，甚至我们关于努力的个人信念也能做什么？

A) 影响我们对新任务的看法。

C) 在重复性上用过自如。

B) 让我们在社会世界中感到困惑。

D) 影响学业成绩。

解析：首句开头，讲话者能推断，甚至我们关于努力的个人信念也会影响学业成绩。由此便可排除A和D两个选项。

17. How did the researchers turn on the music toy in their experiment?

研究人员在他们的实验中是如何打开音乐玩具的？

A) 通过按一个隐藏按钮。

C) 通过同时按两个按钮。

B) 通过按压顶部大按钮。

D) 通过按压婴儿玩具的按钮。

解析：讲话者在提到音乐玩具时说到，它似乎可以通过顶部按钮的一个大按钮来启动。把这个按钮按下后，其声音不会由顶部发出。在婴儿看不见的地方，她们用一个隐藏的按钮打开了音乐玩具。由此可知，选项A为正确答案。

18. What could the infants do in the experiment according to the speaker?

根据讲话者所说，婴儿在实验中能做什么？

A) 只观察成年人的行为，判断或完成困难的任务。

C) 用自己毫不不同的社会经验。

B) 从几个例子中推断努力的价值。

D) 努力与实验人员互动。

解析：讲话者在讲话时讲述了婴儿在实验中的表现及实验的暗示有何发现。讲话者先说，看到成年早期努力并成功的孩子按下按钮的按钮大约是有成年早期成功的孩子的两倍，即婴儿观察了两个成年人努力并成功的特写镜头，学会了努力是有价值的。因此可以推断，婴儿并不是仅仅模仿成年人的动作，而是将努力的价值推广到了一个新的任务中。其次，讲话者早在讲话中就已经提到了 generalizable information 这个关键词，实验结果也证实表明，婴儿可以推断，由此可知，选项B为正确答案。

If chronic illness has taken over your life and turned you a defining trait of who you are, it's likely that you're losing out on job offers, recreational opportunities, friendships, and more. [14] If you are showing up late to your own

ally, get organized, prioritize productivity, and address any underlying issues.

When you have to be somewhere, try to arrive 15 to 30 minutes before you need to. If you always run late, that means you start to feel the pressure to do something you always do. Anticipate that by giving yourself extra time to arrive. Keep track of whether or not you actually do arrive early. You might find that leaving early gets you to places empty on time.

Set two alarms. For one alarm that lets you know it's time to drop what you're doing and a second alarm that means you need to walk out the door. Obey the alarms. At 9:00, as the first alarm goes off, stop what you're doing. If it's something you'll be coming back to, like a project for work, make a note to remind yourself where you left off. Grab everything you need and make sure you know how to get where you're going. Turn to be out the door and on your way before the second alarm rings. This will only work if you take the alarms seriously, so make sure you meet at 9:00 as you have them.

Prepare for the day ahead. Have all of your notes and materials organized well in advance of each essay, so that all you have to do is grab them and go when it's the second day. [20] If mornings are a struggle for you, do as much as you can to ready yourself the night before. Getting you go to bed, lay out your clothes and pack your bag for the next day.

[21] Learn to leave gaps in between tasks and meetings. It soon becomes unbearable to shift between one meeting and another without space in between. If you overcommit to yourself, however, you'll arrive late as soon as you fill a gap. As well as giving you space, this time also acts as a buffer between events, which can be borrowed from, should you be held up in a prior meeting, allowing you to still get to the next one on time. Calculate transit time between activities and then add 10 to 30 minutes for unexpected delays.

19. What is the speaker's purpose of giving this talk? 讲话者是来传达演讲的目的是什么?

- A) 提供充分的时间间隔的建议。 C) 提醒个人的紧迫性程度。
B) 说明说明各种休闲机会。 D) 提出设置优先事项的方决。

讲话者通过提醒听众 listeners 今天晚课展开。由此提醒其紧迫性。选项A为正确答案。虽然 recreational opportunities, defining 演讲中也有休闲主题的情况。但是是讲话中的细节，并非讲话者来传达演讲的目的。而 setting priorities 则是基于 priority 的主题推断。均可直接排除。

20. What should you do if mornings are a struggle for you? 如果觉得早晨手忙脚乱，应该怎么办?

- A) 让早晨更早。
B) 晚睡晚起。
C) 在早课时分做好准备。
D) 前一天晚上做好准备。

21. According to the speaker, what can we do to combat unexpected delays? 根据讲话者所述，我们可以做什么来应对意外延误?

- A) 提前30分钟完成之前的任务。
B) 避免遇到意外情况。

D) 尽量避免可能的延误。

Do you think Bostonians get on the sidewalks more? Do you find other cities to be more or less polite? [22] Different cities have different rules for visitors. Some are friendly and open, while are formal and distant. Boston tends to seem friendly and sometimes a little rude. That's what some tourists have told. [23] One study found that people in New York City are less willing to volunteer to help strangers than those residents of other U.S. cities. Tell a class what you think you're in Boston, and here are some of the things you'll probably see people smoking in the subway system despite the frequent warnings not to do so; pedestrians walking where the crosswalk lights say not to do so, ignoring the car; car drivers speeding, making a loud noise with the horn and occasionally running up each other. Drivers often don't be bothered in find a place to park, but instead simply stop on their bumper and step in the middle of the street.

Somerville Bloomington seems like they're just too busy to be polite. Why is their city like that? Former U.S. representative Chester Atkins says it's because the former founding fathers were themselves impatient and hot-tempered, and had little time for courtesy. That culture has carried down to the present day, he believes. Bloomington College professor Thomas O'Connor thinks a contributing factor is Benton's history as a city where each new group of immigrants was received with suspicion and acrimony. That's given Bloom a sense of chauvinism and reserve, he thinks. But the idea of a stranger greeting another stranger is simply not part of the local culture, he says. People will begin a conversation with someone they know, but not with a stranger. Ralph Whitchell, a professor of journalism at the University of Mississippi in Amherst, thinks it's because Bloom's upper class used measures to make class distinctions. He believes politicians and bankers, from Bloomington made other people afraid of courtesy, he says.

Some say that's just the way London is and that the city will never change. Still, other cities with regulations for major railroads are trying hard to change their ways. (23) Paris is one example where people are trying to be friendly. New York City is another. There, the city is trying to persuade subway riders to be more considerate. If those cities can make the effort, maybe Boston should as well.

· 概要 ·

本文节选自网站 www.ssbwz.com 于2022年7月20日发布的一篇文章。文章中的大学与夏威如人“无天革命性团”组织, 反对使用有毒农药。传统校园维护植物作为药材, 损害健康和生态, 还会加剧气候变化。该团鼓励学人工除草, 提倡环保, 更认为这既能减少农药使用, 又能为环境保护贡献力量。

· 全文翻译 ·

大二那年, 夏威同学知道大学校园在使用有毒的杀虫剂, 她很震惊, 但并不感到意外。她意识到自己该做些什么。夏威和几个同学一起在网上进行了快速搜索, 发现了一个由“无天革命性团”组织主导的论坛且小组在日益壮大的高校, 该论坛旨在让人学校园不再使用人造农药。此时他们[24]很感兴趣。

聊了片刻, 夏威感受到焦虑的原因是——那是一种对气候灾难的长期恐惧——当时她正去寻找这种糟糕的[25]重要方式。当她发现该论坛时, 她说她感觉自己“找到了一个既能融入身边同学, 又安全、更清洁[26]环保的宏大理想。从她专往联系的网站领域”。

大学校园维护中使用百草枯等剧毒的除草剂曾是个问题, 多数高等教育机构应联合起来让用和化农药实现可持续发展目标。所谓“无天”校园会种植自然且用保护用完全无天的草坪, 还有花园与植被等齐的人行道。但这种[27]传统的校园管理方式代价高昂: 除草剂价格上涨, 本应以向历史、野生植物和中等昆虫展示其多样性。

大学校园使用杀虫剂会加剧全球气候危机, 使用化学的剂来杀虫或除草时会增加碳排放。因为它们可能含有石油成分, 使用杀虫剂还会减少土壤中的生物。除草剂还土壤面蒸发的氧气。从那时起便从除草, 成本等与气候相关的重大天气事件中遭遇恢复的难度。

参与“无天革命性团”运动的学[28]生, 打不用有毒化学药品而选择了为校园[29]除草。

夏威说, “这项工作是既具有专业性[30]下, 会减少农药的使用, 守护校园生态同时方面发挥自己的作用。”

本文节选自网络<https://publiclibraryonline.org> 于2013年4月发表的一篇文章名为“Community Centred: 23 Reasons Why Your Library Is the Most Important Place in Town”的文章。文章指出, 公共图书馆作为社区文化中心的重要地位。图书馆不仅是知识和信息的集中地, 还是人们聚在一起相互交流、交流知识和解决问题的场所。通过免费开放, 教育项目和文化交流促进不同群体的联系。

• 全文翻译 •

为什么公共图书馆是城市中最重要地方

- A) 图书馆是城市社区服务的核心, 图书馆认识到这些服务的必要性。[40] 然而, 在日益数字化的世界中, 我们有时会看到图书馆作为社区文化中心的作用被低估。当不断增长的市政预算与无休止的技术革命相结合时, 那些致力于构建面向社区、激发和维持社会和艺术、文学和音乐的兴趣, 以及鼓励居民参与公共讨论的公共图书馆服务似乎不再重要了。然而, 正是这些领域的创新和科技主生性的结合, 使得公共图书馆文化和社区服务比以往任何时候都更加重要。
- B) 许多人指出了公共图书馆所在社区的重要性。[41] 图书馆不仅仅是有书和地图的图书馆, 还是人们聚在一起发现、交流知识和展开活动的场所。图书馆作为社区建设被开辟为资源文化中心的一些具体方式包括: 促进社区建设, 成为艺术中心以及支持青少年成长。图书馆在这些方面发挥着作用, 其意义远不止于此。
- C) 作为社区建设, 图书馆的工作令人惊叹。从小型公共图书馆到拥有多个分馆的大型城市机构, 美国各地的图书馆都令人惊叹的方式塑造社区和当地文化。这项工作令人鼓舞。也有明确证据表明社区服务和文化推广盛行的图书馆和社区建立联系, 并寻求合作并建立合作关系。[37] 支持图书馆作为社区建设的人上称, 图书馆不仅改变社区, 也拥有完成应尽的职责、加强社区文化认同。图书馆以文化场所是重要的责任。
- D) 基于场所的经济发展战略具有吸引力, 功能性强且以社区为基础。例如, 城市图书馆和图书馆区中图书馆; 至关重要。[38] 就像购物中心和大型百货商店一样, 图书馆吸引大量人流, 为周边地区的众多企业和组织创造经济机会。在城市、中等城市甚至小城镇成功地将图书馆转变为充满活力的社区中心。
- E) 作为重要的市政机构和社区教育中心, 图书馆在打造经济、环境友好型发展起着重要作用。城市图书馆委员会发布了一份报告, 以展示图书馆在地方经济还多能如何持续发展的独特方式。除了提供图书馆建设项目考虑环境影响外, 图书馆还可以作为支持本地食品生产者, 比如支持当地食品生产者与当地企业合作, 在其内部开展农贸市场; 建立公共图书馆和种子图书馆向读者提供“培育适应本地的气候品种, 增强社区的韧性, 自力更生和长寿文化”。
- F) 国家档案馆与社区相关的历史文物, 包括历史、数字历史项目有学术著作, 包括少数族裔的档案资料。有本国的档案馆项目社区在普通历史项目文物方面具有很大优势。[42] 一个非营利性的档案馆可供人们研究国家历史和民族史、进行环境研究等。档案馆项目是保护工作的倡导者, 除了其他的发展职责外, 他们还负责收集和地图和地图的修复, 更广泛地数字化以及口述历史项目等。从“社区历史记忆项目”到“国家历史项目”这样的项目可以普及, 档案馆的重要作用是存在。
- G) [43] 用罗伯特·泰勒的话来说, “人们去图书馆可能主要是为了寻找信息, 但他们在那里也找到了彼此。” 图书馆的社区在图书馆和图书馆之间建立联系, 年轻人经常面临挑战的生活研究, 他们

会图书馆的所有权更属自己站立的朋辈；青少年们放学后在图书馆的青少年空间聚会；读者们更会在朋辈交流时聊书。在图书馆里，参与社区建设的人际交流无时无刻不在发生。

10. 正如惠一理亚森所说：“公共图书馆是伟大的均衡器。”[43] 尽管音乐会剧院门票的价格不断上涨，公共图书馆的运营（包括音乐会、书店和剧院展览）通常得还是相当便宜的。使任何收入水平的人都能参加。此外，图书馆的读书小组让人们能够交流和讨论文学艺术，真“可歌可舞可画”向青少年们介绍文学作品。最棒的是，这些项目免费向公众开放。

11. 正如教育日益昂贵的时代，公共图书馆为所有人提供重要的教育和教育机会。无论其社会经济地位如何。美国国家图书馆的“让读者聊一聊”项目由全美各地的图书馆提供服务。品用学校中学养教育学习机会时很好例子。此外，许多图书馆提供课程讨论项目，有些甚至提供在线课程教育。如Universal Class（一个在线课程学习平台）的课程库。

12. 图书馆员知识并不仅仅局限信息调查者，他们也是信息生产者。他们利用图书馆获取知识，以创作他们自己独立的事件站。越来越多的图书馆提供空间和资源以满足人们的需求。比如学习和阅读项目、向、建立博客或播客、创办自己的网站等。许多图书馆提供艺术或创作项目以宣传和讨论小组，有些图书馆还为读者提供音乐练习室。像卡卡罗尔明瓦图书馆的ImagineOn这样的项目提供了令人兴奋的模式，使社区伙伴关系、创造力和创作成为一个新的水平。

13. 公共讨论减少在某种程度上关于这样一个事实，即无论是在虚拟世界还是现实世界，人们都容易看到那些背景和面貌与自己相似的人的新闻。从他们那里购买产品，并只与那些人交流。[44] 公共图书馆通过“人在图书馆”和“苏格拉底咖啡馆”等项目，帮助建立小而多元社区，帮助人们通过讨论相互交流和思考。图书馆通过这些项目积极促进公民讨论、建立和维护所有人自由而批判性讨论的原则。帮助人们意识到公民讨论在美国社会中重要性和日益增长的需求。

14. 44. 为入童和青少年提供免费的阅读、写作和表演等项目帮助创造项目有助于影响学生生活的经历差距。聘请私人教师的费用就超出了许多低收入家庭的承受能力。因此图书馆提供多种形式的作者指导指导。比如在线、电话、面对面。甚至通过社交媒体和作者应用程序。每年的暑期阅读项目对青少年的学业表现也有积极的影响。根据2010年多米尼加大学图书馆和信息科学研究生院进行的一项研究，学生的阅读技能在参加面向大众的全国性活动中得到了提高。

15. 通过图书馆的窗口、线性空间和实体空间，孩子们学会了分享、参与社区和艺术活动。探索他们周围的真实广阔的世界。低无阻碍、图书馆为儿童提供创新服务的例下不胜枚举，包括（前续）中国国家公共图书馆的口袋图书馆，吸引孩子们了解自然世界。

16. 美国（以及世界各地的）公共图书馆为建立和维持传统的社区联系催化了许多了不起的贡献。这些例子只是其中的一个部分。我们鼓励你在自己的图书馆中尝试这些想法，并尝试让美国图书馆像你更好地说明你所在区域等。让他们认识到公共图书馆在文化各个社区中所扮演的关键角色。

在全国范围内，据六岁儿童中有一人一年缺席10天或更多，教育官员对所有被错过的教学内容感到担忧。

这些长期缺席的学生会在学业上受到影响，因为他们错过了大量课堂教学内容。2015年，美国教育部长对此回应，鼓励社区支持每一位学生每天两小时上学。并在会上，他对此表示，他曾在公开场合指出，无论出于何种原因（有正当理由或无正当理由），一年中缺席天数达到10%的学生会被视为下等。

担心孩子们是否上学是有道理的。毕竟，如果学生不上课，老师就难以教授。

但如斯光鲜的学生出勤率仍掩盖不了学生缺席这么简单？如果这反而反映了这些学生所面临的复杂性和社区危机——比如被赶出家庭公寓，担心自己在社区中的人身安全或身心健康呢？

作为社会科学家，我们调查了有正当理由缺席和无正当理由缺席与儿童学业成绩之间的关系。

我们发现，经常无故缺席的儿童几乎不会影响孩子的学习，实际上，每周缺席10次（即缺席15次）的例子，其考试成绩与出勤的儿童持平。

与此同时，平均而言，一个孩子每前月有一次无故缺席，其学习成绩阻止从下缺席的儿童入差很多。

我们认为，无故缺席儿童由家庭或社区造成（包括经济困难和医疗问题）的一个强烈信号。无故缺席可以有力地反映出这些学校以将缺席儿童如何影响儿童的学业进步的。

我们的研究证明，无故缺席确实是个问题，但原因与人们通常认为的不同。缺席，尤其是无故缺席，之所以重要，主要因为它儿童及其家庭可能面临许多危机的一个信号，而并非仅仅以教学内容的学习水平下降——缺席导致学习成果下降的表明相对较小。

我们也想知道为什么缺席，对被要求要无差别，学校应该继续追求要求学校和家庭对孩子缺席的无差别，无论这些缺席是有正当理由的还是无正当理由的。

这些被推辞说,无论出于什么原因,该委员会对儿童的学业成就负责。因为他们错过了那项教学内容。同时,这些说明还说,学校能够减少少数学生被要求行有差干。我们这种情况并非如此。

因此,这些说明被委员会成员们放在在生中而忽视外部的家庭。并推脱责任于这些早熟的年龄而要求孩子学到。

同时,我们建议将无技能视为一种信号,以此将责任向教育界和这些问题的儿童转移。

46. 美国教育部长在公开场合说了什么?

- A) 及时应对缺课危机至关重要。
B) 长期缺席学生的学业成绩很差。
C) 学生成绩低下主要归因于缺课。
D) 缺课对美国教育的影响令人担忧。

【例】题干: 美国教育部长在公开场合说了什么?
【例】原文: U.S. secretary of education, Rogan Kays, says that poor academic achievement is a

第一段最后一句说罗干说美国教育部长在公开场合。他在其中指出,无论出于什么原因(有正当理由或无正当理由),一半中缺课人数达到10%的学生成绩低下的主要原因。C项与原文表述相符,该选项中的Low academic achievement是关键词, is mainly attributed to 是原文中 is a primary cause 的同义转述,故为正确答案。公开场合指在A项。B项和D项有关的内容,故这三项排除。

47. 关于缺课,作者发现了什么?

- A) 因缺课而对儿童学习影响甚微。
B) 无技能课和因缺课之间几乎没有差别。
C) 因缺课会带来相对较好的学业表现。
D) 无技能课对学校和家庭而言都是 大麻烦。

【例】题干: 关于缺课,作者发现了什么?
【例】原文: And school absence may be a warning sign of a more serious problem.

第五段提到,作者对缺课与儿童学业成绩之间的同时关系进行了调查。第六段和第七段为调查的发现。其中,第六段提到,作者发现那些长期缺课的儿童并不会影响孩子的学习,经常长期缺课的儿童属于因缺课。A项是原文的同义转述,故为正确答案。原文第六段提到,因缺课的儿童通常以成绩与出勤率的两面人持平,而第七段提到,哪怕只有一次无技能课的儿童比出勤率的同时学习成绩低很多。由此可见,无技能课和因缺课之间的区别是很大的,故与原文表述不符,故排除。原文只是提到,因缺课对学习或成绩水平没有什么影响,但并未提及它会对学生的学业表现,故文中无中生有,故排除。由第六段和第七段可知,文章主旨强调无技能课是儿童及其家庭面临在学校以外难以处理的信号,而非强调无技能课对学校或家庭而言是一大麻烦,故D项排除。

48. 作者对无技能课持什么看法?

- A) 由于错过教学内容,它们可能导致学生学业成绩下降。
B) 它们直接指向儿童及其家庭面临的许多在学校以外的挑战。
C) 它们是美国政府在制定教育政策时通常会忽视的问题。
D) 它们向儿童及其家庭发出了他们未来可能会面临的危险的明确信号。

【例】题干: 作者对无技能课持什么看法?
【例】原文: And school absence may be a warning sign of a more serious problem.

第六段提到,作者认为无技能课是儿童和家庭面临许多挑战(包括经济困难和医疗问题)的一个信号。而无技能课作为一个信号,直接指向了儿童及其家庭面临的许多学校以外的挑战。故B项正确。第七段提到,无技能课在作为解释过教学内容而使学生成绩下降的原因方面,其效果相对较差,可见在作者看来,无技能课对学生学习或成绩的影响并非主要由于他们错过了教学内容,故排除A项。原文未提及政府在制定教育政策时是否会忽视无技能课问题,仅讨论教育界重视程度,故排除C项。无技能课是学业成绩的信号,而非学业成绩的信号,故排除D项。

49 英國政府為何限制證券買賣場交易？

B) 學習可以預防有礙于兩高兒童的學習成績。 D) 兒童的學習成績與醫學成績密切相關。

第十一條推測了異國教育重要的兩種潛在假說：「是在何原因的破壞？又該怎樣有建設的救濟？」綜合對兒童的學業造成損害，即任其發展會造成兒童學習成績下降；「是針對破壞而造成的兒童學習成績下降現象，學校應透過減少學生學業負擔進行改善」。即學業可以透過有善予調整而兒童的學習成績，即應與上述二種假說相符合。故為正確假說，A即為最佳選項。它會只是解釋學校可以透過減少學生的負擔而從根源提高他們的学习成績，但並未說明說明減少學業負擔可以直接解決學業負擔，A應能防止于用時，故錯誤。第十二條則，學校行政改革尋求學校和家長有權下課課間休息自由，若系提到與有關係等校外活動地點，因此與題內學業負擔不直接對等的關係無關，故錯誤。B與內文無直接關聯，故錯誤。

● 答案详解 ●

51. 据作者称,作者应该人们做什么?

- A) 告诉他们什么是吸引人的工作。 C) 告诉他们如何追求职业。
B) 告诉他们应该接受哪些建议。 D) 告诉他们他们热爱的事业。

【答案】F 信息题。Locating people who decide to get a job can be a challenge. 可将答案锁定定位至第二段。

【解析】文章第二段提到,在1990年代,作者曾问过网内的一些人,他们如何做出选择。作者在那一段中说的,他自己的热情(do what I love)。选项D的表述与此相符,故为正确答案。选项B意思是说do what I love的同义转述。文中并未提及作者的工作吸引力的相关内容,故排除选项A。选项E是对第三段内容的描述,作者并未提及网络内对职业的建议。选项C是原文中提及,作者虽然在第一段第二段中提及“追随你的热情”,但原文说“工作的事情可以以后考虑”,所以作者并不是要求人们疯狂地追求追求职业,而是去发现网络内他们自己热爱的事业。

52. 通过研究,作者对“追随你的热情”有何感受?

- A) 他对此感到非常惊讶。 C) 他坚持这一原则其实是正确的。
B) 他进一步认为其不合理性。 D) 它的广泛流行让他很失望。

【答案】F 信息题。Locating people who decide to get a job can be a challenge. 可将答案锁定定位至第二段。

【解析】第四段中提到:“在有关的新书和研究时,我发现了这一原则的真相让我很惊讶(stunned)。”后文详细阐述了作者发现网络内存在的三大问题:导致过度工作、加剧社会不平等、被雇主利用。作者将属于“过度”一词,选项A或选项B或原文。其中consequences“后果”一词概括了后文分析的三大问题。原文中的consequences对应选项中的consequences,故选项A为正确答案。选项B与作者对网络内三大问题,作者并未提及网络内。选项C与原文“意识到它的后果有多大”矛盾。选项D,他坚持这一原则“广泛流行”原文并未提及,但原文并未提及作者对此的感受。

53. 作者建议为寻求高薪工作,需要做什么?

- A) 接受接受无薪实习和兼职工作。 C) 努力工作和牺牲性的时间。
B) 充分的准备和合理的职业指导。 D) 获得支持和社交关系。

【答案】F 信息题。Locating people who decide to get a job can be a challenge. 可将答案锁定定位至第二段。

【解析】网络内三大问题通过对比说明:富裕家庭的子女能依靠“父母支付房租(经济支持)”“利用父母的社交网络”(社交关系)来克服网络内三大问题。作者将网络的三大问题归结为:缺乏经济支持、缺乏社交关系、缺乏职业指导。选项A“经济支持和社交关系”全面概括了作者对网络的三大问题。选项B为原文中提及,选项C为原文中提及,选项D为原文中提及。选项B中的“学术指导”原文并未提及。选项C为原文中提及,选项D为原文中提及。选项E为原文中提及,选项F为原文中提及。

34. 当被所有人误解的时候会发生什么?

- A) 更多的人会寻求最终答案。
B) 人们以不关心社会的不平等。
C) 社会的不平等可能持续存在。
D) 失业问题的失去可解性。

根据题干信息词 everyone is misunderstood 和 happens 可判断正确答案应位于副段四一段。

副段四一段指出, 一被所有人误解了“迫于无奈”刚刚“全神贯注成(perpetuate)”社会不平等的社会的不平等。第七段也提到“被所有人误解的社会持续存在(perpetuate)社会的不平等”, 即这种不平等的现象仍然存在。选项C与原文相符。其中perpetuate是原文中perpetuate的同义替换。故为正确答案。选项A中的“失去”原文未提及。选项B与原文“加剧不平等”的主语取自相反。选项D中的“失业问题的可解性”原文并未提及, 故排除。

35. 对于雇佣员工的主张, 作者做了什么?

- A) 他们为这些员工提供工作职位和福利。
B) 他们利用这些员工的经验为自己谋利。
C) 他们为员工创造公平的竞争环境, 从而实现目标。
D) 他们鼓励这些员工实现抱负。

根据题干信息词 employers of permanent workers 可得答案应定位在副段五一段。

副段五一段指出, 雇主对这些员工的求职表现出更大的兴趣, 部分原因是他们认为这些求职者“不期待回报”“愿意牺牲高薪”“工作稳定性和非工作时间”。这些实际上是雇主们的剥削行为。选项B“利用他们的经验”准确揭示了这种关系。故为正确答案。选项A与原文“牺牲高薪和工作稳定性”矛盾。选项C中的“公平的竞争环境”是作者呼吁雇主去做的。选项D原文并未提及。

The Tiangong Space Station is China's first space laboratory, boasting over 110 cubic meters of usable space and capable of housing three astronauts in orbit 400-450 kilometers above Earth's surface. It has conducted more than 180 scientific research and application projects spanning fields such as space life science, space medicine, and space materials science. The research achievements of the Tiangong Space Station have been widely applied in China, generating significant economic benefits. For instance, space breeding alone has yielded direct economic value amounting to hundreds of billions of yuan. This not only marks a large advancement in China's aerospace technology, but also demonstrates the country's substantial contributions to global space research and application.

· 译点解析 ·

1. 第一句: “中国首个太空实验室” 翻译为 China's first space laboratory; “拥有 110 多立方米使用空间” 翻译为 boasting over 110 cubic meters of usable space. 注意 boast 表示“拥有、具有”的含义, “可驻留三名宇航员” 翻译为 capable of housing three astronauts. 注意 house 表示“容纳、居住”的含义, 在副段四第二段中, house 表示“容纳、居住”的含义, 在副段四第二段中, house 表示“容纳、居住”的含义。

接,“轨道”的更图1就是天宫空间站,可用orbit(轨道,轨道)来表达。H充当的时则语,被业地地地名同century:“在距地球表面400-450公里的轨道上运行”可翻译为介词短语,表明天宫空间站的方位,其中“运行”可省略不译,即in orbit 400-450 kilometers above Earth's surface.

2. 第二句:句子主体“天宫空间站已实施180多个科学实验与应用项目”翻译为It has conducted more than 180 scientific research and application projects(使用替代The Tiangong Space Station以避免重复);“涉及空间生命科学、太空医学、空间材料科学等领域”表示列举,可翻译为分词短语spanning fields such as space life science, space medicine, and space materials science,注意使用such as来表达列举。

3. 第三句:“天宫空间站的研究成果在现代得到广泛应用”是句子主体,翻译为The research achievements of the Tiangong Space Station have been widely applied in China.“产生显著的经济效益”表示结果,应使用现在分词短语作伴随状语,即generating significant economic benefits.

4. 第四句:“太空育种创造的直接经济效益高达数千亿元”的翻译比较灵活,既可侧重“直接经济效益高达数千亿元”,也可侧重“太空育种创造的直接经济效益”,如果两者兼顾,该句可翻译为the direct economic value that space breeding alone has created amounts to hundreds of billions of yuan,折衷而言,则可翻译为space breeding alone has created direct economic value amounting to hundreds of billions of yuan(“高达数千亿元”说明直接经济效益的数量,可处理为现在分词短语)。

5. 第五句:“不仅……也……”翻译为not only...but also...“中国在航天技术上取得了巨大进步”翻译为China's huge advancement in China's aerospace technology;“也表明中国为全球的太空研究与应用做出了重大贡献”翻译为but also demonstrates the country's substantial contributions to global space research and applications.

Conversation One

• 听力原文 •

W: We are down to two candidates for our position, and we need to decide by the end of the day in order to finalize the whole procedure.

M: [1] Yes, but it isn't an easy choice to make. Both applicants are quite strong.

W: Let's get to it, then. Both of them went to good universities, and both of them studied business-related subjects. No academically, I'd say they're pretty much the same. What do you think?

M: I would agree, yes. [2] The only difference worth noting, perhaps, is that it looks like Rachel scored exceptionally stronger grades throughout high school and university. But as I said, only a tiny bit higher than Peter.

W: [3] That's true, and worth noting. Thank you. In addition, Rachel interviewed very well. I thought she came across as bright and short.

M: Yes. She asked some very good questions about the process and the company, which made me think she is very keen about the job.

W: I thought so, too. Now, let's look at Peter's interview performance. I thought he also did very well. He came across as respectful and professional, wouldn't you say? Calm and poised. Very mature for his age.

M: Exactly. In my notes, I wrote that he seemed composed and in control of his emotions. I think he definitely looked more mature than Rachel.

W: Interesting. So, we agree that Rachel appeared inexperienced and less mature than Peter, even though both candidates are the same age and have practically no work experience.

M: [4] When comparing them side by side, yes, Peter seemed more self-assured somehow. Maybe it was something about their body language.

W: Sure. Maybe he was simply less nervous.

M: Maybe. Who knows? To be honest, I don't like Rachel much.

W: Hmm. Really? I think I like Peter.

M: Ah, well. [4] If there's a tie, and we can't come to an agreement, then we'll split it between him and her based on the existing vote.

- A) 他们必须要在今天结束之前做出选择。 C) 他们对谁应该有不同看法。
B) 两名候选人基本平衡使得难以做出选择。 D) 两名候选人都有竞争力。

【解析】对话开头，女士提到她今天结束之前必须决定下谁应该担任候选人。男士回答说：“是的，但如果你选择并不容易。两名候选人都有很多实力。”由此可知，B项为正确答案。A项虽然句中有所提及，但并不能使他们难以做出决定的原因。此为干扰项，故排除。其余两项在对话中并未提及，故排除。

2. What do the speakers say may be worth nothing? 对话双方提及什么可能值得注意?

- A) 教授和校尉给人的印象都是积极且专业。 C) 教授和校尉在学术上都表现出色。
B) 教授在学校的成就比校尉略高一筹。 D) 校尉在纪律方面比教授略胜一筹。

【解析】对话中间，两人开始讨论两名候选人的优势，男士提到：“第一值得注意的素质之量可能是，教授在高中和大学期间的成绩似乎略胜一筹。”同时，女士也赞同这一点。由此可知，B项为正确答案。对话中女士同时提到给人的印象是积极且专业，只提到两个人都提到教授也是如此，故排除A项。对话中确实提到两名候选人在学术背景上基本旗鼓相当，但此并不是对话双方认为值得注意的地方，故排除C项。D项在对话中并未提及，故排除。

3. According to the men, what might account for Peter appearing somewhat more self-assured than Herbert? 男士认为彼得比厄斯特显得自信的原因可能是什么?

- A) 他的教授经历更丰富。 C) 他不同寻常的心理状态。

【解析】对话最后，在对比两位候选人的优势时，男士表示：“彼得不独为阿诺德竞选一份。也许是他们的教授经历更丰富造成的。”由此可知，A项为正确答案。对话中虽然女士提到彼得也许更易与阿诺德交流，但这并不是彼得有不同寻常的心理状态。而这也并不是男士的看法，C项为干扰项，故排除。其他两项在对话中均未提及，故排除。

4. What does the man say they will do if they can't reach an agreement? 男士表示如果他们无法达成一致将怎么办?

- A) 再次将候选人放在一起比较。 C) 下次放方法以便区别。
B) 将决策交给决定性的选举。 D) 让约翰来做出最终决定。

Conversation Two

● 听力原文 ●

M: [4] We're here with Cleopatra Ortega, head designer of the private Gableton label. Oranga, to discuss her latest collection. Ms. Ortega, how would you describe this season's look?

W: To be honest, my preferred style has always been on the understated side, and I think this collection is worth that. [5] I try not to adhere to social norms and expectations. [6] Rather, I always try to incorporate something slightly absurd into my aesthetic.

M: The statements of accessories in this collection have had quite the impact on critics. The dazzling caps displayed at the end of the show, for example, bewildered many in the audience. What was your inspiration for this piece?

W: Over the summer, I traveled through rural mountain villages throughout Asia in search of handicrafts to decorate my new studio with. The embroidery done by the women in a particular village was so exquisite, I couldn't stop thinking about it. Trying to recreate their designs would have been futile. So instead, I applied my own eccentric approach. Using glitter, I drew similar intricate patterns onto the velvet caps. This ended up in the glamorous,

business look that completed the show.

M: It was indeed majestic, and yet, dare I say, concisely at the same time.

W: Well, yes, that was intentional. [7] I like to merge styles that are often at opposite ends of the fashion spectrum. Hence, the sparkling cape was paired with a traditional pince and you would typically see in a business setting. It was intentional, if I do say so myself.

M: Spectacular for sure! A stunning show all around. Clinging against stereotypes, the incorporation of indigenous aspects, along with your underlying signature touch, made this collection a statement of the season. [8] You have proven yourself a formidable young designer, and we can't wait to see what creations you come up with next.

5. What are the speakers mainly talking about? 对话双方主要谈论什么展开讨论?

- A) 私人品牌“L'Orange”。
B) 女士的服装系列作品。
C) 本季的时装周期间。
D) 时装周上模特的作用。

■ 对话开头，男士介绍道：“今天我们将看到了私人时尚品牌L'Orange的首席设计师克莱门汀·梅尔特加。一位设计过的服装系列作品。”由此可知，B项为正确答案，对话中及后提到私人时尚品牌L'Orange，但这并不是对话双方讨论的主题。A项为干扰项，被排除。其余两项在对话中均未提及，故排除。

6. What does the woman say she always tries to incorporate into her aesthetic?

- A) 反映社会现实的元素。
B) 曾经公众调整的元素。
C) 暗藏量化的元素。
D) 历史但不被讨论的元素。

■ 对话中，女士说道：“相反，我总是试图在自己的设计中融入些许现实主义的元素。”由此可知，C项为正确答案，女士表示她尽量不太会自社会现实感到困扰。由A项内容和内容正与此相悖，故排除。女士是抱怨及被偏见的风格向来的有几分愤慨，但并未表示要在自己的设计中融入有点愤慨不满的元素。D项为干扰项，故排除。

7. What does the woman say she likes to do? 女士表示自己喜欢做什么?

- A) 混合时尚领域中传统与现代的风格。
B) 学习亚洲山区村民的设计。
C) 让服装元素唤起暴风雨天气的氛围。
D) 将传统元素与现代元素相结合。

■ 对话中，女士说道：“我喜欢混合时尚领域中传统与现代的风格。”由此可知，A项为正确答案，女士说明自己的灵感来源时，她说明：“尝试混合她的设计可能很无聊。”B项内容与此相悖，故排除。对话中，男士说这件斗篷气势非凡还带有暴风雨之气，这是男士的评价，并非女士的设计主题，故排除C项。女士只是说用光片在丝绒斗篷上“融合”出星光效果，同时这件斗篷还搭配了一件传统职业西装，但并未说明在这件西装上融入星光效果，因此D项是对话中男士所喜的时尚舞台，故排除。

8. What is the man looking forward to? 男士期待的事是什么?

- A) 获得女士的签名。
B) 将女士的服装融入自己的作品。
C) 将女士的服装融入自己的作品。
D) 下次与女士分享更多的知识。

■ 对话最后，男士说道：“我已经告诉自己是一位令人尊敬的年轻设计师，我们等不及看到下一季推出的作品。”由此可知，B项为正确答案。其余三项对话中均未提及，故排除。

For dogs, one often readily understood a wide range of their owners' commands and gestures, but are those animals aware of the cues they exclusively learned through walking? To find out, a new study examined whether dogs could

untrained border collies. [9] The study revealed that 80% of participating dogs successfully followed pointing gestures to a specific location despite having never received prior training. The results suggest that dogs can understand complex gestures by simply watching humans. This could have implications in reducing conflict between stray dogs and humans.

Dogs were domesticated 10,000 to 15,000 years ago. This means they are probably the oldest domesticated animals on the planet. Humans then bred dogs with the most desirable and useful traits so that they could function as companions and workers. This resulted in domesticated dogs that are highly responsive to human commands and gestures. However, it was not clear whether dogs understood us through training alone, or whether this was an inherent ability. Why does this matter?

Stray dogs are a common feature in cities around the world. They may observe and occasionally interact with people, but such dogs have never been trained, and are behaviorally "wild". [10] Conflicts between stray dogs and humans are a problem. Understanding how humans shape stray dogs' behavior may help address this problem. According to the researchers of the new study, stray dogs are intelligent creatures. They closely observe humans and use their understanding of us to make a decision. [11] Treating stray dogs with sensitivity and respect, and giving them space, the researchers argue, can reduce such conflicts.

● 答案详解 ●

9. What does the passage say about 80% of participating dogs in the new study?

关于新研究中大约80%的参与实验的狗，文章说了什么？

A) 它们应该通过观察就能轻松认出自己的主人。 C) 它们可以提前无条件充当我们的伙伴。

B) 它们能理解人类指令的含义。 D) 它们无需训练就能理解指向性手势。

【解析】文章开头部分提到，一项新研究调查了是否狗是本能地理解人类的信号。该研究显示，尽管这些参与研究的狗之前从未接受过相关训练，但仍有80%的狗成功地理解指向性手势来寻找位置。选项D与对这句话的直译最接近，故为正确选项。选项A曲解原文，直译狗并无“主人”。选项B错在comprise，原文说的是gesture。选项C原文未提及，故排除。

10. What may help address the problem caused by stray dogs? 什么可能有助于减轻流浪狗造成的问题？

A) 将它们所有成狗的个体。

C) 了解人类如何影响它们的行为。

B) 训练它们，使其养成遵守基本规则。

D) 采取措施减少它们的存在。

【解析】文章提到，流浪狗与人类之间的冲突是个问题。了解人类如何影响流浪狗的行为可能有助于减轻这一问题。选项C中的impact与原文中的influence相对应，都有“影响”的意思。故C项正确。选项A、B都是根据文中的个别词汇（intelligent creatures, domesticated dogs）设置的干扰项。故排除。

11. What do the researchers suggest we do to reduce conflicts between stray dogs and humans?

研究人员建议我们做什么来减少流浪狗与人类之间的冲突？

A) 通过只是训练来驯服它们。

C) 让它们对人类的指令做出反应。

B) 以体贴和尊重的方式对待它们。

D) 观察它们的行为并尝试对其进行改进。

【解析】文章最后提到研究人员的建议：以体贴和尊重的方式对待流浪狗，并给它们空间，可以减少很多冲突。选项B几乎是文中的原词。符合研究人员的建议内容。故为正确选项。其他三项原文均未提及，故排除。

Passage Two

● 听力原文 ●

Think your refrigerator is just one big box of evenly cold air? Not so! [1] The temperature inside the average fridge actually varies from top to back, bottom to top and everywhere in between. Because of this, food placed closest within the appliance is far more kept than you probably realize.

[13] The whole purpose of the modern refrigerator is to slow the growth of bacteria, which drive an organism from 40 to 60 degrees Celsius. As a result, refrigerators are typically set at or below that low end to protect foods against bacteria. Although it might seem like the open organizing the fridge will spoil your day, doing so will actually make it more user-friendly, easier to clean, and food safety-conscious.

These little bits on the inside of refrigerators doors are convenient, but they don't maintain a consistent temperature, so definitely refuse from putting perishable foods in there. The top area is now so cold as the bottom of the fridge, so use it for the foods that don't need ultra-chilly temperatures. [14] Store foods that are ready to eat or already cooked on the top shelf. The middle shelf is the most temperature-controlled part of the fridge, so place eggs here. Drinks and prepared foods can also live on the middle shelf if you run out of room up top. The back of the bottom shelf is the coldest spot in the fridge, so more perishable dairy products have to keep them as little longer. [15] Never store foods with high water content here, because the water within them can and will freeze, effectively ruining them.

● 答案详解 ●

12. Why is food product placement within the fridge very important? 为什么冰箱内食品的位置放置非常重要?

- A) 其内部结构在内部循环。 C) 它的不同架子是为不同用途而设计的。
B) 合理摆放便于取用食品。 D) 普通冰箱的空间从上到下有所不同。

文章开头即指出，普通冰箱内部的不同温度从顶部到底部，再到各个角落实际上都存在差异。正因如此，食物在冰箱内的摆放位置远比你可能想象的还要重要得多。选项A是对这部分内容的总结概括，其中的 from place to place 既体现了架子中的 from front to back, bottom to top and everywhere in between。故选项A正确，其他三项都不是冰箱内食品的位置放置非常重要的原因、故的推断。

13. What does the passage say is the whole purpose of the modern refrigerator?

- A) 为了减缓其内部温度的上升。 C) 为了防止细菌快速繁殖。
B) 为了提供一个均匀的制冷的大箱子。 D) 为了尽可能长时间地冷藏食物。

文章提到，现代冰箱的中间门就是减缓细菌的繁殖，选项C中的 prevent germs from growing quickly 是原文中 slow the growth of bacteria 的同义替换。故C项正确。选项A、D原文并未提及。故排除。选项B中的 big box of evenly cold air 是原文中提到的，但是用来引出本段文字“冰箱”这个主题的，它与现代冰箱的目的无关。故排除。

14. Where in the fridge should we store foods already cooked?

- A) 在上层架子上。 C) 在冰箱门内侧。
B) 在中间部分。 D) 在冰箱门的后方。

文章后半部分分析介绍了冰箱内部各个位置的温度情况以及各自适合存放哪些类型的食品。其中提到，冰箱上层的温度不如底部低，因此可以把那些不需要超低温保存的食物放在上层。熟食食品或已煮熟的食物可以放在上层架子上。因此，选项A正确。

15. Why should we never store foods with high water content at the back of the bottom shelf?

- A) 它们会立即融化并结冰。 C) 它们会变质。
B) 它们会快速变质。 D) 它们会变质。

文章最后提到，冰箱在底部架子的后部区域是制冷最强的位置，适合存放高水含量的乳制品。千万不要在此存放水分含量高的食物，因为食物中的水分会结冰，从而因食物变质变质。因此，选项D正确。

My current research is mainly looking at factors like stress and how it affects our immune system. So the current projects that I'm quite excited about are looking at older people and factors that are important to them.

[14] In one project we are looking at hip fracture in older people, which is a common event and we're trying to understand the impact of depression. Often people in hospital with a hip fracture develop depression, and these are the people that then go on to become frail a lot more quickly than others. They get infections. Often these infections lead to death. So we're trying to slow down that progression to frailty. So if we can better understand how these factors interact, then we can actually start doing something about it.

The impact that my research will have in Birmingham, first of all, is obviously for older people because these are the people that are having hip fractures and developing depression, and we're trying to improve their health and their quality of life. But this isn't just a problem in Birmingham or even in the UK. This is a problem globally. People are aging. There's a lot more people in the older generation who are living for longer but not necessarily staying healthy for a large part of their lives. So the last part of their life can often be full of ill health, and we're trying to understand factors that can contribute to the quality of life later on.

[17] I think the thing that people are most about my research is that it feels real and relevant. Lots of academics are probably very excited about their research, but it might not be that relevant to those around them. Whereas I feel that the work I do is relevant to everyone because everyone is aging. Health is an issue for everyone, regardless of their age, and what I'm trying to do is understand the factors that affect health and how we can improve the quality of life in people. So that's one of the things that really excites me about it. [18] One of the other things is, rather than just taking one perspective, we're not just looking at aging and health just from the perspective of the psychologist, we are now bringing together a lot of different techniques and a lot of different viewpoints to actually look at the sort of different factors affecting health.

10 What does the speaker say is quite common among older people?

讲话者提到老年人群中什么现象很常见?

- A) 慢性抑郁症。 B) 骨质疏松。
C) 骨关节炎。 D) 肌肉感染。

解析 在讲话开头, 讲话者就提到, 骨质疏松在老年人中间常见。由此很容易排除, 正确答案应为C。剩下三个选项中的慢性抑郁症, 骨质疏松和肌肉感染均从其他语境中排除, 因为它们都是较严重且可能导致的后果, 而不是用词还在老年人中常见的现象, 故均排除。

17 What does the speaker think others are most about her research?

讲话者认为她的研究最令她兴奋的是什么?

- A) 它既真实又有意义。 B) 它超越许多当前的研究。
C) 它能让听众以外的地方获得承认。
D) 它能让听众以外的地方获得承认。

解析 讲话者在评价自己的研究, “我认为我的研究最让我感到兴奋的地方在于它既真实又有意义”。选项中只有选项C, 真实和有意义中的it feels real and relevant均为原词复现。由此可知, 选项A为正确答案。选项B讲话中未提及, 选项C, D的内容在讲话中仅提到了个别单词, 原文所述并未提及, 故均排除。

18 How does the speaker approach her research project?

- A) 通过将年轻和年长的少女放在一起。 B) 通过充分利用她的专业背景。
C) 通过充分使用她的专业背景。
D) 通过整合多种数据。

11 国学者在讲话最后提到：“我们不仅应马原干是 风为，比如从从心理卫生的角度来讲更应和能取，而是 是在整合了多种不同的技术观点，来切实研究影响健康的各种因素。”由此可知，选项D为正确答案。 其他三个选项的内容讲话中均未提及，故均应排除。

Americans are obsessed with celebrity chefs. We talk about them and try to eat like them. But could we learn something more from them that we ignore and overlook?

According to market data companies, Americans spend nearly 10 billion dollars a year on self-help and personal-organization products. [15] The market is large, partly because street colleges and graduate schools don't teach basic organization, life-recovery methods and professional kitchen do.

Perhaps the principle of cooking organization can be extended to help even those of us who aren't top chefs. The system that makes kitchen function is called "mise-en-place", or literally "put in place". It's a French phrase that means to gather and arrange the ingredients and tools needed for cooking.

But for many professional cooks, the phrase means something deeper. Some cooks call it their religion. It helps them coordinate and manage all steps and material, and transforms the lives of its practitioners through focus and self-discipline. [20] Students at the Culinary Institute of America view it as a way of life. It's a way of concentrating their mind to only focus on the steps that they need to be working on at the moment, to kind of rid themselves of distractions. And it's a habit that some students carry with them even when they're not in the kitchen. They make-to-place their life. They set up their books for class. They set up their other things. They store their shoes. They know everything that they need every step of the day.

Then how does one attain this level of organization? The key to high-level organization is the mindset. Cooks can easily do six hours of preparation for a three-hour dinner shift. "Some-on-place forces cooks to account for every minute of their time and every movement. Every component of one single dish is in one single corner, so their hand literally moves inches," explains Douglas Lapine, an instructor at the Culinary Institute of America. "Once students set up their station, it should be able to cover up their eyes. And they should know that their knives are always there, their oil is always right here, their salt and pepper is always right here."

[21] But precision is its highest level. mise-en-place says that time is precious, resources are precious, space is precious, your self-respect and the respect of others are precious. Use them wisely. Isn't that a philosophy for our time?

● 答案详解 ●

19. What does the speaker say about street colleges and graduate schools in America?

- 关于美国大多数学院和研究生院，讲话者说了什么？
A) 它们不教授基本的组织技能。 C) 它们对食谱的重视程度低。
B) 它们不专注于教学技巧。 D) 它们很少聘用顶尖大厨。

11 在讲话开头，讲话者明确提到“大多数学院和研究生院不教授基本的组织技能”，选项A为正确答案。讲话者并未提及选项B、C、D的内容，故均应排除。

20. How do students of the Culinary Institute of America view "mise-en-place" or "put in place"?

- 美国烹饪学院的学生如何看待“mise-en-place”或“放在适当的位置”？
A) 这是他们必须遵守的。 C) 这是他们必须要求高的。
B) 这是一种全新的方式。 D) 这是他们的另一种新方式。

第11题 讲话者在中间笑两次。"Students in the culinary institute of America view it as a way of life"。选项B中的a way of life为原词复现，故为正确选项。选项A是基干讲话中提到的checklist check设置的干扰项，故排除。选项C中的young people在讲话中有相关内容，但讲话中强调的是一批厨师将mini-co-place设为信仰，通过烹饪和自拍来宣泄自己的情绪，但这并不是在学厨艺的学生们的做法，故排除。选项D和讲话内容不符，可也排除。

21. What does the speaker advise us to do at the end of the talk? 讲话者在讲话的最后建议我们做什么？

- A) 尊重他人以获得尊重。 C) 培养自律的习惯。
B) 明智地利用时间和资源。 D) 认真向专业人士学习。

第21题 讲话者在最后笑两次。“时间易空流，资源易耗尽，空间易室狭的，你向自律而他人的教条也是空谈的”“聪明地利用它们”。根据由此两句推断B为正确选项。选项A中的respect所有提及，但尊重本身并不是讲话者的建议。重点是计划明智地利用资源，故排除。选项C中的self-discipline讲话中具有相关字眼，但不是原词同义的内容，可直接排除。选项D是最后最后一句话中的professionalism设置干扰项，故排除。

Why do we stop making goals for ourselves and stop progressing in life? One reason is the belief that we should accept who we are and not constantly strive to improve ourselves. [31] The mistake we make with this is that while self-acceptance is important, it should actually be used as the jump for growth. When we're not growing, learning and making improvements in our lives, we tend to stagnate, accepting what is, and stop believing we can be better.

A key tool for creating goals and progressing, is using our imagination. [32] Yet as is so often the case, by the time we're reached a point, we've stopped dreaming about what we want to achieve and feel quite negatively about goal setting. Instead of feeling confidence, happiness and satisfaction from achieving our goals, we feel we are always falling short. This leads to disappointment, and we stop dreaming. We stop imagining the life we'd like to have or the person we'd like to be, quickly finding ourselves shamed by the gap of our reality.

Up until now, unless we work in the creative industry, we've found the idea of using "play" a bit strange in the West, we're overly operating from our heads, the rational mind. But it's beginning to be better understood, because using our imagination is actually one of the most powerful things we could ever do.

[33] The problem with finding ourselves irritated for not achieving the goal is because the goal always changes and we're always adapting, whether we realize it or not. When happens, therefore, is that we end up feeling like we're never going to reach our goals. And here's one of the biggest misconceptions and reasons for failure, dissatisfaction and unhappiness. We measure against the goal, rather than where we've come from. Dan Sullivan calls this "the gap and the pain". We measure always against the goal, which we never feel we're reaching, rather than the gap, that is where we've come from. [34] In measuring where we've come from, rather than where we're trying to get to, we see results. We see things we've taken for granted, or not noticed. It's a simple, yet profound change in perception, and when I love about it is the power it has to instantly add it up a gear. It's not, as simple, yet has an immediate, profound impact on our thinking.

● 答案详解 ●

22. What should self-acceptance be used as according to the speaker?

- 根据讲话者所述，自我接受应该被用作什么？
A) 努力工作的激励。 C) 自我提升的指南。
B) 珍惜时间的理由。 D) 自信的理由。

错。讲话者在讲话中提到,虽然自我激励是至关重要的,但其实它应当能用作我们成长的基础。由此可知,选项C为正确答案。其余三项讲话者均未提及,可排除。

23. What do people tend to do when they have reached middle age? 当人们到了中年时,他们倾向于做什么?

- A) 感到自信、快乐和满足。 C) 使用关键因素来制定核心价值的目标。
B) 认为他们已实现了人生目标。 D) 停止做生活中更大的进步。

错。讲话者在讲话中提到,当我们步入中年时,我们便不再像年轻时想要达成目标,而目标设定目标这件事也产生了消极的影响。不再像年轻时想要达成的目标,也不再像年轻时更大的进步。选项D为正确答案。讲话者提到,步入中年后我们不再努力实现目标而达到自信、快乐和满足。反而会觉得自己总是达不到目标。故排除选项A和选项B。选项C讲话中并未提及,可排除。

24. Why do we find ourselves irritated for not achieving the goal?

为什么我们会因为还没有实现目标而感到恼怒?

- A) 我们坚持自己最高时与他人。 C) 关于目标设定存在各种错误的认识。
B) 我们必须设定不断变化的目标。 D) 我们设定目标总是有问题。

错。讲话者在讲话中提到,我们之所以会因未能达成目标而感到恼怒,是因为目标总是会变化。而我们由于不能相应适应。因此,选项B为正确答案。其余三项讲话者均未提及,可排除。

25. What does the speaker say has an immediate positive impact on our thinking?

讲话者说,什么会对我们的思维方式产生立竿见影的积极影响?

- A) 要实现的目标数量发生明显变化。
B) 能使我们立即感到不是收益。
C) 新量我们曾过的情况,而不是设定目标。
D) 正确地认识到我们在努力实现目标时水到渠成的事情。

错。讲话者在讲话中部分提到,当我们衡量自己的境况(即“现状”)而非常实际的以那时,才逐渐正看到错误。这是一个简单而直截了当的观念的转变,它有能力瞬间开阔我们的思维层次。它如此简单,却对我们的思维产生立竿见影的积极影响。故选项C为正确答案。而选项B与讲话内容完全相反。故排除。其余两项讲话者均未提及,可排除。

- D) 44] 肉类消费由声音在很大程度上是一种假设，即畜牧业是全球最大的温室气体排放源。可知，D) 于年温室气体排放的皮厚环境研究所2009年发表的一份分析称，全球51%的温室气体排放来自牲畜养殖和加工，但在国际环境保护界的数据显示，2016年受困温室气体排放量最大来源为电力生产（占全球排放量的28%），交通运输（25%）和工业生产（22%）。整个农业领域的排放仅占9%，而整个畜牧业的排放量也达不到该比例的一半。在美国温室气体排放量占全球的3.9%，这与“畜牧业排放量比在交通与工业排放”的假设大相径庭。
- E) 为什么会有这样的新认知呢？2006年，联合国粮农组织（FAO）发布了一项题为《畜牧业对气候的影响》的研究，该研究受到了广泛的国际关注。研究称，畜牧业产生的温室气体排放量占到了全球总排放量的18%，134项研究得出了一个令人震惊的结论，即畜牧业对气候的影响超过了所有交通与工业方式的总和，但后一种说法是错误的。该报告的主要作者李宇·斯特恩后来已对此进行了纠正。
- F) 问题在于，联合国粮农组织及农业组织的分析人员还在研究畜牧业与气候的影响时考虑了全生命周期影响，即在分析交通与工业对气候的影响时便采用了不同的方法。对于畜牧业，他们考虑了与肉类生产相关的所有因素，包括化肥生产过程中的排放，将种植地作为牧场过程中的排放，饲料种植过程中的排放，以及从出生到死亡期间动物本身所排放的（包括粪便排放以及可燃气体的发出）。
- G) 然而，当他们分析交通与工业排放时，却忽略了不同材料等事件生产，车辆制造以及道路、桥梁和机场维护等都对气候的影响。而只是考虑了成品汽车、火车、火车飞机等造成的尾气。因此，联合国粮农组织及农业组织对畜牧业与交通与工业温室气体排放量的对比存在严重偏差。
- H) 2010年8月22日，联合国旧金山科学顾问团队在演讲时推出了这一观点，引发了媒体的广泛报道。[43] 值得肯定的是，联合国粮农组织及农业组织已经承认了这一错误，但遗憾的是，该机构的研究并未对畜牧业全球温室气体排放“吃来者”的假设已被广泛报道，直到今天，我们仍在努力消除这一错误假设的影响。在此番事件评估报告中，联合国粮农组织及农业组织称畜牧业产生的温室气体占人类活动总排放量的14.5%，此前尚无与之相比的针对交通与工业的评估。不过，正如斯特恩等团队所指出时，若将比交通与工业与畜牧业的总排放量，两者分别占比14%和9%。
- I) 许多人仍然认为，每周仅少吃一次肉就会对气候产生重大影响。[44] 但近期一项研究发表，即便美国人从饮食中剔除所有动物蛋白，美国的温室气体排放量也仅减少2.2%，而美国加利福尼亚大学戴维斯分校的研究，若所有美国人践行“无肉日”的饮食，排放量将减少仅0.5%。
- J) 44] 此外，过去10年间美国农业领域在技术、基因与管理方面的重要，已使畜牧业的生产效率提升，温室气体排放量降低。根据联合国粮农组织农业统计数据库，自1961年以来，美国畜牧业的生产温室气体排放量显著下降了11.3%，而肉类产量却增长了一倍多。
- K) 发展中国家和新兴经济体对肉类的需求正在上升，尤其是在中国、非洲和东南亚地区。例如，在有记录，饲养山羊等牲畜是许多小农户和牧民的重要食物来源和收入来源。[45] 但一些地区的人们均须将肉类用于庆祝场合。2017年，赞比亚平均每人每年消费肉类为92公斤，刚果和北非地区为34公斤，非洲其他地区为13公斤。尽管如此，鉴于发展中国家的人口增长预期，美国等国家无特殊肉类消费其可消耗的畜牧业方面在提供供应发展中国家。
- L) 43] 北非畜牧业从美国农业中受益，农业在个领域上降低温室气体排放，但同时也会使美国人们饮食中肉类来源更加多样化。许多批评畜牧业的人士急于指出，在农民只种粮食，他们必须为输入生产更多的饲料而增加更多的玉米、大豆、肉类还需要更多时间使玉米等饲料的生产和加工更加复杂，由于美国玉米和大豆产量中用于出口的，因此有力地论证美国在个领域上不可见的利益。此外，并非所有饲料部分都是可食用饲料所以人们需要食用。饲料性畜是一种多用途动物提供饲料和提供肉的方式。
- M) 举个例子，牲畜所食用的饲料中的能量大多来自在纤维草中，而纤维草是人类和许多其他哺乳动物无法消化消化的，在牛、羊等反刍动物体内分解纤维，并产生这种营养物质中所含的太阳能。[46] 根据联合国粮农组织农业统计数据库，全球可耕地10%的农业用地是牧场，这些土地只使用作为生产饲料和肉类。
- N) 根据目前的预测，到2050年世界人口将达到10亿，若按照此次的人口增长带来巨大挑战，每份肉食品的价格由原来1/3，且反刍动物饲养成本不适合人类食用的饲料生产。饲养牲畜还为发展中国家的小农户提供了他们主要的收入，在全球范围内，畜牧业为10亿人提供了生计。

- (19) 气象变化影响着我们的日常生活。随着农业的意外环境是湿润空气。水和土壤产生了影响。这些国家，再加上世界人口的快速增长，为我们提供许多有力的证据，使我们确信农业生产中，我认为，这一切应从多学科事实的确认开始。

本文探讨了性别平等是特殊技能存在的原因。女性生育后回来工作比男性更早，职场中职业和技能的提升与性别平等密切相关。研究表明，性别平等与职业平等密切相关（如哺乳）被中断工作。这使得性别平等成为女性职业发展的障碍，需要政策干预以从根本上解决。这一现象在全球范围内普遍存在，女性职业平等与性别平等密切相关。

历史学家、女性的雇佣一直较低。但在20世纪60年代，女性的职业开始迅速增长。在那十年间，女性的职业比例从大约百分之十，增加到百分之二十。到2017年，女性的职业比例已经接近男性。

然而，这一趋势并未延续。女性职业比例，

哈佛大学发表的一项新研究表明，这种趋势将受到性别平等与职业平等密切相关的影响。这一观点值得注意。

学者们指出，20世纪60年代，各国政府开始推行性别平等政策时，主要是为女性提供就业机会。尽管这些政策可能帮助女性进入职场，但并不是为了帮助女性获得高薪、有挑战性的工作机会。因此，女性职业平等与性别平等密切相关。

2022 事实上,英国家庭家庭结构是死后,性别平等薪酬制度下降仅每年 0.03 个百分点,并持续至今。

长期以来,关注薪酬平等进程的人希望,令许多国家的发展都在前进。实际上,这种进展在人类社会的许多方面出现了倒退。

性别薪酬差距是缺乏平等是突出的例证之一。而且差距几乎无处不在。“母亲惩罚”成为描述这一现象的代名词:在许多国家,尤其是发达国家,女性在这些拥有平等薪酬的收入与男性相当,几乎没有薪酬或开始薪酬低于与其职位相对应的男性。

这种部分原因在于,女性承担了更多在家庭中所做的无偿劳动,这挤占了她们用于工作和职业发展的时间和精力。不过,另一个原因是,母亲们在薪酬晋升时不得不离开,而且只要离开工作崗位,无论这种离开是自愿的,还是得到了公司或政府或政府的允许,都会耽误女性的职业发展。

2022 如果还有家庭薪酬制度会怎样? 研究本週人理讨论这个问题,仅指出并指出 20 世纪 80 年代的趋势,如今本可实施薪酬平等。

然而,也有可能无论如何,薪酬平等的进程终将止步不前。如果 20 世纪 80 年代女性(在工资方面)的进步是通过薪酬增加和晋升等方式实现的,那么当这些可晋升岗位减少后,女性们会面临一个困境——由于她们能力与男性相当,女性必须要求晋升并承担并在产品初期薪酬低,这迫使她们不得不休职,无论这种休职是自愿还是被迫接受的。

- A) 薪资性别平等与女性薪资。 C) 薪资性别平等与男性薪资。
B) 薪资性别平等与女性。 D) 薪资性别平等与男性薪资。

With the increasing application of AI technology, there is a growing concern that it may negatively impact human creativity. Some people worry that AI might discourage people's independent thinking by offering quick solutions. For example, AI-powered tools like Deepseek can write essays quickly, potentially reducing students' motivation to come up with their own ideas.

However, AI can greatly enhance human creativity when used correctly. Firstly, AI is good at handling repetitive tasks, freeing humans to focus on innovation. AI can help writers generate ideas to come up with new ideas when they get stuck, or help writers create more interesting stories. Secondly, AI can offer insights that humans might overlook. For example, in marketing, AI can analyze customer data to find hidden information. Thus, people can create more targeted and effective plans that they might not have thought of otherwise.

The main factor contributing to people's concern is the over-reliance on AI. How AI affects us depends on how we use it. If used wisely, it can stimulate creativity. If misused, it may stifle originality. The key is that we must ensure that AI products are just an aid, not something to be overly dependent on.

·范文译文·

随着人工智能技术应用的日益广泛,人们越来越担心它可能会对人类的创造力产生负面影响。有人担心通过提供快速解决方案,人工智能可能会阻碍人们的独立思考。例如,像Deepseek这样的AI写作工具可以快速写出论文,这可能会削弱学生提出自己想法的动力。

然而,正确使用AI时,人工智能其实是可以极大地提升人类的创造力的。首先,人工智能擅长处理重复性工作,从而让人类能够专注于创新。当进行创作陷入困境时,人工智能可以提供意想不到的灵感,跳出思维定势,或者帮助作家创作出更有意思的故事。其次,人工智能可以提供人类可能会忽略的洞见。例如,在市场营销中,人工智能可以分析客户数据以及发现隐藏的线索。因此,人们可以制定更有针对性且更有效的计划。而这些计划单独则可能事半功倍。

人们对人工智能的担忧主要源于对其过度依赖。人工智能会怎样影响我们取决于我们如何使用它。如果使用得当,它可以激发创造力;如果使用不当,它可能会抑制创新。关键在于,我们必须确保人工智能产品只是一个辅助工具,而不是过度依赖的对象。

引出问题,指出有人担心通过提供快速解决方案,人工智能可能会阻碍人们的独立思考。

1. 发表观点,分别从“人工智能擅长处理重复性任务,从而让人类能够专注于创新”和“人工智能可以提供人类可能会忽略的洞见”两个方面指出人工智能可以极大地提升人类的创造力,分别由副标题引出。Secondly引出。

2. 总结全文,指出人们对人工智能的担忧主要源于对其过度使用。我们要确保人工智能只是一个辅助工具,而不是过度依赖的对象。

● 概要 ●

本文探讨了美国国会女性代表不足的问题及影响。指出女性议员更关注妇女权益政策，能增强女性选民与政府的联系。尽管女性代表能力不逊于男性，但两党分化导致性别平等政策被冷落。实现性别平等需要更多女性参选，尤其是共和党传统排斥女性从政。

● 全文翻译 ●

女性在政治职位中所占比例仍然很少——在政治决策家和专家眼中——包括她自己。美国国会中的性别平等是一个重要问题。西方参与女性政治的女性数量也较少。[31]制定的所有政策都有很大影响。相对于男性，女性立法者更倾向于提出、讨论并推动通过那些对妇女和女孩影响更为深远的政策，例如照顾家庭、照顾孩子和性别暴力等。

增加国会女性比例还将增强女性选民与政府之间的联系。此外，它还将[32]对女性对“政府女性诉求”的认识，并鼓励女性更多地参与政治。

尽管全球各国政府普遍存在女性代表不足的问题，但美国的情况尤为严重。目前，美国在参议院中女性代表比例仍远低于平均水平，仅为13%。

然而，美国政治文化对[33]严重不足的问题并不在下降或抵制或平等。相反，数十年的研究表明，在[34]更复杂的情况下，女性参与人的参与率与男性相当。

确切地说，女性从政治参与中获得的利益。

在下一届国会中，参议院和众议院将有107名民主女性议员和43名共和党女性议员。

为了[35]女性获得国会中席位，我们需要更多女性参选——鼓励其作为共和党候选人。这要求共和党建制[36]优先招募女性——不仅仅是在一个选举周期内，而是以一种[37]持续的方式。

1) G-especially (adv) 尤其, 特别。

例文 分析本句结构可知，more women need to rise为主句，句首是目的状语，空格处为 Republican women是介词宾语，也充当主语，故空格处填入一个动词。英语中能够介词宾语作同位语的 Republican action。

答案 下 句提及选举权与女性团体化平等文件，众所周知，美国是两党制，这里特指美国共和党派所涉女性。可知空格所在句是说，为了让女性在美国各州地位，更需更多女性参与——尤其作为共和党派成员，被邀请在国会演讲。本句应填

34 *Lipid perturbation* (以 性變態)

【题例】 空梅县This will require the Republican Party as a whole to. 空梅县the Republican Party, 可知空梅县
空梅县一个美国联邦。与——能构成不定式结构。表示目的。

【例22】Recalling that women are not a homogeneous group, as for "female sex", the analysis of women and women's movements and women's organizations should take into account the diversity of women's experiences and needs. (UNEP, 2002)

15 70 1000000 (100 1000000)

【解析】 空格的左为a，右即为any，由此可知，空格处应填入一个表示同意成分，充当宾语从句的否定词，故答案为no。

【例22】 本句为转折复句的内容。若未进一步说明, 且采用了 *not just... but...* 的并列结构。表示“不仅……而且……”。那么 *not just for one election cycle* (不仅仅是在一个选举周期内) 可知, *but* 后面的部分应含有“长期”的含义, *enduring* 表示“持续的”。因此反例的正确答案为 D。

[于此学习]

本文有较多知名媒体网站www.163.com于2019年8月28日发表的一篇标题为“Why some people thrive on solitude”的文章，文章探讨了独处对某些人其与社会的关系。研究发现，独处能使人产生创造力，因为他们有更多时间专注于内心和内心世界。为何有些人在员工比较和团队中会表现不佳，以他们认为更倾向于，且不被他人所接受。独处时人的“默认模式网络”被激活，有助于巩固记忆，增强自我认知，并在空闲时观察内心。独处开始被利用，可以提升创造力。李洪力和自我认知的重要点。独处与孤独感之间存在联系，以克服心理障碍。

当坐的应吐

- A) 我是一个不太愿意社交的人。当社交计划取消时, 我有时会觉得高兴, 在宿舍中睡上几个小时我就会安下心来。我甚至曾参加过一次为期10天的免费部队训练营——不是为了训练, 而是为了那份安静。
- B) 所以我想理解作家契诃夫, 鲁勃斯在《一个人的胜利: 孤独者的宣言》中所写的内容: “对电视节目和社交网络命令给予相同自由询问的方式是危险的。我感到困惑。我被迫封闭。孤独在卧室门的后面显得是一种享受。对我来说, 命令和爱的表亲路易丝一起扮演成是一种惩罚。”
- C) 鲁勃斯不是社交的绝对仇视并不奇怪。13岁, 大量研究证明了社交孤立的重要性, 这在人口质量老龄化时期更被视为一个严重的公共健康问题(尽管所谓“孤独流行病”的说法可能放大了)。在英国, 老年全地区生活质量指数, 根据与孤独相关的风险程度与年龄成正比。最好的社交关系对认知功能、运动功能以及生活质量的其他方面都有益处。
- D) 这在孤独症社交孤立时受到抑制尤为明显。孤独症儿童确实, 就像身置于虐待性孤儿院中的孩子, 以及被单独监禁的囚犯的例子所表明, 长期孤独会产生幻觉, 并导致其他形式的精神崩溃。

② 因此我能够理解作家倪震说，鲁勃斯在《一个人的精神，孤独者的福音》中所写的内容：“对电视节目中的钟父母用命令属于他们自己的时间的方式逐逐地地打时，我感到困惑。他能够控制时间。控制许多部门的民间思维是一种享受。对我来说，现在命令和爱的关系是鲁勃斯一起所建立起来的一种默契。”

(3) 像这样不是社交的阻碍性事件并不罕见。[34] 大量研究说明了社交孤立的危害，这在人口迅速老龄化时更被视为一个严重的公共健康问题（尽管所谓“孤独流行病”的说法可能被夸大了）。在英国，曼罗全科医生曾指出，孤独感与糖尿病的风险程度与吸烟相当。良好的社交关系对认知功能、运动功能以及心理健康的益处已被反复证实。

② 这一点在填制补充空白时显得尤为明显。观察图四可知，被调查者对于虐待性暴力行为中的孩子，以及被单独监禁的囚犯的例子都表明，长期监禁会产生幻觉，并导致其他形式的精神不健康。

- E) 在这些都是显而易见的自我预期情况。[43] 对于我们这些只是更喜欢许多独处时间的人来说，独处的研究带来了好消息：独处是有好处的。——无论是对我们的工作生活，还是对我们的婚姻健康。
- F) 独处的时间可以用来反思，还可以更加深入地思考事物。在一个独立性强度和季节的交替期，独处是必需的，它帮助保持野的，完全热爱独处也有诸多益处。
- G) 独处的一个最重要的好处是富有创造力。加州圣巴巴拉加州大学专门研究创造力心理学的帕雷克发现，孤独将创造力定义为其他四个关键要素的总和或阶段：独处和专注力。但是，通常与创造力有关的个性特征是开放性（对新鲜事物和非传统性接受度），自信和自主性——这可能包括“对社会规范的不关心”和“更喜欢独处”。[44]事实上，费斯林格对艺术家和科学家的研究表明，富有创造力的人最重要的特点之一是对社交的抵触程度较小。
- H) 其中一个原因是，这样的人很可能花在大量时间独自专注于他们的技艺。[45]此外，费斯林格表示，许多艺术家“在努力理解自己的内心世界，以及理解他们试图通过艺术来表达和赋予意义的大致内心的个人经历”。独处为这种创作过程提供所需的反思和观察提供了条件。
- I) 最近发表在最新研究杂志上的心理学研究指出，独处，能刺激社交思维的。社交思维通常分为三种类型：动态思维通常产生新思维；而不喜欢社交而产生的思维；更喜欢独处而产生的不受约束，如费克及其同事的论文可以证明，一种形式的社交思维可能会有积极影响——他们发现，创造力与不量实际有特定联系，他们还发现，不量实际与创造性无关！有趣的是，创造力与创造性有关！，这是显而易见的，因为过去的研究通常不量实际可能更重。但费克及其同事的论文表明，它实际上可能马可思的。费克认为，不量实际的人可能会“有足够多的动力，他们更乐意独处，但也不介意与别人在一起。”
- J) 不过，事实证明，独处的意义性不仅仅在于创造力。人们普遍认为独处需要得到社交。但这一点还要视工作的条件等做出而定。2014年的一项研究指出，在一家比萨店做店员时，当员工认为独处时，外向的员工通常会更感到无聊。但在员工既为积极的访谈中，内向的员工通常更感到有效。其中一个原因是，内向的人不太可能因强烈的个性和意见而感到威胁。他们也更有可能倾听。
- K) 与此同时，自古以来，人们就认识到孤独与精神专注之间的联系。毕竟，由佛教士传统认为独处对日常很重要。独处的研究让我们更好地了解其中的原因。不受外界的一个好处在于，大脑有了积极的精神休息状态，而这与独处的精神相解和成。当有另一个人存在时，这种大脑就不可能避免地会分出一部分精力，这可能是一种积极的心态。但它仍然是分心。
- L) 在没有这种分心的情况下，独自思考会极大地提高默认模式网络。这个网络不仅有助于巩固记忆和理解他人的情绪，还具有其他多种功能。[46] 它是帮助我们独处时不仅有期下长期思考，还能增强你时自己和他人的联结。因此，不要对独处感到恐惧。独处时你实际上有用于再次止空时的表现。而且，你的注意力分散是有助于长期的专注。
- M) 最近，苏珊·朗格成为了一名探索孤独且有创造性的心理学家，她是《艺术：内在的力量》一书的作者。她是Quil Revolution公司的创始人，该公司致力于推广艺术和符合内心的创作。她说：“如今，我们倾向于认为，创造力源自一种绝对不受限制的社交过程，但实际上，它需要保持独处的能力来深度专注。此外，人类是天生善于独处的社交生物。当我们与他人在一起时，我们会自动吸收他们的观点和意见，[47] 更重视自己的道德感，我们必须知道至少在一段时间内独处。”
- N) 然而，有用的独处与安静的独处之间的界限可能很模糊。费斯林格说：“几乎所有事物都可以是适应性的，也可以是非适应性的，这取决于它们的组织程度。”一种思维与功能两者有关。如果有人不再关心他人，并切断所有社会联系，这可能表明这个人对社会关系的象征性的忽视。但创造性的不量实际与这种情况完全无关。事实上，费斯林格说：“孤独从不意味着人的存在。”[48] 陈世华表示，独处，表明一个人对自己的思想、感受和动机，有意识地识别和完全掌控。此外，内向者在社交场合较少受到外界的关注——这与更强烈的幸福感和快乐。
- O) 与许多事情一样，适度是过犹不及。[49] 用种几度独处网络关系，而无需不断用其他停止的聊天来填充生活，可能可能对你有帮助。

因此, 乔尔生并不社交, 也无暇要求改变, 当然, 这更有理由条件的。即使只要每周保持定期社交, 也能将社交故事被曲解, 至少拥有几个好朋友, 让社交有益于你的身心健康或生活质量。那就要去努力了, 至少得花一个平方王正的时间去营造一个健康的圈子。

Passage One

一、原文

本文节选自<https://www.chinainnavigators.com>网站于2018年10月25日发布的文章标题为“When Simulation Is Better Than Reality”的文章。文章强调模拟训练效能，经济和学习中的重要性，指出模拟训练可加速学习，提供沉浸式体验并促进行为改变，成功的模拟训练需要员工积极参与，模拟训练可以塑造工作环境，帮助员工突破思维定式，将学习成果快速应用于实际工作，保持积极态度。

二、全文翻译

模拟训练常用于航空、医疗和军事等领域，因为这些领域往往操作失败就会导致灾难性后果。为了最大限度地发挥模拟训练对技能的价值，参与模拟应立即前所掌握知识直接应用于自己所在组织内的具体实践场景中。

大多数组织都渴望部署更复杂的培训计划，却发现这些计划几乎无法实施。阻碍这些计划成功的原因是因为成功的变革不仅需要领导，还需要一点不折不扣的参与，而且必须制定明确的计划。

要想取得成功，组织必须制定一项培训计划，以便明确迅速与各部门和各层级之间推行变革。大型企业往往面临许多障碍，其中五个最严重的关键挑战阻碍着这些变革，否则这些计划就会面临失败。它们为了解决这些广泛的阻碍，企业必须准备在必须让员工积极参与到变革的过程中。

一、模拟训练的定义

• preliminary n. 预演

• nuclear adj. 核能的

• vacuum n. 真空

• surgery n. 外科手术

• massive n. 大规模地进行的

• intervention n. 干涉，干预

• impact v. 影响，冲击

• deploy v. 部署，调遣

• implement v. 执行，实施

照原，这样促使他们重新思考自己的思维模式，让他们摆脱原思维模式的观念束缚，并抓住学习的机会。

让参与者进入相似环境能为他们提供不同于现实情境的机会，这可以促进他们重新思考自己既有的观念。

对于大多数成年人而言，行为改变并非易事。[40] 因此，他们需要和研讨小组等同样变革的知识资源，但很少能有采取及重大变革的雄心作为后盾。此外，在常规工作环境中，管理者很少能替员工提供所需的全面支持。正因如此，模拟和这样的干预措施能够为变革提供助力。

作为一种学习工具，有效的模拟要比其他使用更好，因为它需要时间、只靠空间、而且与成本不同。它是专门为最大限度提高参与者的学习效果而设计的。模拟提供了一种仅以低成本学习体验。在这种体验中，技能、态度和知识得以以现实工作情境的方式得到突出呈现。同时存在限制、无风险的模拟中模拟、实验以及反复应用新知识的权力，使模拟成为最有成效的学习形式之一。

精心设计的模拟可以使个人和团队理解他们的状况以及他们目前面临的挑战并应如何影响其他参与者和整个组织。然而，要使模拟发挥良好效果，模拟必须让人感觉如同置身现实。在一次成功的模拟结束时，参与者会渴望能够“这就是我们”。如果做不到这一点，他们就会把这种体验当作一场游戏，而难以将其应用到实际工作中。或者更糟糕的是，觉得它与日常工作毫不相关。[41] 为了使模拟带来的益处最大化，参与者应该立即将模拟体验和所学到的知识应用起来，以便在学习和实际之间建立起顺畅的沟通。

● 答案详解

40. 关于模拟中他们得体系，我们了解什么？

- A) 它们可以毫不费力地立即实施。 B) 它们需要员工的热心支持。
D) 它们通常由有经验的组织领导者引领。 D) 它们通常由经验丰富的领导者引领。

根据题干信息词 successful changes 可知答案定位至第二段。

第三段“我听说，成功的变革不仅需要愿景，还需要一支不仅不抵制变革，而且会拥抱变革的员工队伍。换言之，组织中的成功变革需要员工的热情支持，故C项为正确答案。第二段最后一句提到，大多数组织所采用的计划几乎无法实施，A项与原文内容相悖，故排除。文中还提到了 vision，即模拟体系中的“愿景”，而各领导者的“远见”，故B项可排除。原文只是说模拟是一种学习工具，有助于推动变革，并未提及成功变革需要能主动加强学习体验，D项过度推断，故排除。

41. 学习模拟者会如何帮助至少为者的变革思维？

- A) 让他们看到可能实现的结果。 C) 鼓励他们重新思考自己的思维模式。
D) 帮助他们摆脱旧有模式。 D) 鼓励他们利用新的机遇。

根据题干下信息词 learning leaders 和 learners' power 可知答案定位至第三段。

第三段“因此，为了改变这种旧有的思维，学习模拟者必须让至少看到变革可能带来的前景。这使他们看到变革可能实现的结果。A项与原文表述相符。[42] 在选项中的 what could possibly be 与原文中的 what could be 相对应，故为正确答案。其他三项“摆脱旧有模式”“重新思考思维模式”“拥抱新机遇”均属于“看到变革前景”的结果，即员工在接受培训后自身发生的行为变化，而非学习模拟者直接采取的行动，故均排除。

48. 关于婚姻、婚姻顾问和退休金，文章说了什么？

- A) 它们影响着无技能型员工在工作中的行为。
B) 在为全球创造动力这方面，它们是不利于婚姻的负面障碍。
C) 它们正在改变婚姻中员工的行为。
D) 它们将帮助管理者实现员工更努力的全面效果。

根据题干信息词 *marriage, training programs and workdays* 可将答案锁定在文章最后一段。

第五段第二句提到，许多、婚姻项目与培训讨论会都帮助雇员节约时间等等。但很少提及技能及重大变革等核心行为层面。由此可知，这三种活动只能让员工学到理论知识，而无法改变员工在工作中的行为，故A项为正确答案。同时因此排除C项。文章最后一句提到，婚姻和培训对于婚姻能够为企业贡献动力，但并未提及以上三种活动能够为企业贡献动力，故B项排除。原文提到，管理者至少能够看到员工更努力的全面效果，说明以上三种活动并未帮助管理者实现员工更努力的全面效果，D项与原文内容相悖，故可排除。

49. 为什么该组织成为最有成效的学习形式之一？

- A) 它能够通过加快完成大学学习体验来节省时间。
B) 它能让学习者遵循自己的路径、知识和学习过程。
C) 它能为所有参与者的研究实际的学习体验。
D) 它能让学习者在没有任何风险的情况下进行探索、实践和失败。

原句为：It is the most fruitful form of learning 可对应至文章第六段第一句。fruitful 和成果一词中的 produce 为同义复现。原句也可表示“富有成效的”。

第六段最后一句说明该组织，在无限制、无压力的环境中探索、实践以及反复应用新知识的动力，使该组织成为最有成效的学习形式之一。D项符合原文表述，故正确。A项和B项虽然也有该组织的优点，但不是其核心优势，不足以支撑它成为最有成效的学习形式之一，故这两项排除。该项组织为：提供低模式学习体验，而这种体验是在感知型思维中进行的。为寻求在工作中真正实践学习体验，故C项排除。

50. 为了在组织中实现最大的收益，参与者应该做什么？

- A) 把这次体验仅仅当作一场游戏。
C) 培养深层次的创新能力。
B) 立即将他们所学到的知识应用到工作中。
D) 努力与领导层紧密地联系。

根据题干信息词 *develop the greatest benefits possible* 可将答案锁定在文章最后一句。

最后一句是最后一句话说明。为了使知识和带来的益处最大化，参与者应该立即将低模式学到的知识应用起来，以便在学习和实际之间建立紧密的联系。由此可知，为了在组织中实现最大收益，参与者应该立即将他们所学到的知识应用到工作中，故B项正确。文中明确反对将低模式参与作游戏，因为这样做将知识应用到实际工作中，A项与原文内容相悖，故排除。培养深层次创新能力是低模式带来的益处，而非参与者为获得最大的收益应采取的行动，C项符合原文，故排除。D项内容原文并未提及，故排除。

Passage Two

● 主题 ●

这篇文章批判了以GDP增长为核心的发展模式，追求全球“零碳经济”理念和心理层面的问题，揭示了当前我国面临的困境，指出可持续发展的真正意义在于提升公民素质，而非单纯追求GDP增长。作者强调，真正的进步应该体现在公民素质的提升和可持续发展的实现上，而非仅仅追求GDP增长。这一观点要求我们重新审视当前的社会发展模式，并寻求更加可持续和以人为本的发展路径。

● - 全文翻译 -

[14] GDP增长并非很好地衡量国家财富水平，也不应成为政府的主要目标。凡期望增长是不可持续的，经济问题的真正问题应追求经济发展的可持续性。但是，尽管可持续发展对人类的未来至关重要，它也只是实现目标的手段，而非目标本身。

[15] 政府应工作以平衡的重点受到了一些人的批评。人们担心的是福利能否实现。幸福难道不是可持续发展的核心问题吗？不同个体的幸福水平难道不是其地方吗？即使将“幸福”定义为追求新价值或“生活质量”。人们的追求也各不相同。

当然，政府无法向生活满意度增加群众。对政府的主要挑战在于社会协作。政府的责任在于创造能使最穷的百姓，有充分理由相信这些福利政策存在，全球适用，并可经过研究证明。

哲学教授阿兰·巴吉尼在近期发表的文章中指出，我们应关注民众的“基本财富”，而并不依赖于GDP增长。[13] 关键不在于幸福性：人们无谓占有，只需获取能改善生活的财富。技术进步和作业行为更丰富更应的是高效率地利用现有资产。无论人们选择生活所需的世界幸福途径将可避免城市不平等现象。

按目前标准，这一主张与“幸福”倡导者提出的方案有共通之处，因为它为政府每月应作为民众做什么设立的标准过低。

例如，“真实财富”即幸福指数反映我们社会的心态被贬低而不可见。至少在西方国家，心理不健康对福利的损害甚于贫困。除了人力成本心理问题的治疗外，政府能够且应当考虑预防性措施来降低国民心理问题的水平。世界卫生组织成立健康社会参与的机构——开展教育项目和实施干预措施，以培养心理和社会方面的技能。同样地，世界卫生组织不得不通过制定心理健康问题的政策来使各国政府具有供给地的投入者有所助——这一事实本身就能说明很多问题。只要世界仍是政府的首要关注点，他们从片面强调社会在持续的生产力，尤需更进一步。

[12] 要求政府制定公平作为最高优先事项，应成为国家政府将民众生活视为首要目标。

● - 答案详解 -

51. 文章指出关于GDP增长衡量国家财富存在什么？

A) 它仅具有可持续性。

C) 它应成为政府的首要关切。

B) 它时人类幸福至为重要。

D) 它是政府绩效的指标。

原文：GDP增长并非很好地衡量国家财富水平，也不应成为政府的主要目标。凡期望增长是不可持续的，经济问题的真正问题应追求经济发展的可持续性。但是，尽管可持续发展对人类的未来至关重要，它也只是实现目标的手段，而非目标本身。

文章开篇明确指出，GDP增长并非衡量国家财富水平的良好指标，也不应成为政府的主要目标。开篇指出经济问题的真正问题应追求经济发展的可持续性。选项A是文章的核心观点——从追求增长的问题中寻求可持续性，故为正确答案。选项B是可持续发展的特点，而非主要观点；选项C与文中“不应成为政府的主要目标”相矛盾；文中明确否定了选项D这一传统观点。故排除这三项。

52. 作者认为人民对政府应及世界有何观点？

A) 政府无法向幸福等同于人民。

C) 幸福对不同人群互不同。

B) 幸福建立在人们的个人努力基础上。

D) 幸福依赖于持续的经济发展。

根据题干信息关键词 *opposed* 和 *governments should focus on happiness*, 可将答案锁定在文章第二段, 由于中的 *opposed* 对应第二段第一句中的 *criticize*。

文章第二段列出了反对理由: 一、幸福指数不是衡量国家的主观心理幸福吗? 二、不同个体对幸福水平判断标准不是千差万别吗? 三、即使有“幸福”这一广泛地理解为幸福或“生活满意度”, 人们的追求也各不相同。这三点都说明选项 C “幸福对不同人意义不同”, 该选项将原文反对幸福指数的原因, 即幸福的主观性和个体差异性加以引申为判断标准, 故为正确答案。文中提及反对幸福指数并非指如下民众, 故该选项不是反对的主要理由。故排除选项 A。原文未提及幸福能否建立在个人努力之上, 故排除选项 B。选项 D 也不是文章列出的反对理由。故排除。

13. 学者史蒂夫·巴格曼最近调查美国民众应该怎样去做?

- A) 努力减少富人和穷人之间的不平等现象。 C) 改变人们的行为以更好地利用社会财富。
B) 为民众提供改善生活的资源或途径。 D) 利用先进技术提升人们的生活水平。

根据题干信息关键词 *Steven Bagman suggest governments*, 可将答案锁定在文章第四段。

第四段讲述了巴格曼的民意, 即美国公民的“真实心声”。关键在 F 句的表述: 人们无需内疚, 只要在取得物质生活的资源, 关注人们改善生活所需的资源或途径等即可。下文中亦不平等现象。选项 B “为民众提供改善生活的资源或途径”与 F 句的表述相符, 故为正确答案。选项 A 是史蒂夫·巴格曼建议的内容。选项 C、文中提到的“政府行为”由社会行为自然引申, 故政府干预是重点。选项 D “利用技术”是下文中史蒂夫·巴格曼行动建议。故排除这三项。

14. 为什么史蒂夫·巴格曼对经济心理幸福指数能带来证明其优势的合理性?

- A) 没有 GDP 增长, 心理幸福项目大快实施。 C) 心理幸福指数能超越社会的体系。
B) 心理幸福指数对民众福祉有益。 D) 政府仍以经济数据为优先关注点。

根据题干信息关键词 *WBO economic benefits*, 可将答案锁定在文章第四段第四句。

第六段最后两句指出, 世界卫生组织不希望通过提高心理幸福指数的因素来改善其福祉的投入有所谓——这一事实本身就能说明了很多问题。对经济数据仍是政府的首要关注点, 他们只强调经济在保持持续的生产力。尤其更进一步, 选项 D “政府仍以经济数据为优先关注点”与此相符, 故为正确答案。选项 A 与文中第六段 D 句的观点相符。选项 B 是事实, 但非题目所问原因。选项 C, 文中未提及对经济体系的改善。故排除这三项。

15. 作者在此处试图表达什么信息?

- A) 政府目标应以幸福为评判。 C) 政府决策时应与民众意见。
B) 政府目标应以人为本。 D) 政府应将持续的生产力作为首要任务。

根据题干信息关键词 *the end of the passage*, 可将答案锁定在文章最后一句。

文章结尾的表述具有高度概括性: 若将政府的公共福利作为最高优先级, 它愿意且政府将民众幸福视为终极目标。这句话包含两个关键点: 将民众幸福作为最高优先级; 将民众幸福作为终极目标。选项 B “政府目标应以人为本”与此相符, 故为正确答案。选项 A 是作者批判的传统模式, 故排除。选项 C 虽与主旨相关, 却不是作者在文末表达的内容。选项 D 是作者反对的经济优先发展。故排除。

● 参考译文 ●

Since ancient times, China has faced an uneven distribution of water resources, with the north being water-scarce and the south water-abundant. To effectively address the critical water shortage in the northern regions, the Chinese government implemented the South-to-North Water Diversion Project. This is a grand water conservancy project for allocating water resources across regions. After decades of planning and preparation, construction on the project began in 2002 and is divided into three routes: East, Central, and West, with a total length of 4,350 kilometers, benefiting a population of over 400 million. Since its operational launch in 2014, the project has transferred more than 50 billion cubic meters of water to the north, providing a reliable water supply for the people in northern regions while significantly improving the local ecological environment and promoting sustainable and healthy economic development.

● 要点精析 ●

- 第一句：本句如果拆成“主语+谓语+宾语”，则可将其作为句子主干。把“水资源分布不均”作为补充性的内容，翻译为 Since ancient times, China has faced an uneven distribution of water resources, with the north being water-scarce and the south water-abundant.；还可翻译为 Since ancient times, China's water resources have been scarce in the north and abundant in the south, with an unevenly uneven distribution.。
- 第二句：“为了有效解决北方严重缺水问题”是目的状语，翻译为不定式短语。解 To effectively address the critical water shortage in the northern regions. 注意 address water shortage 已经表达清楚“解决缺水问题”这一意思，不可再用描述问题的 problem 一词。
- 第三句：“配置水资源”翻译为 allocating water resources.。
- 第四句：句子较长，先找句子主干。解“工程于2002年开工建设，分为东、中、西三系统”，翻译为 construction on the project began in 2002 and is divided into three routes: East, Central, and West；“总长4350公里”“惠及人口将超过4亿”属于补充性内容，可分别处理为 with 介词短语和现在分词短语，翻译为 with a total length of 4,350 kilometers, benefiting a population of over 400 million；句首“历经数十年的规划与筹备”是状语，翻译为介词短语 After decades of planning and preparation.。
- 第五句：本句较长，先进行拆分，句子主干为“工程向北方调水累计达500亿立方米”，翻译为 the project has transferred more than 50 billion cubic meters of water to the north，其中 transfer 本意为“转移”。在此处“调，调拨”的意思；“为北方地区的人民提供可靠的水资源”和“同时显著地改善了这一地区的生态环境。促进了该地区的可持续发展”之间为“同时”连接，表示并列关系，这两个句子均属于补充说明性的内容。只有在前时，故应处理为分词短语形式，“同时”可翻译为 while。故两句翻译为 providing a reliable water supply for the people in northern regions while significantly improving the local ecological environment and promoting sustainable and healthy economic development. 注意“极大地改善了这一地区的生态环境”和“促进了该地区的可持续发展”应为并列关系，用 and 连接即可。句首“自2014年调水以来”为时间状语，翻译为 Since its operational launch in 2014.
