Reading Comprehension

(40 minutes)

Section A

Directions: In this section, there is a passage with ten blanks. You are required to select one word for each blank from a list of choices given in a word bank following the passage. Read the passage through carefully before making your choices. Each choice in the bank is identified by a letter. Please mark the corresponding letter for each item on Answer Sheet 2 with a single line through the circle. You may not use any of the words in the bank more than once.

Psychologists have long been interested in how we construct our identities and the sorts of strategies that we use to present ourselves to society. New findings suggest that the kinds of __26__ and teenage self-promotional behavior we see in teens appear at a much younger age than __27__ known.

Research shows that a child's awareness of social standing comes from adults. Like grown-ups, kids want to be __28__ by their peers. Interactive experiences may provide opportunities for children to learn about what __29__ a desirable reputation and the kinds of strategies that are effective for __30__ a good reputation in their social environment.

Five-year-olds don't just focus on their reputations; they also behave strategically to alter their external image. They will __31__ their behavior in order to appear more or socially good in the eyes of key observers. While we know that adults use a large variety of strategies to manage and create reputations, we don't yet know whether children __32__ and use the two top different strategies are valuable in different times or different __33__. It's important for us to further consider where in the process children succeed in controlling their reputation and where they __34__.

A question to think about is, "What happens even earlier than age five?" Children don't just show up to the first day of kindergarten and have the idea of reputation pop __35__ into existence. The logical question to ask is, "What happens even earlier?"

Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraphs from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on Answer Sheet 2.

Getting young minds into design

- A) Recently, a leading design federation in the UK warned that the UK could face a creative skills shortage, after the latest figures revealed a drop of almost 10 percent in students studying Design and Technology. These figures showed that the number of pupils that sit exams in Design and Technology fell 1.6 percent, from 204,733 to 195,279 last year.
- B) Chief executive John Knapton of the Creative Industries Federation thinks that this drop in figures has worrying implications for the skills pipeline in Britain's highly successful arts and creative industries. He said, "We already have skills shortages in many jobs such as animation (动画制作) and special effects. He added: "Engineering, which requires a mix of creative and technical skills, also has recruitment problems."
- C) Many other designers and architects have expressed concern over the future supply of home-grown talent for UK firms, and industry bodies have pointed out that there has been a lack of sector-level support. However, if those designers had visited the Design Museum shop in London earlier this year their fears may have been eased. With £10 to spend, they could have bought a fascinating children's toy called "Doodle Racers". An egg-shaped cylinder (圆柱体), it contained a wood-up, elastic (有弹性的) hand-powered mechanism, rattled parts, all 100 percent recycled, and lots of pebbles. It was good fun, simple, eye-catching and very original.
- D) Well, you'd expect the Design Museum to commission and make quite interesting stuff, but this one was different. Designed by a group of six Year 9 and Year 10 boys from Fleethley Catholic High School, the toy was the winning entry in the museum's 2013 Design Ventures competition, which brings the lessons of design to life for students aged 13 to 16 by challenging them to develop a new creative, sustainable and commercially feasible product for the Design Museum shop and receive hundreds of euros as rewards.
- E) "We did Design Ventures at my previous school," says Liam Hearnson, Fleethley Catholic High School's design technology curriculum leader. "Then when I changed schools four years ago, I introduced it here because it helps to develop an early skill."
- F) The theme for last year's competition was "Move", and Hearnson began with three groups working in lunch breaks and after school before selecting the group with the best innovative idea. Each participating school may submit just one proposal. "It's the talking part and doing the work which is important," he says. "And I never dreamt we'd win."
- G) Catherine Ezzam Smith, head of learning at the Design Museum, is expecting around 10,000 participants aged 13 to 16 to take part this year and says that the project—funded by Deutsche Bank as part of its youth engagement programme Born To Be—is the biggest event in the museum's calendar. "We started Design Ventures with around 800 young people in 2010 and it has grown steadily since," she says. "Teachers like it because the skills are all transferable and it helps to validate the value of design as a subject," she explains, telling us that nearly 600 schools have taken part so far.
- H) So how does the competition work? A single-week theme is announced in the summer. This year it is "Change". Schools work with groups to produce imaginative design ideas for a product or simple materials that could add to the Design Museum shop. Participating schools then register by November and eventually submit their design idea. Along the way there is training and support for teachers and mentoring for students from designers. An additional bonus is when the winners see their design on sale in the shop of the following year.

10. Harrison and his pupils have happy memories of spending a whole day in the museum. Having been selected as one of 10 shortlisted schools to present their idea to a panel of judges, including designer Jasper Carrott. Then they worked with the K&N Design Studio in Sharnbrook, met designers at their school and attended a lunch with Deutsche Bank employees. The situation helped to make decisions and there were plenty of discussions—they changed the product's name, for example.
11. "One of the really useful things about this competition," says Harrison, "is that there's a commercial element because the product is going on sale for real and the boys had to learn about budgeting and marketing, as well as designing their game." Profits go to charity. "The winning team chooses where it wants the profits to go," says Richard Smith. "The Fleetley Cusacke High School product raised about £1,000 for Great Ormond Street Hospital." Winning entries in past years have included a make-your-own clock for selfish Dave Fleming and a hand-drawn, wallet-sized travel game with goals at each end, called BeDroffing.
12. It costs the schools nothing to participate in Design Ventures. The professional designers provide their services for free. Among them are architect Alistair Khan, a Design Museum trustee who has worked as design-in-residence at the museum, helping emerging architects. He has recently been commissioned to design the new Museum of London building in Northbank.
13. Another is interior architect and jewelry designer Nicola Chivers, who is one of the competition's judges. "I'm very keen to encourage young people," she says, observing that design brings together other subjects such as literature, art, history, geography and science. "Now that design education is limited in the curriculum, I'm all in favour of competitions such as Design Ventures, which helps to bring the standard curriculum to life." says Chivers. "And the judging day is terrific fun. Some of these students are very imaginative. One group presented their idea in the form of a puppet show and we had some marvellous discussion about it. I'm always impressed by the levels of confidence and the support the students get from their teachers."
14. Richard Smith adds: "Design technology has become a tricky subject to make a case for, and we've heard of departments closing in some schools. We find that if pupils take part in Design Ventures or Year Nine it can be the trigger which leads them to opt for it at General Certificate of Secondary Education, so we are helping to keep alive something which is crucial to industry and entrepreneurship."
15. During the course of preparing for Design Ventures, teachers receive training and support while students get mentoring from designers.
16. A visit to the Design Museum shop in London can reduce the designers' fears about the future supply of talent collected in Britain.
17. One of Design Ventures's judges says the competition adds vigour to the standard curriculum in schools.
18. Entry fees in Design and Technology dropped by nearly two thirds last year in the LLE.
19. Perceptions of such projects in Design Ventures can motivate them to choose design technology as their subject.
20. Design Ventures is welcomed by teachers because it helps to prove the worth of design as a school subject.
21. The schools don't have to pay anything to take part in the Design Ventures competition.
22. Participants in Design Ventures are challenged to create sustainable and marketable products.

44. Students love Design Visions because they can learn about budgeting and marketing in addition to game design.

45. According to an officer of the Creative Industries Federation, there is difficulty now in recruiting engineers in the UK.

Section C

Directions: There are 7 passages in this section. Each passage is followed by some questions or unfinished statements.

For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the circle.

Passage one

Questions 46 to 50 are based on the following passage.

New research suggests that pandas may be at risk of dying out because they are too comfortable. Experts say zoo much happiness can stop the bears from searching for new mates.

Researchers have long believed that breeding pandas in zoos and the bears may threaten their survival by "reducing or fragmenting their natural habitats". The Pans reported. But the new research suggests that a "modest degree of domestication and fragmentation" may actually help preserve panda populations.

The research was conducted by scientists from Michigan State University. It concluded that pandas fail to wander off in search of new mates if they find their habitat too comfortable. Resulting in a lack of vital genetic diversity.

For their study—outlined in a paper in the journal *Conservation Biology*—the team looked at genetic diversity and spatial mixing in Chinese panda population. The ideal level of perfectly suitable habitat was found to be only 80% of its area, with the remainder either too harsh or too affected by human activity.

The experts concluded that pandas should ideally "be happy enough to thrive, but not so content that they don't want to move around and find new mates".

Their conclusions about what The Guardian described as this "sweet spot" are so close to the so-called Goldilocks principle, that there can be just the right amount of something. The concept has been applied to a wide range of disciplines, from developmental psychology to economics and engineering.

Clinton Sillero, a professor of conservation biology at Oxford University, told the newspaper that the new findings could have implications beyond panda conservation.

"Most large animals that are now live in increasingly fragmented landscapes," said Sillero, who was not involved in the research. "It may well be that the steady nature of their relationship with humans allows captured stress outside of nature to travel further, and might result in greater genetic connectivity and ecological population persistence."

The 2020 census of pandas found that there were more than 1,800 left in the wild, putting them on the list of vulnerable, but not endangered, species.

46. What do we learn from new research about pandas?

- A) They are losing habitat due to the building of roads and houses.
- B) They have stopped seeking new mates for reproduction.
- C) They may not adapt to the changes in size of their habitat.
- D) They may continue to exist as a result of enjoying too good a life.

47. What can we conclude from the new research by scientists at Michigan State University?

- A) Reintroducing pandas' long-term habits regarding panda conservation may be misleading.
- B) Hunting development over pandas' homes may threaten their survival.
- C) Pandas' natural habitats are becoming less suitable for reproduction.
- D) The increased panda population is attributed to the fragmentation of their habitat.

48. What is the experts' conclusion regarding pandas?

- A) It is urgent to provide an ideal habitat for them to thrive.
- B) It is very important to preserve their genetic diversity.
- C) Their chances of finding new mates have a lot to do with their habitat.
- D) Their environment for survival has been continuously worsening.

49. What can we infer from the passage about the Goldilocks principle?

- A) It needs to be confirmed by more studies on pandas.
- B) It applies to the preservation of pandas' sex.
- C) It has implications for future panda research.
- D) It can be used to locate the right spot for pandas.

50. What can the new findings do according to Professor Shihao?

- A) Help discover new ways for the conservation of pandas.
- B) Help rescue pandas from the list of endangered species.
- C) Shed light on the conservation of most large non-voting animals.
- D) Show the complexity of interactions between humans and animals.

Passage Two

Questions 51 to 55 are based on the following passage.

While there have been several claims, it feels as if they've all been really trying. But what about those of us who don't have a second talent? We've been told all our lives that if you work hard, you too can succeed. But with the release of Angela Duckworth's *Grit*, we are given a new key to success.

"As much as talent could, effort counts more," says Duckworth in *Grit*. She introduced a new concept that may be overlooked. And if you want real success, what you need is grit: the perfect combination of passion and

persistence. Even if you have magical talent, it's nothing without grit.

Duckworth says grit is the difference between success and failure. A person who has grit is more likely to succeed than a person who does not. When we think about achieving success—whether it's landing that job or learning that new skill—our thoughts are immediately burdened by all the things we must first learn. If you want that new job, you have to have the job skills, then the interview skills, then the dress part—and you must be perfect at all of them. One is different because it tells us that perfection isn't the goal.

Don't let the unreasonable expectations off our shoulders. Grit tells us that the door is open wider than we first thought possible. First allows us to redefine our goals. Think about it: what's something you've always wanted to do, but giving up because you "don't" have the skills for it? What's something you love but don't "good at"?

The real workings of grit are to have unreasonable passions and continue to try. Effort means more than your physical ability. Even if you haven't mastered a skill, grit tells you that you can still succeed if you can transform your passion into action. In a way, Duckworth is giving new hope to people who have shut the doors on their dreams. She is saying it is possible that you can accomplish anything. If at first you fail, then try one more time with grit.

51. What does the passage say about people born with magical talents?

- A) They seem to make others without hard work.
- B) They appear to have all the secrets to success.
- C) They feel it only too logical to succeed.
- D) They are bound to reach efficiency.

52. What does Duckworth say about talent?

- A) It is a new concept much too overused.
- B) It proves necessary for his achievements.
- C) It plays a minor role in one's success.
- D) It is a substitute for and concept in HR.

53. What does the passage say about people thinking of attaining success?

- A) They are pushed hard to perform their best to the employer.
- B) They are burdened by their expectation of perfection.
- C) They will try hard to land a job that fits their skills best.
- D) They will find themselves lacking in all the skills they need.

54. How does the author think grit can be helpful to us?

- A) It allows us to know what we are good at.
- B) It opens our eyes to new opportunities.
- C) It focuses our attention on what we do.
- D) It tells us reconsider the goals to achieve.

25. What message does Dostoevsky try to convey in her book *Crime*?

- A) We should perfect ourselves to achieve success.
- B) We should stay persistent even in face of failure.
- C) We can never master a skill without constant practice.
- D) We can never expect to reach our goals without passion.

Sir Alfred Hitchcock was an English screen director and producer. He made 26 to 40 'The Master of Suspense.' Hitchcock is one of the most influential filmmakers in the history of 27. He was an extraordinary director who entertained his audience with 28 and gripping suspense stories. His fascination with crime began at an early age when he was 29 by his father who made him spend a few minutes inside a prison for his misconduct. Hence, his movies are 30 of the guilt and innocence of the wrongdoer and the victim. He had a gift for creating stories that consisted of deceit, robbery, murder, corruption, and other criminal 31 with incredible plot twists in the journey. The principal characters in his movies were often ordinary people 32 in unusual and uncomfortable situations.

He was 33 perfection and his amazing body of work is separated fascinating by the order. Most of his movies have 34 the test of time and are considered in his masterpiece. He is also recognized by other filmmakers for he continues to inspire them to be passionate about their work. He is also 35 by people around the world for his entertaining and exciting stories.

Section B

Directions: In this section, you are going to read a passage with ten statements attached to it. Each statement contains information given in one of the paragraphs. Identify the paragraph from which the information is derived. You may choose a paragraph more than once. Each paragraph is marked with a letter. Answer the questions by marking the corresponding letter on Answer Sheet 2.

Is juicing actually good for you?

- A) Possibly juiced fruit has become a basic dietary item—especially for busy, health-conscious consumers who don't have time or patience (and perhaps even shyness) that food without meaning can be nutritious. Fruit juice also has been linked to claims that it can help you both lose weight and stay healthy. All of which, of course, has made it highly profitable. The global fruit and vegetable juice market was valued at \$154 billion in 2016 and is expected to grow.
- B) But is juicing really as healthy as we think? Most foods containing fructose—a naturally occurring sugar found in all fruits and fruit juices—don't seem to have harmful effects as long as they're not consuming as excess daily calories. This is because the fibre found in whole fruits is intact, and the sugar is contained within the fruit's cells. It takes our digestive system a while to break these cells down and for fructose to enter the bloodstream.
- C) But this is not the case with fruit juice. Unlike whole fruit, fruit juice has most of the fibre removed. This is why the fructose in fruit juices seems to 'fly' rapidly—which also includes honey and the sugars added up through. It's recommended by the World Health Organization that adults have no more than 30g of added sugar, the equivalent of 150ml of fruit juice, per day. The problem is that, with the fibre removed, fruit juice's fructose is absorbed more quickly. Sudden increases in blood sugar cause the release of insulin (胰岛素) to bring it back down to a stable level. Over time, this mechanism can wear out, increasing the risk of developing type 2 diabetes. In 2013, researchers analysed the health data of 100,000 people collected between 1986 and 2009 and found that fruit juice consumption was linked with increased risk of type 2 diabetes. Another study found a relationship between fruit juice and type 2 diabetes after following the diets and diabetes status of more than 70,000 nurses over 18 years. The researchers explain that the possible reason for this may partly have been the lack of the other components found in whole fruit, like fibre.
- D) Juices containing vegetables can provide more nutrients and less sugar than juices made up of just fruit—but they still lack valuable fibre. Diets high in fibre have been linked to a lower risk of developing heart disease, stroke, high blood pressure and diabetes, and it's recommended adults consume 30g per day.
- E) Aside from the link to type 2 diabetes, many studies agree that fruit juice is harmful if it contributes to an excess in calories. In an analysis of 153 studies, John D'Heughebaert, associate professor at the University of Toronto's Department of Nutritional Sciences, set out to understand if the associations between sugar and stroke and health—including risk of diabetes and heart disease—were applicable to the food and drink we potentially consume as part of a healthy diet. He compared sugar's effect into the effects of fructose-containing sugars with control diets low in sugar or lower in those sugars. The result? To isolate the effects of consuming too many calories from the effects of foods containing different sugars.
- F) He found negative effects on blood sugar and insulin levels when food provided excess calories from sugar, including fruit juice. However, when the calories weren't from excess sugar, there were some advantages to consuming whole fruit—and even fruit juice. D'Heughebaert concludes that the recommended 150ml of fruit juice per day, which is so average serving, is reasonable. The paper concluded that foods containing fructose may have some small benefits for long-term blood sugar control when they don't lead to over-consumption of calories. But when they do lead to too many calories, they risk raising blood sugar and insulin levels.

36. So while we know that fruit juice can cause diabetes if it's part of a diet that has more calories overall, it's less clear how juice affects the long-term health of those who aren't overweight. But we have a higher risk of consuming more than the recommended daily number of calories (around 2,000 for women and 2,500 for men) on the days we drink juice, according to research. Numerous studies have shown that drinking fruit juice doesn't make us consume any less of other foods throughout the day.
37. As it is easy to consume large amounts of fruit juice quite quickly, extra calories are taken in. And extra calories can contribute to weight gain. One way we can improve the effects of fruit juice on our health is making sure we select cups that contain as much of its goodness as possible, according to Roger Clemens, professor of pharmaceutical (药学的) sciences at the University of Southern California.
38. Another reason for fruit juice's recent popularity is the argument that it can help to remove poisons or harmful substances from the body. However, "the whole concept of a juice that helps to remove poisons or harmful substances from the body is completely false," says Clemens. "We consume compounds every day that may be poisons and our bodies do a wonderful job of absorbing and eliminating anything harmful from our bodies."
39. And juice isn't a cure-all for getting your vitamins, either. "There are a lot of nutrients contained in the parts of the fruits, such as in apple skins, that are discarded when you juice them," says Heather Firth, a professor of medicine. "You end up with sugary water with some vitamins."
40. Plus, she adds, it's not an ideal way to reach the advised "five a day". "People try to get five servings of fruit and vegetables per day and don't realize this isn't juice alone getting vitamins," she says. "It's also about reducing the amount of gram carbs (碳水化合物) and proteins and fats in our diet, and increasing fibre." So while fruit juice is better than no fruit at all, there are limits. It particularly comes with risks when we consume more than 150ml of fruit sugars per day, or when it puts us over our recommended calorie intake. It probably isn't with vegetables—but fruit juice is far from a quick fix.
41. Fruit juice is different from whole fruit in that it contains much less fibre.
42. Some people believe a juice can help to rid our body of harmful or poisonous substances.
43. A lot of research comes to the same conclusion that fruit juice does harm to the human body when it leads to surplus calories.
44. The delayed health benefits of fruit and vegetable juices have rendered the industry very profitable.
45. To increase the benefits of fruit juice to our health, we'd better choose ripe fruit to make juice.
46. Those containing large amounts of fibre reduce the risk of heart disease, diabetes and other health threats.
47. According to a research paper, drinking fruit juice is beneficial on condition that it is consumed in reasonable amounts.
48. One expert claims that juicing wastes a lot of nutrients contained in skins.
49. It takes some time for fruit's cells to be digested and for nutrients to be absorbed.
50. A lot of research has demonstrated that drinking fruit juice does not reduce our daily consumption of other foods.

Section C

Directions: There are 2 passages in this section. Each passage is followed by some questions or unfinished statements.

For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the center.

Passage one

Questions 46 to 50 are based on the following passage.

We all take a little extra effort to look nice for special occasions. The same of us have conflicting feelings about dressing up and feel guilty about taking the time to focus on clothes. Science now suggests the right dress may give ourselves the extra edge in our professional and personal lives.

We hear sayings like "dress for the job you want, not the job you have". Most people don't really believe it there, but research into the impact of clothes on behavior now suggests that there may actually be a grain of truth in them sayings. Science says that the clothes we wear affect our behavior, our mood and even the way we interact with others because of the symbolic meaning that we attach to different types of clothing.

We consider some clothes to be powerful, some to be fun, and so on. We even evaluate people whom we have just met based on their clothes. We also evaluate ourselves based on what we are wearing because of the way they make us feel. This means that the experience of wearing something affects our attitude and our choice of behavior.

There's a hidden internal machine are associated with being "dressed for success". It means that wearing formal office wear puts us in the right frame of mind to conduct business. Wearing power clothing makes us feel more confident and even increases hormones needed for displaying dominance. This in turn helps us become better negotiators and attract clients.

Wearing a good suit works wonders for our performance in the boardroom. Wearing formal wear isn't a great idea when we want to relax. Studies have found that people need to be less open and less able to relax when they wear formal clothes.

On the other hand, a casual dress helps us become more friendly and creative. These findings support the idea of wearing business casual on a Friday, since colleagues are more likely to take the time to relax on the last work day of the week. I mean, who wants to hang out with people in their suits?

46. What does science suggest the right dress may do?

- A) Add to our advantage in work and life.
- B) Enable us to look a lot more attractive.
- C) Help us to enjoy a fuller personal life.
- D) Provide extra energy for what we do.

47. Why does referee say the clothes one wears may affect their interaction with others?

- A) Clothes usually represent one's social and economic status.
- B) Clothes largely determine one's identity by people around.
- C) Different types of clothing markedly reflect different personalities.
- D) Different types of clothing can convey different messages symbolically.

48. How do the clothes we wear sway our evaluation of ourselves?

- A) By exerting an effect on our power of judgment.
- B) By impacting how we feel about ourselves.
- C) By affecting what we take as the basis for assessment.
- D) By influencing our interpretation of symbolic messages.

49. Why does the author say tailored jackets are associated with being "dressed for success"?

- A) They are necessary for formal business dealings.
- B) They may help people concentrate on their business.
- C) They are vital to keeping a disciplined position in business transactions.
- D) They may enable people to have the right capability for doing business.

50. What are people advised to do when they want to socialize?

- A) Focus on clothing.
- B) Wear a good suit.
- C) Dress casually.
- D) Look formal.

Passage Two

Questions 51 to 55 are based on the following passage.

With the rise of pop music, jazz, and electronic music, both opera and classical music started to fade away from the public eye. Some people are beginning to wonder whether opera and classical music are still relevant to the modern world of music. Classical music will not typically win today's teenagers' hearts, but there are some major indicators that both opera and classical music are not all quite dead.

The most major indicator of classical music's importance in society today is the fact that much of the popular music that is currently being produced uses classical music, harmony, and rhythm (节奏) as their very own kind of source of classical music's best works. Even so, it can be difficult for those who do not study music theory to see this as an indication, since it is subtle and just shows the deeper symphonies (交响乐的) connection have had on society's music in general.

A better example for the relevance of opera and classical music can be seen in the creation of the rock opera. Opera, in its simplest definition, is telling a story using music as its form. The art of telling a story using music has

not faded in the least bit. In fact, sometimes actual orchestras are used for major parts of the opera itself. Some of the world's greatest live stage opera performances.

First of classical music can also tell you that there are few types of music that are more expressive. So, it should come as no surprise to anyone that classical music pieces are still used as background music in modern movies. Symphonic orchestras compositions have also been chosen solely for the purpose of being included in major motion pictures. These are often very well received among mainstream music fans.

Classical music and opera are the very foundation of what our modern world is based upon. Considering the huge impact they have had on our cultural society, it is without doubt that we can expect them to continue to remain important for centuries to come.

51. What does the author think of classical music and opera in today's world?

- A) They will make their presence felt.
- B) They have given way to electronic music.
- C) They will get side every from the public eye.
- D) They are no longer relevant to tomorrow's lives.

52. What do we learn about much of the popular music currently produced?

- A) It can be difficult for many classical music fans to appreciate.
- B) It can be such an indicator of self-esteem as classical music.
- C) It caters to society's taste in music in a more subtle way than classical music.
- D) It caters to tastes similar to those in some compositions of classical music.

53. Why does the author mention the formation of the rock opera?

- A) To illustrate how to tell a story using music.
- B) To present the simplest definition of opera.
- C) To show the relevance of opera and classical music.
- D) To justify the necessity of using orchestras in opera.

54. Why are classical music pieces still used as background music in modern movies?

- A) There are few types of music the people prefer to choose from.
- B) They are considered to be the most expressive type of music.
- C) They are well received by movie fans from all over the world.
- D) They are essential the movie is because the world's greatest hits.

55. What do we learn about our modern society?

- A) It could not have come into being without classical music and opera in its foundation.
- B) It cannot outcompete classical music and opera in its impact on our cultural society.
- C) It will not enjoy as much popularity as classical music and opera among music fans.
- D) It might not be able to rival classical music and opera as important for centuries to come.

The human brain has the ability to continually form new connections and connections between brain cells. This means the brain has an almost magical ability to change. This characteristic of 26 appears in a new study, focusing on people who underwent a hemispherectomy, a surgical procedure in which half of the brain is removed to cure them.

The findings showed that, despite missing half of this critical 27, participants could function well. This was because the 28 half of their brain compensated. In fact, researchers found that connections—and that communication—between parts of different brain networks are actually stronger in people who had hemispherectomies than in people with intact brains. This 29 that the brain is able to compensate for loss of certain brain networks.

There are many other cases in the medical 30 that document the brain's amazing ability to 31. For

"Phantom" Traffic Jams Are Real—And Scientists Know How to Stop Them

- A) Traffic jams are a common problem of some big cities, either in developed or in developing countries, but one kind of traffic jams is particularly can be especially frustrating. These are generally known as "phantom" traffic jams, in which dense traffic creates a halt for no apparent reason at all.
- B) "When caught in such a traffic jam, it is common for drivers to assume that there must be an accident, or construction or something," said Intouchman Systems of Technology (MIT) computer science professor Marked Meyer. "And then you drive and drive and drive...and there isn't anything there."
- C) The exact cause of these phantom traffic jams has long remained a mystery. But now, new research has found the cause and researchers may have come up with a solution for this frustrating traffic problem: maintaining equal spacing between cars on the road, rather than driving as closely behind another vehicle as one a collision (碰撞) is likely if that vehicle brakes suddenly.
- D) Most said phantom traffic jams are an emergent property of the flow of vehicles down a highway. A phantom jam begins when a car in dense traffic slows down slightly, which causes the car behind that vehicle to slow even more—and the slowing action spreads backward through the line of traffic like a wave, getting worse the further it spreads. Eventually, the cars far behind are forced to stop completely or risk hitting the slower vehicles ahead—and so the traffic grinds to a halt over nothing, Meyer said.

- It. Horn has been working on the problem of phantom traffic jams for years, and he has come up with a solution: By spacing the difference between the cars in front and the car behind, the spacing of cars in a stream of traffic can act as a damper (抑制) on phantom traffic jams. That is, it can prevent the slow-down effect from being amplified (增强) by the cars that follow behind, he said. In essence, each driver would constantly make adjustments to keep clear on roughly halfway between the car in front and the car behind.
- If. Horn calls this method of vehicle spacing behavior (行为的) control, and he said it could be achieved with relatively simple modifications to the adaptive cruise control that many cars now already have. Adaptive cruise control is a driver assistance technology that sets a minimum speed for vehicles and automatically slows the speed of the car when traffic is ahead in front of the vehicle. The technology is also known as autonomous cruise control. Such modifications, Horn said, could help fight phantom jams within a few years, maybe decades before an alternative solution, such as autonomous self-driving cars, becomes a reality on the roads.
- Of. Traffic jams are caused by a number of factors, such as roads that are poorly designed or over-capacity, local road factors like city traffic-lighting patterns, and even driver behaviors and consciousness. But phantom traffic jams can avoid all those problems, Horn said. And the researchers in the new study have calculated that solving phantom jams could save at least some of the estimated \$121 billion per year that traffic jams are estimated to cost the U. S. economy, Horn told Live Science.
- It. More research by Horn and MIT postdoctoral scientist Liang Wang, published in the journal *IEEE Transactions on Intelligent Transportation Systems*, shows how lateral control can fight the problem. The researchers made computer models of real-world traffic conditions, showing how a typical U. S. freeway could benefit from cars using behavior control. That would be in place when human drivers fail to slow down, thus avoiding tailgating (追尾) the car in front, Horn said. "Under reasonable conditions today, you might get 1,800 cars per lane per hour throughput (the volume of traffic passing through)," he added. "But with lateral control, you could almost double that."
- If. The main alternative to increasing traffic throughput per lane has been to build more lanes and more highways, and getting to new roads is very expensive, he said. "If we can increase the throughput on today's highways, even if it's only by 50 percent, that would be a big deal," Horn said.
- If. With the help of engineering students in high schools in Maine, Horn and Wang have also built a robot simulation (模拟) that shows how lateral control can suppress phantom traffic jams. Increasing the spacing of vehicles dampens the effect of slowdown by 74% in flow of a given car, so that the slowing is not worsened until it becomes a phantom jam, the researchers said.
- It. A video from the project shows a train of autonomous robots moving along a track without human control; they eventually back up in phantom jam. But when the robots are switched over to lateral control (by flashing the lights in the room), such autonomous robot jam is kept small halfway between the robot in front and the car behind, the phantom jam disappears in a split second, Horn said.
- It. Since starting his research on phantom traffic jams, Horn has learned that schools of fish and flocks of birds and have use similar spacing strategies to avoid bumping each other while swimming or flying in densely packed groups. In particular, flocks of millions of birds emerging or diving from curves in Southeast Asia showed that each bird used

a form of bilateral control to reduce the likelihood of collisions with other cars in the densely packed system (- 3);
 37. Hsiao said.

38. Unlike bats, birds and fish, however, humans have difficulty judging distances behind them. To address this weakness, Hsiao is now working with the car company Toyota to enable a form of bilateral control via modifications to existing adaptive cruise control systems, which use forward-facing sensors to judge the distance to the vehicle ahead. This bilateral control approach would include adding rear-facing sensors to determine the distance to the vehicle following a car.
39. But until these systems become standard, human drivers can help reduce phantom traffic jams simply by not following the car in front so closely. As Hsiao agrees, "There's absolutely no advantage of tailgating the car in front of you."

40. The age-long mystery has now been resolved as to how phantom traffic jams are caused.
41. It is possible to easily distribute the heavy throughput per lane by adopting bilateral control.
42. According to Hsiao, drivers matching constant separations for equal spacing between cars in a flow of traffic can help reduce phantom traffic jams.
43. Before systems for bilateral control are installed, drivers should not follow the car in front too closely so as to reduce phantom traffic jams.
44. Hsiao said with some simple modifications to the existing equipment in new vehicles, their spacing bilateral control could be accomplished.
45. Drivers caught up in phantom traffic jams are likely to think an accident has happened or some emergency is going on.
46. Two sets of sensors would be used to help drivers determine the distances between cars.
47. Solving the problem of phantom jams could save America billions of dollars every year.
48. In a phantom traffic jam, the cars in the queue have slow down one after another, causing a ripple-like effect.
49. Hsiao has found that certain conditions are analogous to those of bilateral control to avoid having each other while driving in dense crowds.

Section C

Directions: There are 2 passages in this section. Each passage is followed by five questions or unfinished sentences. For each of them there are four choices marked A), B), C) and D). You should decide on the best choice and mark the corresponding letter on Answer Sheet 2 with a single line through the center.

Passage one

Questions 46 to 50 are based on the following passage.

Our society places a high value on physical beauty. Americans spend an average of over \$722 each year on their appearance. One in ten Americans has said to look like a star.

There's nothing wrong with trying to look our best, but modern focus on physical appearance takes the social

aspects of what it seems to be beautiful. Trying to look like the magazine pictures can take us on a long ride away from what beauty is really about.

Many of us spend far too much time, energy, and money trying to produce an image of what we think will bring attention, love, and acceptance. In the process, we may fail to attend to ourselves in a way that would more so spread deeper intimacy, fulfillment, and meaning.

It may sound wise (老牛识途) but beauty is only skin deep, it's not what brings love toward us. But most often the latest Hollywood starlets whose seeming love lives have been exposed and later court-buffed.

Outer beauty can be as much of a curse as a blessing. We may develop a habit of being so focused on maintaining a perfect appearance that we never cultivate the inner qualities necessary to people and deepen intimacy and connection. As I describe in my book, *The Authentic Heart*, it is the courage to be authentic that connects us in a deeper way.

While our initial attraction may be based, in part, on physical chemistry, it is the meaning of our inner worlds that evokes the lasting intimacy and spiritual connection for which we long. If we reflect our attention toward cultivating inner qualities, we magnetize a magnetic attraction that moves us from something superficial to something that connects us to our depths.

The path toward cultivating inner beauty is daily steps. But what is simple is not always easy. Not everyone will see us and appreciate us as we take the consequences risk to allow ourselves to be seen as we really are. But if they don't, it is their loss, not ours. Embrace the fact that those compatible souls who appreciate us as we are.

46. What do we learn about American society from the first paragraph?

- A) It uses lots of personal income wasted on beauty products.
- B) It considers one's physical appearance very important.
- C) It places a high value on the physical status of stars.
- D) It expects every individual to look their very best.

47. What happens when people strive to look better?

- A) They have to get prepared for excitement and later court-buffed.
- B) They are inner able to gain attention, love, and personal connection.
- C) They may neglect to cultivate the inner qualities that matter most.
- D) They find much of their precious time, energy and resources is wasted.

48. What does the author say about inner beauty?

- A) It may be attracted or cultivated.
- B) It may lead to bad as well as good habits.
- C) It may create connection or isolation.
- D) It may do us more harm as good.

49. What brings about spiritual connection?

- A) Meeting of minds.
- B) Attraction at first sight.

- C) Physical chemistry.
D) Frequent interaction.

30. What happens when we take the path toward cultivating inner beauty?

- A) We may find a route toward other people's minds.
B) We may be appreciated more by people around us.
C) We will meet people who value us for who we are.
D) We will be discouraged from revealing our true selves.

Passage Two

Questions 31 to 35 are based on the following passage.

Plant-based meats are coming soon to a dinner table near you. But do they deserve a spot on your plate? If you tried a vegetable burger years ago and dismissed it as silly and flavorless, it's a good time to give another meat another chance. Newer varieties imitate the look, flavor, and texture of meat. Analysts don't expect the meat-free category to show anytime soon; a 2022 report predicts the market will skyrocket to \$74 billion by 2030—a 931 percent surge.

Plant-based meats are no longer just for vegetarians. Companies such as Impossible Foods and Beyond Meat—the fastest risers of the alternative protein sector—are pursuing consumers who enjoy meat but want to reduce their meat consumption for ethical, health, or environmental reasons. So far, it's a winning strategy. More than one out of six Americans who buy Beyond Burger and Impossible Foods products are on meat.

Many vegetarians don't actually care for food that resembles meat. When reporter Josh Sussman, a longtime vegetarian, tried a dish from Impossible Foods, she told us she didn't think it "looked like the best sign that Impossible Foods has cracked the code to replace fake meat is that I couldn't stand to take another bite," she wrote.

Meatless meats are generally a healthier choice than beef, however they are cholesterol-free, that they're a good source of vitamins, minerals, protein, and fiber. If replacing meat can help you stick to a plant-based diet, that in itself can lead to better health. Not only has red meat been linked to cancer, but studies show that people who ditch meat have lower blood pressure, lower average blood sugar, and lower cholesterol levels.

However, just because it's plant-based doesn't mean it's health food. Most imitation meats are highly processed and contain high amounts of sodium (10%) compared to traditional beef.

That new generation of alternate meat gets all the attention, but don't forget about whole grains and vegetables. Beans are an especially excellent protein substitute. They're nutritious, inexpensive, and far more sustainable than any of the processed alternate substitutes of the market today.

31. What can we expect of plant-based meats?

- A) An increasing interest in their analysis.
B) An enormous effort in their promotion.
C) A huge trend in their consumption.
D) A noticeable surge in their varieties.

52. What do we learn about consumers buying Beyond Burger and Impossible Foods products?

- A) They are mostly non-vegetarians.
- B) They are mostly animal-rights advocates.
- C) Most of them refrain from eating meat for health reasons.
- D) Most of them eat them less often to protect the environment.

53. What can we conclude about Impossible Foods' products from John Salzman's remark?

- A) They more often appeal to meat-eaters.
- B) They vary much according to animal meat.
- C) Some have become its signature dishes.
- D) Most of them are sold as fast-food meals.

54. Why can the habit of eating a plant-based diet lead to better health?

- A) It frees people from any known risk to cancer.
- B) It provides all the nutrients for staying healthy.
- C) It helps maintain normal blood pressure and blood sugar.
- D) It reduces weight-related risks posed by meat consumption.

55. What does the author recommend we eat at the end of the passage?

- A) Naturally produced foods.
- B) Processed protein substitutes.
- C) Red meats like traditional beef.
- D) Low quantities of alcohol every

二、范文解析

In today's globalized world, the development of students' cross-cultural communication abilities has become increasingly important. As international exchanges and cooperation continue to expand, students should prepare themselves for active participation in a global society. Therefore, improving intercultural communication skills is essential for their personal growth.

To begin with, cross-cultural communication can help students better understand people from different cultural backgrounds. Without such skills, students may struggle to express themselves clearly and misunderstand others' behavior and values, which can easily result in communication barriers and cultural conflicts. Moreover, developing cross-cultural communication abilities can improve students' academic learning by enabling them to access international knowledge, resources, and educational opportunities. Additionally, equipping students with such skills can allow them to compete more effectively in the global job market and adapt better to international working environments.

To promote this ability, universities should organize more international exchange programs. Moreover, it is essential for students to actively learn foreign languages and respect cultural differences. Only in this way can students become truly global-minded talents in the modern world.

Conversation One

听力原文及参考译文

M: Hey, Mary. You seem to be very much annoyed. What happened?

W: [M:] Rush hour in this city is killing me.

男：嘿，玛丽，你看起来很生气啊，发生什么事了？

女：[M:] 这个城市的交通高峰时段真是让我崩溃了。

M: Ah, yes. Rush hour is terrible, especially in the morning between 8:00 and 9:00. But what else can you expect in a city this big?

W: Well, I think the local government could really improve things. [1-2] I mean, getting rid of rush hour may be impossible, but it could be made more tolerable. Don't you think?

M: Hmm, but I'm not sure how.

W: Well, for example, [3] the subway system could have air conditioning. I know many cities in the world have air conditioning in their subway. So why can't we? It goes a lot to the success. I can hardly breathe down there, and add to that the rush-hour crowds with strangers packed close together in the subway carriages. The whole thing is just horrible.

M: Ah, yes. You are completely right. The trains here are too old. The government should definitely invest in new ones with air conditioning. I guess I'm fortunate I take the bus instead.

W: Oh, that's much better.

M: Yeah, it's more convenient. [10] Plus the bus goes straight from my house to the office. It's a 30-minute ride, but I don't have to make any changes.

W: That sounds nice. I tell you my current commute is killing me. Maybe I should move closer to the office.

M: [11-1] Well, I love a great morning drive. I found the bus I am taking is new, though late, and I love it.

W: [11-2] Hmm, could you send me his contact phone?

M: Sure thing. But tell him exactly what you are looking for. And I'm sure he will find something good.

- M: Did you hear about Johnny?
 W: No, why? Is he okay?
 M: [12] He had some people surgery done.
 W: What? Why?
 M: Do you remember he had a scar on his face?
 W: Yes, of course. He always had that. I've known him since primary school, and I always remember him having that on his cheek.
 M: Well, he had it fixed.
 W: [13] Fixed? When do you think? You can't fix a scar.
 M: You know what I mean. He had an operation done on it, plastic surgery, to make it even it and make it less noticeable.
 W: Ah, well. That's ridiculous, isn't it? It was noticeable, sure. But it wasn't as ugly as you. It never occurred to me that he should have to take care of his face.
 M: I agree. I can understand what people and physical defects can be ugly and distracting. But for Johnny's, [14] it gives
it a unique and added character, like it gives him a certain
personality.
 W: He must have his differently, though. He must have had self-confidence and success, perhaps.
 M: No, no, that's not the reason. He was totally fine with his scar. As you said, he had had it for most of his life.
 W: Then why did he have the operation?

 男: 哦, 他把它修好了。
 女: [13] 修复? 你什么时候修的? 疤痕是无法修复的。
 男: 你懂我的意思。他做了个手术, 整了个平, 为的是遮住疤痕, 让它不那么显眼。

 男: 我同意, 我能理解有些疤痕和身体缺陷可能很丑, 会让人分心, 但约翰尼的不一样。[14] 事实上, 我甚至认为它为他的脸增添了一种个性。
 女: 不过疤痕应该不会修得, 或许他变得不那么自信, 没有安全感吧。

 女: 那他为什么要做手术呢?

Passage One

🔊 听力原文及参考译文

Talking is unique to humans. An animal might make ten different sounds, but an adult human knows more than 29,000 words. Additionally, we're the only animal that expresses thoughts in full sentences. [10] Researchers don't think language was invented. It just grew. Very thick learned.

说话是人类独有的能力。动物可能会发出几十种不同的声音，但一个成年人认识的单词超过 29,000 个。此外，我们是唯一能用完整句子表达思想的动物。[10] 研究人员认为语言并非被发明出来的，而是逐渐演化而来的。

How did it evolve? There are two main theories. [17] The first theory is that language started with people making different sounds, mostly imitating the things around them, like animal calls, nature sounds and the sounds of tools. Perhaps they made the sound of a bird to tell a friend that there was a bird nearby. Then over hundreds of thousands of years, these sounds turned into words that people began to learn as part of their language. At some point, people started putting the words together to form sentences.

The other main theory, which is more recent, is that people started off by pointing—pointing at things with their hands and touching others to get their bodies. Eventually, these gestures turned into full-fledged language. This theory assumes that when developing sign language, people eventually started creating sounds along with their gestures. At some point, they switched to mostly making sounds that became words instead of just using their bodies. [18] The reason they switched to making sounds, the theory goes, is that making oral words lets you communicate with someone even when you can't see them.

【答案详解】

16. How did language come into being according to researchers?

- A) Through differentiation.
- B) Through evolution.
- C) Through invention.

17. How did language start according to the first theory?

- A) With people imitating sounds around them.
- B) With people interacting with objects close by.
- C) With people showing each other things nearby.
- D) With people trying to string sounds together.

该语言如何产生的呢？主要有两种理论。[17] 第一种理论认为，语言始于人们发出不同的声音，大多是模仿周围的事物，比如动物的叫声、自然界的声响以及工具发出的声音。或许他们会发出鸟叫声来评论天气，或者模仿鸟叫声来告诉朋友附近有一只鸟。经过几十万年时间，这些声音逐渐演变成了单词，成为人们语言中最初学习的一部分。在某个时期，人们开始把单词组织起来组成句子。

另一种主要理论是相对较新的。该理论认为人类最初是通过手势来沟通的——用手触摸东西，用手触摸身体部位，最后，这些手势演变成了完整的语言。该理论推测，在发明手语之前，人们已经开始在用手势的同时发出声音。在整个阶段，他们主要倾向于发出声音，这些声音演变成了单词，而不仅仅依靠身体动作。[18] 该理论认为，他们倾向于发出声音的原因是，大声说话即使在没有视觉提示的情况下也能与之交流。

18. 研究人员认为语言是如何产生的？

- A) 通过辨别创造。
- B) 通过进化过程。
- C) 通过发明创造。
- D) 通过合作创造。

17. 根据第一种理论，语言是如何起源的？

- A) 人们模仿周围的声音。
- B) 人们与附近的物体互动。

D) Making sounds helps one communicate with people they can't see.

15. 根据最新理论，人们为什么从无声思维转向发声交流？

- A) 发声可以帮助一个人用其他事情。
B) 发声明显比手语更容易。
C) 发声让人更清楚地表达自己的想法。

Passage Two

听力原文及参考译文

Is it a good idea to display luxury brands and other signals of success? It depends on the situation.

Studies have shown that people who appear to be wealthy tend to be perceived more intelligent, disciplined and competent than those who do not. [19] But new research found that people believe someone who doesn't show social success comes away showing themselves more by being alone. This means people are less willing to collaborate with them.

显示奢侈品和其他身份地位标志是否是“好主意”？这要看情况而定。

研究表明，那些看起来富有的人往往会被认为比不富有的人更聪明、更自律、更有能力。[19] 最新的研究发现，人们认为那些炫耀自己社会地位的人更倾向于自己解决问题，而不愿意与他人合作。这意味着人们不太愿意与他们合作。

blindness may be key when cooperation is essential, but the researchers also found that in team work, stress negating has advantages. [20] Experiments showed that participants were less likely to choose someone who signals their wealth or status to join a group making cooperative members, but participants were more likely to choose that person when they were looking for a competitive team member.

These findings suggest that people should change how they present themselves depending on their actual goal. This is the case of social media. [21] People can easily share their wealth and status to large audiences, but they need to consider the consequences. Posting about luxury purchases and expensive vacations online may help you to persuade others and frighten competitors, but it could also signal to potential friends or future employers that you are unlikely to think about the needs of others. This makes things tricky for people who may want to impress others while also demonstrating that they are a team player.

当合作至关重要时，财富可能是关键。但研究人员也发现，在团队合作中，会否炫耀财富，会直接影响合作的表现。[20] 实验表明，当参与竞赛挑选成员加入一个寻求合作的团队时，他们不太可能选择那些炫耀财富地位的人，但当他们在寻找竞争性团队成员时，更愿意选择炫耀财富的人。

这些研究结果表明，人们可以根据自己的社交目标来改变自我展示的方式。在社交媒体时代，[21] 人们可以很容易地向大量受众展示自己的财富和地位，但我们需要考虑炫耀的后果。在网上发布奢侈的消费品和度假胜地照片可能完全帮助你说服他人、震慑竞争对手，但也可能向潜在的朋友或未来的雇主传达你不太可能考虑他人需求的信号。这让那些既想向人展示财富，又想证明自己愿意团队合作的人陷入两难境地。

D) 考虑后果。

【答案】D

【解析】音频中明确提到“people can easily share their wealth and success on huge platforms, but they need to consider the consequences”，选项D原文一致。故答案为D。

2025 年大学英语四级真题

The first public exhibit of animals may have been staged by Egypt's Queen Hatshepsut around 1480 B.C. Researchers think the show was started with animals brought home from a far-off land known as Punt. [24] It's unclear why the Queen built the zoo, but it could have been to show off her wealth and power.

Early zoos are spread all over the world. In China, Emperor Xian-Wang is said to have built a Garden of Intelligence around 1000 B.C. It included deer, birds and many fish. [25] In England, King Henry I set up a collection of animals in about 1130 as a part of the royal estate. His collection included tigers and lions. This collection eventually moved to the Tower of London in 1235. The collection stayed as it is located for 600 years.

最早的公共动物展览可能是由埃及的哈特谢普苏特女王在公元前 1480 年左右创办的。研究人员认为，这个动物园最初的神奇来自一个名为蓬特（Punt）的遥远国家。[24] 目前尚不清楚女王为何要建立这个动物园，但有可能目的是为了炫耀她的财富和权力。

世界上许多国家都有早期动物园的踪迹。在中国，据说周文王在公元前 1000 年左右建造了“灵囿”，里面饲养了马驹和许多鱼类。[25] 在英国，亨利一世国王在大约 1130 年建立了一个动物收藏地，作为皇家庄园的一部分。他的收藏包括老虎和狮子。这个牲畜收藏地后来在 1235 年迁往伦敦塔，并在那里存在了 600 年。

四、参考译文

心理学家长期以来一直对人们如何从自我感知以及在社会中显得自我的策略感兴趣。新的研究表明，幼儿在成年人身上观察到的复杂且具战略性的自我感知行为，在比之前已知的更早的年龄就已出现。

研究表明，孩子的社会地位意识来源于成年人，像成年人一样，孩子也希望被那些被限制的人所接受。互动体验可能为儿童提供了学习机会，让他们了解在社交环境中什么是可取的声音，以及哪些行为可能引发负面声音或有风险。

五岁的孩子不仅意识到自己的声音，还会策略性地行为以塑造自己的外在形象。他们会调整自己行为，以便在关键社交情境中获得积极或社会性良好。虽然我们不知道成年人使用大量不同的策略来管理声音和印象，但我们的确了解儿童在理解并选择使用一个策略：不同的场合在不同的时间对不同听众从有不同的策略。重要的是，我们需要进一步探索儿童在这个过程中，在哪些方面或控制了他们的声音，而在哪些方面又存在限制。

一个相关问题与的问题是：“五岁之前会发生什么？”孩子们并不是一开始就沉默，声音的概念更可能由他们在他们的环境中，观察到的问题。但“五岁之前会发生什么？”

47. 人们从曾被州立大学科学家的新研究中获得什么结论?

- A) 由于污染，即使保护鱼类会长久以来的栖息地可能是误导人的。
- B) 栖息地附近的作业开发可能威胁到它们的生存。
- C) 美国自然保护地未能将鲟鱼从不适宜区域。
- D) 鲟鱼数量的增加归因于其栖息地的碎片化。

【答案】A

【题干关键词】the new research by scientists at Michigan State University

【原文定位句】But the new research suggests that a "major degree of discontinuity and fragmentation" may actually help preserve paddle populations.

【解析】通过关键词可以定位到第二段后半部分。文章提及最新研究提示，“碎片化的环境不适宜与栖息地分离”可能反而有助于保护鲟鱼种群。因此环境碎片化学家的长期以来持怀疑的观点与研究相印证。他们的研究是误导人的。答案是 A。

【命题特点】B 选项来自原文，研究并未否定人类活动（如开发）的威胁。但其核心结论是即使“已有”的河流鲟鱼栖息地可能产生的意外积极效应。C 选项与原文相反，研究关注的是栖息地“数量与布局”对鲟鱼种群的特性影响。而非栖息地是否的物种下降。事实上，中国的保护努力提升了鲟鱼数量。D 选项与原文相悖，研究指出河流碎片化可能促进鲟鱼种群，但种群恢复的王国局中保护地减少人为干扰。但开垦土地是河流碎片化的结果，栖息地碎片化本身是负面要威胁。

48. 专家们对鲟鱼的结论是什么?

- A) 人为为它们提供一个合适的栖息地以便其茁壮成长。
- B) 保护它们的栖息地多样性至关重要。
- C) 它们按照栖息地的机会与它们的栖息地有巨大差异。
- D) 它们的生存环境一直在持续恶化。

【答案】C

【题干关键词】the experts' conclusion regarding paddle

【原文定位句】The experts concluded that paddle should ideally "be happy enough to thrive, but not so content that they don't want to move around and find new homes".

【命题特点】AD 选项与原文相反，鲟鱼数量在增加。B 选项在原文中没提及。

49. 我们能从文章中推断出关于“鲟鱼栖息地”的什么?

- A) 需要对其进行更多研究来确认其价值。
- B) 它由美国自然保护地保护。
- C) 它从未被科学研究所证实。
- D) 它可以用来为栖息地提供替代性。

【答案】B

【翻译】通过关键词可以锁定为A段第一句。主旨句明确高维研究中发现的“刚刚好原则”称为“金发姑娘原则”的一个实例。并说明这一原则已在多学科应用。因此可以合理推断该原则同样适用于环境保护的情况。事实是也。

【选项排除】A选项与原文相反。B选项与原文研究范围不符。C选项与原文研究范围不符。D选项与原文研究范围不符。因此排除。正确答案为B。

54. 根据材料罗敏特教授说，新发现能做什么？

- A) 帮助发现物种保护的新方法。

【翻译】通过关键词可以锁定为第二段。Silliman教授在文中明确表达，这一发现可能对大熊猫保护之外的领域有意义。并特别指出大多数大熊猫食肉动物面临类似的快速种群下降，暗示该发现对理解面对它们种群下降的物种，有启示。

【选项排除】A选项教授的重点是理解更广泛的物种，而不是仅限于大熊猫的古代创新。B选项教授“帮助将物种从濒危物种名单中移除”。文章未写到低端食品“避免”而非“避免”，但新发现与这些名称状态没有直接关系。D选项教授“展示了人类与物种互动的复杂性”。这个说法本身是合理的。但并非Silliman教授在文中强调的核心观点。他更侧重于发现对保护和基因多样性方面的潜在意义。因此排除D。

2025 年大学英语四级真题

开耳指出社会曾存在两种成功观：有天赋者看似轻松成功，而无天赋者被迫努力奋斗。由此引出观点：应重视在其著作《能力》中提出的新成功观——“毅力”，并定义其为“激情与坚持的完美结合”，强调其是成功的关键。

毅力是能力的核心要素（对应第3题）

将“毅力”与天赋成功观对比。由开耳的论述（追求能工作正计划）令人陷入必须“完美”掌握所有技能的新观。而“毅力”则能超越这种“完美”的执念，明确由完美并非目标。

毅力是能力的具体体现（对应第4题）

具体说明毅力如何帮助个人：克服恐惧，写下不合道的南朝、西夏词语；供不足多可塑性、自我否定；帮助人们掌握新技能并定又新的自我目标从“技能不足”而重新设定目标和接受之事。最后呼吁，毅力行也（对应第5题）

成功能力的关键在于“保持耐心并持续尝试”，强调“毅力的价值超越天生能力”。最后以激励性的语言结尾，毅力将帮助转化为行动，为梦想提供基础。开耳号召人们在头脑中反复强化毅力价值。

【】 参考译文

[31] 那些天生具有天赋的人，似乎不需要努力就能取得成功。然而，那些没有天赋的我们呢？我们——这些被教导：只要靠毅力，就能成功。开耳在其著作——达尼茨的《毅力》一书的出版，我们得到了成功的新观点。

[32] “天赋固然重要，但毅力的作用更关键。”达尼茨在《毅力》中说道，她提出了一个关键点：天赋或许很高，但如果想要更具体的成功，需要的是毅力——激情与坚持的完美结合。即使你无法，你也有毅力。它总是无价之宝。

达尼茨认为毅力是成功与天赋的关键区别。一个具有毅力的人比没有能力的人更可能成功。[33] 当我们思考毅力时——尤其是获得新的工作场所学习新技能时——我们的思维会陷入完美主义的陷阱。如果我们想掌握新工作，我们必须学会工作控制、拖延和技巧。技能是重要部分——并且你必须在所有方面做到完美。能力则不同，因为它告诉我们接受并非完美。

毅力将不合时宜的期望从我们的头上卸下。能力告诉我们，大门比我们最初想象的更能开得宽广。[34] 毅力让我们能够写自己的日记。想一想，有什么事情是你一直想做，但因为“没有时间或技能”而放弃的？有什么是你想要但不擅长的事？

毅力的真正作用在于保持耐心并持续尝试。毅力的意义是超越你的天生能力。即使你尚未掌握一项技能，毅力会告诉你，如果你持续做它直到化为行动，你最终可以成功。从这种角度上讲，达尼茨认为那些已经跨步进入大门的人带来了新的希望。她是在说，每人都能站在门口。[35] 正如——即使你失败了，那就尝试毅力试一试。

Conversation One

🔊 听力原文及参考译文

W: [1] I've been thinking about moving off campus since forever.

M: Hmm, I don't know. If that's a good idea to your mother and I would worry about you living all by yourself in an apartment so far from home. And then there's the expense too. I'm not sure we can afford it.

W: Well, I wouldn't be alone, actually. Three of my friends from the dormitory would share the place with me. And with four of us, it wouldn't cost any more than living in the dorm.

M: Are you sure about that? [2] Rents in big cities are high, and then there's the cost of electricity and gas. Have you thought about that?

W: We've budgeted for those and for Internet and transportation. And if we save the money from the city center, the rent is low enough for us to afford all of it.

M: What about the commute to and from campus? It sounds like you'll be waiting several hours every day on the road instead of studying.

W: It's about an hour or so longer. [3] But there's no paper I can't study on the bus. After all, I did that during high school, and my commute was even longer than that.

M: That's true. But I'm not sure why you want to leave campus and go through all this trouble when the cost is the same.

女: [1] 我一直想在楼下学房搬出校。

男: 嗯。我不知道这是不是个好主意。因为我和你妈妈会担心你一个人在公寓里那么远。而且还有房租问题。我不确定我们能负担得起。

女: 其实, 我不全是一个人住。我宿舍的三个朋友会和我一起合租。我们四个人住的话, 花费不会比住在宿舍更多。

男: 你确定吗? [2] 大城市房租很高, 而且还有水电和燃气费。你有没有想过这些?

女: 我们已经把那些费用以及网费和交通费算进了预算。而且如果我们搬到市中心是省钱的地方, 房租会便宜很多。我们宿舍的费用也所有费用。

男: 那通勤时间的麻烦吗? 听起来你每天要在路上浪费好几个小时, 而不是学习。

女: 通勤时间要一个半小时。[3] 但我可以在公交车上学习啊。毕竟, 高中的时候我就这么做过。而且那时候通勤时间更长。

男: 这是真的, 但我不同意。既然花费一样, 你为什么还要折腾, 搬过去多麻烦。

31. For a lot of reasons. We'd have a kitchen, so we could cook ourselves. And we'd each have our own bedroom where we could study, instead of going to the library. We'd just have more space and privacy.

32. It's not overlooked that the benefits are greater than the disadvantages, [11] but I'd disagree slightly with your assertion.

Passage One

🎧 听力原文及参考译文

We assume that if we offer our customers more choices, then they will be more likely to buy our products. [16] But here's the paradox of choice. If a person is presented with too many choices, they are actually less likely to buy.

In 2012, psychologists published a study about jelly. On a regular day at a local food market, people would find a display table with 24 different kinds of jelly. Then on another day, at that same food market, people were given only 6 different types of jelly choices. Could smaller display tables lead to more sales? [17] The study found that while the bigger display table created more interest, people were almost 10 times less likely to purchase a jar of jelly than on the day of the smaller display. Customer satisfaction went a bit up, too. In the study, the biggest display of jelly leads to lower customer satisfaction than the smaller display.

In an extensive study published in 2015, researchers analyzed a total of 92 choice studies and specifically looked at three cases in which reducing choices helped to boost sales. [18] They found four cases that motivate consumers to buy—when people want to make a quick and easy choice, when the product is complex, when it's difficult to compare alternatives, and when consumers don't have clear preferences. So as you can see, when it comes to choices, less is more.

我们假设, 如果给客户提供更多选择, 他们就更有可能购买我们的产品。[16] 但是这里存在选择的悖论。如果一个人被提供太多的选择, 他们实际上购买的可能性反而会降低。

2012年, 心理学家发表了一项关于果酱的研究。在普通一家食品市场的平常日子里, 人们会看到一个展示台, 上面陈列着 24 种不同的果酱。后来在同一天陈列另一天, 只给人们提供 6 种不同的果酱选择。每周每个展示台带来了更多的销售额。[17] 研究发现, 虽然更大的展示台引起了更多关注, 但人们购买果酱的可购买几率几乎是小展示台提供下的十分之一。客户满意度也有所下降。研究中, 更大的果酱展示台比小展示台带来的客户满意度更低。

在 2015 年发表的一项广泛研究中, 研究人员分析了总共 92 项关于选择的研究。特别关注了那些通过减少选择来促进销售的事例。[18] 他们发现了四个能促使人们购买的情况: 当人们快速且轻松地做出选择时, 当产品很复杂时, 当难以比较替代品时, 以及当消费者没有明确偏好时。所以得出结论, 在选项方面, 少即是多。

Passage Two

📖 听力原文及参考译文

The New Year has come and gone, and many may have already forgotten what they had resolved to do on January 1st. But if that resolution was to volunteer more, now is the best time to start.

Volunteering can drop after the holiday season, and by February, some organizations lack the volunteers they had in surplus just a month ago. [19] According to one survey, only 38% of Americans volunteer, despite reports that rising American voter apathy is worldwide. Why isn't a disconnect like people over time and conflicting work schedules an order barrier. [20] but employees and employers would actually benefit if companies made employee volunteering part of the job.

Researchers have found donating our time and talent to others can lower blood pressure, boost happiness and improve mental and physical health. Studies have also linked employee volunteer programs with more productive employees. With an much emphasis on employee wellness these days, company volunteer programs could be the perfect 2025 resolution.

But for volunteering to benefit employees and the workplace, the entire organization needs to be involved. By allowing employees to donate their time during work hours, the workplace becomes an option for personal fulfillment without affecting personal time. In one survey, 89% of employees perceived companies that sponsored volunteer activities as creating a better working environment. [21] and 77% said volunteering was critical to their well-being.

新年来了又走了, 很多人或许已经忘记了自己在一月一日许下的决心。但如果你想开始做志愿工作, 那么现在就是开始的最佳时机。

假期过后, 志愿工作的参与度可能会下降。到了2月, 一些组织的志愿者数量就会比一个月前宽裕时有所谓减少。[19] 据一项调查显示, 只有38%的美国人参与志愿服务, 尽管有报道称美国人的志愿服务热情正在下降。为什么会出现这种脱节呢? 随着时间的推移, 人们的工作日程和冲突的工作安排成为障碍。[20] 但如果雇主让员工把志愿服务作为工作的一部分, 公司和雇主都会从中受益。

研究发现, 把自己的时间和精力奉献给他人有助于降低血压, 提升幸福感, 并改善身心健康。研究还表明, 员工参与志愿服务的员工的工作效率更高。如今, 人们越来越重视员工的福祉, 公司志愿服务或许会成为2025年的完美决心。

但要让志愿服务给员工和工作场所带来好处, 需要整个组织都参与其中。允许员工在工作时间参与志愿服务, 能让工作场所成为实现个人价值的场所。同时也不会影响个人时间。在一项调查中, 89%的员工认为公司提供志愿服务能创造更好的工作环境。[21] 77%的员工表示志愿服务对他们的身心健康至关重要。

Passage Three

📖 听力原文及参考译文

[22] The vast majority of the UK's 200,000 tons of total waste is labeled food waste comes from supermarkets, but it's a problem that impacts independent grocery food suppliers, too.

The waste is small. It's estimated to be less than 1% of the UK's food waste total, but the quality from these suppliers is high. Everything from specialist cheeses to sought-after organic beans gets thrown away every day in the current food system.

This is where French entrepreneur, Sophie Aubert, comes in. [23] In 2018, she arrived in London and began by setting up a business, delivering luxury food-waste bags across the city.

"Food delivery seems to be a big thing here," she says. "So I started delivering products by bicycle. Talking with local producers, I learned that a small part of the production is sometimes wasted due to problems with size or shape, but the quality of the products remains unchanged."

[24] Unlike many food waste projects that have sprung up in recent years, the idea is not simply to collect food waste, but to provide a high-quality product. Aubert's company, Dyma, offers incentives and actively participates in business meetings and events.

Once loaded, Dyma uses waste products to create simple, natural, straightforward meals and snacks. [25] Perhaps unlike other waste food, the supply is regular. Businesses will always have a certain amount of surplus. So the system runs regular, and Aubert believes this model leads her business and her customers.

[24] 英国每年有 20 万吨的食品浪费量, 绝大多数来自超市, 但这也是一项影响着独立杂货食品供应商的问题。

问题虽小——据估计不到英国食品总浪费量的 1%, 但来自供应商产生的食品食品质量很高。在当前的食品体系中, 从特制的有机豆子到特殊的奶酪, 每天都会因为尺寸或形状的问题而被扔掉, 但食品的品质并未改变。

这正是法国企业家索菲·奥贝尔开始工作的地方。[25] 2018 年, 她来到伦敦, 开始创办了一家企业, 在伦敦市内配送高档食品垃圾袋。

"食品配送似乎是个大热门," 她说。"所以刚开始我只用自行车配送产品。通过与本地生产商交谈, 我了解到, 由于尺寸或形状的问题, 生产过程中的少量产品可能会被浪费, 但产品的质量并未改变。"

[26] 与许多其他食品垃圾项目不同, 这个想法并非简单收集食品垃圾并丢弃, 而是提供高品质的产品。奥贝尔的公司 Dyma 专门为企业会议和商务招待会提供服务。

Dyma 利用这些食品垃圾制作简单、自然的 straightforward 餐点和零食。[27] 或许与其他食物垃圾不同, 这里的供应是稳定的。企业总是会有一定量的过剩产品, 因此每天都会产生垃圾。奥贝尔认为, 这种商业模式对客户都有好处。

▮ 参考译文

果汁的营养成分有哪些?

A) 果汁已成为一种广受欢迎的饮品——尤其对于忙碌且注重健康的现代人来说。选择高质量的果汁(甚至可称为“超级果汁”)来补充时间，又不会损失营养。[2] 果汁不仅富含维生素和矿物质，还含有天然糖分。因此，这一趋势正在快速增长。2016年全球果汁市场规模达到4340亿美元，并预计将持续增长。

B) 果汁的营养成分有哪些? 大多数人都知道，所有水果和蔬菜汁中都含有对人体有益的营养物质。只要

不适宜每日大量摄入，如并不宜生吃。此岛国为儿童水果中的好水果来源区。果汁瓶包面在水果罐头上。^[44] 我们的消化系统需要一段时间才能分解过量的糖，将糖分送入血液。

Q1 但果汁的甜度并非如此。^[45] 与完整水果不同，果汁中的人糖分好地被去除了。这就是为什么果汁中的果糖甜度为“将甜糖”——这为糖还包括糖原和糖制品中的糖分。世界卫生组织建议，成人每日摄入的果糖不得超过 30 克。相当于 150 毫升果汁。问题在于，去糖「好」果汁，果汁中的果糖含量更快吸收，血糖会升起来影响食欲，以有血糖平衡水平。长期如此，这一机制可能受损，从而增加患上糖尿病的风险。2017 年，研究人员分析了 1980 年至 2000 年间收集的 10 万人的健康数据，发现果汁摄入与 2 型糖尿病风险增加相关。另一项研究调查了超过 7 万人的 18 个月的饮食习惯和状况，也发现了果汁与 2 型糖尿病之间的关联。研究人员知道，对糖的摄入量在于果汁缺乏完整水果中的其他成分，如纤维。

Q2 与纯果汁相比，含有高糖的果汁糖原更少营养成分更少——但它们的甜度更高。好果汁。^[46] 果汁的糖原已被加工成可溶性糖心糖。中间，血糖和糖原的风险，建议成人每日摄入 30 毫升果汁。

Q3 ^[47]除了 2 型糖尿病风险外，许多研究^[48]认为，如果果汁导致血糖升高，则有糖尿病。多伦多大学曾科学杂志曾发表一篇——西文期刊的一项调查 155 项研究分析中，并在控制血糖药物与糖尿病（包括糖尿病和心脏病风险）之间的关联是否适用于我们通常作为糖尿病饮食一部分的食物和饮料，则比较了研究水果摄入与血糖与无或低糖时饮食摄入的关联。他的结论是什么？曾在区分摄入过多热量与食不同糖尿病药物产生影响的。

Q4 他发表，当食物（包括果汁）中的糖分摄入过多时，会对血糖和胰岛素水平产生负面影响。然而，并非所有水果都如此，摄入完整水果——苹果、橙子——则有一些益处。^[49] 西文期刊的结论，建议每日摄入平均量 150 毫升果汁是合理的，避免摄入高糖，在不导致血糖升高对量的情况下，改变摄入的食物可能降低血糖控制等可得益。因此因此导致血糖升高，则血糖升高导致糖尿病水平升高的风险。

Q5 因此，尽管我们知道果汁可作为饮食中的一部分可能对血糖控制，但果汁如何影响血糖摄入的长期影响尚不明确。然而研究证明，在饮用果汁的日子里，我们摄入的热量每周性每日摄入量（女性的 2000 卡路里，男性的 2500 卡路里）的风险更高。^[50] 研究还显示，饮用果汁并不会让我们在一天中减少其他食物的摄入。

Q6 由于果汁可以快速大量饮用，意外热量摄入之摄入。而果汁的热量可能比整颗水果增加。^[51] 南加州大学曾发表研究——文章门附附地，西文期刊的结论表明，一种方法是利用果汁或水果，以尽可能降低其热量摄入。

Q7 ^[52]另一个果汁总平均流行的原因是有些研究认为其有益？指出体内有葡萄糖或葡萄糖，从而是身体所吸收。果汁含有葡萄糖和葡萄糖的完全完全相同。我们每天摄入葡萄糖有葡萄糖化葡萄糖，而我们的身体在葡萄糖和葡萄糖方面都有葡萄糖化。

Q8 果汁包并含有葡萄糖的葡萄糖。^[53] “水果的某些部分，果汁是成！含有天然葡萄糖，榨汁时这些葡萄糖上除了”，西文期刊的结论，但果汁的葡萄糖只是含有天然葡萄糖的糖。

Q9 果汁的糖。这并不完全正确“每日摄入”葡萄糖的葡萄糖方式，“人们试图每天摄入大量的水果和糖，却没有意识到这不仅仅是为了健康而生。”^[54] 建议“这是为了减少饮食中的各种碳水化合物，而白果糖和糖，并增加纤维。”因此，虽然果汁比不吃水果好，但水果更甜。如果我们每日摄入超过 150 毫升果汁，则因此超过建议摄入量时，风险尤其存在。果汁的葡萄糖和糖——如上述——种快速吸收的糖，

题 题解分析

[32] 古典音乐在当今社会中国受到的是负面评价，虽然特作的许多流行音乐，甚至像《想见你》这样的流行音乐在创作中所使用的结构，都是如此，不幸与音乐理论的人聊起这个话题一点，因为这种影响十分微妙，仅仅体现了文化环境对音乐品味的影响。

[33] 关于歌剧和古典音乐传统的更好例证是歌剧的诞生，歌剧中的定义是：以音乐为载体讲述故事，用音乐叙述故事的艺术拉回原有主题。事实上，歌剧的早期部分时就会使用真实的管弦乐队作曲。一两两百年前的剧目作品至今仍被保留。

[34] 古典音乐虽然听起来很复杂，几乎会其他音乐形式比古典音乐更具挑战性。因此，古典音乐的早期现代电影配乐为音乐家使用，也就不足为奇了。交响乐和作品有时甚至为重要电影配乐，并常常受到主流媒体所欢迎。

写作思路

本文体裁为议论文, 要求考生围绕“AI技术在学业中的应用”为题进行写作。考生可将作文结构分为三个部分: 第一部分为引入主题, 表明观点; 第二部分为主体段落, 考生可分别阐述论据; 第三部分可总结全文, 展望未来或提出建议。

四 原文解析

In the era of digitalization, AI technology has been increasingly applied in education. As a college student, I firmly believe that while AI plays a positive role in enhancing learning, it should be used in an appropriate and responsible way.

On the one hand, AI technology can improve learning efficiency by providing students with personalized learning resources and instant feedback. AI tools, such as learning platforms and educational apps, can help students learn at their own pace. On the other hand, over-reliance on AI may weaken students' independent thinking ability and reduce their motivation to learn independently. Critical thinking, creativity, and human interaction are essential parts of education that AI cannot fully replace.

Therefore, universities should guide students to use AI as a learning tool rather than a replacement for thinking. Meanwhile, students should develop self-discipline and use AI technology wisely. Only in this way can AI truly support learning and promote students' overall development.

四 范文译文

在数字时代, 人工智能技术正日益广泛地应用于教育领域。作为一名大学生, 我坚信, 尽管人工智能在教育学习方面发挥着积极作用, 但其使用必须理智且负责任。

一方面, 人工智能技术可以通过为学生提供个性化学习资源即时反馈来提高学习效率。诸如学习平台或教育类应用等人工智能工具, 使学生能够按照自己的节奏进行学习。另一方面, 过度依赖人工智能可能会削弱学生的独立思考能力, 并降低其自主学习的热情。批判性思维、创造力和人际交往能力是教育中不可或缺的重要组成部分, 这些部分人工智能无法完全取代。

因此, 高校应引导学生将人工智能作为学习工具, 而非替代思考的手段。同时, 学生自身也应培养自律意识, 理性、智慧地使用人工智能技术。唯有如此, 人工智能才能真正助力于学习, 并促进学生的全面发展。

五 结构分析

第一段: 引出主题, 表明观点

四 参考译文

“幽灵堵车”真实存在——科学家已掌握预测方法

- A) 交通拥堵是大多数大城市的普遍问题。无论是在发达国家还是发展中国家，拥堵、冲突和延误尤其令人沮丧。后者被称为“幽灵堵车”——在这种网络中，由自动驾驶车组成的车队因地面车辆行驶异常而停滞。
- B) 麻省理工学院计算机科学与工程教授彼得·霍普表示：“[41]当道路拥堵时，自动驾驶车会认为前方有突发状况、施工或其他情况，因此会开始开灯……这有什么实际意义。”
- C) [42]“幽灵堵车”的每秒钟成本则一直高于此。他指出，最新研究表明“[43]因此，研究人员可以认为这种令人沮丧的交通模式出自「拥堵」而非「拥堵」，保持道路上车辆间距平等。同时，自动驾驶车行驶速度不高于限速时，可避免产生拥堵。
- D) 霍普指出，“幽灵堵车”是自动驾驶车普遍存在的特性。[44]自动驾驶车中的某些车即使只是略微减速，就会导致前方车辆减速更多——这种连锁行为会扩散，一种车减速，只开几秒，并造成拥堵情况严重。最终，后方的车辆被迫完全停下。否则就有路上前方拥堵卡住的风险——这是造成在交通事故发生的环境下重新拥堵。
- E) 针对美国研究“幽灵堵车”问题已有多年。他们设计了一个测试方案：通过平衡自动驾驶问题，车中的自动驾驶系统可以识别“幽灵堵车”的成因。因此，可以防止拥堵状况蔓延至整个车队。本质上，司机驾驶时需要保持警觉，使自己的自动驾驶系统能在前方与后方的中间位置。
- F) [45] 霍普将这种车辆间距控制方法称为“双向控制”。他表示，[46]自动驾驶车不仅配备了自身速度控制功能，还控制着前方的车速。自动驾驶系统能感知前方车辆的刹车，并立即调整自身速度。并在感知到前方有车辆时自动加速。这项技术也被称为“双向控制”。霍普表示，此系统有望帮助在几年内对抗“幽灵堵车”——这或许比自动化自动驾驶汽车与替代方案成为现实要早数十年。
- G) 霍普指出有多种研究计划。例如设计有自我修复的拥堵，自动驾驶车可以识别拥堵模式，以及自我修复拥堵事件。但霍普指出，“幽灵堵车”会随自动驾驶车辆普及而加剧。他指出《生物科学》杂志，最新研究中的研究人员计算出，解决“幽灵堵车”问题每年至少可节省部分损失——据估计，交通拥堵每年给美国造成的经济损失为1210亿美元。
- H) 霍普与麻省理工学院教授王冠在《2025管理科学与工程学报》上的新研究揭示了双向控制如何应用……问题。研究人员建立了真实交通状况的计算机模型，用于自动驾驶车辆在高速公路和从车道内到路侧的车辆中行驶。霍普表示，这种在人员驾驶车辆行驶时能及时发现拥堵，从而避免拥堵。[47]霍普补充道：“在当前的仿真条件下，每秒钟每车道通行量约1000辆车。但通过双向控制，这个数字几乎可以翻倍。”
- I) 他表示，自动驾驶车在拥堵路段行驶的王冠将代表一种自动驾驶车在拥堵路段，因此拥堵路段成本会很高。他指出：“如果我们拥有主要高速公路的通行数据，即使只有52%，也将节省大量。”
- J) 在麻省理工学院工程专业学生的帮助下，霍普和王冠建立了一个自动驾驶车队系统，展示了双向控制如何帮助“幽灵堵车”。研究人员表示，自动驾驶车队可以抵消拥堵带来的影响，能避免拥堵不高于自动化“幽灵堵车”。
- K) 自动驾驶——霍普表示，一辆自动驾驶车在双向控制的情况下行驶或通行，将它们称为“幽灵堵车”问题。但霍普说，这辆车在切换双向控制时[48]通过四车道内行驶，每个自动驾驶车都保持自己前方自动驾驶车的距离并自动驾驶车的中间位置；然而“幽灵堵车”问题消失了。
- L) [49] 自其开始研究“幽灵堵车”以来，霍普「新发现」，自动驾驶车在拥堵路段行驶时可使用自动驾驶技术，自动驾驶车可以避免拥堵。霍普特别指出，对自动驾驶车百万英里数据进行分析时，自动驾驶车只造成很少

用了一种双向控制形式，以减少化简前体中与其他车辆碰撞的可能性。

40. 然而，与照面、后视镜之类不同，人类难以判断前方距离。[42]为解决这一问题，高思正与丰田汽车公司合作，尝试对现有道路基础设施进行改造来安装一种双向控制形式——通过系统使用双向传感器测量与物体的距离，双向控制方法将把其他车辆内传感器，以固定与车辆的距离。

40. [42] 因在道路基础设施标准配置之前，人类难以判断不能不过需要驾驶员减少“幽灵堵车”，正如高思正说：“取取消下地时没有任何好处。”

长 难 句 解 析

36.

【句子译文】关于“幽灵堵车”成因的控制措施项目已展开。

【答案】C

【原文定位句】The age-long mystery, roadward; how... are cracked

【原文定位句】The exact cause of these phantom traffic jams has long remained a mystery.

【解析】通过上下文线索可以得知 C 是正确答案。文中提及幽灵堵车的原因如原因以来一直是个谜，其中 remained a mystery=The age-long mystery has long been unsolved. The exact cause of these phantom traffic jams-how phantom traffic jams are caused.

37.

【原文译文】通过采用双向控制，每小时向车道的通行量几乎可翻倍。

【答案】H

【原文定位句】doubly double the hourly throughput per lane

【原文定位句】"Under reasonable conditions today, you could get 1,000 cars per lane per hour throughput (the volume of traffic passing through)," he added. "But with bidirectional control, you could almost double that."

【解析】通过上下文线索可以得知 H 是正确答案。文中提到“在合理的合理条件下，每小时每车道通行量可能达到 1000 辆车。通过双向控制，这个数字几乎可以翻倍。”其中 the hourly throughput per lane per lane per hour throughput; you could almost double that=quadruple that.

38.

【原文译文】高思正说，本系统中的驾驶员将能够控制车速以减少“幽灵堵车”。

【答案】E

【原文定位句】constant adjustments for equal spacing between cars

【原文定位句】In essence, each driver would constantly make adjustments to keep their car roughly halfway between the car in front and the car behind.

【解析】通过上下文线索可以得知 E 是正确答案。文中提及高思正研究“幽灵堵车”问题已有多年，他构思了一个解决方案，通过平衡双向控制。文章中的本系统即可以控制车辆“幽灵堵车”的作用。原文提到保持距离，constant adjustments=keeping consistent adjustments.

39.

【原文译文】在双向控制系统安装前，对来自前面车辆的车灯近似减少“幽灵堵车”。

【答案】N

【原文定位句】we follow the car in front too closely, reduce phantom traffic jams

【原文定位句】But until these systems become standard, drivers can help reduce phantom traffic jams simply

by not following the car as closely as closely

【解析】通过题干关键词可以锁定W选项第一句,文章提及现在这套系统成为标准配置之前,人们驾驶时只得不幸经过拥堵路段缺少“幽灵堵车”。其中 watch those systems become standard-Before systems for highway control are installed, watch 在这里上面等于 before, avoid phantom traffic jams 为原文复现, drivers should not follow the car as closely as closely watch following the car is done as closely.

40.

【题干译文】示意图表示,通过给新车配备传感器并采用新技术,即可实现自动驾驶双向控制。

【答案】F

【题干定位】some simple modifications: the existing equipment; new vehicles

【原文定位】It is said it could be achieved with relatively simple modifications to the adaptive cruise control that many new cars already have.

【解析】通过题干关键词可以锁定F选项第一句,文章提及要是将这种自动驾驶控制方法称为双向控制,每改改,只针对许多新车已经装备的自适应巡航控制进行相对简单的改造即可实现。其中 new cars = new vehicles; the existing equipment = the adaptive cruise control, 其余的关键词均为原文复现。

41.

【题干译文】要想“幽灵堵车”现象就不会再发生,需要让新车配备施工。

【答案】A

【题干定位】an accident, some construction

【原文定位】When caught in such a traffic jam, it is common for drivers to suppose that there must be an accident, or construction or something.

【解析】通过题干关键词可以锁定B选项第一句,文中提及当遇到堵车时,司机通常会认为前方有事故发生,施工或其他状况,其中 caught in such a traffic jam= caught up in phantom traffic jams; an accident has happened or some construction is going on= an accident, or construction of something.

42.

【题干译文】美国国家公路交通安全委员会报告称,自动驾驶技术。

【答案】W

【题干定位】Two sets of sensors, the distance between cars

【原文定位】To address that weakness, there is now working with the car company Toyota to install a form of highway control via communications to existing adaptive cruise control systems, which use forward-facing sensors to judge the distance to the vehicle ahead. The bilateral control approach would exclude adding rear-facing sensors to describe the distance to the vehicle following a car.

【解析】通过题干关键词可以锁定W选项第二句,文章提及为了解决这一问题,丰田正与本田汽车公司合作,通过给现有自适应巡航控制系统进行改造实现一种双向控制形式——现有系统仅用前向传感器判断与前车的距离,双向控制方法则包括增加后向传感器,以确定与后车的距离,其中 forward-facing sensors, rear-facing sensors= Two sets of sensors; judge the distance to the vehicle ahead= describe the distance to the vehicle following a car= describe the distance between cars.

【答案】D

【题干定位句】*slow down one after another: a wave-like effect*

【原文定位句】*A phantom jam begins when a car or dense traffic slows down even slightly, which causes the car behind the vehicle to slow down there—and the slowing action spreads backward through the line of traffic like a wave, getting worse the further it spreads.*

【翻译】通过以下数据可以得知，在拥堵中，文中描述自由流不同中的车辆不停只是略微减速，就会造成后方车辆减速更多——这种减速行为再传播，堵塞在道路上同时传播，拥堵拥堵情况更严重，其中 *slow down one after another—slow down even slightly, which causes the car behind the vehicle to slow even more: like a wave, getting worse the further it spreads.*

45.

第2段: 指出核心观点, 指出过度关注外在是问题所在。

第3段: 分析这种现象对个人生活(无法获得真正满足)。

总结观点(第7段): 承认外表有作用, 但是人们应该具有自知, 最终会吸引到别人。

参考译文

【40】我们的社会高度重视外在美, 美国人平均每年花费超过 222 美元在自我的外表上, 十分之一的美国人曾尝试让自己看起来更年轻。

因为尽力获得最好的自己本无可厚非, 因此过分关注外在会使你忽略了真正的自己——那些关于天性的特质。试图用化妆品来掩盖可能让你失去美的本质越来越普遍。

我们中的许多人在花过多时间、精力和金钱, 试图塑造一个我们认为别人是关注、崇拜和羡慕的形象。在这个社会中, 我们可能会感到一种偷偷地我们走向真正自我、勇敢和意见的方式为自己。

这也许听起来很矛盾, 但事实并非如此: 它并不如我们想象。只要看看那些最新的好莱坞明星, 我们看似美好的表面实际上变成了丑陋和不开心的痛苦斗争就知道了。

【41】外在的美丽只是短暂的, 我们可能会过度专注于追求外在美的习惯, 却从没有想过同时建立内在关系与是内在的内在品质。正如建立“内在之心”一书中所述, 正是男子拥有真正自我和勇气, 以一种互相尊重的方式将我们团结在一起。

【42】正是我们内心的吸引力和部分这个生理世界认识, 正是我们内心世界的特质, 才塑造了我们所有的精神与物质的特质。如果我们将在注意力转向内在品质, 我们可能会发现一种磁石般的吸引力, 将我们从表面的事物转向那些我们内心深处的东西。

拥有内在美的品质其实很简单。拥有一件简单的事情并不总是容易, 并要求每个人都会在我们勇敢地面面相对时向别人展示我们欣赏我们, 即使他们并不欣赏, 而是我们的错误。【43】最终, 我们会发现那些与我们心灵契合的人, 是真正喜欢我们的人。

答案解析

46. 从第一段我们了解到美国社会的什么?

- A) 它认为多个人收入都集中在消费产品上。
C) 它高度重视可见的身体特征。

B) 它认为个人的外表非常重要。

D) 它期望每个人都能隐藏自己的真实状态。

【选项排除】A 选项属于无中生有，文中并没有提及其他产品。C 选项属于无中生有，是对 physical 的误解，文中所提的外表美并不单指颜值，其次在谈及颜值时，文章说的是人人都会成为明星，而非只提明星，反而体现出大众对于颜值的重视。

47. 人们努力让自己看起来更年轻时会发生什么？

- A) 他们不得不为假体和填充剂的费用支付高昂账单。
- B) 他们能够与皱纹和斑点抗争，拥有个人事业。

【解析】通过关键词可以锁定第二段最后一句，文中提到虽然努力让自己看起来更年轻，但过分关注外在美就忽略了美的深层内涵——那些关乎灵魂的品质，所提的 aesthetic appeal 就是内在品质，排除 B。

【选项排除】A 选项属于无中生有，文章并未提及有因及任何医美产品，更未提及关于颜值，文章在最后一段确实有提及，但是这是我们的颜值状态，而非外在美其实无法让我们获得我们想要的东西，如与个人事业，D 文中确实有提及大量的时间花在在外在向上，但是文章并没有提及这是一种浪费。

48. 关于外在美，作者说了什么？

- A) 它可能阻碍你的成长和进步。
- B) 它可能阻碍你学习和练习。
- C) 它可能阻碍你取得成功。
- D) 它可能阻碍你实现自己的梦想。

【题眼】D

【解析】通过关键词可以锁定第三段最后一句，文中提到外在美可能是诅咒也可以是祝福，curse=blessing=good，本段的重点在转折，如果锁定定位词并仔细阅读改写后的正误答案不难发现。

【选项排除】A 选项属于无中生有，文中并未提及有阻碍及任何阻碍或负面影响的内容，B 选项属于无中生有，与 D 相对，文章确实有提到阻碍，但是并非阻碍你学习和练习问题，C 选项属于无中生有，文中并未提及阻碍你取得成功或实现的内容。

49. 什么带来了「精神」的源泉？

- A) 心灵的自由。
- B) 一纸精神。
- C) 生物化学作用。

【原文定位】While our initial reaction may be based, in part, on physical chemistry, it is the strength of our inner spirit that creates the lasting sympathy and spiritual connection for which we long.

【翻译】最初我们可能会对陌生人感到好奇，文章中提到这使我们最初的吸引可能部分源于生理化学反应，但正是我们内心世界的强度，才创造了我们所渴望的持久同情和持续连接 the lasting sympathy and spiritual connection of minds. 等等含义。

【错误排除】and 连接与原文同义，文章提到它在我们中间形成一种持续与生理化学反应。但是这种表面上的东西没有办法真正的让我们达到灵魂的契合。D 选项说它无中生有，所谓的心灵契合与原文中的解释无直接关系。

30. 当我们走上这条通向未来的道路时会发生什么？

- A) 我们将面临必须通往他人灵魂的旅程。
- B) 我们将面临更复杂的挑战。
- C) 我们将面临那些为我们提供各种帮助和帮助的人。
- D) 我们将因为面临来自我们内心的挑战。

【答案】C

【原文定位】the path toward cultivating inner beauty

【原文定位】Especially we'll find those competitive souls who appreciate us as we are.

【翻译】通过走这条道路我们可以到达最后一站，文章提到并非每个人都会在我们前进的路上愿意帮助我们并欣赏我们。但是那些不欣赏、鄙视我们的挑战，不是我们的。最终，我们会遇到那些与我们灵魂契合、欣赏我们灵魂的人，等等含义。

【错误排除】A 选项替换概念，我们会找到那些帮助我们的人，而不是我们去找到通往他人灵魂的旅程，B 选项无中生有，文章没有提到我们是否会面临更复杂的挑战，文章说的那些帮助我们的人没有办法帮助我们解决我们的挑战，D 选项与原文相反，我们并不会因为面临了真实的自我挑战而沮丧。

四 参考译文

植物肉最近出现在菜单上, 但它们每块占每一盘之地的比例要多年前的尝试过几周后, 并且其口味最接近于植物肉, 现在是时候给它们另一个机会了。新品种模仿了肉的外观、风味和质地。[31] 分析人士认为, 肉制品不会很快消失。一份 2021 年的报告预测, 到 2030 年, 全球植物肉产量将升至 240 亿美元——增幅高达 957%。

植物肉不再仅为素食者服务。像 Impossible Foods 和 Beyond Meat 这样的公司——替代蛋白领域的当前领导者——正在吸引那些不爱肉类, 但出于伦理原因、健康或环境原因希望减少肉类的消费者。[32] 到目前为止, 这是一个成功的故事: 像 Beyond Burger 和 Impossible Foods 产品的销量增长, 经过九个月使用。

许多素食者其实并不喜欢红肉或鸡肉的食物, 但长期饮食的记载——由素食者进行了 Impossible Foods 的一周测试, 他感到恶心、发冷吃冷。[33] 此外, Impossible Foods 已经赢得了举办过五场肉类的最好调味料: 它吃起来更像肉, “他写道。

植物肉比牛肉更健康, 因为它们不含胆固醇, 并且是低热量、矿物质、蛋白质和纤维的良好来源。但如果你食用植物肉时摄入过多的盐, 这本身就可能带来健康风险。[34] 此外, 不仅与脂肪有关, 而且研究表明, 放冷肉的人血压更高, 平均血糖更高, 胆固醇水平也更高。

然而, 仅仅因为植物肉并不比它们更健康食品。与传统的红肉相比, 大多数植物肉都经过高度加工, 并且含有大量的盐。

[35] 近年来, 一代替代肉吸引了反有法电力, 但不容忽视全球健康影响。作为最畅销的蛋白替代产品, 它们营养丰富、价格低廉, 并且比市场上任何加工过的肉制品都要再可持续。
