In her second year, Charlotte Dwyer learned of the use of pesticides, synthetic pesticides on her college campus. Shocked but not surprised, she knew she had to do something. Along with a couple of classmates, Charlotte did a quick web search and discovered a small but growing movement led by the organization, Herbicide-Free Campus (HFC), to rid college campuses of artificial herbicides (灭草剂). They were 34.

Like many, Charlotte experienced climate anxiety—a 35 loss of a climate catastrophe—and was, at the time, looking for an 36. When she discovered the HFC movement, she said she felt she “had found a specific area to focus on that still fit into the larger picture of fighting for a healthier, safer, cleaner 37 for all.”

Toxic herbicide use in agriculture has long been a hot topic. Many institutions of higher education rely on synthetic pesticides and fertilizers to achieve 38 goals. Having a “beautiful” campus means green and perfectly maintained lawns along with flower beds and paved sidewalks. But those 39 managed landscapes can waste in a can: increased cancer risk, 40 waterways, poisoned wildlife and billions of soil.

Pesticides used on college campuses also contribute to our global climate crisis. The use of chemicals to get rid of insects or unwanted plants like can increase carbon 41, as they can contain petroleum-based ingredients. Pesticides can also decrease the life in soil, 42 the ability of soils to absorb carbon or retain water and thus reducing ecosystems’ ability to recover quickly from climate-related extreme weather events like droughts and floods.

Instead of using toxic chemicals, students working with HFC help cut with 43 the campus grounds.

“This work reminds me to be in the present moment as I play my role in reducing herbicide use and keeping my campus safe and healthy,” says Charlotte.

Section II

Directions: In this section, you are going to read a passage with ten sentences attached to it. Each sentence contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on Answer Sheet 2.

Why Your Library Is the Most Important Place in Town

A) Librarians have the value of their community services, and their patrons appreciate their importance as well. But in an increasingly digital world, we see the role of libraries as contemporary and cultural centers at more undervalued. When shrinking municipal budgets combine with the disruptive technological revolution, public library services face from us building communities face-to-face, exploring and educating patrons about art, literature, and comic, and helping patrons engage in civic discourse can seem old-fashioned. But it is precisely these stimulating budgets and the

market of technologically mediated life that make public libraries' cultural and community offerings more important than ever.

- B) Many people point out the value public libraries bring to their communities. More than just books and books of computers, libraries are safe places where individuals gather to explore, interact, and imagine. Some of the specific ways in which libraries add value to our communities and serve as cultural centers for our persons are community builders, centers for the arts, and champions of youth. Libraries serve as these capacities and we strive that just about everyone.
- C) As community builders libraries are engaged in incredible work. From day public libraries in large city institutions, with multiple branches, libraries across the United States are building community and supporting local culture in striking ways. These are inspiring and hopefully will encourage libraries involved in community service and cultural outreach to make connections with each other, share ideas, and build partnerships. Supporters of libraries as community builders claim that when you are in their changing neighborhoods, you are not completing the work you are to do. Strengthening neighborhoods and championing the cultural lives of communities are big responsibilities.
- D) Place-based economic development stresses the importance of offering attractive, functional, and community-based places, such as libraries, in town squares and depressed neighborhoods. Like a major department store in a mall, libraries across large numbers of people, creating economic opportunities for numerous businesses and organizations in the surrounding area. Large cities, midsize-sized cities, and even small towns have successfully transformed their libraries into the hubs (枢纽) of vibrant neighborhoods.
- E) As key municipal agencies, and focal points for community education, libraries are major players in creating livable, environmentally friendly cities and towns. The Urban Library Council released a report detailing the unique ways in which libraries can further sustainability at the local level. Beyond ensuring that library construction projects consider environmental aspect, libraries can take a lead in supporting local events and businesses, like the Peabody Institute Library's partnering with local businesses to promote a farmers' market in their courtyard, or the Richmond Public Library's seed lending library which" borrow locally-sourced plant varieties, and fosters community resilience (韧性) and a culture of sharing."
- F) Archives preserve historic artifacts, oral histories, digital history projects, and scholarly writings relevant to the community, including minority groups. Communities lucky enough to have archives have a great advantage when it comes to organizing historical records and artifacts. An organized archive is a place where people can research their ancestry and immigration history, do environmental research, and more. An archivist is an advocate for preservation who, among other things, coordinates the restoration of maps and paintings, the digitization of vital records, and the creation of oral history projects. With projects like the Massachusetts Memory Road Show and the Veterans History Project, evidence of the importance of archives is everywhere.
- G) In the words of Robert Putnam, "People may go to the library looking mainly for information, but they find each other there." New voices connect at busy story-times; elderly people, often facing difficult life transitions, attend events and find that they share few friends; teenagers meet up in libraries' teen spaces after school; and students discuss current events in the periodicals room. In libraries, community-building connections are happening all the time.

- 19) As Keith Richards said, "The public library is the great equalizer." Despite the rising costs of books and theater tickets, public library events (including concerts, author visits, and gallery displays) are often offered free of charge, enabling people of any income level to attend. In addition, library book groups allow people to explore and discuss the literary arts, and the Great Stories Club introduces at-risk youth to literature. The best part? It's all free and open to the public.
- 20) In a time when education is increasingly expensive, public libraries provide information and educational opportunities free for all people, regardless of their socio-economic status. Offered by libraries across the country, American Library Association's Let's Talk about It programs are wonderful examples of scholar-facilitated learning opportunities in libraries. In addition, many libraries provide classes and discussion programs, and some even provide online continuing education courses such as the Universal Class program.
- 21) Libraries know that patrons aren't just information consumers, they're information producers. Patrons use the library to gain knowledge in order to create their own art and independent works. Increasing numbers of libraries provide spaces and services that meet the needs of people who want to learn how to edit Wikipedia, set up blogs or podcasts, create their own websites, and so much more. Many libraries even are on writing workshops and groups, and some provide music practice rooms for patrons. Programs like TeenUp! in Charlotte, North Carolina, provide teaching models that value community participation, creativity, and openness to a new level.
- 22) The decline of civil discourse stems in part from the fact that it is so easy for people to watch news about, say, gunshots from, and engage—in both the virtual and real worlds—only with those of similar backgrounds and ideologies. Public libraries, through such programs as The Human Library and Stories C.U.L., can help build small communities of difference that encourage people to interact with and learn from each other through dialogue. By both actively practicing civil discourse through these programs, and modeling and explicating the principles of free inquiry and expression for all, libraries help individuals rediscover the importance of and increased need for civil discourse in American life.
- 23) Free tutoring, homework help programs, and summer reading programs for kids and teens help bridge the economic divide that impacts students' academic performance. The cost of hiring a private tutor is well beyond what many library patrons can afford, so librarians offer homework help and tutoring online, by phone, in person, and even through social media and homework apps. Annual summer reading programs also have a positive impact on student performance and, according to a 2019 study conducted by Pennsylvania University's Graduate School of Library and Information Science, students' reading skills got a boost from these popular nationwide events.
- 24) Through library collections, programs, and physical spaces, children learn to share, to be engaged in their communities, to participate in the arts, and to explore their immediate world and the world at large. There are many excellent examples of innovative library services for children, including the Middle Country Public Library's Nature Explorers, which engages children in learning about the natural world.
- 25) These examples are just a few of the many amazing things that public libraries around the United States (and the world) are doing to build and maintain strong community connections. We encourage you to try some of these ideas at your own libraries, and we hope that these ideas will help you be better able to convey your community leaders of the important role that public libraries play in communities large and small.

26. People going to the library in search of information can build connections with each other there.
27. According to advocates of libraries as community builders, librarians are not doing their job well if they do not change their communities.
28. With the cost of education continually rising, public libraries create places where all people can have access to education.
29. Libraries draw large crowds, thus creating lots of business opportunities in neighboring areas.
30. With the world more and more digitized, people acknowledge the role of libraries in community and cultural history.
31. Various programs organized by public libraries for children and adolescents help narrow the gap between students from varying economic backgrounds.
32. In an organized archive, people can do research on their family history and find out how their ancestors came to settle in the new land.
33. Public libraries organize cultural events, often allowing people of different income levels to attend free of charge.
34. Besides being an information provider, the library performs many other important services for the community.
35. Public libraries can help build social competencies of people with different backgrounds and ideologies.

Section C

Directions: There are 2 passages in this section. Each passage is followed by seven questions or unfinished statements.

For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the center.

Passage one

Questions 44 to 50 are based on the following passage.

Nationally, one in six children miss 15 or more days of school in a year. Education officials have displaced all this missed instruction.

Those statistically absent students suffer academically because of all the classroom instruction they miss out on. In 2013, the US secretary of education responded to this crisis, saying accountability to support every student to attend every day and be successful in school. His open letter stated that missing 10% of school days in a year for any reason exposed a student—in a primary cause of low academic achievement.

Worrying about whether children attend school makes sense. After all, if students don't show up, teachers can't teach them.

But what if America's attendance crisis is about much more than students missing class? What if, instead, it is a reflection of family and community crises that students face—such as being rejected from the family apartment, fearing for their safety in their neighborhood or suffering an illness?

As social scientists are investigating how crowded and unconnected spaces relate to children's academic achievement.

We find that students missed by a parent do little to harm children's learning. In fact, children with no unexcused absences—but 15 or 20 excused absences—have an average equal to those peers who have no absences.

Moreover, the average child with even just one unexcused absence does much worse academically than peers

with them.

We believe unexcused absence is a strong signal of the many challenges children and families face, including economic and medical hardships. Unexcused absence can be a powerful signal of how their out-of-school challenges affect children's academic progress.

Our evidence suggests unexcused absences are problematic, but for a different reason than people often think. Absences from school, and especially unexcused absences, matter's family as a signal of many issues children and their families may be facing. It could be less as a cause of lower student achievement than is often instructed.

How we choose to think of school absences matters for educational policy. School attendance policies typically hold schools and families accountable for the days children miss, regardless of whether they were excused or unexcused absences.

These policies assume that missing school for any reason harms children academically because they are missing classroom instruction. They also assume that schools will be able to effectively intervene by reducing student absences. We find neither to be the case.

As a result, these problematic policies end up disproportionately punishing families dealing with out-of-school crises on their lives, and punishing schools who serve them as key students to school more often.

We instead suggest using unexcused absence from school as a signal to channel resources to the children and families who need them most.

46. What does the US secretary of education say in his open letter?

- A) It is of vital importance to respond promptly to the school absence crisis.
- B) The academic performance of chronically absent students is deplorable.
- C) Low academic achievement is usually attributed to school absences.
- D) The effect of school absences on American education is worrisome.

47. What do the authors find about school absences?

- A) Excused school absences have little impact on children's learning.
- B) There is little difference between excused and unexcused absences.
- C) Excused absences tend to comparatively harm school performance.
- D) Unexcused absences are a big challenge to both schools and families.

48. What do the authors believe concerning unexcused school absences?

- A) They are likely to cause a decrease in students' academic achievement due to repeated excusations.
- B) They point directly to many of the out-of-school challenges confronting children and their families.
- C) They are another the American government typically ignores when formulating educational policies.
- D) They give a clear signal to children and their families of the crisis they are likely to face in the future.

49. What is the assumption underlying education policies in the US?

- A) Children's academic performance depends on reducing the number of absences.
- B) Schools can boost children's academic performance by effective intervention.
- C) Schools as well as families should be held responsible for out-of-school crises.
- D) Children's academic performance is closely related to the quality of instruction.

Passage Two

Questions 87 to 94 are based on the following passage.

After earning a bachelor's degree, I was determined to do what I love. I headed straight to graduate school to investigate the social problems that frustrated me.

For almost a decade, I told everyone I accompanied that they should do the same. "Follow your passion," I preached. "You can figure out the employment stuff later."

It wasn't until I began to research this widely accepted career advice that I understood how problematic it really was.

As a sociologist, I interviewed college students and professional workers to learn what it really means to pursue their dreams, which I will refer to here as the passion principle. I was amazed by what I found out about the principle in the records for my own book.

Surveys show the American public has long held the passion principle as high regard as a career decision-making priority. And its popularity is even stronger among those facing job instability.

Advocates of the passion principle found it compelling because they believed that following one's passion can provide wisdom with both the satisfaction necessary to work hard and a place to find fulfillment.

Yet, what I found is that following one's passion does not necessarily lead to fulfillment, but is one of the most powerful cultural forces perpetuating overwork. I also found that promoting the pursuit of one's passion helps perpetuate social inequality due to the fact that not everyone has the same economic resources to allow them to pursue their passion with ease.

While the passion principle is broadly popular, not everyone has the necessary resources to put that passion into a stable, good-paying job. Passion-pursuers from wealthier families are better able to quit and find a job they are passionate about even when worrying about student loans on the sidelines. They are also better placed to take unpaid internships to get their foot in the door while their parents pay their rent. And they often have access to parents' social networks to help them find jobs. Surveys revealed that working-class and lower-generation college graduates, regardless of their career field, are more likely than their wealthier peers to end up in low-paying unstable jobs when they pursue their passion.

Colleges, workplaces and career counselors who promote the "follow your passion" path for everyone, without leveling the playing field, help perpetuate socioeconomic inequalities among career aspirants.

It's not just well-off passion-pursuers who benefit from the passion principle. Employers of passionate workers do, too. Passionate employees showed greater tolerance in passionate applicants in part because they believed the applicants would work hard in stable jobs without expecting an income to pay. They even sacrifice a good salary, job stability and break time to work in a job they love.

51. What did the author advise people to do for almost a decade?

- A) Figure out what is the most successful job.
- B) Follow widely accepted career counsel.
- C) Pursue their careers with passion.
- D) Do whatever they are assigned to.

52. How did the author feel about the passion principle through his research?

- A) He was迷惘 by its consequences.
- B) He was further convinced of its wisdom.
- C) He was actually right to follow it through.
- D) He was struck by its local popularity.

53. What is important in turning one's passion into a stable, good-paying job?

- A) Willingness to take unpaid internships and low-paying jobs.
- B) Full academic preparation and sound career counseling.
- C) Hard work and sacrifice of leisure time.
- D) Financial backing and social connections.

54. What happens when everyone is encouraged to follow their passion?

- A) Many more career aspirants end up unemployed.
- B) People are less concerned with socioeconomic inequality.
- C) Socioeconomic inequality is likely to persist.
- D) Career counselors are going to lose credibility.

55. What does the author say about employers of passionate workers?

- A) They provide these workers with job stability and a good salary.
- B) They exploit these workers' passion to benefit themselves.
- C) They level the playing field for these workers to reach their goals.
- D) They encourage these workers to realize their aspirations.

Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on Answer Sheet 2 with a single line through the circle. You may not use any of the words in the bank more than once.

The slow progress of women in elective office is frustrating for state political observers and experts—including myself. Achieving gender equality in Congress is an important goal. This is because the availability of women involved in legislative decisions has significant 26 for all the policies that governments 27. Female legislators are more likely than men to introduce, speak about and work to pass policies that disproportionately affect women and girls, such as paid family leave, pay 28 and gender-based violence.

Having more women in Congress also means a greater sense of connection between female voters and government. In addition, as 29 women's issues that governments often about, these concerns push women to become more politically engaged. While women are underrepresented in governments around the globe, it is particularly 30 problem in the United States. Currently, the US ranks 73rd in the world when it comes to female representation in government.

Like the women voters are as 31 underrepresented in US government is not, because they face resistance from voters at struggle to raise money. On the contrary, decades of research shows that female candidates raise as much money and win as often as male politicians. It is simply 32.

Rather, the slow progress of women in politics is a tale of two political parties.

In the 117th Congress, there will be 107 female Democratic lawmakers and 42 female Republican lawmakers in the Senate and House combined.

In order for women to gain half of the seats in Congress, more women need to run. 33 as Republican leaders. This will require the Republican Party as a whole to 34 recruiting women—and not just for one election cycle, but in a 35 way.

Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by writing the corresponding letter on Answer Sheet 2.

The Benefits of Solitude

- A) I am by a self-styled sociolite. I'm sometimes secretly pleased when social plans are called off. I get neither a five-hour bus to hangout. I even once went on a five 10-day silent meditation (冥想) retreat—and for the meditation, but for the silence.
- B) So I can relate to author Anne Kiley, who wrote in *Fury of One: The Loners' Manifesto*: "When parents on TV always punished their kids by ordering them to go to their rooms, I was confused. I loved my room. Being there behind a locked door was a relief. To me a punishment was being ordered to play games with my cousin Lope."
- C) Unsocial experiences like these are often far from ideal. Abundant research shows the harms of social isolation, considered a serious public health problem in countries that have rapidly aging populations (though talk of a "loneliness epidemic" may be exaggerated). In the UK, the Royal College of General Practitioners says that loneliness has the same risk level for premature death as diabetes. Strong social connections are important for cognitive functioning, motor function and a smoothly running immune system.
- D) This is especially true for cases of extreme social isolation. Examples of people kept in captivity, children kept isolated in abusive orphanages, and prisoners kept in solitary confinement all show how prolonged solitude can lead to anhedonia (快感) and other forms of mental instability.
- E) But there are serious and involuntary cases of isolation. For those of us who just prefer plenty of alone time, emerging research suggests some good news. There are benefits to being alone—for both our work lives and our emotional well-being.
- F) Solitude is a time for reflection, for thinking about things more deeply. In a world increasingly focused on speed and companionship, solitude is precious and something to be treasured. And there are benefits to learning to love your solitude.
- G) One key benefit of solitude is improved creativity. Gregory Feist, who focuses on the psychology of creativity at California's San Jose State University, has defined creativity as thinking or inventing with two key elements: originality and usefulness. He has found that personality traits commonly associated with creativity are openness (receptiveness to new thoughts and experiences), self-confidence, and necessity—which may include "a lack of concern for social norms" and "a preference for being alone". In fact, Feist's research on both artists and scientists shows that one of the most pronounced features of creative folks is their inner lawyer: it's thinking.
- H) One reason for this is that such people are likely to spend substantial time alone working on their craft. Plus, Feist says, many artists "are trying to make sense of their internal world and a lot of external personal experiences that they're trying to give expression and meaning to through their art." Solitude allows for the reflection and observation necessary for that creative process.

- D) A recent justification of alone time came from University of Buffalo psychologist John Bowler, who specializes in social withdrawal. Social withdrawal is usually categorized into three types: shyness caused by fear or anxiety, avoidance, and a dislike of socializing, and sociability. From a preference for solitude. A paper by Bowler and her colleagues was the first to show that a type of social withdrawal could have a positive effect—they found that creativity was linked specifically to sociability. They also found that sociability had no correlation with aggression (shyness and avoidance did). This was significant because while previous research had suggested that sociability might be harmful, Bowler and colleagues' paper showed that it could actually be beneficial. Unsociable people are likely to be "having just enough interaction," Bowler says. "They have a preference for being alone, but they also don't mind being with others."
- E) But, it turns out that solitude is important for more than creativity. It's commonly believed that leaders need to be solitary. But this depends, among other things, on the permission of their employees. The 2015 study showed that in branches of a pizza chain where employees were more positive, outgoing bosses were associated with higher profits. But in branches where employees were more active, introverted (内向的) leaders were more effective. The reason for this is that introverted people are less likely to feel threatened by strong personalities and suggestions. They're also more likely to listen.
- F) Since ancient times, meanwhile, people have been aware of a link between isolation and mental focus. After all, cultures with traditions of religious seclusion (籠土) believe that solitude is important for enlightenment. Modern research has given us a better understanding of why. One benefit of sociability is the brain's state of active mental rest, which goes hand-in-hand with the activities of being alone. When another person is present, your brain can't help but pay mental attention. This can be a positive distraction. But it's still a distraction.
- G) Daydreaming is the absence of such distractions activates the brain's default-mode network. Among other functions, this network helps to consolidate memory and understand others' emotions. Giving this role to a wandering mind not only helps with focus in the long term but strengthens your sense of both yourself and others. Paradoxically, therefore, periods of solitude actually help when it comes time to socialize once more. And the occasional absence of them ultimately helps concentration in the long run.
- H) A more recent advocate of thoughtful and productive solitude is Susan Cain, author of *Quiet: The Power of Introverts in a World That Can't Stop Talking* and founder of Quiet Revolution, a company that promotes quiet and introvert-friendly workplaces. "These days, we tend to believe that creativity emerges from a decidedly outward socializing process, but in fact it requires sustained attention and deep focus," she says. "Also, humans are both physical and social beings that when we surround ourselves with others, we automatically take in their opinions and reactions. To truly chart our own path or vision, we have to be willing to isolate ourselves, at least for some period of time."
- I) Still, the line between useful solitude and dangerous isolation can be blurry. "Almost anything can be adaptive and maladaptive, depending on how extreme they get," Cain says. A disorder has to do with dysfunction. If someone keeps coming about people and cuts off all contact, that could point to an irrational aspect of social isolation. But creative sociability is a far cry from this. In fact, Cain says, "there's a real danger with people who are never alone." It's hard to cultivate one's own thoughts, feelings, and desires, to be self-aware, and fully understand

you have occasional solitude. In addition, introverts tend to have fewer but stronger friendships—which has been linked to greater happiness.

UP As with many things, quality trumps over quantity. Maintaining a few solid relationships instead of having the need to constantly populate your life with random chance encounters may be better for you.

PS Then, if your personality lends toward sociability, you shouldn't feel the need to change. Of course, that comes with qualifications. But as long as you have regular social contact, you are choosing solitude rather than being forced into it, you have at least a few good friends and your solitude is good for your well-being or productivity. There's no point agonizing over how to fit a square personality into a round hole.

36. Lots of research demonstrates that being socially isolated is harmful to the elderly.

37. Being alone enables artists to think and observe, which is a must for their creation.

38. To one extent, being forced to play with others was a penalty while being alone was a reward with quite a pleasure.

39. Recent research shows for the first time that there is a specific link between being creative and being sociable.

40. We may be willing to stay alone in hope for some in time order to pick up our career.

41. According to new research, for people who prefer being alone, solitude can be harmful to their work from any emotional health.

42. It may turn out to be better for one to cultivate a few steady relationships than to busy themselves something.

43. Allowing your mind to wander freely is conducive to sharpening your focus in the long run.

44. Research conducted on artists and scientists indicates that creative people are less interested in hanging out with others.

45. According to Fiske, you will have difficulty knowing yourself if you do not stay alone occasionally.

Section C

Directions: There are 3 passages in this section. Each passage is followed by some questions or unfinished sentences. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the center.

Passage One

Questions 46 to 50 are based on the following passage.

Scientists are more often utilized within industries such as nuclear power, aviation and surgery where failure results in disastrous consequences. To maximize the value from a short-term learning experience, participants should immediately and directly apply their learning to a specific intervention within their organization.

While organizations aspire to deploy significant change programs, only a few find them nearly successful or implemented. This is largely because successful change requires more than a vision; it requires a workforce that not only doesn't resist change, but embraces it.

To achieve success, an organization must build a transformation program that will allow change to be readily pulled across its departments and throughout its layers. Expansion of the level of senior management involvement,

wise key thought leaders at all levels embrace the change, the initiative will wither and die. To create this level of widespread passion, leading leaders must expose the workforce to what could be, which will enable them to rethink their mental models, consider ways to break free from their deep-seated paradigms and embrace the opportunity to learn.

Allowing participants to enter a simulated environment provides them with the opportunity to experience alternative realities which can prompt them to rethink their current beliefs.

Behavioral change is not easy for most people. Lectures, training programs and workshops can explore the intellectual elements of transformations, but they are seldom effective at getting to the behavioral aspects that lie at the heart of a significant change initiative. Further, under normal working conditions, managers rarely see the full effect of their employee development efforts. As such, an immersion like a simulation can provide the stimulus for change.

An effective simulation can be better than experience as a learning tool because it accelerates time, compresses space, and builds reality, is specifically designed to maximize participant learning. Simulations provide an immersive learning experience where skills, processes and knowledge all can be highlighted in a way rarely comes. The ability to explore, experience and repeatedly apply new knowledge is utilized, put into practice as what makes simulation one of the most powerful forces of learning.

Well-designed simulations can enable individuals and groups to develop a deep level of understanding about how their decisions and interview responses to business stimuli affect those fellow participants and the organization as a whole. To reap the benefits, however, simulations must feel like reality. At the end of the successful simulation, participants soon declare "this is us." If they don't, they will view the experience as a game, which can be difficult to apply on the job, or worse, irrelevant to everyday work tasks. To maximize benefits from simulation, participants should immediately apply the learning from the experience to forge a smooth link between learning and doing.

46. What do we learn about successful changes in organizations?

- A) They can be immediately implemented with great ease.
- B) They are usually led by organizational leaders of vision.
- C) They call for enthusiastic support from the workforce.
- D) They often result from workplace learning experiences.

47. What should learning leaders do to remove learners' barriers to change?

- A) Allow them to see what could possibly be achieved.
- B) Help them break free from their old paradigms.
- C) Encourage them to rethink their thought models.
- D) Stimulate them to embrace fresh opportunities.

48. What does the passage say about lectures, training programs and workshops?

- A) They are generally acceptable of changing workers' behaviors on the job.
- B) They are unquestionably different from simulations in training schools for change.
- C) They are at transforming the behaviors of the workers in an organization.
- D) They help managers achieve the full effect of employee development efforts.

49. What makes simulation one of the most fruitful forms of learning?

- A) Its capability of driving them by experiencing the immersive learning experience.
- B) Its potential for learners to maximize their skills, knowledge and learning process.
- C) Its capability of providing all participants with a practical learning experience.
- D) Its potential for learners to explore, experiment and practice without any risk.

50. What should participants do to be a simulation to reap the greatest benefits possible?

- A) Take the experience as a mere game.
- B) Apply generously what they learn to their jobs.
- C) Develop a deep level of understanding.
- D) Strive to connect closely with their leaders.

Passage Two

Questions 31 to 34 are based on the following passage.

GDP growth is not a good indicator of how well a country is performing, and should not be the primary goal of governments. Unlimited growth is not sustainable, and economic thinking is moving towards the idea that we should aim for sustainability in our economic systems. This calls for a sustainable economy in view of our future. It is a means to an end, not an end in itself.

The idea that governments should focus on happiness has its critics. There are concerns about how happiness can be measured. Is happiness not a fleeting and subjective psychological state? Don't different people experience different levels of happiness? Even on the broadest interpretation of 'happiness' as prosperity or 'life satisfaction', people want different things.

Of course, governments should improve life satisfaction in children. But our happiness relies on collaborative efforts in a society. A government's obligation lies in creating conditions that promote prosperity. And there is good reason to suppose that such conditions must, in principle, be applicable, and are discoverable through research.

In a recently published article, philosopher Julian Nida-Rümelin suggests we should focus on "real wealth" by contrast, which does not depend on GDP growth. Access is key: people do not need to own, but rather access things that enable them to live well. Technological advances and changes in social behavior enable us to make more efficient use of the means that we already have. And focusing on access to the resources people need is far better than could help reduce inequality.

As far as it goes, this has much in common with proposals linked by 'happiness' advocates. But it sets the bar far too low for what governments can and should be doing for their citizens.

For example, it's not clear how a 'real wealth' economy would remedy the epidemic of mental ill-health that plagues our society. In Western countries, at least—poor mental health is more detrimental to wellbeing than poverty. Offer and above a vastly improved provision of therapeutic mental healthcare, there are preventative measures for

improving mental health that governments could and should adopt. The WHO recommends establishing institutions that facilitate community participation—educational programs and interventions that provide skills for promoting mental well-being. It says a lot, however, that the WHO feels the need to appeal to the economic benefits of improving mental health to persuade governments that the cost of taking proposed measures is justified. As long as the economy is their priority, governments need go no further than ensuring citizens' economic productivity.

To succeed, then, governments set the "happiness" of citizens as their highest priority is in demand that they were corrupt or such to themselves.

51. What does the passage say is the more recent thinking of economic growth?

- A) It should be made sustainable.
- B) It is vital to the future of humanity.
- C) It should be governments' chief concern.
- D) It is an indicator of governments' performance.

52. Why are some people opposed to the idea that governments should focus on happiness?

- A) Governments cannot impact happiness on citizens.
- B) People's happiness is based upon their own volition.
- C) Happiness means different things to different people.
- D) Happiness depends on sustainable economic growth.

53. What does philosopher Julian Nida-Rümelin suggest governments do in a recently published article?

- A) Try to reduce inequality between the rich and the poor.
- B) Provide people with access to resources for a better life.
- C) Change people's behaviors to get social wealth to better use.
- D) Make use of advanced technology to improve people's lives.

54. Why does the WHO feel the need to appeal to the economic benefits of improving mental health to justify its recommendations?

- A) Mental health programs cannot be matched with GDP growth.
- B) Psychological improvements are conducive to people's well-being.
- C) Poor mental health is detrimental to a nation's economic system.
- D) Governments still take economic development as their priority.

55. What message does the author try to convey at the end of the passage?

- A) Governments' goal should be prosperity-driven.
- B) Governments' goal should be people-oriented.
- C) Governments should consider citizens' views in decision-making.
- D) Governments should set economic productivity as their top priority.

No human on Earth is tougher than the tiny tardigrade (缓步类动物). It can ___26___ boiling liquids at +212°C stress, being exposed to the vacuum of outer space and even being ___27___ each 500 times the dose of X-rays that would kill a human. In other words, the creature can endure conditions that don't even exist on Earth. And researchers are looking at the microscopic animals to learn how to prepare humans and crops to handle the ___28___ of space travel.

The tardigrade's indestructibility stems from its ___29___ to its environment—which they seem surprising, since it lives in ___30___ comfortable places, like the cool, wet patches of moss (青苔) that live in garden walls.

But it turns out that a tardigrade's deep, heavy hunch can dry out many times each year. Drying is pretty ___31___ for most living things. It does damage so cells in some of the same ways that freezing, vacuum and radiation do.

Terrestrial, however, have 32 special strategies for dealing with these kinds of damage.

As a ciliate goes out, its cells produce several strange proteins that are unlike anything found in other animals. In some, the proteins are shapeless. But as stress disappears, the proteins self-assemble into long fibers that fill the cell's 33. The fibers support the cell's membrane (細胞膜) and proteins, preventing them from breaking or 34.

Combining ciliates could one day help humans colonize outer space. Food crops could be engineered to produce tera-grade proteins, allowing these organisms to grow more efficiently on spacecraft where levels of radiation are elevated compared with on Earth.

So if humans ever succeed in reaching the stars, they may accomplish this 35, in part, by mimicking on the shoulders of the tiny eight-legged endurance specialists in your backyard.

Function 3

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on Answer Sheet 2.

Yes, eating meat affects the environment, but cows are not killing the climate

- A) As the scale and impacts of climate change become increasingly alarming, meat is a popular target for action. Advocates for the protection of the planet's environment from destruction as pollution urge the public to eat less meat. Several activists have even called for banning meat in order to combat climate change.
- B) A key claim underlying these arguments holds that globally, meat production generates more greenhouse gases than the entire transportation sector. However, this claim is demonstrably wrong, as I will show. And its persistence has led to false revelations about the linkage between meat and climate change.
- C) My 2004 research focuses on ways in which animal agriculture affects the quality and climate change. In my view, there are many reasons for either choosing animal products or opting for a vegetarian diet. However, abundance and local production is not the environmental power (影响力) many would have us believe. And it takes an average, it also could have harmful nutritional consequences.
- D) A healthy portion of meat's negative reputation on the question of the climate is the largest source of greenhouse gas worldwide. For example, an analysis published in 2009 by the World Watch Institute found in

Washington, D. C. asserted that 51 percent of global greenhouse gas emissions come from rearing and processing livestock. According to the U. S. Environmental Protection Agency, the largest sources of U. S. greenhouse gas emissions in 2014 were electricity production (38 percent of total emissions), transportation (28 percent) and industry (22 percent). All of agriculture accounted for a total of 9 percent. But all of animal agriculture contributes less than half of that amount, representing 3.9 percent of the total greenhouse emissions in the U. S. That is, very different from claiming that livestock represents as much as or more than transportation.

- Q3 Why is there such a misconception? In 2006 the United Nations Food and Agriculture Organization (FAO) published a study titled "Livestock's Long Shadow," which received widespread international attention. It stated that livestock produced a staggering 18 percent of the world's greenhouse gas emissions. The agency drew a startling conclusion that livestock was doing more to harm the climate than all modes of transportation combined. This latter claim was wrong, and has since been corrected by Henning Steinfeld, the report's senior author.
- F3 The problem with that analysis from the FAO was a comprehensive life-cycle assessment to study the climate impact of livestock, but it did not include what they analyzed transportation. For livestock, they considered every factor associated with producing meat. This included emissions from feedlot production, converting feed from crops to livestock, growing feed, and direct emissions from animals (manure as well as expelling of gas from the stomach) from birth to death.
- Q3 However, when they looked at transportation's carbon footprint, they ignored impacts on the climate from manufacturing vehicle materials and parts, assembling vehicles and maintaining roads, bridges and airports. Instead, they only considered the exhaust smoke emitted by diesel cars, trucks, buses and planes. As a result, the FAO's comparison of greenhouse gas emissions from livestock to those from transportation was greatly distorted.
- Q3 I pointed out this flaw during a speech to fellow scientists in San Francisco on March 22, 2010, which led to a flood of media coverage. To its credit, the FAO immediately owned up to its error. Unfortunately, the agency's initial claim that livestock was responsible for the lion's share of world greenhouse gas emissions had already received wide coverage. To this day, we struggle to "ring" the bell. In its most recent assessment report, the FAO estimated that livestock produces 14.3 percent of global greenhouse gas emissions from human activities. There is no comparable full life-cycle assessment for transportation. However, as Steinfeld has pointed out, direct emissions from transportation versus livestock can be compared and amount to 14 versus 3 percent, respectively.
- F3 Many people continue to think that reducing meat as infrequently as once a week will make a significant difference to the climate. But according to the recent study, even if Americans eliminated all animal protein from their diets, they would reduce greenhouse gas emissions by only 2.6 percent. According to our research at the University of California, Davis, if the practice of intensive livestock were to be adopted by all Americans, we'd see a reduction of only 0.5 percent.
- F3 Moreover, technological, genetic and management changes that have taken place in U. S. agriculture over the past 50 years have made livestock production more efficient and less greenhouse gas-intensive. According to the FAO's statistical database, total direct greenhouse gas emissions from U. S. livestock have declined by 11.3 percent since 1961, while production of livestock meat has more than doubled.
- Q3 Demand for meat is rising in developing and emerging economies, especially in the Middle East, North Africa

and Southeast Asia. For example, raising livestock such as goats in Kenya is an important source of food and income for many small-scale farmers and herders. But meat consumption per person in these regions still lags that of developed countries. In 2023, average annual meat consumption per person in developed countries was 92 kilograms, compared to 24 kilograms in the Middle East and North Africa, and 18 kilograms in Southeast Asia. Still, given projected population growth in the developing world, there will certainly be an opportunity for countries such as the United States to bring their sustainable livestock-raising practices to the table.

1.) Raising animals from U. S. agriculture would lower national greenhouse gas emissions to a small degree, but it would also make it harder to meet people's nutritional requirements. Many critics of animal agriculture are quiet to point out that if farmers raised only plants, they could produce more pounds of food and more calories per pound. But humans also need many essential micro- and macro-nutrients for good health. It's hard to make a compelling argument that the United States has a caloric deficit, given its high national rates of obesity and child obesity. Moreover, not all plant parts are edible or desirable. Raising livestock is a way to add nutritional and economic value to plant agriculture.

2.) As an example, the energy in plants that livestock consume is most often contained in cellulose (纤维素), which is indigestible for humans and many other animals. But cows, sheep and other ruminants (反刍的) animals can break cellulose down and release the solar energy contained in this vast resource. According to the FAO, as much as 70 percent of all agricultural land globally is range land that can only be utilized as grazing land for ruminant livestock.

3.) The world population is currently projected to reach 9.8 billion by 2050. Feeding this many people will raise immense challenges. Meat is more calorie-dense per serving than vegetable options, and ruminant animals largely thrive on food that is not suitable for humans. Raising livestock also offers much-needed income for small-scale farmers in developing nations. Worldwide, livestock provides a livelihood for 1 billion people.

4.) Climate change demands urgent attention, and the livestock industry has a large overall environmental footprint that affects air, water and land. These, combined with a rapidly rising world population, give us plenty of compelling reasons to continue to work for greater efficiency in animal agriculture. I believe the place to start is with science-based facts.

26. The FAO concluded that farm animals were producing more greenhouse gases than all modes of transportation combined.

27. Consumption of meat per person in developing countries is much less than that in countries like the U. S.

28. The FAO was worthy of praise in that it admitted by animals once it was pointed out.

29. Environmentalists try hard to make people consume less meat to combat climate change.

30. Recent research has shown that even if Americans quit eating meat altogether, the resulting reduction of greenhouse gases in the U. S. would be slight.

31. More than half of the world's farmland is suitable only for animals like cows to graze on.

32. The livestock does have overall produce the world's largest portion of greenhouse gases is responsible for most's bad reputation.

43. Raising farm output makes it easier to meet people's nutritional needs.
44. The author doesn't believe giving up more and more products will be a cure-all for the environmental problem.
45. Changes in America's farming technology and management in the past decades have increased efficiency and reduced greenhouse gas emissions in most production.

Passage One

Questions 26 to 30 are based on the following passage.

Why are we so worried about our careers? Partly it's to do with anxiety, but there's a psychological aspect to our lives as well.

We worry because we suspect—and wrongly—that the world is full of a frightening sort of perfect ready to judge us ruthlessly and mercilessly: a perfect we can call a mask.

A mask is anyone who takes a relatively small part of us and sets it to work as a rigid conclusion about how much of their attention we deserve. In the past, that might be your employer and royal connections. Nowadays, the mask comes from one thing only: what you do for a living.

This explains why the first question we will be asked in any new social context is "What do you do?" and according to how we answer, people will either welcome us with broad smiles, or turn us on the cold.

And that is why we are fired up by such a desperate urge to achieve and improve.

Acceptance of our behavior is mistaken for good and reality, but it is more than this. A lot of our interest in busy cars, jobs and houses has nothing to do with materialism. It has to do with a hunger for the respect and esteem that is only available in our societies through the acquisition of material goods. It isn't the goods themselves we seek. It is the love we stand to gain through our gratification of them. The next time we see someone driving a Ferrari, we shouldn't condemn them for their greed, we should pity them for the insanity of their need for love from the world.

At the core of machinery is a lack of imagination and confidence about how to decide who in the world is valuable. The media are brainily misguided and stern in their beliefs about how the superior individuals can be identified. For media, it is the already acclaimed and already successful who are the only ones worthy of respect. There is no room in their stupid, regimented minds to imagine that someone might be clever, kind or great—and yet somehow have been overlooked entirely by society, their qualities lying hidden beneath an unbroken veil, and living as yet unrecognized as divine entities.

The true answer to machinery is not to say that there is no such thing as a better or worse person, but to learn the better or worse that is constantly unexpected places and every none of the outward signs of distinction. And because we are such poor judges of the worth of others, our ultimate duty must be to live, good, curious and imaginative about pretty much everyone who ever crosses our path.

46. What gives rise to our worry about careers apart from money?

- A) Fear of being judged in a makeshift manner.
- B) The prospect of facing fish-baiting managers.
- C) The confusion way employees are often treated.
- D) Fright at the difficulty in landing the job.

47. What do we learn from the passage about today's snobs?

- A) They try hard to dig into a person's past.
- B) They draw a rigid conclusion about people.
- C) They judge a person by their occupation.
- D) They tend to place people in a social context.

48. What does the author say about people's interest in material goods?

- A) It is the cause for unhappiness of their good.
- B) It has a lot to do with the comforts they provide.
- C) It means pay rather than respect from the wealthy.
- D) It stems from their craving for social recognition.

49. What kind of people do snobs deem worth respect and esteem?

- A) Those with skills and fortune.
- B) Those with regal-minded minds.
- C) Those with intelligence and imagination.
- D) Those with qualities lying hidden in disguise.

50. What does the author imply we should do to avoid being snobbish?

- A) Be aware there has never been such a better or worse person.
- B) Be kind to and curious about those who we happen to meet in our lives.
- C) Realize the better or worse keeps changing in unexpected ways.
- D) Judge people on the basis of their distinctive character traits.

Passage Two

Questions 51 to 55 are based on the following passage.

Women have innocently been paid less. But in the US in the 1990s, they began to catch up—but, during this decade, the gender pay gap closed by about one percentage point a year. Had that trend continued, the gender wage gap would have been closed by 2017.

But the trend didn't continue, and the gap widened yet again.

According to a new study from academics at Harvard, the stagnation can be put down, perhaps counter-intuitively,

to the introduction of state and federal family leave policies.

The evidence argues that during the 1990s, as governments began to introduce leave policies, it was mainly women who took advantage of them. Through the leave policies might have helped those women to stay in the workplace—instead of dropping out to have families—those who returned saw their wages had increased at least more than the men.

After family leave was introduced in the US, in fact, the rate of gender wage convergence fell to just 0.03 percentage points per year, and has remained there ever since.

Those doubting the process towards salary equity at work have being watched as programs started in many countries around the world. In fact, that program began to reverse during the pandemic (大流行病).

The gender pay gap is one of the most outstanding symptoms of that lack of parity (平等), and still exists just about everywhere. The motherhood penalty has become a shorthand for describing why, in many places, especially rich countries, women earn less than men until they reach their childbearing years. Women who have children begin to see their salaries slip below their male counterparts.

Part of this is because women take on more of the unpaid labor at home, which cuts into time they available for work and energy for career advancement. But it's also because mothers are penalized for raising and protecting, and because their role of the workplace now remains toxic, even if this issue is taken voluntarily and supported by company or government policy.

What would have happened if leave policies hadn't been introduced? The study doesn't go into that question, other than to say that if the 1990s trend continued, we would have been in parity by now.

It's possible, however, that the journey towards wage parity would have walked other way. If women's gains in the 1980s were made through the narrow of things like bias, once those less uncontrollable problems had been addressed, they would still have been an issue with women—who are the ones to bear children and take care of them in the early weeks because of biological factors like the ability to breastfeed, forcing them to take breaks, whether or not those breaks were mandated.

51. What do we learn about the gender pay gap in the US during the 1990s?

- A) It was being slowly closed.
- B) It was shrinking rapidly.
- C) It started to grow.
- D) It remained substantial.

52. What happened with the introduction of state and federal family leave policies?

- A) The process towards salary equity at work began to reverse.
- B) The rate of gender wage convergence started to fall accordingly.
- C) The trend of women returning to work after childbirth started.
- D) The narrowing of the gender pay gap progressed more slowly.

53. What partly accounts for the gap in women's salaries?

- A) The insufficient motivation women generally have for career advancement.
- B) The opportunities women give up for pay raise and promotion.
- C) The huge amounts of time and energy women spend taking care of the family.
- D) The lack of policy support from governments and business corporations.

54. What does the new study say about wage parity?

- A) It would have solved if many community problems had not been addressed.
- B) It would have failed if company and government had not worked together.
- C) It would have been achieved with the complete status of gender issues.
- D) It would have been attained with the continuation of the 1980s wage.

55. What prevents women from achieving parity with men in the final analysis?

- A) Ignoring biases against women in the workplace.
- B) Giving birth to children and taking care of them.
- C) Putting so much time into childbearing and care.
- D) Lacking resources to address biological problems.

范文解析

As social media is used more and more extensively, there is a growing awareness of the importance of using it properly and responsibly. Living in an age of digitalization, people have easier access to a wide range of social media platforms, such as WeChat, Weibo, and Douyin. I firmly believe that as a powerful tool for communication, information sharing, and self-expression, social media has brought both benefits and challenges to modern society.

On the one hand, social media platforms allow people to stay connected, express their opinions, and access information instantly. A typical example is that during the pandemic, online platforms played a crucial role in delivering news, supporting online education, and promoting mental well-being. On the other hand, excessive use of social media can lead to problems such as addiction, reduced face-to-face communication, and the spread of misinformation. Overexposed by obsession with social media platforms, one is prone to confine himself to narrow-mindedness and low efficiency.

In conclusion, while social media has become an essential part of our daily lives, it is necessary to use it wisely and critically. Only by adopting a balanced view can we gain lasting benefits from what social media offers without falling into its traps.

Conversation One

23 听力原文及参考译文

Mc: Good morning. My name is Bob Patterson. I'm the computer technician.

W: [1-1] [John's] call for you last week?

Mc: Maybe. I work for Alpha Management. I imagine someone from your office called our central office, and I'd be the technician assigned to your case.

W: Yeah. [1-2] I spoke to a lady there last Tuesday, which is now 10 days ago. I made it clear it was an urgent matter and "please send someone as soon as possible". Couldn't you or someone else have come before?

Mc: I'm sorry, but I'm not in charge of scheduling or logistics. I simply do not know. [2] All I can tell you is I got the call this week and came as soon as I could.

W: I see. [3] Well, I'll have you know my manager is rather indignant that it's taken you this long to come. I understand it might not be your fault, but nevertheless, you should know what the feeling is around here.

Mc: I understand. And I'm sorry for any inconvenience I will try to resolve your computer problems as quickly and optimally as I can. What else is the issue?

W: It's this machine right here. It was running slow for a while. I guess, and gradually got worse and worse. Last Tuesday, it just stopped working altogether. If you could fix it, you will see what I mean.

Mc: OK. [4-1] Do you know if it's backed up?

W: Backed up?

Mc: I mean do you know if all documents have been copied and saved somewhere else?

W: I don't know.

W: 早上好。我叫鲍勃·帕特森，是电脑技术员。

女：我上周给小汤姆打过电话。

男：可能吧。我在阿尔法咨询公司工作。我想他们办公室有人打了我们的中心办公室电话。而我是被指派来处理你这个问题的。

女：是的。[1]我上周二和那里的一位女士通过电话。我现在已经10天了。我当时必须很清楚，事情很紧急。“请尽快派人过来”。你们就不能早点派人来吗？

男：抱歉，汤姆和他的安排不归我管。我确实不知道。[2]我只告诉你，我周四接到电话后就尽快赶过来了。

女：我知道了。[3]照你所说，我在深圳待得这么久才来真是生气。我明白这可能不是你的错，但不管怎样，你至少该知道我们这边的感受。

男：我理解。对于造成的任何不便，我很抱歉。我会尽力尽快且尽可能顺利地解决这个问题。问题出在哪里？是什么情况？

女：就是这台机器。它运行得很慢了一段时间，然后越来越慢。上周二，它干脆就停止工作了。如果你能修好它，你会明白我是什么意思。

男：好的。[4]你知道它有没有备份吗？

女：备份？

男：我是说，你知道它里面所有的文件有没有复制或存储到别的地方吗？

女：我不知道。

问: Well, depending on the company operative scenario, if I need to help the system directorship class in order to reconfigure default protocols, that day I'm intervention should be to helpfully retrieve all resources that I can. Otherwise, all data that was stored on the hard drive will be forever lost.

问: [4-2] My computer would have. Let me go get her.

问: 哦, 根据当下系统操作状况, 如果我要帮助系统班班长及系统班默认协议, 那我的首要操作就是尽可能详细地找回所有文件、资料、硬盘里存储的所有数据, 防止数据丢失了。

女: [4-2] 我快要崩溃啦, 我去叫她过来。

Conversation Two

听力原文及参考译文

- M: Have you given more thoughts to studying law?
- W: I've been thinking about it a lot. You see, that's why I wanted to speak to you. I wanted to hear more about what it's like.
- M: A career in law is a beautiful thing, in my opinion. [5] Many people tell me it's a boring field, but I disagree. The thing is there are many different branches of law and many different jobs.
- W: You are involved with buildings and construction, right?
- M: Correct. I'm a solicitor, specializing in real estate. [6] Most of my work involves studying land disputes.

- 男: 你有没有再深入考虑过学习法律这件事?
- 女: 我确实一直在思考它。其实, 这就是我想和你聊天的原因。我想多了解一下学习法律是什么样的。
- 男: 在我看来, 法律这个行业是美丽的。[5] 很多人会认为这是个枯燥的领域, 但我不同意。因为有很多不同的法律分支和很多不同的工作职位。
- 女: 你是从事与建筑相关的法律工作, 对吗?
- 男: 没错。我是一名律师, 专门处理房地产方面的案件。[6] 我的大部分工作都是处理土地纠纷。

W: Do you mind giving me an example?

M: Sure. So in many cases, I am employed to arbitrate between two clashing parties. Let's say, for example, there are two landowners who are in a (there) disagreement about something. One the basis of their adjacent plots. Someone may employ me to break the deadlock and resolve the dispute. Often my work involves negotiating agreements, plans and claims.

W: So you are saying that a lot of what you do is for people's legal issues, like you try to find a solution that benefits everyone and that gets over a problem from escalating.

M: Exactly. Well put. [7] You need to remember that courts, like all bureaucratic bodies, can be very slow, frustrating and expensive. For this reason, it's usually better to resolve problems outside of court whenever possible.

W: I see. So besides knowing the law inside out, you need good people skills, right?

M: Of course. Any job that involves people requires good interpersonal skills, (8) and my law professional needs to be very discreet in articulating their arguments.

W: Right. So I've been thinking about studying criminal law. I think it sounds very interesting.

M: Well, yes. I'd say there's more money in property law, but the studies are higher in criminal law. I can see how you would find it more interesting.

✎ 答案详解

3. What will many people say about a career as law?

- A) It's boring.
- B) It's challenging.
- C) It's a beautiful thing.
- D) It's quite a nice job.

【答案】A

【解析】音频中男士说到 “many people may say it's a boring field”，将选项 A “boring” 划词划线。故答案为 A，故答案为 A。有挑战性的 (Challenging) 本身即主句谓语，置于主句中者。

女：能举个例子吗？

男：当然可以。在很多情况下，我受雇于当事人，在相互对立的双方之间进行仲裁。比如说，假设有两位土地所有者，他们在某件事上陷入了僵局的分歧，比如相邻地段的边界问题。这时可能会有人聘请我来打破僵局、解决争端。通常来说，我的工作就是进行协议谈判，就过此而休罢了。

女：所以你的意思是，你做的最多工作就是帮助人们解决法律问题。比如努力找到一个对每个人都有利的解决方案，防止问题升级。

男：完全正确，没错。而且，[7] 需要知道，法院和所有官僚机构一样，处理案件缓慢且令人沮丧，而且费用高昂。正因为如此，只要有可能，最好在法庭之外解决问题。

女：我明白了。所以除了要精通法律，还需要具备良好的人际交往能力，对吗？

男：当然，任何涉及与人的打交道的工作都需要良好的人际交往能力。[8] 而且任何法律专业人士都要遵守原则，需要始终坚守自己的立场。

女：好。我一直考虑学习法律，我觉得它听起来很有趣。

男：嗯，当然。我记得，财产法领域的收入要高一些，但刑法领域的风险更大。我能够想象你为日本企业法律顾问更有意思。

When a person tries to access a memory, then some quality of the information stored in it is used to retrieve the information [17] but as we age, many of us have difficulty retrieving information. In a review published in the journal *Trends in Cognitive Sciences* on February 11th, researchers propose an explanation for why this might be happening: the brains of older adults allocate more space to accumulated knowledge and have more material to navigate when attempting to access memories. While the wealth of prior knowledge can make memory retrieval challenging, the researchers say it has its upside—this life experience can aid in its generosity and decision-making. [18] Researchers Tarek Amar, Jérôme Wyder and Lyne Houbert looked at people's behavior and brain imaging system, which show that older adults have difficulty suppressing information that is no longer relevant and thus when searching for a specific memory, they often retrieve older, irrelevant memories along with it. The studies also showed that when given a cognitive task, older adults rely more heavily on previous knowledge than younger adults do. While the researchers focus primarily on the difficulties that these disorders created, sometimes they gain. They also highlight a few moments in which these older memory patterns may be useful. [19] "Evidence suggests that older adults show preserved, and at times enhanced, creativity as a function of enriched experience," the researchers write. They further hypothesize that older adults may be assisted by their prior knowledge when it comes to decision-making, where they can pull on their accumulated wisdom.

✱ 答案详解

9. What did the researchers do in their review in the journal *Trends in Cognitive Sciences*?

- A) They looked over the relationship between one's prior knowledge and creativity.
- B) They offered novel ways to help older adults to keep their memories from aging.
- C) They proposed an explanation for old people's difficulty in retrieving memories.
- D) They advanced a new model concerning human information storage and retrieval.

【答案】C

【解析】题干中明确提到“researchers propose an explanation for why this might be happening: the brain of older adults allocate more space to accumulated knowledge...”，其中“this might be happening”指代原文“老年人记忆能力减退”。选项 C 与原文为同义替换法，故答案为 C。

错误选项 A：原文仅提及“先验知识与创造力相关”，并未“研究二者关系”，属于偷换概念；

错误选项 B：原文未提及“防止记忆衰退的新方法”，属于无中生有；

错误选项 D：“新信息存储模型”未在原文中提及，属于无中生有。

9. 研究人员在《认知科学趋势》期刊上的综述中做了什么？

- A) 他们研究了一个人的先验知识与创造力之间的关系。
- B) 他们提供了帮助老年人防止记忆随年龄衰退的新方法。
- C) 他们为老年人记忆困难的原因提出了一种解释。
- D) 他们提出了一个关于人类信息存储模型提取的新模型。

10. What do several behavioral and brain imaging studies show?

- A) Young adults rely on memory while older adults rely more on reminders.
- B) Older adults often retrieve irrelevant information along with what they want.
- C) Young adults assimilate knowledge much more quickly than older adults.
- D) Older adults generally perform cognitive tasks much slower than young adults.

【答案】B

【解析】题干中提到“what searching for a specific memory, they often retrieve other, irrelevant information along with it”，选项 B “Older adults often retrieve irrelevant information along with what they want”与原文为同义替换（a 指代 what they want），故答案为 B。

错误选项 A：原文未提及“老年人记忆力”，题干无中生有；

错误选项 C：“年轻人吸收知识更快”未在原文中提及，属于无中生有；

错误选项 D：原文未提及“执行认知任务速度”，属于无中生有。

10. 多项行为和脑成像研究揭示了什么？

- C) 年轻人吸收知识的速度比老年人快得多。
- D) 老年人在执行认知任务时通常比年轻人慢得多。

11. What does evidence suggest regarding older adults?

- A) They show persistent, and sometimes enhanced, creativity.
- B) They frequently suffer from distractibility crowded memories.
- C) They may rely on their accumulated wisdom in an emergency.
- D) They may well be served by forgetting their prior knowledge.

- B) 他们经常受到容易遗忘的记忆的困扰。
- C) 他们在紧急情况下可以依靠自己积累的智慧。
- D) 忘记先前的知识可能对他们没有好处。

【答案】A

【解析】首句后半句为明喻句：“Evidence suggests that older adults show preserved, and in some enhanced, creativity”，即“有证据表明，老年人表现出‘保留’，在某些方面甚至‘增强’”，即指A选项所述，故答案为A。

错误选项B：“发现及记忆挑战”是研究人员关注的“问题”，并非“证明老年的特点”，属于信息混淆。

错误选项C：“智力及‘决策时延’增加”，并未提及“改善建议”，属于偷换概念。

错误选项D：“与朋友‘讨论自己已知知识’相反”，属于偷换逻辑。

Passage Two

☞ 新力原文及参考译文

There are at least four major problems with work in America today. First, work can be demanding. [12] Workers are often not in control of how they work, when they work, when it comes with the goods and services they produce, and what is done with the profits made from their work. Second, workers are not paid the full value of their labor. Real wages have not kept pace with productivity, driving economic inequality and a decline in labor's share of income. Third, people are time-poor. In the U.S., full-time employees work an average of 42 hours per day despite productivity decreases. [13] Long working hours contribute to the feeling of time poverty, which has an adverse effect on psychological well-being. Fourth, [14] automation puts jobs and wages at risk. Technological innovation could in theory liberate people from the 40-hour workweek, but unless changes are made to the structure of work, automation will simply cause downward pressure on wages and further diminish work opportunities.

So, what can be done to alleviate these problems? There are competing values of the best way to arrive at a solution. One value is what's known as the "post-work" position. [15] The post-work advocates believe that work should not hold a central position

如今，美国的工作存在至少四个主要问题。首先，工作可能会让人感到超负荷。[12] 员工往往无法掌控自己的工作方式、工作时间。他们所生产的产品和服务的方向，以及他们的劳动所产生的利润的用途，其次，劳动者没有获得其劳动的全部价值。实际工资未能跟上生产率的增长步伐，加剧了贫富小平等，并导致有薪收入占比下降。第三，人们时间匮乏。在美国，尽管生产率有所提高，但全职员工平均每天仍工作42小时。[13] 长时间的工作导致了时间贫困感，这种心理贫困产生于不利影响。第四，[14] 自动化将工作和工资置于风险之中。技术创新理论上可以解放人们从每周40小时的工作中解放出来，但如果不对工作结构进行改革，自动化只会给工资带来下行压力，并进一步减少就业机会。

那么，我们该采取什么原则来解决这些问题呢？对于解决最佳方法方面，存在不同的观点。其中一种观点被称为“后工作”立场。[15] 后工作理论家认为，工作不应在

Recent studies show that self-control and persistence (across academic experiments) outperform IQ. [16] Every age group (adults, teens, children) can affect academic outcomes. Children who think effort leads to achievement outperform those who believe ability is a fixed trait. Chase the link between persistence and academic success. Decisions about effort are particularly important in childhood. Yes, naturally little research has explored how young children learn what's worth the effort. We all know that infants are best observers of the social world. But they're not just sitting watching; they are trying learning outcomes. They can generalize each situation concepts as social relationships and social roles from just

a few examples. Even a 15-month-old infant can perform a high-level operation in such tasks. Could infants also make broad, generalizable inferences from a few examples when it comes to effort? If so, this ability presumably isn't simply a characteristic of Maylin's first life and adaptable based on social context.

To explore this question, we observed 15-month-olds before one of two tasks: an experimenter working hard to achieve two different goals, or an experimenter who effortlessly reached each goal. Then we introduced the baby to a novel music toy that seemed as if it could be activated by pressing a big button on top. The button could be pressed down but didn't actually activate anything. [17] On the first of the button, we pressed up the music toy with a button twice so that they heard the toy making noise. We gave the babies the music toy and left the room. Then another, who didn't know which condition each baby was in, watched videotapes of the experiment and counted how many times babies tried to activate the toy by pressing the button. Across the study and a preregistered replication, [18] babies who had seen an adult push and pressed pushed the button about twice as many times as those who saw an adult effortlessly succeed. In other words, babies learned that effort was valuable after watching just two examples of an adult working hard and succeeding. Part of what's exciting about this finding is that the babies didn't run away the adult's actions; instead, they generalized the value of effort to a novel task. The experimenter never demonstrated pushing a button or trying to make noise. Instead, the babies learned from abstract examples of effortful actions that the new toy probably also required persistence.

他们能从几个例子中归纳出因果关系，社会角色等抽象概念。即使是 15 个月大婴儿，在实验任务中能战胜高性能计算机。那么，当面临新任务时，婴儿是否会从几个例子中归纳出广泛可推广的抽象概念？如果可以，那么婴儿或许具有一种独特特质，它可能创造复杂社会环境或时两难。

为了探究这个问题，我们向 15 个月大的婴儿展示了两种情境中的一种：实验者一位实验者努力完成两个不同的目标，或者这位实验者毫不费力地达成了每个目标。之后，我们给婴儿介绍了一个新奇的音乐玩具，它看起来似乎可以通过按压顶部的一个大按钮来激活。[17] 在第一个按钮上，我们按压了两次，这样婴儿就听到了玩具发出的声音。我们给了婴儿这个音乐玩具并离开了房间。然后，另一位不知道每个婴儿处于哪种情境的观察者观看了实验录像。并统计了婴儿尝试按压激活玩具的次数。在一项研究是实验者先推的按钮式图中，[18] 观察到在实验者推按钮后，婴儿尝试按压的次数是看到实验者毫不费力地成功的婴儿的两倍。换句话说，婴儿在仅仅看了两个成人努力完成的两例子后，就明白努力是有价值的。这一发现最令人兴奋之处在于，婴儿不仅从实验者的动作，即从努力的动作推广到了一个新任务中。实验者从未演示过如何按压或尝试激活玩具，相反，婴儿从不同的努力行动中得知，这个新玩具可能也需要坚持不断的按压。

- D) 影响学业成就。

【答案】D

【解析】句中划线词“from one personal belief about effort can affect academic outcomes”，选项D“from academic achievement”与原文为同义替换（achievement, academic outcome-academic achievement），故答案为D。

错误选项A：“努力对任务的态度”未在原文中提及，属于无中生有；

错误选项B：“在社会中与众不同”与原文无关，属于无关信息；

错误选项C：原文仅说“自控力和毅力与智商无关”，并未说“超过智商”，属于过度推断。

17. How did the researchers try to make try in their experiment?

- A) By pressing a hidden button.
B) By passing a bag button on top.
C) By pressing two buttons at the same time.
D) By helping the button push the right button.

17. 研究人在实验中是如何打开音乐玩具的?

- A) 通过按一个隐藏的按钮。
B) 通过按顶部的一个按钮。
C) 通过同时按两个按钮。
D) 通过帮助按钮按下正确的按钮。

【答案】A

【解析】句中划线词“Out of sight of the babies, we turned on the music toy with a hidden button”，选项A“By pressing a hidden button”与原文一致，故答案为A。

错误选项B：“顶部的大按钮”无依据，仅为表面设计，属于曲解原意；

错误选项C：原文未提及“同时按两个按钮”，属于无中生有；

错误选项D：原文人并未“帮助婴儿按按钮”，属于无中生有。

18. What could the babies do in the experiment according to the speaker?

- A) Perform difficult tasks successfully just by observing how adults acted.
B) Make generalizable inferences about persistence from a few examples.
C) Adapt themselves to different social contexts.
D) Work hard to cooperate with experimenters.

C) 使自己适应不同的社会环境。
D) 努力与实验者合作。

【答案】B

【解析】句中划线词“babies learned that effort was valuable after watching just one example... generalized the value of effort as a moral task”，选项B“Make generalizable inferences about persistence from a few examples”与原文为同义替换（generalize-generalizable inferences），故答案为B。

错误选项A：婴儿仅“尝试坚持性”，并未“完成困难任务”，属于夸大原文；

错误选项C：原文提及“婴儿可理解社会环境挑战”，并未“融入适应社会环境”，属于曲解原意；

错误选项D：婴儿的行为是“尝试性地玩”，并非“与实验者互动”，属于无中生有。

19. 演讲者做这个演讲的目的是什么?

- A) 提供克服习惯性迟到的建议。
- B) 举例说明各种职业机会。
- C) 分析研究个人的典型特征。

That's given Boston a sense of citizenship and success, he thinks. [24] "The idea of a melange symbolizes another strength is simply not part of city local culture," he says. "People will bring a conversation with someone they know, but not with a stranger."

Ralph Wetcham, a professor of journalism at the University of Massachusetts in Amherst, thinks it's because Boston's upper class used history to make class distinctions. "By being snobbish about outsiders, proper Bostonians made other people jealous of country," he says. Some say that's just the way Boston is, and that one day will never change. [25] Still, other cities with reputations for more openness are trying hard to change their images. Paris is one example where people are trying to be friendly. New York City is another—there the city is trying to become a more relaxed place to be close neighbors. If these cities can stick the effort, maybe Boston should as well.

【原文定位】We believe educational absence is a strong signal of the many challenges children and families face, including economic and medical hardship.

【解析】通过关键词可以锁定第八段最后一句。文章提及我们以为，旷课现象背后反映了儿童及其家庭所面临的诸多问题，包括经济和其他许多问题，其中 the many challenges children and families face—the out-of-school challenges confronting children and their families，其中 out of school 底下正有而且正在 hardship 和 these out-of-school challenges，符合信息。

【选项排除】A 选项为放假期可提前导致学生旷过上学而被其学校罚下学，这是事实，这是人们通常对缺勤的普遍理解。但是关键词是“研究有时或永是什么”，而研究者的核心发现观点在于向“无旷课”现象为探索社会问题的信号。而不仅仅是“旷过上学导致被下学”这一直接因果。A 项是事实。B 项为研究其理论出的原理含义。C 项为文中生有，文章未提及或高度。D 项为特定情况，文章正在描述现象本身。

49. 美国教育政策的潜在缺陷是什么？

- A) 孩子的学业要求导致了减少缺席次数。
- B) 学校可以通过提高出勤率来减少学生的学业负担。
- C) 学校的高出勤率应对特殊危机负责。
- D) 孩子的学业表现与缺课率密切相关。

【答案】B

【题干关键词】the assumption underlying education policies is the U. S.

【原文定位】These policies assume that missing school for any reason hinders children academically because they are missing classroom instruction. They also assume that schools will be able to effectively intervene by reducing student absence. We find neither to be the case.

【解析】通过关键词可以锁定第十一段。提及第十段的为“潜在假设”，这两项共同构成了当前出缺课被处理的基础。选项 B “学校可以通过提高出勤率来减少学生的学业负担”，正是对第二个假设的概括性描述。低出勤率的核心问题是：学校应（以）减少缺席为自身）可以提升学生表现。符合信息。

【选项排除】A 选项为高出勤率，向“减少学生缺席次数可有效改善其学业表现”不能直接推出“孩子的学业表现取决于出勤率改善”。选项 A 更侧重于描述一种相关性或目标，而非被假设的因果关系。缺课的问题被定义为管理行为采取行动（即有干预）来减少缺席并提高出勤率并实现这一目标。C 选项为本身原因，它是指被特殊事件要求（hold schools and families accountable）。而非其背后的理论假设。D 选项为于无中生有。选项的假设是“缺课导致错过教学，从而损害学业”。其核心逻辑是“出勤—教学—学业”，直接忽略了出勤的必要性，而本时能直接看到其本身的讨论。

50. 关于学生缺席问题，作者建议采取什么措施？

- A) 取消其他本原因。
- B) 鼓励学校出席率。
- C) 制定规则用缺席率作为奖励。
- D) 用学校压力以减少无缺课。

【答案】C

【题干关键词】The author suggests school absence

【原文定位】We instead suggest using attendance absence from school as a signal or observed measure to help children and families who need that help.

【解析】通过关键词可以锁定第十一段最后一句。文章提及作者建议用缺课现象作为一个信号，帮助那些

给做游客的小旅行家们, 甚感高兴。

[给做旅游] A 选项无中生有, 它的句意作者在做研究中所做的工作(研究旅游行为危机的信号), 因此是分析过程, 而给做旅游是出行前建议。B 选项无中生有, 原文提到了九岁及其家庭面临的挫折等挑战, 但这是作为“符号”的内容, 作者并未明确旅游或家庭面临挫折的实例(无中生有), 具体建议。D 选项与作者的观点相符, 作者的研究表明, 简单地将旅游(尤其是无计划旅游)视为问题本身并试图通过高压来阻止它, 是出于错误的假设, 且下文也证明无稽。

Passage Two

题 题 题 题

个人经历引入(第1-2段), 作者引入标题“金融危机”主题。

研究方法与核心发现(第3-4段): 通过社会学研究发展原理论会重大问题, 并揭示挑战。

分析同行原理论与客观不平等(第5-7段): 揭示其原理论在公众中, 尤其是工作不稳定群体中广受欢迎, 显示其根源; 指出其原理论与社会现实(如家庭财务无解, 失业)之间存在显著差距, 甚至可能加剧其工作。

批判社会影响与揭示其根源(第8-9段): 批判其理论无法解释原理论会加剧社会不平等, 指出其一方是方法问题, 他们利用员工的恐惧来获取更多力, 拥有要求更高的劳动力。

参 考 解 答

我从事七年工作, 我真心从事我热爱的事, 我作为研究生能, 支持人研究那些令人着迷的社会问题。

[31] 在通过七年的时间, 我真心爱我的每一个人, 他们是我应该使用, “照顾我的感情”, 我真心说, “你值得拥有两三年来的事。”

直到我开始研究发展原理论会重大问题, 我才真正意识到它背后的问题所在。

作为一名社会学家, 我通过阅读文字和书籍来了解人们“生活”的实际意义——它意味着什么以及为什么。在研究人们如何生活时, 这一理论确实得到了广泛的应用。

然而, 直到公众开始以原理论会重大问题为焦点来讨论时, 我才意识到, 在工作不稳定的人群中, 这一理

刚的受欢迎程度显而易见。

雇佣合同的拥护者认为具备识别能力，因为能识别出由雇主提供的工作努力奋斗的能力，雇主为此应提供相应或匹配的报酬。

[35] 尽管热情得到广泛欢迎，却并非人人都有资格转化为需要高质量工作的必要前提，来自国家层面的呼吁似乎更有多条路径在工作的出现。因此在此期间为购买更放心，他们更有能力接受无需学习以获取入门机会。同时由父母承担照顾，此外，他们通常还面临独立寻找社交网络来寻找工作，调查显示，无论其任何职业前景，工薪阶层精英一代大学毕业生在寻求就业时，更难以承担那些技术性工作的可能性高于家庭已优越的同龄人。

最后，用人单位期望雇主而不加以提升地所有人接受“雇佣价值”的意愿。[34] 而不致力于营造公平的竞争环境，因此雇主面临工作求职者之间的社会经济不平等。

雇主更希望雇佣那些可以熟练地识别中流砥柱。[35] 雇佣那些能够胜任工作的员工，同时也能从中受益，雇主更上对开始招聘求职者采用更大的兴趣，更倾向于在招聘时认为那些求职者会努力工作且不要求加薪，他们并不愿意牺牲自己的薪酬。工作的描写往往是在招聘时，只关注其所做的工作。

31. 在文本中间，作者描述人们做什么？

- A) 寻找是什么是令人满意的职业。
- B) 遵循雇主提供的职业建议。
- C) 尝试那些追求自己的事业。
- D) 由他们何时充满热情的职业。

[答案] D

[题干关键词] do sth. for almost a decade

[原文定位句] [For almost a decade.] told everyone I recommended that they should do the same. "Follow your passion," I comment. "You can figure out the employment stuff later."

[解析] 通过题干关键词可以定位至二段。文章中间提及他告诉人们要找到自己喜欢的事情，他一直坚持，最后就会找到心仪的工作，作者所讲有一个潜在的时间限制，即找到自己喜欢的东西，再找工作。答案选 D, Follow your passion—do whatever they are curious for.

[答案精解] A 是总纲与原文相反，标题和用工作相反。文章中并不提及打坐一行，而是先找到兴趣所在，再工作。C 选项时间无限制，文章地是一行，十一行，而不是先做工作再考虑辞职工作。

32. 通过研究，作者对“雇佣价值”这一原则有何感受？

- A) 他对其造成的后果感到惊讶。
- B) 他进一步明确了其正确性。
- C) 他发现自己第一原则是正确的。
- D) 他怀疑这一原则的广泛适用性。

[答案] A

[题干关键词] the author feel; the guidance principle

[原文定位句] I was shocked by what I found out about this principle in the research for my new book

[解析] 通过关键词可以定位至四段最后一句。I was shocked, shocked 即 feel—astonished, 作者对于他研究发现的结论感到吃惊。答案选 A。

[答案精解] BC 选项与原文相反，文章在下文明确指出了只有有资源有资金的人才真正实践是一行不一行，因此所研究的雇佣原则在某种程度上导致了社会经济地位的平等。BC 都为正向表述，因此排除。D 选项

在文章中确实有提到它广为流传, 因此作者并非因此鄙视它。

53. 将个人热情转化为职业生涯的一作, 关键在于什么?

- A) 愿意接受无酬实习以积累经验。
- B) 充分的学术准备和良好的职业预期。
- C) 努力工作并牺牲休闲时间。
- D) 具备充沛的社会资本。

【答案】D

【题干关键词】a viable, good-paying job

【原文定位】While the passion principle is hardly popular, not everyone has the necessary resources to turn their passion into a viable, good-paying job

【解析】叙述关键句可以锁定至第五段第一句, 主要意思是并不是所有人都能够将其所爱之事变成自己的职业, 关键就在于缺乏必要的资源, 而资源又常常由人脉决定, 答案选 D。

【联想题解】A 选项来自干扰项的措辞, 文章中确实有提及有人进入企业从事了与理想职业相关的工作, 但并不是他们愿意如此, 只是因为有父母经验, 他们在选择工作时无视过多次收益, 只要考虑自己的兴趣所在, B/C 选项属于无中生有, 文章并未提及在学术以及职业咨询方面做好充足准备, 故正确选项为体现时间来做工作。

54. 当所有人都追求跟随去追随自己的热情时, 会发生什么?

- A) 更多的求职者将会失业。
- B) 人们不再愿意工作将会变得不平衡。
- C) 社会贫富不平衡现象将持续存在。
- D) 职业领域将更加多元化。

【答案】C

【题干关键词】What happens: everyone is encouraged to follow their passion

【原文定位】Colleges, workplaces and career counselors who promote the "follow your passion" push for everyone, without leveling the playing field, help perpetuate socioeconomic inequalities among young adults.

【解析】通过关键句可以锁定至第六段, 主要提及是如所提及的论调, 盲目追随促进了社会经济的不平等, 答案选 C, perpetuate-sustain。

【联想题解】A 选项叙述主要讨论的核心是“不平等”, 并未提及或暗示为失业会因此上升, 且至原文中无原文并未讨论企业对此问题的态度变化, D 选项无中生有提及支付地则是这种行为会加剧不平衡这一社会现象, 两个选项均与原文的论调相反。

55. 关于那些有热情的人的雇主, 作者有何看法?

- A) 他们为这些员工提供工作以偿还其助学贷款。
- B) 他们利用这些员工的工作经验来压低工资。
- C) 他们为这些员工支付工资以补偿不公平待遇。
- D) 他们鼓励这些员工实现自己的梦想。

【答案】B

【题干关键词】employers of passionate workers

【原文定位】Passional employers shirked greater reward in passionate applicants in part because they believed that

2025 年大学英语六级真题

applicants would work hard in their jobs without expecting an increase in pay.

【解析】通过文章第四段可知，文章第一句提及高绩效的罗伊瓦德森因“业绩优秀”受赏，其次老板也会奖励。他们共同构成一面激励他工作的员工牌，然后作者描绘的工作积极性已接近尾声时，因此开始结尾。老板会利用奖励员工工作的热情。

【词语辨析】A 选项与原文相反，并未给员工提供工作的稳定性，而是强调明确自己的非工作时间工作。C 选项与原文不符，原文未提及该主任在公平环境方面的任何作用。原文讨论“营造公平竞争环境”时，是针对被质疑的完全不吃工资的批评，D 选项与原文相反，虽然原文提到该主任为员 J，但作者的重点在于显示该主任中肯的奖励（获得努力工作且不需非强制的激励力），而非他们的激励行为。这并非作者对老板的真心赞美。

参考译文

The Tiangong Space Station, China's first space laboratory, covers more than 110 cubic meters of usable space and can accommodate three astronauts. It operates in an orbit 400-450 kilometers above the Earth's surface. The Tiangong Space Station has carried out more than 100 scientific research and application projects, covering fields such as space life sciences, space medicine, and space materials science. The research concepts of the Tiangong Space Station have been widely applied in China, generating significant economic benefits. For example, the direct economic benefits generated by space breeding have amounted to hundreds of billions of yuan. This not only marks China's major progress in aerospace technology, but also demonstrates China's significant contribution to global space research and applications.

答案解析

1. 天宫空间站 (Tiangong Space Station) 是中国首个大型实验室，拥有 110 多立方米使用空间，可容纳 3 名航天员，在距地球表面 400-450 公里的轨道上运行。

【句型结构】这句话主干为“天宫空间站是中国首个太空实验室”，其后“拥有……”，“可容纳……”，“在……运行”三个短语为并列补充说明成分，对空间站的功能和运行情况进行说明。

【表达难点】太空实验室 space laboratory; 立方米 cubic meters; 使用空间 usable space; 轨道 orbit

【翻译难点】该句的信息量大,中文使用并列句形式来补充说明结构,翻译时宜将其处理为并列句结构并适当分为两句进行翻译。“中国首个太空实验室”对应处为主语“天宫空间站”的定语结构,即“The Tiangong Space Station, China's first space laboratory.”,“拥有110多立方米使用空间”与“可容纳3名航天员”可处理为并列定语结构,即“...has more than 110 cubic meters of usable space and can accommodate three astronauts”,由于主句信息过多,考生也可将“在距地球表面400-450公里的轨道上运行”单独成句,即“It operates in an orbit 400-450 kilometers above the Earth's surface.”,也可将其译为或在分句内成句,即“...operating in an orbit 400-450 kilometers above the Earth's surface”或由 which 引导的定语从句结构,即“...which operates in an orbit 400-450 kilometers above the Earth's surface”。

【译文】The Tiangong Space Station, China's first space laboratory, boasts more than 110 cubic meters of usable space and can accommodate three astronauts. It operates in an orbit 400-450 kilometers above the Earth's surface.

2. 天宫空间站已启动110多个科学实验与公众项目,涵盖空间生命科学、太空医学、微重力科学等领域。

【原文结构】该句为“主干句+补充说明结构”,其中,主干为“天宫空间站已启动110多个科学实验与应用项目”,“涉及空间生命科学、太空医学、空间材料科学等领域”为补充说明成分,翻译时宜用并列句内容与从句结构进行具体展开说明。

【翻译难点】生命科学 space life sciences; 太空医学 space medicine; 空间材料科学 space materials science

【翻译难点】该句谓语动词“已启动”体现完成性与持续性,英文上适合使用现在完成时结构,即“...has carried out...”,“涉及”可译为 covering 等动词,翻译时处理为现在分词作补充说明结构,即“operating/covering fields such as...”,以体现可重复性和持续进行大意思。

【译文】The Tiangong Space Station has carried out more than 110 scientific research and application projects covering fields such as space life sciences, space medicine, and space materials science.

3. 天宫空间站的研究成果有望得到广泛应用,产生了显著的经济效益。

【原文结构】该句可将主干处理为“天宫空间站的研究成果在应用得到了广泛应用”,将“产生了显著的经济效益”处理为结果状语,用于说明应用所带来的经济影响。

【翻译难点】研究成果 research outcomes; 经济效益 economic benefits

【翻译难点】该句谓语部分“得到了广泛应用”体现完成性结构,英文上适合使用现在完成时的被动结构,即 have been widely applied,“产生了显著的经济效益”可处理为现在分词作状语结构,即“generating significant economic benefits”,也可处理为并列句结构,与从句句内成分关系,即“and generated significant economic benefits”。

【译文】The research outcomes of the Tiangong Space Station have been widely applied in China, generating significant economic benefits.

4. 例如,太空育种技术的直接经济效益高达数千亿元。

【原文结构】该句可将“直接经济效益高达数千亿元”处理为主干,将“太空育种技术”处理为宾语。

【翻译难点】太空育种 space breeding; 数千亿 tens of billions

【翻译难点】该句时态应采用现在完成时,“太空育种技术”可处理为过去分词作定语,该物主带“直接经济效益”,即“generated/created by space breeding”。

【译文】For example, the direct economic benefits generated by space breeding have amounted to hundreds of billions of yuan.

2025 年大学英语六级真题

5. 这不仅是我国航天技术上取得了巨大进步，也表明中国为全球太空研究和应用做出了重大贡献。

【句式结构】该句为并列复合结构。“这不仅是……”为第一分句，“也表明……”为第二分句。

【翻译难点】航天技术 aerospace technology

【翻译要点】该句翻译涉及为总起性定语，对主语使用或非定语时，其中，句中的并列复合结构可译为“not only... but also...”，“取得了巨大进步”可以译为“has made groundbreaking progress”，“为……做出重大贡献”可译为“has made significant contributions to”。

【译文】This not only marks China's major progress in aerospace technology, but also demonstrates China's significant contributions to global space research and applications.

真题详解

Part I Writing

✎ 写作思路

本篇为命题类议论文写作。适用的是总分、由学生施写成立的命题形式。审题时应该从题目的内涵、从内容确定答题方向。即大学生应该为未来的职业生涯做好准备。行文结构上可采用“三段式”展开论证：第一段单段升格写作，引出主题立场；第二段作为主体段落，从多个角度展开论述大学生应具备哪些能力；第三段总结全文进行升格与展望。

✎ 原文解析

As requirements for job applications are getting increasingly higher, college students ought to be better prepared for their future career. In an era of fierce competition, employers are no longer satisfied with candidates who only possess academic certificates. Therefore, it is advisable for graduates to have both solid professional knowledge and practical abilities, as well as the capacity to adapt to a fast-changing working environment.

To begin with, college students should form a clear career plan as early as possible. By setting realistic goals and understanding market demands, they can make better use of university resources such as specialized courses, training programs, and internship opportunities. In addition, lifelong learning is becoming increasingly essential. In a world where knowledge and skills are constantly updated, only those who keep learning and improving themselves can remain competitive. Furthermore, students should also pay attention to personal qualities, including responsibility, perseverance, time management and the ability to cope with pressure, which are highly valued by employers.

From my perspective, future success is not decided by grades alone, but by continuous self-improvement and long-term preparation. Those who actively prepare themselves during college will be more likely to stand out in fierce competition and achieve sustainable career development.

✎ 范文译文

随着求职市场要求的不断提高，大学生应该为自己的未来职业发展提前做好充分的准备。在竞争激烈的时代背景下，用人单位不再满足于只拥有学历证书的考生。因此，毕业生不仅应具备扎实的专业知识和实践能力

✎ 结构分析

第一段：引出主题，表明观点

1: 开头句

2: 引出背景。在竞争激烈的社会，只有文凭是远远不够的

3: 个人观点：大学生应具备扎实的知识、实践能力和适应环境的能力

第二段：论证理由

1-2: 原因一：大学生应尽早进行职业规划

3-4: 原因二：大学生应具备良好的学习态度

5: 原因三：大学生应重视个人素质的发展

第三段：总结全文 + 展望未来

1: 总结全文

2: 展望未来

力,还应具备适应快速变化职场环境的能力。

首先,大学生应尽早制定明确的职业规划。通过设定切实可行的目标并定期评估,我们可以更有效地利用高校资源,如专业课程、培训项目和实习机会。此外,英语学习与职业证书愈发重要。在知识快速更新的时代,只有持续学习与自我提升的人,才能保持竞争优势。与此同时,学生还应重视个人素质的发展,如沟通能力、团队合作能力以及抗压能力。这些品质正是用人单位高度看重的长期因素。

在我看来,未来的成功不仅由成绩决定,更是取决于持续的自我完善与长期的系统准备。那些在大学期间不断提升自我的学生,更有可能在激烈的竞争中脱颖而出,并实现可持续发展的职业目标。

Conversation One

👂 听力原文及参考译文

W: We are down to two candidates for one position, and we need to decide by the end of the day in order to finalize this whole procedure.

文: 我们只剩下两个候选人竞争一个职位了。我们需要在今天结束前做出决定, 以完成整个流程。

M: Yes, but it isn't as easy choice to make. [1] Both applicants are quite strong.

W: Let's get to it then. Both of them were in good universities, and both of them studied business-related subjects. So, academically, I'd say they're pretty much the same. What do you think?

M: I would agree. Yes. [2-3] The only difference worth noting, perhaps, is that it looks like Rachel scored moderately stronger grades throughout high school and university. But as I said, only a tiny bit higher than Peter.

W: [2-2] That's not bad worth noting. Thank you. In addition, Rachel impressed very well. I thought she came across as bright and alert.

M: Yes. She asked some very good questions about the position and the company, which made me think she is very keen about the job.

W: I thought it to be too. Now let's look at Peter's interview performance. I thought he also did very well. He came across as respectful and professional. Wouldn't you say? Calm and poised, very mature for his age.

M: Exactly. In my opinion, I wrote that he seemed composed and in control of his answers. I think he delicately touched every corner that Rachel.

W: Interesting. So we agree that Rachel appeared experienced and less nervous than Peter, even though both candidates are the same age and have potentially the work experience.

M: When comparing them side by side, yes. [3] Peter seemed more self-assured, somehow. Maybe it was something about their body language.

W: Sure. Maybe he was simply less nervous.

M: Maybe. Who knows? To be honest, I think I like Rachel better.

W: Hmm, really? I think I like Peter.

M: Ah, well. I think if they're a tie and you can't come to an agreement, then we'll take it to John and let him and the deciding vote.

男：是呀，但這不是一個容易的選擇。[1] 兩位申請人都很優秀。

女：那我們開始討論吧。他們的畢業生已經大學，而且學的是和商業相關的主業。所以，在學業方面，我覺得他們幾乎不相上下，該怎麼選？

男：我同意你的看法。是的。[2-1] 或許唯一值得注意的區別是，看起來 Rachel 在高中和大學期間的成績似乎略好一些，但就像我說的，只比彼得高一點點。

女：[2-2] 聽著如此，這一小優勢無足輕重。 當然，另外，Rachel 的面試表現確實會更好， 我覺得她給人的印象是聰明又機敏。

男：是的，她問了一些關於這個職位和公司的好問題，這讓我覺得她對這份工作非常投入。

女：我也這麼覺得。但是我們來看看彼得的面試表現。我覺得他也表現得很好。他給人的印象是自信且專業，你不這麼認為嗎？他表現冷靜，有些成熟， 以他的年齡來說非常成熟。

男：完全正確。我在筆記中寫了。他看起來就很冷靜，能控制自己的情緒。我覺得他的比賽似乎比 Peter 還要成熟。

女：有道理，所以我們都認為，儘管兩位候選人年齡相同，但在年齡上 Peter 的工作經驗和自信似乎略勝於 Rachel，我不會猶豫地選他。

男：他們到底在一起比較的話，是呀。[3] 不知怎的，覺得 Rachel 更自信， 也許他們的肢體語言有差。

女：對呀，也許他只是没那么緊張。

男：這好吧。那誰選呢？這客觀，我覺得我會選 Peter。

女：哦，真的嗎？我也喜歡 Rachel。

男：明，好吧。[4] 如果意見相持不下，我們最終必須一致， 那我們就把這件事交給約翰。讓他做決定的那一票。

长 篇章阅读

1. Why does the man think it is difficult to make the decision?

- A) They have to make a choice by the end of this day.
B) Both candidates are very keen on getting the job.
C) They hold different views on the procedure.
D) Both candidates are quite competitive.

2. 这位男工为什么认为做出决定很难?

- A) 他们必须在规定时间内做出选择。
B) 两位候选人要求待遇同等且对工作认真。
C) 他们对流程持有不同的看法。
D) 两位候选人都很有竞争力。

【答案】D

【解析】首段中句(1)提到“Both applicants are quite strong”，可知男工认为两位申请人都很优秀，即都很具竞争力。competitive 与 strong 为近义替换关系，故答案为 D。

A 选项中的“make a choice”与“by the end of the day”分别为男女两人各自陈述中的一部分信息，其涉及根本，理由相反，是具有一定干扰性的错误选项。

2. What do the speakers say may be worth noting?

- A) Both Rachel and Peter were open, respectful and professional.
B) Rachel earned moderately higher grades than Peter in school.
C) Both Rachel and Peter excelled in their academic pursuit.
D) Peter appeared slightly stronger than Rachel physically.

2. 说话者认为什么可能值得注意?

- A) 雷切尔和彼得给人的印象都是开放、尊重和专业的。
B) 雷切尔在中学的成绩比彼得略高一筹。
C) 雷切尔和彼得在学术追求方面都表现出色。
D) 彼得的身体状况比雷切尔略强壮一些。

【答案】B

【解析】首段中句(2-1)提到“The only difference worth noting, perhaps, is that Rachel scored moderately stronger grades throughout high school and university. But so I told, only a tiny bit higher than Peter”，随后马上回应“That’s true and worth noting”，明确得出雷切尔的学业成绩比彼得略高且值得关注的点。选项中“moderately higher grades than Peter in school”与原文“moderately stronger grades throughout high school and university”为同义替换，故答案为 B。

选项也有 A，原文提到及提到“came across as respectful and professional”，雷切尔给人的印象是“Bright and alert”，两者两人均有所提及，属于信息拼凑。

选项也有 C，“both excelled in academic pursuit”是两人的共同特点，而非“值得注意的对比”，与题干要求不符。

选项也有 D，原文未提及“身体强壮”相关内容，属于无中生有。

错误选项 A: 原文未提及 “再次逐一比较候选人” 的计划, 属于无中生有;

错误选项 B: 原文明确由 “let John make the final decision” 而非 “董事会”, 属于偷换概念;

错误选项 C: 原文未提及 “下次打破平局”, 仅由选项 C 无法证实一些新的解决方案, 属于信息延伸。

Conversation Two

66 听力原文及参考译文

W: [1] We're here with Clémentine Orange, head designer of the private fashion label L'Orange, to discuss her latest collection. Ms. Orange, how would you describe this season's look?

W: To be honest, my preferred style has always been on the sophisticated side, and I think this collection is even more so. I try not to adhere to social norms and expectations. [2] Each, I always try to incorporate something slightly unusual into my aesthetic.

W: [3] 今天我们将邀请到私人时尚品牌“橙”的首席设计师瓦内门汀·马特松。我们将讨论她的最新系列。马特松女士, 您会如何描述本季的风格呢?

马: 说实话, 我的风格一直带有几分细腻感。我觉得这个系列更加如此。我努力不遵循社会规范和期望。[4] 每件, 我总是尝试在自己的审美风格中融入一些略微特别的元素。

M: The argument of excessive is this collection has had quite an impact on critics. The startling caps deployed at the end of the show, for example, bewildered many in the audience. What was your explanation for this piece?

W: Over the summer, I travelled through rural Japanese villages throughout Awa in search of handicrafts to decorate my new studio with. The embroidery done by the women in a particular village was so exquisite, I couldn't stop thinking about it. Trying to recreate their designs would have been futile. So instead, I applied my own aesthetic approach. Using glass, I drew similar, looser patterns onto the velvet caps. This ended up at the glassworks, because local ones concluded the show.

M: It was indeed exquisite, and yet, gave I any sensation of the same then.

W: Well, yes. That was unexpected. [3] I like to merge styles that are often at opposite ends of the fashion spectrum. Hence the sparkling caps was paired with a traditional power suit you would typically see in a business setting. It was unexpected if I do say so myself.

M: Impressive for sure. A stunning show all around. Going against stereotypes, the incorporation of indigenous aspects along with your underlying signature touch made this collection a statement of the future. You have proven yourself a formidable young designer, and [4] we can't wait to see what creative projects you'll come up with next.

男: 这个系列中的配饰着实惊艳地吸引了我们留下了深刻印象的印象。比如, 秀场结尾展示的配饰耀眼的头风, 让观众们感到困惑。这件作品的灵感来自哪里呢?

女: 今年夏天, 我游历了岐阜各地的山乡乡村。我寻找一些手工艺术品来装饰我的新工作室。某个村庄的妇女们做的刺绣非常精美, 我一直念念不忘。想要复刻那样的设计是徒劳的, 所以, 我采用了自己擅长的创作方式。我用玻璃制在大天鹅绒帽上绘制了类似的风扇图案, 最终呈现出的是那种华丽又温和的调子。作为秀场配饰。

男: 它确实很华丽, 但确实有点。同时它也有几分阳刚之气。

女: 对, 是的。这确实为之。[3] 我喜欢融合那些极端风格的时尚风格。因此, 这件闪闪发光的头风搭配了一些传统的权力服装, 就像那种你在商务场合常见的款式。因此说, 效果出乎意料。

男: 绝对是惊艳绝伦。这场秀令人赞叹。打破刻板印象, 将本土元素与当代性的内在风格相融合, 使得这个系列成为本季的一个标志作品。你已经证明了自己是一位出色的年轻设计师, 而且[4]我们迫不及待地想看看你接下来的创作。

Section II

Passage One

听力和原文及参考译文

Fal dogs can often readily understand a wide range of their owners' commands and gestures. But are there situations where or are they exclusively learned through training? To find out, a new study examined whether story dogs could understand human gestures. [9] The study revealed that 30% of participating dogs successfully followed pointing gestures to a specific location despite having never exposed prior training. The results suggest that dogs can understand complex gestures by simply watching humans. This could have implications in reducing conflict between story dogs and humans.

Dogs were domesticated 10,000 to 15,000 years ago. This means they are probably the oldest domesticated animals on the planet. Humans then bred dogs with the most desirable and useful traits so that they could function as companions and workers. This resulted in domesticated dogs that are highly respectful to human commands and gestures. However, it was not clear whether dogs understood us through training alone, or whether they were an inherent ability.

然而狗类才能快速理解主人的各种指令和手势。但在哪些情况下它们天生就会，还是需要通过学习才能学会的呢？为了找到答案，一项研究调查了故事狗是否理解人类的指令。[9] 研究显示，30% 参与实验的狗类在从未接受过任何训练的情况下，能够理解指向特定位置的指令。这一结果表明，狗类可以通过观察人类来理解复杂的指令。这可能会对减少故事狗与人类之间的冲突产生重要意义。

早在1万到1.5万年前被驯化，故事狗是它们可能地球上最早被驯化的物种之一。人类开始选择具有最理想和有用特征的狗。使它们能作为伙伴和工作动物。这使它们对人类的指令和手势表现出高度尊重。然而，目前尚不清楚狗类理解人类指令是通过训练，还是这是一种与生俱来的能力。

Why does this matter? Bitter dogs are a common feature in cities around the world. They may snarve and occasionally interact with people, but such dogs have never been trained and are inherently "wild". Conflict between stray dogs and humans are a problem. [10] Understanding how humans shape stray dogs' behavior may help alleviate this problem. According to the researchers of the new study, stray dogs are intelligent creatures. They closely observe humans and use their understanding of us to make a decision. [11] "Treating stray dogs with sensitivity and respect, and giving them space," the researchers argue, "can reduce such conflict."

★ 答案详解

9. What does the passage say about 80% of participating dogs in the new study?

- A) They could readily recognize their owner simply by looking.
B) They could understand the implications of human commands.
C) They could be demonstrated to act in our companionship.
D) They could follow pointing gestures without training.

【答案】D

【解析】查题句中 [9] 处问 "The study revealed that 80% of participating dogs successfully followed pointing gestures to a specific location despite having never received prior training". 选项 D "They could follow pointing gestures without training" 与原文 "followed pointing gestures... despite having never received prior training" 为同义替换。故答案为 D。

题干选项 A: 原文未涉及 "认出主人" 的内容, 属于无中生有。

题干选项 B: 原文提及的是 "理解手势", 而非 "理解指令的含义", 属于偷换概念。

题干选项 C: 原文提到 "训练成为伴侣" 虽提及有果, 并非该研究中 80% 狗的特征。属于偷换概念。

10. What may help alleviate the problems caused by stray dogs?

- A) Considering them to be intelligent creatures.
B) Training them to behave like domesticated dogs.
C) Understanding how humans impact their behavior.
D) Taking measures to reduce their numbers.

【答案】C

【解析】查题句中明确提到 "Understanding how humans shape stray dogs' behavior may help alleviate this problem", "shape" 与选项 C 中的 "impact" 为同义替换。选项 C 与原文表述一致。故答案为 C。

题干选项 A: 原文提到 "此些狗是聪明的生物" 并非该研究, 并非 "考虑成为宠物", 属于偷换概念。

题干选项 B: 原文未提及 "训练成为伴侣", 且提及核心是 "理解人类对流浪狗行为的影响", 而非训练。

这为什么重要呢? 流浪狗是城市里常见的景象, 它们可能会咬伤人。原本这些狗是人类训练, 但现在由于流浪狗训练, 行为上处于 "野生" 状态, 因此与人类之间的冲突是一个问题。[10] 了解人类如何影响流浪狗的行为可能有助于减轻这一问题。 新研究的研究人员表示, 流浪狗是聪明的生物。它们会观察人类, 并利用对人类的理解来做出决定。[11] “对待流浪狗要有敏感性和尊重, 并给它们空间,” 研究人员说, “可以减少此类冲突。”

9. 这篇文章关于这项新研究中 80% 的参与狗说了什么?

- A) 它们只需要一些训练就能认出主人的主人。
B) 它们能够理解人类指令的含义。
C) 它们可以被训练成为我们的伴侣。
D) 它们能够跟随指向指定地点的手势。

10. 什么可能有助于减轻流浪狗造成的问题?

- A) 把它们培养成聪明的生物。
B) 训练它们像被驯服的狗一样。
C) 了解人类如何影响它们的行为。
D) 采取措施减少它们的数量。

属于无中生有;

选项B,原文未提及“减少流浪狗数量”的前提,属于无中生有。

11. What do the researchers suggest we do to reduce conflict between stray dogs and humans?

A) Train them through repeated training.

B) Treat them with sensitivity and respect.

C) Make them responsive to our commands.

D) Watch their behavior and try to improve it.

12. 研究人员建议我们应该做什么来减少流浪狗和人类之间的冲突?

A) 通过反复训练来驯服它们。

B) 以敏感和尊重的方式对待它们。

C) 让它们对我们的命令做出反应。

D) 观察它们的行为并努力改善。

【答案】B

【解析】首句中研究人员所言,“Treating stray dogs with sensitivity and respect and giving them space can reduce such conflict”,选项B“Treat them with sensitivity and respect”与原文表述完全一致,故答案为B。

选项A:原文未提及“通过反复训练驯服流浪狗”,且原文提到“无拘无束”,选项A与之矛盾,排除。

选项C:“什么命令能让流浪狗做出反应”并非研究人员的建议,属于偏离主题。

选项D:原文建议“尊重并给于空间”,而非“观察并改善其行为”,属于过度推断。

Passage Two

2025 听力原文及参考译文

Think your refrigerator is just one big box of evenly cold air? [12] Not so! The temperature inside the average fridge actually varies from front to back, bottom to top and everywhere in between. Because of this, food placement within the appliance is far more important than you probably realize. [13] The whole purpose of the modern refrigerator is to slow the growth of bacteria, which thrive in temperatures from 40 to 60 °C. As a result, refrigerators are typically set at or below that level and to protect foods against bacteria. Although it might seem like time spent organizing the fridge will spoil your day, doing so will actually make it more care-free. Water is clean and food safety-critical.

你是不觉得冰箱就是一大箱子均匀冷空气? [12] 并非如此! 普通冰箱内部的温度实际上从前往后, 从下往上以及各个角落都有差别。且因为如此, 食物在冰箱内的摆放位置比你可能意识到的重要得多。[13] 现代冰箱的整个目的就是减缓细菌的生长。细菌适宜 40 到 60 摄氏度的温度下会大量繁殖。因此, 冰箱通常会设置在这个温度范围的下限或更低, 以保护食物免受细菌侵害。虽然整理冰箱的时间可能会让你这一天变得不愉快, 但这样做实际上会让冰箱更干净。更卫生, 并且更适宜食用安全。

These little bins on the inside of refrigerator doors are convenient, but they don't maintain a constant temperature, so definitely refrain from putting perishable foods on them. The top area is not as cold as the bottom of the fridge, so save it for the foods that don't need extra-chilly temperatures. [14] Save space that are ready-to-eat or already cooked on the top shelf. The middle shelf is the most temperature-controlled part of the fridge, so place eggs, meat, meats and prepared foods can also live on the middle shelf if you run out of room up top. The back of the bottom shelf is the coldest spot in the fridge, so store perishable dairy products here to keep them edible longer. [15] Never store foods with high water content here, because the water within them can and will freeze, effectively ruining them.

冰箱门内部的小储物格很方便，但它们不能保持恒定的温度，所以绝对不要把易腐食品放在那里。冰箱上部不像下部那么冷，所以把需要额外低温的食物放在上部更合适，中间层则是冰箱温度控制的部分，所以把鸡蛋放在这里，如果上边没地方了，饮料和烹制食品也可以放在中层更合适。下层货架的后部是冰箱最冷的地方，所以把易腐乳制品存放在这里，可以让它们保存更长时间。[15] 千万不要把水分含量高的食品放在这里，因为其中的水分会冻结，从而彻底毁掉这些食品。

答案详解

12. Why is food product placement within the fridge very important?

- A) The temperature inside is varies from place to place.
B) Proper placement facilitates access to food products.
C) Its different shelves are designed for different purposes.
D) The space is an average fridge changes from top to bottom.

12. 为什么冰箱内食品的位置的分布很重要?

- A) 冰箱内部各处的温度不同。
B) 合理的摆放便于取用食品。
C) 不同的搁架有不同的设计用途。
D) 随着冰箱的空间从上到下会发生变化。

【答案】A

【解析】题干中提到 “The temperature inside the average fridge actually varies from front to back, bottom to top and everywhere in between. Because of this, food product placement within the appliance is far more important”。明确指出冰箱内温度不均是由温度分布不均造成的原因，选项 A 与原文的表述一致，故答案为 A。
干扰项 B：“便于取用” 是合理摆放的目的，而非 “摆放位置重要” 的原因，属于因果倒置。
干扰项 C：“原文未提及 ‘不同设计用途不同’”，仅说明温度不同导致摆放重要，属于无中生有。
干扰项 D：“原文未提及 ‘温度变化’”，而非 “空间变化”，属于偷换概念。

13. What does the passage say is the whole purpose of the modern refrigerator?

- A) To slow the rising of temperature in it.
B) To provide a big box of evenly cold air.
C) To prevent germs from growing quickly.
D) To keep the food cold as long as possible.

13. 这篇主要讲现代冰箱的整个目的是什么?

- A) 减缓冰箱内温度的上升。
B) 提供一个装满均匀冷空气的大箱子。
C) 防止细菌快速滋生。
D) 尽可能长时间地保持食物寒冷。

【答案】C

【解析】题干中提到 “The whole purpose of the modern refrigerator is to slow the growth of bacteria”，“slow the growth of bacteria” 与选项 C “prevent germs from growing quickly” 为同义替换 (germs 同 bacteria)。故答案为 C。

干扰项 A：原文未提及 “减缓冰箱内温度上升”，冰箱的核心功能是降温保鲜，而非控制温度，属于无中生有。

错误选项 D: 原文开头提及它“本应是温度均匀的冷空气团”, B 与原文矛盾。

错误选项 D: “尽可能长时间保持食物新鲜”是冰箱的 1 种方式, 而非“核心用途”, 核心用途是经过控温抑制细菌, 防止它发霉。

14. Where is the fridge should we store foods already cooked?

- A) On the top shelf.
B) In the middle section.
C) On the inside of its door.
D) At the back of its bottom shelf.

14. 我们应把已经烹饪过的食物放在冰箱的哪个位置?

- A) 顶层搁板上。
B) 中间区域。
C) 门内侧。
D) 底部搁板后面。

【答案】A

【解析】题干中明确提到“Store foods that are ready-to-eat or already cooked on the top shelf”, 故选 A 与原文一致。故答案为 A。

错误选项 B: 中间区域适合存放鸡蛋、饮料等, 并非熟食品, 属于细节错误。

错误选项 C: 冰箱门内侧温度不稳定, 原文提到“refrain from putting perishable foods in there”, 熟食品多为易腐品, 故不适合。

错误选项 D: 底部搁板易受冲水影响, 适合存放乳制品制品, 而非熟食品, 属于细节错误。

15. Why should we never store foods with high water content at the back of the bottom shelf?

- A) They will be extra-chilly.
B) They will be hard to defrost.
C) They will be contaminated.
D) They will be ruined.

15 我们为什么把不能把水分含量高的食物存放在底部搁板的后面?

- A) 它们会变得更寒冷。
B) 它们会更难解冻。
C) 它们会被污染。
D) 它们会变质。

【答案】D

【解析】题干中提到“Never store foods with high water content here, because the water within them can and will freeze effectively among them”, 选项 D “They will be ruined”与原文“effectively ruining them”高度对应, 故答案为 D。

错误选项 A: “变得格外冷”属于以偏概全的特点, 并非“不能把高水分食物”的真相, 属于以偏概全。

错误选项 B: 原文未提及“难以解冻”, 仅说明食物会结冰并损坏食物, 属于过度延伸。

错误选项 C: “被污染”在原文中无依据, 属于无中生有。

Recording One

听力原文及参考译文

My current research is mainly looking at factors like stress and how useful it is to our defense system. So the current project that I am quite excited about are looking at other people and factors that are important to them. [10] In our project, we are looking at hip fractures in older people, which is a common event and we are trying to understand the impact of depression. Often people in hospital with a hip fracture develop depression, and these are the people that then go on to become sicker a lot more quickly than others. They get infections; often, these infections lead to death. So we're trying to show down that progression to bankruptcy. So if we can better understand how these factors connect, then we can actually start doing something about it.

The impact that my research will have in Birmingham, first of all, is obviously for older people, because these are the people that are having hip fractures and developing depression. And we're trying to improve their health and their quality of life. But that isn't just a problem in Birmingham or even in the UK. This is a problem globally. People are aging. There's a lot more people in the older generation who are living for longer, but are necessarily staying healthy for a large part of their lives. So the last part of their life can often be full of ill health, and we're trying to understand factors that can contribute to the quality of life later on.

[11] I think the thing that excites me most about my research is that it feels real and relevant. Lots of academics are probably very excited about their research, but it might not be that relevant to them or even to them. Whereas I feel that the work I do is relevant to everyone, because everyone is aging. Health is an issue for everyone, regardless of their age. And when I'm trying to do is understand the factors that affect health and how we can improve the quality of life for people. So that's one of the things that really excites me about it.

我目前的研究主要关注压力等因素以及它们对我们的防御系统有多有用。因此，我目前非常兴奋的项目是研究其他重要因素。[10] 在我们的项目中，我们正在研究老年人的髋部骨折，这是一种常见情况，同时我们也在努力研究抑郁对髋部骨折的影响。髋部骨折住院的患者往往会产生抑郁，而这些人是那些会变得更快地患上其他疾病的人。他们经常感染，这些感染往往会导致死亡。因此，我们正在试图减缓这一进程，以防止破产。所以如果我们能更好地了解这些因素是如何相互作用的，那么我们就可以开始做一些事情了。

我的研究对英国产生的影响，首先是针对老年人的，因为正是这些人会遭受髋部骨折并患上抑郁症。我们正努力改善他们的健康状况和生活质量。但这不仅是一个英国的问题，也是一个全球性的问题。人口正在老龄化，老年群体中寿命更长的人越来越多，但他们在人生的大部分时间里未必能保持健康。所以，他们的晚年生活质量往往充满了问题。我们正在努力研究哪些因素会影响健康状况，以及如何改善人们的生活质量。所以这是让我感到兴奋的原因之一。

[11] 我认为我的研究最让我感到兴奋的一点是，它感觉非常真实且相关。许多学者可能对自己的研究感到非常兴奋，但它可能并不那么相关，甚至对他们来说并不相关。而我感觉我的工作与每个人息息相关，因为每个人都会衰老。健康是一个对所有人来说都是一个问题。当我试图了解影响健康的因素以及如何改善人们的生活质量时，这就是其中一件让我感到兴奋的事情之一。

One of the other things is rather than just taking one perspective, so rather than looking at aging and health just from the perspective of the psychologist... [16] we are now bringing together a lot of different techniques and a lot of different viewpoints to actually look at the way of different factors affecting people.

另一点是，我们并非只从单一角度去直一不只是从心理学家的角度去研究健康和健康——[16]我们还在汇集多种不同的技术并融合不同的观点，来深入研究影响健康的因素不同因素。

【解析】音频中有[16]提到“we are looking at hip fractures in older people, which is a common event”, “a common event”与选项C“Hip fractures”直接对应，说明髋部骨折在老年人中很常见。故答案为C。

🎧 听力原文及参考译文

Americans are obsessed with culinary skills. We talk about them and try to eat like them. But could we learn something more from them than recipes and techniques? According to Walter Wriston Enterprises, Americans spend nearly \$10 billion a year on self-help and personal organization products. [19] The market is huge, partly because most colleges and universities don't teach basic organization. But cooking schools and professional kitchens do. Perhaps the principles of cooking organization can be extended to help with those of us who aren't top chefs.

The system that makes kitchen function is called mise-en-place, or, loosely, "put in place". It's a French phrase that means to gather and arrange the ingredients and tools needed for cooking. But for many professional cooks, the phrase means something deeper. Some cooks call it their religion. It helps them coordinate vast amounts of labor and material, and transform the chaos of its practitioners through focus and self-discipline. [20] Students at the Culinary Institute of America view it as a way of life. It's a way of concentrating their mind to fully focus on the aspects that they need to be thinking on at the moment, is kind of put themselves of distractions. And it's a habit that some students carry with them even when they're not in the kitchen. They mise-en-place their life. They set up their books for class, they set up their desk at home, they place their ideas, they know everything that they need every step of the day.

法国人痴迷下厨房厨师, 我们谈论他们, 还努力向他们那样饮食。但除了食谱和烹饪技巧, 我们能从他们身上学到更多东西吗? 根据 Wriston Enterprises 的调查和企业的统计, 美国人每年在自我帮助和个人组织的产品上花费近 100 亿美元。[19] 这个市场非常庞大, 部分原因是大多数大学和研究生院并不教授基本的组织能力, 但在烹饪学校和专业的厨房则不然。也许烹饪组织的原则可以推广开来, 甚至帮助那些并非顶级厨师的人。

让厨房有序运转的体系被称为 "mise-en-place", 中文意思是“各就各位”, 这是一个法语短语, 指的是收集并准备好烹饪所需的食物和工具。但对于许多专业厨师而言, 这个词还有更深层的含义。有些厨师将其视为自己的信仰。它帮助他们协调大量的劳动和材料, 并通过专注和自我纪律, 将他们的实践者通过专注和自律转变。[20] 美国烹饪学院的学生将其视为一种生活方式。它是一种让他们专注于当下, 专注于他们需要思考的方面, 是排除各种干扰的方式。而且, 有些学生即便不在厨房, 也会保持这种习惯。他们会把书本放在桌上, 他们会把他们的想法放在桌上, 他们知道他们需要每一步的东西。

Then how does one attain this level of organization? The key to high level organization is the mindset. Cooks can easily do 6 hours of preparation for a 3-hour dinner shift. Many on-place hotels aspire to account for every minute of their time and every movement. "Every component of one single dish is in one single corner so their hand literally never moves," explains Dwayne Liguori, an instructor at the Culinary Institute of America. "Once students set up their station, I should be able to cover up their eyes. And they should know that their station is always there, their oil is always right there, their salt and pepper is always right here."

[21] But practiced at its highest level, mise-en-place says time is precious, organization is precious, space is precious. Your self-respect and the respect of others are precious. Use these wisely. Isn't that a philosophy its own boss?

✎ 答案解析

- A) They don't teach basic organization.
B) They don't focus on teaching techniques.

【答案】A

【解析】【音频中】[19] 提到 "the market is huge, partly because most colleges and graduate schools don't teach basic organization", 选项A 视听一致。题干意为A。

【选项释义】：原文为否定“不注重基础技巧”。技巧是学习与“基础思维能力”无关。属于无中生有。选项B项中，原文为肯定“支付学费是‘支付学校课程费用所值’”，与“学校品质直接挂钩”无关。属于偷换范围；选项C项中：原文为肯定“学校将要求出厨师”，属于无中生有。

- [22] How do students at the Culinary Institute of America view mise-en-place or "put in place"?
- A) It's unique to celebrity chefs.
B) It's a way of transformation.
C) It's too demanding for them.
D) It's a way of life to them.

【答案】D

【解析】【音频中】[22] 提到 "Students at the Culinary Institute of America view it as a way of life". "it" 指代 "mise-

en-place". 那么，一个人如何才能达到这种专业程度呢？向水平最高的关键就在于此。厨师们为一场3小时的晚餐准备，很容易就吃够6小时的准备工作。“各位各位”的提醒能使厨师们开始准备一分钟的时间和每一个动作。“通常厨师每一个动作都分解能在一个固定的角序。所以他们的手实际上只需要移动几英寸。”美国烹饪学院的讲师指导、利用厨房资源，“一只学生有掌握自己的工作力。因此就加上他们的眼睛，他们也知道厨房刀总是在这里。油总是放在这里，盐胡椒总是在这里就在这样。”

[23] 的框架以最高水平规划“其被允许”早期，它被定义为：时间宝贵，空间宝贵，空间宝贵。有要以其他人的尊重为宝贵，明智地使用它们。这不正是我们这个时代的一个人生活哲学吗？

19. 提问是关于美国大多数学院和研究生院在美国？

B) Use time and resources in a wise way.
C) Cultivate a habit of self-discipline.
D) Learn from philosophers' example.

- A) 尊重他人, 以得到他人尊重。
B) 明智地利用时间和资源。
C) 培养自律的习惯。

【答案】B

【解析】文章结尾提到“time is precious. Resources are precious. Spend on precious. Your self-discipline and the respect of others are precious. Use them wisely”, 核心意思是“明智利用时间、资源等宝贵事物”。选项 B “Use time and resources in a wise way” 是原文主旨句的 paraphrase, 故答案为 B。

错误选项 A: “尊重他人以得到尊重” 仅为原文提到的“宝贵事物”之一, 并非核心建议, 属于以偏概全。

Why do we stop making goals for ourselves and stop progressing as a result? One reason is the belief that we should accept who we are and not constantly strive to improve ourselves. [22] The mindset we make with this is that self-acceptance is imperative, it should actually be good in the long run for growth. When we are not growing, learning and making improvements in our lives, we tend to stagnate, accepting what is and stop believing we can be better.

A key tool for creating goals and progressing is using our imagination. [23] Yet as so often the case, by the time we've reached middle age, we've stopped dreaming about what we want to achieve and feel quite negatively about goal-setting. Instead of feeling confident, hopeful and motivated from achieving our

我们为什么会停止为自己设定目标, 停止在生活中进步? 一个原因是我们认为应该接受现在的样子, 而不是不断努力去提升自己。[22] 我们在这种方面形成的思维模式是, 自我接受是至关重要的, 它实际上从长远来看对成长是有益的。 当我们没有成长、学习和改善我们的生活时, 我们往往会停滞不前, 接受现状, 不再相信自己能变得更好。

设定目标和理解进步的一个关键工具是我们的想象力。[23] 然而, 通常到了中年, 我们就不再积极地进行目标设定, 并且对设定目标持消极的态度。过去, 当我们实现目标时, 我们会感到自信、充满希望和有动力。但现在, 当我们实现目标时, 我们感受到的不是前进,

goals, we feel we are always falling short. That leads to disappointment and we stop dreaming. We stop imagining the life we'd like to have at the point we'd like to be, quickly feeling ourselves shattered by the pain of our reality.

Up until now, when we work in the creative industry, we've found the idea of using "play" a bit oddish. In the West, we are mostly operating from our head, the rational mind, but it's beginning to be better understood because young our imagination is actually one of the most powerful things we could ever do.

[14] The problem with finding ourselves judging for not achieving the goal is because the goal always changes and we're always changing, whether we realize it or not. With respect, therefore, to what we said up feeling like we are never going to reach our goals. And here's just one of the biggest misconceptions and reasons for failure, dissatisfaction, and unhappiness.

We measure against the goal rather than what we've come from. That falls into this "the gap and the gain". We measure always against the goal, which we never find we're reaching, rather than the gain. That is where we're really from. [15] In measuring where we've come from, rather than where we're trying to get to, we get results. We see things we're often for granted or not noticed. It's a struggle, yet profound change in perception, and what I love about it is the power it has to instantly shift us up a gear. It's not as simple, yet has an immediate, positive impact on our thinking.

快乐和满足。但是总觉得自己取得不称心。这会导致失望。于是我们停止了梦想。我们停止想象我们将来想拥有的生活或想成为的人。很快我们就被现实的痛苦击垮。

到目前为止,除非我们在创意行业工作,否则我们不会觉得“玩耍”这个概念有点幼稚。在西方,我们大多依靠大脑,即理性性能,但人们开始逐渐理解,运用想象力其实是我们最强大的能力或最强的资产之一。

[14] 因为我们在实现目标时感到挫败,是因为目标总是在变化,而我们也总是在适应,不管我们意识到有意识到这一点,因此,衡量我们是否达到目标是自己永远无法实现的指标。这其中一个存在误解或失败、不满或不快乐的最主要原因之一就是原因之一。

我们总是对目标标准衡量,而不是对照自己的起点。并·沙利文称之为“差距与收获”。我们总是对照那个似乎永远无法达到的目标来衡量,而不是看收获。也就是说我们从哪里起步。[15] 当我们衡量自己的起点,而不是衡量我们试图到达的地方时,我们会得到结果。我们会看到那些我们习以为常或未曾注意到的东西。这是一种非常深刻的观念转变,表其功的地方在于,它有能力立即让我们更上一层楼。这非常、非常简单,却会对我们的思维产生立竿见影的积极影响。

★ 答案解析

26. 【答案】B) consequence

【答案解析】考查名词短语。significant 显著的; 重要的。空处为名词。

【答案解析】根据上下文, 可以得知女性参与立法决策对于所有的国家都有巨大的影响, 答案为B。其余选项均不符合文意。

2025 年大学英语六级真题

27. 【答案】E) exact

【题干翻译】*exact* 和引导的是一个形容词，句子主语部分有形容词，根据主句时态，优先考虑形容词原形，答案为 E。

【原文验证】根据上下文，可以得到国家应该用国家来处理的问题，所有国家合适的只有 E。再代入原文文意符合逻辑。

28. 【答案】D) equity

【题干翻译】*and* 表示并列，故所填的内容与 *paid barely leave* 以及 *gender-based violence* 形成并列关系。注意优先考虑名词原形的国家搭配。

【原文验证】根据上下文，在世界上能够与平等国家形成并列的只有答案 D。同义替换，新得问题的平等性，答案能下，其他的选项均不符合上下文。

29. 【答案】A) achieve

【题干翻译】句子缺少谓语，主语是单数，根据上下文优先考虑动词三单。

【原文验证】根据上下文，可以得知让女性在国家中有更多话语权这件事会让女性感到受到关心女性，让更多的女性参与国家事务中，从语言和国家上单看，答案都应该选 A。

30. 【答案】B) Sustainable

【题干翻译】根据题干可知，国家应该做，30 空填形容词。

【原文验证】根据上下文，可以将女性在国家中人数不足的问题是一个棘手的问题，答案选 *do not need to deal with and needing a lot of effort to deal with* 相对应的。那就在 *Sustainable* 的选项一看很明显就被排除，可以早取排除法进行选择，由于是 *a...problem* 因此不能选 B 选项 *serious*，一个很大的矛盾冲突，以全句一直说是在个人在某个职位上将会在职务国家有意见，N 选项干就性品质，在文章最后有更好的合适的地方，因此该选项可以在写的时候直接排除。

31. 【答案】D) dramatically

【题干翻译】根据题干可知，*underrepresented* 是形容词，31 空填副词。

【原文验证】如果只看本句答案 D 与 G 在语法搭配上都能符合。但是根据上下文我们可以得知于前文提到的女性在国家事务中的代表人数严重不足，这种不足是巨大的。Dramatically 有“显著地、戏剧性地”之意，能够有力地传达出问题的严重程度，especially 意为“尤其、特别”，可适用于描述众多情况中的一个特例。或是一系列情况，这里没有与性别相关（指其他国家的女性）进行对比的语境，而是国家现状的呈现，所以 dramatically 更贴切。

32. 【答案】C) contradict

【题干翻译】根据题干可知，*claim* 是动词，32 空填名词。

【原文验证】根据上下文，可以得知女性不能不平等，女性在国家可以以某种方式上的平等与男性一致。因此该选项与句意有矛盾的选项，答案为 C。

33. 【答案】D) especially

【题干翻译】句子缺少形容词，逗号后面填的是修饰部分。根据 33 空不填，结构就是 *more women need to run as Republican tickets*，结构上完全成立，意思是“更多女性需要以共和党人身份参选”。

【原文验证】根据上下文，只有 D) especially 符合文意，有更多的人女性需要参选，尤其是以共和党候选人身份参选。其他选项和原文的意思都不相符。

34. 【答案】L) previous

【题干翻译】*in* 在此处是介词，因此考虑 *in* 后面填形容词。

【词汇拓展】使用上下文, 可以得知应该是美国女性需要更多的朋辈支持, 即 *peerlines supporting women*, 简称为 *peer*。

33. 【答案】30+various

【词汇拓展】动词+宾语+名词。考虑非谓语结构时, 以 35 题所给内容将会以动名词开头。

【语法验证】根据上下文, 可以得知该空需要更多的女性不满足一次就够, 应该要长期坚持下去, 答案选 K。

四 参考译文

女性在社会公职中受到歧视, 这不仅仅指向在内的一些政治决策权与专业领域而言。在国会中的性别平等是一个重要目标, 这是因为参与立法决策的女性人数对塑造它的所有政策都有巨大影响。与男性相比, 女性立法者更有同理心, 以平等努力回应那些对妇女和女孩影响尤为显著的问题, 例如性暴力、薪酬平等和特别暴力等问题。

增加国会中的女性人数能增强女性参与与政府之间的联系感。此外, 这也能强化女性认为政府关心她们的需求感受, 并鼓励年轻女性更多地参与其中。

尽管全球各国妇女在政治代表不足的问题普遍存在, 但在美国成为一个尤为严峻的问题。目前, 在国会议员性别比例方面, 美国在全球排第 21 位。

然而, 女性在美国政治中代表性严重不足的部分原因是她们面临来自政治对手的压力或骚扰等安全问题。

即使, 数十年的研究表明, 拥有相似经历的女性候选人选举成功率与男性候选人一样多, 胜选概率也相当。实际上, 女性在政治中占据领先地位是一个两全其美的故事。

在下届国会中, 参众两院的民主党女性议员共计 107 人, 共和党女性议员则为 42 人。

为了让女性使用国会一半的席位, 需要更多女性参选, 尤其是代表弱势群体。这两项非传统措施上优先考虑增加女性政治参与——不仅限于一个选举周期, 而是以一种持续的方式进行。

Passage One

Passage One

文章结构分析

提出问题（第 1-3 段）：许多组织的重大变革项目难以实施，核心问题在于员工缺乏参与性、积极性和主动性。

分析原因（第 4 段）：变革的成功不仅取决于领导，更依赖于员工的内在动力。传统方式（即命令、控制）往往忽视员工的参与性，导致变革难以持久。

提出解决方案（第 5-7 段）：组织应建立一种鼓励员工参与性、积极性和主动性的环境。具体措施包括：提供培训、鼓励员工参与决策、建立激励机制、提供资源支持、建立反馈机制等。

总结观点（第 8 段）：变革成功的关键在于员工的参与性、积极性和主动性。只有建立一种鼓励员工参与性、积极性和主动性的环境，变革才能成功。

参考译文

组织面临着许多挑战，如竞争及外科手术等挑战。在组织行业中，竞争会寻求突破性的变革。为了扩大组织的学习体验的变革，参与式管理是组织应该考虑的一种组织内部的管理手段。

大多数组织都面临着巨大的变革项目，但发现它们几乎无法实施。[40] 这主要归因于成功的企业不仅要求领导，更重要的是员工不抗拒变革，而且主动参与变革而不上班。

组织成功的关键在于建立一个变革计划，使变革能够适应组织内部并贯穿整个组织。这些组织管理者的责任非常关键，即建立一种鼓励员工参与性、积极性和主动性的环境。[41] 为了建立这种环境，组织应该采取以下措施：提供培训、鼓励员工参与决策、建立激励机制、提供资源支持、建立反馈机制等。

方式。开明学生的学习态度。

让参与制定大纲的环境,可以让他们体验不同的课堂环境,从而促使他们重新审视目前的课堂。

对大多数成年人来说,行为改变并不容易。[44] 然而,美国明日教育协会以终身变革的理论知识、组织文化价值观及行为反思的考量——通过终身重大变革行动的核心。此外,在正常的工作条件下,普通教师少能贯彻到了其控制力的全部范围。因此,降低和这样的「阻碍」可以为变革提供助力。

作为一种学习方式,有效的学习模式可归类于两种类型,因为它可以加速时间,压缩时间,并且与课堂不同,它是专门设计用于成人参与学习的学习模式。课程提供了一种既现实的学习模式。结论,实践和知识可以通过一种或多种方式实现的方式而得到实现。[45] 课程在无限的、上级的权威中探索,实践并反思应用新知识,正是课程成为有效学习方式之一的原因。

精心设计的知识能够帮助个人和团队理解他们的决策以及其主导课程的变化反应如何受到其他参与者和整个组织。[46] 否则,为了性来这些变化,他们必须让人感觉到痛苦。在成功时课程和知识时,参与者必须将课程称为“这些变化”,如果他们不信任这种认为,他们就会将这种体验视为挑战,从而难以在工作中应用,或者更糟的是,认为它与日常工作无关。[47] 为了最大化课程的效果,参与课程立即应用从中学到的知识,以在学习与实践之间建立紧密的联系。

答案详解

44. 关于组织中的成功变革,我们了解到什么?

- A) 它们可以轻松地立即实施。 B) 它们是由参与者意见的阻碍所引导。
C) 它们需要员工的热情支持。 D) 它们需要强大的组织学习机制。

【答案】C

【题干关键词】successful changes in organizations

【原文定位句】This is largely because successful change requires more than a vision. It requires a workforce that not only doesn't resist change, but embraces it.

【解析】通过题干关键词可以定位到第二段最后一句,文章提及成功的变革需要的不仅仅是一个愿景,而是员工不排斥变革以及接纳改变,即 They call for enthusiastic support from the workforce, embrace support, 答案为 C。

【选项排除】A 选项与原文相反,文章提及 only to find their overly responsible to implement, 而非实施,而是需要参与者的支持, B 选项与原文相反,文章提及 more than a vision 表明只有愿景是不够的, D 选项是文中没有,文章提及参与者及组织不仅运用在软件、航空等领域,得到了组织管理,与成功变革来源于组织学习毫无关系。

47. 学习领导者应该利用哪些手段来培养对变革的热情?

- A) 让他们看到可能实现的成果。 B) 帮助他们了解旧的问题模式。
C) 鼓励他们了解新的问题模式。 D) 鼓励他们利用新机会

【答案】A

【题干关键词】creating leaders, learners' passion for change

【原文定位句】To create this kind of widespread passion, learning leaders must expose the workforce to what could be, which will enable them to rethink their current models, enable them to break free from their deep-seated paradigms and embrace the opportunity to learn.

【解析】通过题干关键词可以定位到第三段第一句,文章提及为了激发员工热情,学习领导者必须让员工了解未来可能的景象, what would be could possibly be achieved, 答案为 A。

【答案解析】BCD 三项文中均有提及，但三个选项都是否定。题干要求是 What should learning leaders do. 因此 BCD 都排除原文意思是反对，也不可能是正确答案。其次，且选项 A 只有一个。这三个选项在文中并列且是三个并列的选项，因此 BCD 不可能成为正确答案。

48. 文章关于价值，新项目和团队合作的成性是什么？

- A) 它们随着无收益员工在工作中的行为。
- B) 它们在创业变革和团队方面与组织不同的干预措施。
- C) 它们对业务和团队中员工的行为。
- D) 它们新研究者和实践者 E 是创新力的全部性。

【答案】A

【原文定位句】Lectures, training programs and workshops can explain the intellectual elements of transformation, but they are seldom effective at getting to the behavioral aspects that lie at the heart of a significant change initiative.

【解析】根据关键词可以定位至第五段第二句。文章中提到讲座、培训课程和研讨会通常只关注知识层面的改变，而忽视行为。其中 They are generally incapable of - they are seldom effective: changing behaviors" interventions on the job-getting to the behavioral aspects.

【答案解析】B 选项与原文相反。根据该段的干预措施可以认为是变革性措施。C 选项与原文相反，无证据支持行为改变。D 选项与原文相反。原文并未提及新研究者和实践者 E 是创新力的全部性。

49. 是什么使团队成为最高效的学习形式之一？

- A) 它通过知识形式学习体验来节省时间的精力。
- B) 它为学习者提供自己的经验。团队学习过程提供了能力。
- C) 它为所有参与者和实践者提供学习体验的能力。
- D) 它让学习者能够在无风险的情况下探索、实践和练习的能力。

【答案】D

【题干关键词】the most productive forms of learning

【原文定位句】The ability to explore, experiment and repeatedly apply new knowledge is nurtured. Risk-free practice is what makes simulation one of the most productive steps of learning.

【解析】通过题干关键词可以定位至第六段最后一句。文章指出能够在无风险的模拟中探索、实践并反复应用新知识，正是模拟成为最高效学习形式之一的原因，其中 the potential for learners to explore, experiment and practice" The ability to explore, experiment and repeatedly apply new knowledge without any risk-risk-free. 答案选 D。

【答案解析】ABC 选项均不符合文章原文要求。题干问的是 the most productive forms 即为最高效的。

50. 参与者在实践中做什么可以获得最大收益？

- A) 将所学仅视为一项挑战。
- B) 将所学仅视为团队合作。
- C) 形成实践的经验。
- D) 努力与领导者建立紧密关系。

【答案】B

【题干关键词】run the groups better practice

【原文定位句】To reap the benefits, however, students must first like apply. To maximize benefits from simulation, participants should continuously apply the learning from the experience to keep a smooth link between learning and

doing.

【翻译】通过厘清关键句可以定位前面从句中间以及最后一句, *minimize benefits from automation wrap the greatest benefits possible*, 文中会提到为了最大化机器人的益处, 应该必须与相关一致, 以及要与前句交相呼应从该处中学到的知识, 以在理论与实践之间建立紧密联系的关系, 强调学习与实践之间的关系, *apply the learning from the experience to forge a possible link between learning and doing* apply promptly what they learn to their jobs, 答案选D。

【偷鱼题解】AC选项与原文相近, 错误是因为实践, 而非通过成功或只是停留在理论层面。D选项则于无中生有文本提及与实践的关系。

Passage Two

题 题 题 题

画出核心论点(第1段): 经济以GDP增长为重要目标, 但经济结构正向可持续模式转变, 并强调可持续性并非仅仅是目标。

画1替代方案并分析争议(第2-3段): 引入“政府支出赤字”的主张, 强调其可持续性并非仅仅是目标, 同时讨论政府支出在创造就业和促进社会事件。

分析具体建议及其不足(第4-6段): 以“绿色新政”(Green New Deal)为例, 指出其旨在追求四年内, 即2024年, 并以绿色新政危机为例, 强调其局限性, 同时政府仍以经济和生产力的优先模式。

画2并分析论点(第7段): 最终指出政府支出赤字并非可持续, 其他国内事务在于公民本国的福利, 与开头形成呼应, 强调可持续性。

题 题 题 题

GDP增长并非衡量一个国家经济状况的良好指标, 也不应成为政府的首要目标。[1] 无限制增长是不可持续的, 因此许多国家正在寻求, 经济模型应以可持续性为目标。然而, 尽管可持续性对我们至关重要, 但它本身并非解决问题的答案。

政府应重新思考其政策, 以应对气候变化和能源短缺等挑战。本段主要不是讨论政府主要关心的问题吗? 不同的人对可持续性的定义不同吗? [2] 可持续“绿色”是可持续的, 人们追求的幸福也是可持续的。

为此，政府正在将生活成本负担加于公民。但我们的幸福依赖于全社会的共同努力，政府的职责在于创造促进繁荣的条件。我们充分认识到面临这样的条件是存在的，既有令却窘迫性，并且可以加以研究克服。

在数周发表的一篇文章中，哲学系教授安·巴雷尼尼尼的论文又作公论的“真实财富”。这并不是指 GDP 增长，(31) 而是指经济是好的；人们不管如何，而是需要能够获取那些能提升其生活品质的事物。技术被社会和全民用于将变化而控制地更有效地利用现有资产，无论人们使用改善生活所需资源的成本。有鉴于此不可不考。

就其而言，它与“幸福”的考量由的讨论有许多共通之处。让它与政府管理且应成为其公民的幸福的讨论的简单文了。

例如，尚不清楚“真实财富”是否将如何影响我们社会的心理而两两而行。至少在两个方面。不仅心理地面对经济的变化而面更大，除了人情地经济性地心理而两两而行，政府能够以应成其经济心理而两两而行。世界正面临经济地变化而社会参与的结构——其保持经济心理而两两而行。然而，政府应面对的是：社会应如何地有必要通过其经济心理而两两而行。其地经济而两两而行。以用面的成本是合理的，(32) 且要经济而两两而行。政府应只而两两而行公民的(33) 控制生产力。

(33) 要求使用其公民的“幸福”作为其经济而两两而行，要求要求他们将其公民本而两两而行。

31. 关于经济增长，文章提及的局限观点是什么？

- A) 它经济而两两而行。
B) 它对人性的本而两两而行。
C) 它应成是政府管理且应成为其公民的幸福。
D) 它是政府经济的一个研究。

[答案] A

[题干关键词] the core reason thinking of economic growth

[原文定位句] Unlimited growth is not sustainable, and economic thinking is moving around the idea that we should see the sustainability in our economic growth.

[解析] 通过题干关键词可以定位文章第一段第二句，文章提及无限增长是不可持续的。经济以可持续性为目标的方向转变。答案选 A。

[验证选项] B 选项与原文相反，文章提及可持续性对于人类来说是重要的，而非经济增长的思维很有限。C 选项与原文相反，文章提及经济增长不但是政府的目标。D 选项与原文相反，文章提及经济增长不但是政府的目标。

32. 为什么会有人反对政府应该干预幸福这一观点？

- A) 政府不能将幸福加于公民。
B) 人们的幸福依赖于他们自身的努力之见。
C) 幸福对不同的人来说有不同的意义。
D) 幸福依赖于可测量的经济成长。

[答案] C

[题干关键词] some people opposed to the view; governments should focus on happiness

[原文定位句] Given the technical interpretation of "happiness" as prosperity or "life satisfaction", people have different views.

[解析] 根据题干可以定位第二段第一句，题干中的观点在原文提到了，即认为“幸福”是客观地经济与社会因素。但是人们追求的幸福由各不相同，即不同的人对于幸福的定义是不同的。人们的需求不同，答案选 C。文中 Happiness means different things to different people—people want different things.

[验证选项] A 选项与原文及上下文相反。B 选项与原文文章的主旨相反，文章提及所谓的幸福不应仅从文章中的 GDP 增长。

32. 青年军务治安·巴古尼在孟加拉国的一篇文章中建议政府做什么？

- A) 努力减少贫富之间的不平等。
B) 为人们提供特殊野生资源所需的资金。
C) 改变人们的行为，以更好地利用社会制度。
D) 利用先进技术来改善人们的生活。

【答案】B

【题干关键词】philosopher Julian Bagchi

【原文定位句】In a recently published article, philosopher Julian Bagchi suggests we should focus on "real wealth" for citizens, which does not depend on GDP growth. Access to key: people do not need to work, but rather access things that enable them to live well.

【解析】通过原文关键词可以锁定在第四段第一句。文章提及我们应关注 "real wealth"，原文中对于引号内单词进行了解释，原文即第四段 "real wealth" 即 "access"，人们有自由让他们获得更好物质条件的资源，而非金钱，access is understood for a better life-access things that enable them to live well。

【选项排除】A项是文中生来，没有减少贫富差距相关内容出现以及改变人们行为等字眼。D项有所涉及，但不是对 "access" 的正面解释。文章强调要利用技术改善生活，文章提及技术不应让我们更有效地利用现有资产。

34. 为什么世界卫生组织认为有必要通过证明改善心理健康是经济效益，来为其建议辩护？

- A) 心理健康项目只有 GDP 增长才能执行。
B) 心理健康有利于人们的福祉。
C) 不良的心理健康对国家的经济体系有害。
D) 改善心理健康是作为其他优先事项。

【答案】D

【题干关键词】the economic benefits; mental health to justify; recommendations

【原文定位句】As long as the economy is their priority, governments need go no further than ensuring citizens' continued productivity

【解析】通过分析定位句可以得知，WHO 的建议（加强心理健康机构，开展教育项目）本质是为了直接提升人们的心身健康和福祉，例 WHO 强调，要求从“提升福祉”的角度去制定政府，可能不够有力。因此，WHO 感到有必要换个角度，则通过强调改善心理健康带来的经济效益（例如，更健康的劳动力能提高工作效率、减少医疗支出等）作者对此评论是：“这听起来很合理”（It says a lot）。这说明，WHO 采用这种策略的原因在于：政府仍把经济增长作为其优先事项（As long as the economy is their priority）。为了让政府愿意投资，WHO 不得不使用“经济效益”这个政府更看重的词汇来包装其建议，而非 D 项。

【选项排除】A 项文中生来，没有 GDP 增长。心理健康项目就无法执行。原文不提及此处的心理健康关系。WHO 提出的是“说服政府投资”而非理由，而非项目执行的原因。B 项强调提升福祉，属于事实层面，心身健康有利于人们的福祉。这是 WHO 被核实的角度，而非它需要说服“经济利益”的原因。C 项问的是“为什么需要证明经济效益”，而非“为什么心理健康是好的”。D 项是原文直接提及，不良的心理健康对国家的经济体系有害，这确实是“经济利益”论证的一个方面，但 WHO 可能用政府的更具体理由。但它只是论证内容，不是根本原因。根本原因是 D 项原文提出的。因为政府优先考虑经济，所以 WHO 不得不使用这个论证。

35. 作者在上文试图用图估计什么价值？

- A) 政府的项目提升福祉被证明的。
B) 政府的福利提升福祉以人为本的。
C) 政府决策时考虑公众的意见。
D) 政府应将提升生产力作为其首要任务。

【解析】文本提及要求政府将公民的“幸福”作为最高优先事项，就是要求他们将公民本身视为目的，发展性并不是手段本身目的。人才是最终最特目的，答案选 B 项。

【解题思路】AD 项提及民主制度，文本的意在并提及该制度，C 项项目于文中无有，没有提及公民意见。

【】 参考译文

Since ancient times, China's water resources have been unevenly distributed—scarce in the north while abundant in the south. To effectively address the severe water shortage in northern China, the Chinese government launched the South-to-North Water Diversion Project. This is a large-scale water conservancy project designed to reallocate water resources across regions. After decades of planning and preparation, the construction of the project began in 2002. It consists of three routes—the eastern, central, and western routes—with a total length of 4,350 kilometers, and is expected to benefit a population of over 400 million people. Since its operation in 2014, the project has transferred a cumulative total of more than 50 billion cubic meters of water to northern regions, providing reliable water resources for local communities, significantly improving the regional ecological environment, and promoting sustainable and healthy economic development.

1. 自古以里，中国的水资源北缺南丰，分布很不均衡。

【句式结构】该句为“时间状语 + 主 + 系 + 表”结构。

【语法重点】北缺南丰 scarce in the north while abundant in the south. 分布不均 unevenly

【翻译难点】该句为时间状语“自古以里”作状语。本句主要用现在完成时态强调长期持续状态。该句可译为主干结构为“中国的水资源分布很不均衡”，即“China's water resources have been unevenly distributed”，“北缺南丰”属于高度概括性表达，可处理为“对比结构 + 转折等”置于句末。即主升龙表明中国的资源分布不均。

【译文】Since ancient times, China's water resources have been unevenly distributed—scarce in the north while abundant

in the south.

2. 为了解决南北方严重缺水问题, 中国政府实施了南水北调工程 (the South-to-North Water Diversion Project).

【句式结构】该句为“目的状语 + 主句”结构。

【翻译难点】北方 northern China; 工程 launch/implementation

【翻译难点】“为……”结构可处理为不定式目的状语从句, 即 “to effectively address……” 或 “in order to effectively address……”; 翻译句 2 为历史性事实陈述, 时态宜使用一般过去时, “实施 1 举” 可译为 “launched + implemented the project”。

【译文】To effectively address the severe water shortage in northern China, the Chinese government launched the South-to-North Water Diversion Project.

3. 这是一项旨在收集水资源的巨大水利工程。

【句式结构】该句主干为“这是一项……工程”, 原因为“跨区域收集水资源的”。

【翻译难点】宏大 large-scale/great; 水利工程 water conservancy project

【翻译难点】该句为工程性描述句, 时态宜使用一般现在时, “跨区域收集水资源的” 可处理为过去分词作后置定语, 即 “designed to collect water resources across regions”。

【译文】This is a large-scale water conservancy project designed to collect water resources across regions.

6. 历经数十年的规划与筹备, 工程于2002年开工建设, 分东、中、西三条线路, 总长4,350公里, 惠及人口将超过4亿。

【句式结构】该句为“时间状语 + 主干句 + 并列补充说明”结构, “历经数十年的规划与筹备”为时间状语; “工程于2002年开工建设”为主干句; “分为东、中、西三条线路”、“总长4,350公里”、“惠及人口将超过4亿”为并列补充说明成分, 分别以结构、数量与影响三方面对主干句进行说明。

【翻译难点】线路 route; 总长 total length; 惠及 benefit

【翻译难点】该句内容较多, 考虑每分句用两种逻辑层次, 可将“工程于2002年开工建设”作为主干, 即 “the construction of the project began in 2002”, 其后三部分补充说明成分用单独从句, 将“分为东、中、西三条线路”与“惠及人口将超过4亿”处理为并列定语从句, 将“总长4,350公里”处理为 with 定语从句, 即 “It consists of three routes—the eastern, central, and western routes—with a total length of 4,350 kilometers, and is expected to benefit a population of over 400 million people”。

【译文】After decades of planning and preparation, the construction of the project began in 2002. It consists of three routes—the eastern, central, and western routes—with a total length of 4,350 kilometers, and is expected to benefit a population of over 400 million people.

写作思路

本篇为命题作文议论文写作，采用提出观点、向考生描写原文的命题形式，审题时应重点理解题目内涵，从利弊得失辩证分析，对人工智能既提高了效率，也对人类创造力造成的负面影响不容忽视。行文结构上可采用“四段式”展开论述：第一段开门见山抄写首句，引出主题立场；第二段展开论述人工智能对创造力的影响；第三段提出建议；第四段总结全文观点并适当升华与展望。

四段式结构

With the increasing application of AI technology, there is a growing concern that it may negatively impact human creativity. While AI undoubtedly brings great convenience and efficiency and opens up new possibilities, its potential threat to human imagination and originality should not be underestimated.

This problem is largely caused by over-reliance on AI tools. Those trapped by excessive use of AI technology in work and study may lose people's ability to think for themselves and rely solely on AI when making decisions, which may jeopardize human independent thinking as well as the capacity for discovery. Therefore, creative thinking may be replaced by mechanical imitation, and innovation may turn into simple reproduction of existing patterns.

To address this problem, effective measures should be taken. First, individuals should consciously maintain independent thinking and view AI as an assistant rather than a substitute for creativity. Second, educational institutions should emphasize critical thinking and creative training, instead of encouraging blind dependence on technology. Finally, society should promote rational and responsible use of AI through proper guidance and regulation.

Overall, only by guiding the healthy use of AI can we protect human creativity and achieve harmonious development between humans and intelligent technology.

四段式结构

随着人工智能技术的广泛应用，人们越来越担心它可能会对人类的创造力产生负面影响。尽管人工智能确实带来了巨大的便利和效率，但它对创造力的潜在威胁不容忽视。本文旨在探讨人工智能对创造力的影响，并提出相应的建议。

四段式结构

第一段：开头句 + 表明立场

1. 开头句
2. 个人观点：尽管 AI 为人们带来诸多便利，但其对创造力的影响不容忽视。

第二段：问题分析

1. 总述句：人工智能对创造力的影响引起了广泛关注。
2. 展开论述：过度使用 AI 可能会导致人类独立思考能力的下降，创新可能会变成对现有模式的简单复制。

第三段：提出建议

1. 总述句
2. 建议 1：个人层面
3. 建议 2：学校层面
4. 建议 3：社会层面

第四段：总结升华

1. 总结全文

这一问题在很大程度上源于人们对人工智能工具的过度依赖。一旦在学习和工作中陷入对人工智能的过度使用,一些人便会停止独立思考,并做出决策时完全依赖人工智能。从而可能损害人类的独立思维能力以及决策与创新能力。久而久之,创造性思维可被机械思维的所取代,创新也可降格为对既有模式的简单复制。

为了解决这一问题,必须采取切实可行的措施。首先,个人应积极地进行独立思考,把人工智能视为辅助而非替代品。其次,教育机构应更加重视批判性思维和独立决策能力的培养,而不应仅依赖技术的盲目应用。最后,社会应通过适当的指导与规范,确保人工智能的合理使用,及其广泛使用。

只有通过引导人工智能的合理使用,我们才能保护人类的创造力,并实现人工智能技术与人类的有效发展。

文章结构分析

指出问题与问题 (第 1-4 段): 社会普遍认为肉类生产是气候主要威胁。并因少吃肉, 作用直接反映, 甚至成为许多国家环境政策方案。

提出解决方案 (第 5-10 段): 用美国数据证明: 畜牧业排放 (29%) 远低于交通 (23%)。指出美国温室气体排放 (FAO 2006 年报告), 以美国畜牧业排放使用了不公平的统计方法。与畜牧业关系。尽管 FAO 修正, 畜牧业排放已广泛传播。

分析实际减排效果 (第 11 段): 用美国数据证明: 即使美国人不吃肉, 全国温室气体减排也不到 3%, 效果有限。

用美国畜牧业的多重价值 (第 12-14 段):

世界领先: 美国畜牧业已走向更高层次, 持续发展。

全球需求: 美国人均肉类消费仍低, 畜牧业是其重要生计。

世界与农民: 肉类提供食物营养, 及气候 (如牛) 能转化人类不利用的植物 (如秸秆等), 有效利用全球 25% 的农业土地, 畜牧业养活全球 10 亿人生活。

结论与主题 (第 15 段): 从畜牧业有环境贡献, 但土壤基于科学事实, 难以证明畜牧业减排, 而非是减少肉类。

参考译文

因此, 食用肉类会释放温室气体, 但并非如气候变化的元凶

A) 随着气候变化的威胁和影响日益令人担忧, 肉类成为了争取行动的热门目标。2017 年, 许多国家开始呼吁减少肉类消费, 以减少温室气体排放。然而, 一些研究表明, 减少肉类消费并不能显著减少温室气体排放。

B) 在农业的一个核心方面, 畜牧业生产了大量的温室气体, 这主要归因于畜牧业生产了大量的温室气体。然而, 正如我们前面所提到的, 这一主题目前仍很模糊。它的关键在于畜牧业与气候变化之间的联系。畜牧业生产了大量的温室气体, 这主要归因于畜牧业生产了大量的温室气体。

C) 在最近的研究报告中, 畜牧业对空气质量和气候变化的影响, 在美国, 尤其是畜牧业生产了大量的温室气体。

D4 (42) 丹尼曼明声的一个主要部分在于它提出一种说法：美国是世界上温室气体排放的最大来源。例如，总部位于华盛顿特区的政策研究集团在 2000 年发表的一份分析称，全球 51% 的温室气体排放来自海洋和陆地牲畜。美国环保局高级官员称，2016 年美国温室气体排放的最大来源是电力生产（占其总量的 28%），交通燃油（25%）和工业（22%）。整个农业部门只占 6%，但整个畜牧业的占比则不到一半，占美国温室气体排放总量的 3%。正如丹尼曼明声的研究报告指出，美国对交通领域的排放大幅增长。

【4】 为什么会有这样的结果? 2006 年, 联合国粮食及农业组织 (FAO) 发布了一份名为《畜牧业的长期影响》的研究报告, 引起广泛关注。报告指出, 畜牧业产生的温室气体排放量排入地, 占全球 18%。[5] 报告指出, 一个令人震惊的结论是, 畜牧业对气候的影响比所有交通方式加起来还要大。另一个结论是, 畜牧业占用了大量的土地, 导致森林被砍伐, 从而加剧了气候变化。

2004年10月22日，中国科学院南京地质古生物研究所宣布了这一重要发现。这一发现不仅证实了“雪球地球”假说，而且为研究地球早期生命演化提供了重要线索。据专家介绍，这一发现是在对距今约22亿年的地层进行详细研究后得出的。这一发现对于理解地球早期气候和生命演化具有重要意义。

1) 许多人仍然认为, 使用电炉比烧煤、烧油、由含氮气体产生热效率高。[40] 公用事业局的一项研究, 发现美国人民饮食中氮元素和所有的微量元素, 每天摄入量减少 1.6% 的有害气体排放。据我们在加州大学戴维斯分校的研究, 如果所有美国人接受“周一、周四”的禁烟, 我们预计吸烟排放量只有 0.4%。

题 结构剖析

提出问题(第1段): 指出人们对事业的热爱不仅关乎金钱, 还源于社会共识——害怕被“势利眼”评判, 从而原则(第2-4段); 定义“势利眼”为以职业身份来评判他人的态度, 解释势利眼是导致社会中“以职业论尊卑”的现象, 剖析物质追求(追求、名利)为对尊重与爱的渴望, 而非单纯物质主义。

提出解释(第5段): 指出势利眼源于能力与信心的缺乏, 仅认可已取得的成就者, 无压力感在于外强。

提出解决方案(第6段): 主张真正的原因并非保持开放与尊重——认识到价值存在于无法衡量之处, 从而以有同理心之心对待他人。

题 参考译文

我们为何如此热爱事业? 部分关乎金钱, 但我们的热情也涉及心理层面。

我们恐惧, 害怕为[46]我们标榜(某种价值观)而羞耻。这个境界充满了可怕的人, 他们时时刻刻都在将我们置于死地。这种人对我们的爱为利。

势利眼是那种仅仅在人们身上关注于对金钱不足的部分, 从而武断地判定我们应得到他们的多少关注的人。在过去, 这可能关乎金钱的获取与失去的恐惧, [47]如今, 势利眼对关心一件事, 你以何为生。

这就是我们为网络上的社交网络, 我们使用网络的一个问题总是“你是谁什么的?” 网络是我们的舞台, 势利眼那么会以你如何表现来评判我们, 那么会给我们带来一切。

这也正是我们被一种种价值观所束缚而难以自拔。我们被一种种价值观所束缚。

有时, 我们的行为被误解为虚荣与自尊, 但其远不止于此。[48]我们热爱事业, 并非因为热爱事业本身, 与物质主义无关, 它带来了一种对尊重和尊重的需求。而在我们的社会里, 这种尊重和尊重往往只通过成就来衡量或尊重。我们追求的并非物质本身, 而是我们通过这些有它们所期望的某种“爱”。下次当你有人开始拉拢时, 我们不应感激他们的爱, 而应同情他们来自世界的爱的匮乏感。

势利眼的根源在于缺乏能力和信心, 不知道如何判断这个世界上谁是有价值的人。在初识到所谓“成功”个体时, 势利眼的观点是极其简单且易认的。[49]在他们看来, 只有那些已经取得成就或成功的人才能停止尊重。他们相信所谓强化的头脑里, 只有空洞的标签: 一个人可能聪明, 可能优秀——但不如那些被社会完全忽视。正是这种在强化的头脑之下, 而非表面明显的聪明与优秀。

应对势利眼的真正答案, 并非声称人无贵贱之分, 而是去爱, 优秀存在于那些不断出人意料的地方, 并非毫无任何外在的显赫标志。[50]因为我们在用他人成就来衡量他们, 所以我们的行为, 仅仅是为了与那些与我们同路的人, 保持距离, 并且, 对与那些有能力和。

2025 年大学英语六级真题

【答案】A

【题干关键词】our worry about drivers apart from money

【原文定位】We worry because we suspect — not wrongly — that the world is full of a frightening sort of person ready to judge us ruthlessly and unfairly a person we can call a snob.

【解析】通过关键词可以锁定第二段第一句，且划线的部分是定语从句在 become 口。文章同时我们怀疑这个世界充满了可怕的人，他们对那些必需品消费者持偏见并评判我们：这些人我们称之为势利眼，吝啬鬼 A，其中 frightening + fear; being judged + person ready to judge us + person we can call: is a snob + ruthlessly and unfairly.

【选项分析】BD 选项均为在定位句以及文章中出来，到了无中生有。C 选项 ruthless，同文章并未提及且已被否定词 not，因此我们排除判断错误的选项。

41. 关于当今的势利眼，我们从中看到了怎样的社会？

【解析】通过关键词定位到第三段第二句。文章提及势利眼只看你从事的职业（what you do for a living），你做什么为生，你的职业是什么，来鄙视他。其中 their occupations=what you do for a living.

【选项分析】A 选项无中生有，文章只是 in the past，并没有提及他是一个人的过去。B 选项同本在文章中有所提及且无中生有。D 选项是第四段第一句进行干扰，文章提及的是我们社会阶层，一面面开同的一个词就混为于职业的问题。而选项 D 选项所说的将人们置于社会阶层中。

【原文定位】A lot of our interest in fancy cars, jobs and houses has nothing to do with our wish to do with a longer for the respect and status that is only available in our societies through the acquisition of material goods.

【解析】根据关键词定位到第六段第一句。原文的 fancy cars, jobs and houses 指 material goods。文章提及我们并不，先讲职业和豪宅的许多问题，可物质上又无足。它源于一种对尊重和地位的需要。但在我们的社会里，这种尊重和地位往往只能通过获取物质财富来获得。看原文 D，其中 a longer for the respect and status that is only available in our societies=yearning for social recognition.

【选项分析】A 选项无中生有，文章与文章在引入段落——句意思，物品并非认为这是错误的观点，真正的原因是我们可自得的物质财富。B 选项与原文相反，与物质无关。C 选项来自于第六段，与标题无关，文章提及下位拥有人开始批判时，我们不仅因他们的财富，而应同时地思考来自此开端的物质财富，是同时性财富人，而事富人开始或可实现的。

【原文定位句】For such, it is the already perfected and already successful who are the only ones worthy of respect.

【解析】根据关键词可以定位到第二段，又提到是在他们那里。只有那些已经获得荣誉和成功的人才配得上尊重。答案在A。在此处 the + adj 表示一类人。them with them and German = the already acclaimed and already successful.

【选项排除】B选项是独裁者 There is no room in their cold-regimented minds. 这是作者对独裁者的评价。他们心胸狭窄。而爱利国认为尊重那些人的精神自由。CD选项为文中未提及，属于干扰项。

【解析】根据关键词，可以定位到最后一段最后一句。作者建议在最后一段中提到。作者再次重申一句的来求尊重之大。作者认为我们应打开心胸去接受那些不同的人。所以我们要保持开放性。保持对几乎每个人与爱利国的人。保持友善。善良。还有尊重有想象力。尊重他。B. 其中 our solemn duty remains to be kind, good, curious and imaginative about pretty much everyone who ever crosses our path 是 kind to and curious about those who we happen to meet in our lives.

【选项排除】A选项来自最后一句的干扰，作者并没有说建议。作者只是说保持开放的态度。作者并没有人无快意之分。而爱利国。作者有在子那里不让人知道的地方。并且是无论外在的领袖标志。C选项到 I hope or worse 批评。作者并没有提及以不同类型的方式变化。D选项与原文相反。作者是不管新的人。我们不应批评他人。

20 结构分析

提出观点(第1-2段)：由20世纪80年代美国性的解放运动引起。但此运动并未平等，甚至至今未平。

原因直接原因(第3-5段)：引用哈勃的研究。指出一个反直觉的发现：性解放的引子来自外部性解放的引入。而女性有了「主要使用者」得以留在职场。职场为其提供稳定性。而职场与稳定性成正比。

分析深层原因(第6-8段)：指出全球范围内平等指非由解放运动引起。用「母职惩罚」解释核心原因：女性生育后薪资开始降低。从而加剧：女性承担更多无酬家务，且因生育而牺牲职业发展，薪资增长受限。

应对措施(第9-10段)：指出若女性能平衡，职场中性别平等可实现平等。但由根本原因在于女性因生育而回家(生育、哺乳)不得不中断工作，这是性别平等难以实现或实现困难原因。

21 参考译文

女性在历史上长期一直较低。[31]但在20世纪80年代的原因，她们开始接近男性。在那1年间，性别薪酬差距每年缩小一个百分点。如果这一趋势持续下去，性别工资差距本应在2017年就已消除。

但这一直并未持续。原因是如此。

根据哈佛大学的一项新研究，这种差距并非与直觉相反，它可归因于性解放运动并非最初引入。

学者们认为，在20世纪80年代，随着女性开始进入职场，主要女性利用工作技能，尽管她们面临可憎的「母职惩罚」——而不是退出职场去照顾孩子——但那些留在职场的女性发现，她们的工资增长速度低于男性。

[32]事实上，在美国引入家庭带薪假时，性别工资差距的速度降为每年仅0.05个百分点，并此后一点一点地保持在这一水平。

长期以来，世界各地许多国家应制定限制产假与带薪假的法律来平衡性别薪酬差距。事实上，这一限制在大国和发达国家甚至开始实施。

性别薪酬差距是这种不平等的突出特征之一，几乎无处不在。「母职惩罚」已成为解释其成因的词语。在许多地方，尤其是富裕国家，女性在这类平等之前，收入与男性相当。生育子女的女性开始面临她们的职业生涯相对于男性同行。

[33]部分原因是女性承担了更多无酬家务。这会减少可用于工作的时间和精力和发展的能力，因此是女性为母职惩罚提供了「燃料」。并且向职场的时间会让女性落后，即使这些时间是由企业内，并得到了公司或政府的支持。

如果没有引入产假制度，会怎样呢？[34]这项研究使人们思考这个问题。只是说如果20世纪80年代的性别薪酬差距下去，我们原本可以更早平等。

然而，无论哪种情况，了更平等的性别薪酬可得性，而女性性在20世纪80年代取得薪酬差距通过调整等方式来缓解。因此，从这些研究提出的问题的解决，[35]仍然会存在一个与女性相关的谜题——为什么女性薪资下降(即「母职惩罚」)。女性是生育并在职场照顾孩子的人。这些发现她们不得不中断工作，无论这种中断是否有薪酬制度。

51. 关于20世纪80年代美国的性别薪酬差距,我们「知道什么」?

- A) 差距正在继续缩小。 B) 差距正在继续缩小。
C) 差距开始扩大。 D) 差距仍然巨大。

【答案】B

【题干关键词】the gender pay gap in the US during the 1980s

【原文定位句】But in the US in the 1980s, they began to catch up—fast.

【解析】通过题干关键词锁定第一句。文章开头提及女性一直在「努力追赶」男性,从20世纪八十年代开始,女性开始加速赶上。而且以薪酬的差距,因此答案选B,其中 catch up/rapidly = rapidly/when。

【错误选项】A选项错在continue, slowly与原文相反。C选项与原文相反,并夸大差距缩小。

52. 随着性别薪酬差距继续缩小的同时,发生了什么?

- A) 职场薪酬平等的差距开始逆转。
B) 性别工资差距同时期开始继续下降。
C) 女性生育后重返工作岗位的难度开始下降。
D) 性别薪酬差距的缩小引起了更多关注。

【答案】D

【题干关键词】the introduction of pay and talent family leave policies

【原文定位句】After family leave was introduced in the US, in fact, the gap of gender wage convergence fell to just 0.03 percentage points per year, and has remained there ever since.

【解析】通过题干关键词可以得知,第二段后半句为文章非常关键的信息,女性生育后重返工作岗位的难度开始下降,但薪酬差距的缩小有以牺牲薪酬平等为代价了。这一点非常关键。因为薪酬的引入实际上导致薪酬差距为一种好事,但好心办了坏事,答案选D。其中 modestly 是超过两个数量级达出来的以前的速度是 one percentage point a year, 一年大概一个百分点,而现在 0.03 percentage points per year, 因此是明显下降。

【错误选项】A选项「女性薪酬」,「薪酬差距」在缩小,而不是继续扩大,文章说的是缩小速度放慢而不是扩大。其次,文中 is fact, that program began to reverse during the pandemic, 确实提及缩小的趋势在疫情期间逆转,但是不符合题干要求。B选项的性别薪酬差距引入家庭休假, C选项文中无,文章说的是女性再找工作难度开始自己要求的那部分男性性,而并非开始调回工作岗位。D选项文中无,文章只是说以前更关注,无看出比较。

53. 女性薪酬下降的部分原因是什?

- A) 女性普遍缺乏职业发展的足够动力。
B) 许多女性放弃了加薪和晋升的机会。
C) 女性在美国职场中的薪酬能力逐渐下降。
D) 缺乏企业薪酬委员会公司的薪酬支持。

【答案】C

【题干关键词】the dip in women's salaries

【原文定位句】Part of this is because women rely on more of the unpaid labor at home, which can take time away from work and energy for career advancement.

【解析】根据关键词可以定位第七段及本段。Women who have children begin to see their salaries dip behind their male counterparts. 很多美国职场人发现,一部分原因是女性承担了更多家庭事务,这会占可用于工作的时间和精力及资源的能力。答案选C, 文中 the unpaid labor at home takes time and energy women spend taking care of the family.

【偷换论题】A 选项原文从生育自主权与职业发展能力、相反,它指出是产假本身占用了我们的时间和精力。是结构性障碍,而非主观意愿问题。B 选项偷换概念。原文是说母亲们“被恩惠 (are pampered over for)”照顾和晋升,这是被动的接受不公平对待,而非她们主动“放弃 (give up)”机会。D 选项与原文相反,文中强调,即使有公司政策或政策保障体现,女性仍会因职业中断而陷入“even if that time is taken voluntarily, and supported by company or government policy”。这说明了政策保障存在的。

34. 该研究关于「育儿等做」什么?

- A) 解决那些可种的问题有共同解决。工作平等在家庭内部。
B) 如果公司和政府没有合作,「育儿等做」会失败。
C) 如果完全用性别平等,家庭关系「育平等」。
D) 如果 20 世纪 80 年代的性别平等,本可以解决工作平等。

【答案】D

【题干关键词】the new study; wage parity

【原文定位句】The study doesn't go into that question either, but it says that if the 1980s model continued, we would have been at parity by now.

【解析】题干问下划线词,可以定位第九段。文章提及这项研究没有深入探讨这个问题。只是说如果 20 世纪 80 年代的政策持续下去,我们或许在现在已实现平等。大部分是结构性障碍是早期工资问题。若继续 D,属于同义替换。

【偷换论题】ABC 只是原文中提及,属于文中所有。

35. 什么阻止了女性生育与男性的平等?

- A) 每天工作场所中女性的数量。 D) 生育与产假期间他们。
C) 未解决生育与产假期间的待遇。 D) 缺乏解决生物学问题的资源。

【答案】B

【题干关键词】the final analysis

【原文定位句】there would still have been an issue with women — who are the ones to bear children and take care of them in the early weeks because of biological factors like the ability to breastfeed, sleeping shifts to take breaks, whether or not those breaks were considered.

【解析】通过关键词可以锁定最后一段。there would still have been an issue in the final analysis, 文章提及生物学因素 (如哺乳能力), 女性工作中存在育儿期间照顾孩子的人, 且因此被迫不得不中断工作。无论这种中断是否自愿情况。因此答案为 B。女性必须照顾孩子。

【偷换论题】A 选项原文从产假制度 (如在 80 年代) 是逐步的一部分。但明确指出产假制度下怀孕等“结构性障碍”, 根本原因是存在, 因此, “结构性障碍”并非最终障碍。因此已被部分解决过讨论的问题。

C 选项原文提到 “whether or not those breaks were considered” (无论休息时间是否被考虑)。这明确指存在强制休息政策。问题依然存在。因此, “不强制休息制度”并非根本原因, 而非本月无法律限制生育与产假期间的工作平等影响。D 选项这是一个错误的干扰项。原文提到叫 “biological factors”, 前文中心于这些因素影响的行为结果 (生育和照顾孩子), 而非“缺乏解决生物学问题”, 文章没有讨论通过资源 (如科技, 医疗) 去“解决”生育或哺乳在生物学因素。而是指出这些障碍与平等或社会平等的眼前挑战, 说明阻碍了平等讨论的地点。
